## NOTE

---

Subject: MONTHLY SUMMARY OF COUNCIL ACTS - FEBRUARY 2019

---

This document lists the acts<sup>1</sup> adopted by the Council in February 2019.<sup>2 3</sup>

It provides information on the adoption of legislative acts, including:

- the date of adoption,
- the relevant Council session,
- the number of the document adopted,
- the Official Journal reference,
- applicable voting rules, voting results and, where appropriate, explanations of vote and statements published in the minutes of the Council.

---

<sup>1</sup> For easy reference, the "short titles" as mentioned in the Council's agendas are also indicated (see in *italics*).

<sup>2</sup> With the exception of certain acts of limited scope such as procedural decisions, appointments, decisions of bodies set up by international agreements, specific budgetary decisions, etc.

<sup>3</sup> In the case of legislative acts adopted in the ordinary legislative procedure, there may be a difference between the date of the Council's meeting where the legislative act is adopted and the actual date of the act in question, since legislative acts adopted in the ordinary legislative procedure are only considered to have been adopted after signature by both the President of the Council and the President of the European Parliament and the Secretaries-General of the two institutions.

This document also contains information on the adoption of non-legislative acts that the Council has decided to make public.

This document is also available on the Council's website at:

[Monthly summaries of Council acts \(acts\) - Consilium](#)

Documents listed in the summary may be obtained from the public register of Council documents at: [Documents and publications - Consilium](#)

It should be noted that this document is exclusively for information purposes - only Council minutes are authentic. These are available on the Council's website at: [Council Minutes - Consilium](#)

## **STATEMENT BY PORTUGAL**

Portugal has decided to give a positive response to the written procedure concerning the proposal for a Council Decision on the position to be taken on behalf of the European Union in the Joint Council established under the Economic Partnership Agreement between the European Union and its Member States, on the one part, and the SADC EPA States, of the other part as regards the adoption of the Rules of Procedure for the Joint Council (5570/19) considering the need of a timely adoption of the Rules of Procedure, in view of the Joint SADC-EU Council on 19 February. However, Portugal wants to express its concerns on the final content of this decision and restates its understanding that:

- This shall not represent a precedent for other EPA or other agreements;
- All communications regarding EU-SADC EPA shall be sent to Member States preferentially before or at least at the same time as for SADC countries (depending on the nature of the communication), through the General Secretariat of the Council;
- The General Secretariat of the Council will continue to have an organizing role in Joint Council meetings;
- The minutes of the Joint Council shall include all relevant information for Member States.

## **STATEMENT BY THE COMMISSION**

- i) Article 4.1 of the Rules of Procedure for the Joint Council grants a secretarial role to the General Secretariat of the Council. Under this role, the General Secretariat of the Council is to carry out activities that involve the external representation of the Union. Under Article 17 TEU, with the exception of the common foreign and security policy, and other cases provided for in the Treaties, the Commission shall ensure the Union's external representation. The Council, or its General Secretariat has no role to play in the external representation of the Union.
- ii) Moreover, Article 4.2 of the Rules of Procedure for the Joint Council allocates different tasks between the European Commission and the General Secretariat of the Council. As a matter of principle, the allocation of internal tasks between different Union institutions or between a Union institution and a service of another Union institution cannot be made the subject of a legally binding document to be agreed with an international partner.
- iii) For the reasons outlined above, the Commission does not agree with the current formulation of Article 4 as regards the Secretariat of the Joint Council and the Commission reserves itself the right to have recourse to all means available under the Treaty.

## **JOINT STATEMENT BY SWEDEN AND THE NETHERLANDS**

With reference to the:

- European Court of Auditors' annual report on the implementation of the EU budget concerning the financial year 2017;
- discharge to be given to the Commission in respect of the implementation of the EU budget for 2017;
- Council recommendation on the discharge to be given to the Commission in respect of the implementation of the general budget of the European Union for the financial year 2017;

Sweden and the Netherlands:

Appreciate that the overall estimated level of error has improved compared to last year, and that a qualified statement, rather than an adverse one, has been made by the European Court of Auditors regarding the legality and regularity of payments underlying the accounts;

Regret that for the 24th consecutive year, the European Court of Auditors has been unable to grant an unqualified Statement of Assurance on the EU budget as a whole and that the error rate for expenditure remains above the acceptable 2 % threshold;

Regret that, for years, the implementation of the EU budget is not according to standards agreed upon. We cannot applaud marginal improvements in the overall error rate, while a large sum of the EU budget remains prone to high levels of error;

Highlight the difference between the estimated level of error for reimbursement payments (3.7 %) and entitlement expenditures (below 2 %) and stress that the reduction of error rates for reimbursement payments must be a top priority. The large difference in error rates highlights the need to reform the management of the EU budget, including by implementing less complex funding rules and by focusing more on results;

Regard with concern the higher number and impact of errors found in the transactions audited for the 2014-2020 period than for those audited for 2007-2013 and the fact that financial instruments contributed most to the level of error;

Note that audit authorities' work is a critical part of the new assurance and control framework for ensuring the regularity of Cohesion spending. Therefore, we should be cautious in drawing conclusions on a trend as 2017 is a pilot year given the new audit methodologies and relatively low level of accepted expenditure. As the expenditure subject to the Court's audit was less than past years, due to the low level of accepted expenditure in 2017, it is likely to rise in 2018. We therefore, urge the Commission to take further steps in order to achieve a significant reduction of the estimated error rate;

Urge the Commission to continue efforts to increase the focus on results and results-based management. To ensure trust and legitimacy it is essential that the EU-budget efficiently delivers true value to EU-citizens. Ongoing MFF discussions need to consider how the EU-budget can be re-designed to better support overall political priorities, generate results and react to unforeseen challenges;

Strongly urge the Commission and Member States to identify further opportunities to simplify the complex rules and regulatory framework governing EU budget expenditure and delivery systems for shared management in order to improve compliance, as well as focussing on first level controls in order to help get payments right the first time. Simpler, more transparent and more predictable regulation is essential to ensure effective and correct management of EU-funds;

Invite the Commission and Member States to increase efforts to promote transparency and reliability of audits, in view of developments aiming at the application of the principle of cross reliance; and to make Member States' annual control reports publicly available;

Urge the Commission to reduce the financial exposure of the EU budget, both in relation to outstanding commitments and contingent liabilities and calls on the Commission to follow the Court's recommendation to provide an overview of the total value of contingent liabilities, including the closure of financial instruments for the 2007-2013, together with an analysis of their possible impact on the budget and of the way risk-exposure can be mitigated;

Strongly urge the Commission to adhere to the unanimously agreed payment ceilings, in particular by: maintaining fiscal discipline in relation to commitments; effectively de-committing unused appropriations; increasing transparency by providing long-term forecasts, and ensuring a balance between commitments and payments.
