'I/A' ITEM NOTE

From: General Secretariat of the Council
To: Permanent Representatives Committee/Council

No. prev. doc.: 9048/2/19 REV 2

Subject: Draft Council Conclusions on establishing a 'Heads of SPOC'-network
- Adoption

1. The advantages of setting up in each Member State a 'one stop shop'-unit for international police cooperation are set out in the Manual of good practices concerning the International Police Cooperation Units at National Level¹. Acting as Single Point of Contact (SPOC) for international law enforcement cooperation, those units should work closely together to ensure efficient mutual support in cross-border cases.

¹ 7968/08

2. The A.T.H.E.N.A. project² within the information management strategy (IMS) for internal security³ is focused on a training strategy to improve and harmonise competencies of SPOC staff regarding information exchange mechanisms and instruments. Four Heads of SPOC-meetings were held in 2017-2019. These meetings acknowledged the positive experience of the periodical Heads of SIRENE-meetings, which established over the years a solid and efficient network.
3. Participants in the Head of SPOC-meetings recommended therefore that Member States should build upon that experience and establish consequently a network of Heads of SPOC as well. With this in mind, the Italian delegation within DAPIX took the initiative to define ways to strengthen the role and the visibility of the current network. To that end, the delegation invited the working party to discuss draft Council Conclusions on establishing a 'Heads of SPOC-network' for international law enforcement information exchange.
4. At its meeting of 9 September 2019, DAPIX agreed on the text of the draft Council Conclusions as set out in annex.
5. *Coreper is invited to submit the draft Council Conclusions in annex to the Council and to suggest that it adopt these Conclusions as an 'A' item on its agenda.*
