#### STATEMENTS BY THE COMMISSION

The Commission regrets the exclusion of missions referred to in Articles 42(1), 43 and 44 TEU from the scope of the Regulation and notes that, as a result, there will be no data protection rules in place for such missions. The Commission notes that a Council decision, based on Article 39 TEU, could only lay down the data protection rules for processing of personal data by Member States when carrying out activities that fall within the scope of the Common Foreign and Security Policy. Such a Council decision could not include rules that apply to activities carried out by EU institutions, bodies, offices and agencies. In order to remedy the legal lacuna, a possible Council decision therefore would need to be accompanied by an additional, complementary instrument, based on Article 16 TFEU.

The Commission notes that paragraph 3 of Article 9 (former Article 70a of the Council's General Approach) does not create a new obligation on Union institutions and bodies as regards the balance to be struck between personal data protection and public access to documents.

#### **STATEMENT BY THE REPUBLIC OF SLOVENIA**

The Republic of Slovenia supports the compromise “Proposal for a Regulation of the European Parliament and of the Council on the protection of individuals with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data, and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC”, since it will update existing data protection rules, and data subjects’ rights and will align the data protection for European Union institutions, bodies, offices and agencies with the European Union data protection reform of 2016

However, the Republic of Slovenia would like to highlight again its opinion that the very concept of introducing derogations to data protection by internal rules runs contrary to the core principles of data protection, in particularly the principles of lawfulness, legal security, proportionality, and democratic legitimacy (transparency).
