INFORMATION NOTE

From: General Secretariat of the Council
To: Permanent Representatives Committee/Council

Subject: Proposal for a REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL on the Governance of the Energy Union, amending Directive 94/22/EC, Directive 98/70/EC, Directive 2009/31/EC, Regulation (EC) No 663/2009, Regulation (EC) No 715/2009, Directive 2009/73/EC, Council Directive 2009/119/EC, Directive 2010/31/EU, Directive 2012/27/EU, Directive 2013/30/EU and Council Directive (EU) 2015/652 and repealing Regulation (EU) No 525/2013
– Outcome of the European Parliament's proceedings (Strasbourg, 15 to 18 January 2018)

I INTRODUCTION

Rapporteurs, Ms Michèle RIVASI (Greens/EFA, FR) and Mr Claude TURMES (Greens/EFA, LU) presented a report consisting of 285 amendments (amendments 1-285) to the proposal for a Regulation, on behalf of the Committee on Industry, Research and Energy and of the Committee on the Environment, Public Health and Food Safety.

In addition, the political groups tabled the following amendments: EPP, S&D, ALDE and Greens/EFA tabled together four amendments (amendments 291-294) and S&D and Greens/EFA together one amendment (amendment 307). EPP group tabled twelve amendments (amendments 312-323), S&D four amendments (amendments 308-311), ECR five amendments (amendments 286-290), GUE/NGL eleven amendments (amendments 295-305) and ENF one amendment (amendment 306).

II. DEBATE

A joint debate, together with two other reports on clean energy, took place on 15 January 2018¹.

III. VOTE

When it voted on 17 January 2018, the Parliament adopted the following amendments: 1, 3-28, 30-54, 60-64, 67-71, 73-106, 108-114, 116-118, 120-122, 124-174, 176-179, 180 (first, second and fourth parts), 182-238, 240-267, 270-272, 274-285, 287, 291-294, 307, 309-310, corresponding parts of amendment 59, corresponding parts of amendment 107, corresponding parts of amendment 123 and corresponding parts of amendment 175. Amendments 313, 319-320, 322 were withdrawn.

The amendments adopted are set out in the annex.

At the end of the vote, the proposal was referred back to the Committee, pursuant to Rule 59(4)(4) of the European Parliament's Rules of Procedure, thereby not bringing the Parliament's first reading to a close and opening the negotiations with the Council.

¹ See information note 5351/18

Governance of the Energy Union ***I

Amendments adopted by the European Parliament on 17 January 2018 on the proposal for a regulation of the European Parliament and of the Council on the Governance of the Energy Union, amending Directive 94/22/EC, Directive 98/70/EC, Directive 2009/31/EC, Regulation (EC) No 663/2009, Regulation (EC) No 715/2009, Directive 2009/73/EC, Council Directive 2009/119/EC, Directive 2010/31/EU, Directive 2012/27/EU, Directive 2013/30/EU and Council Directive (EU) 2015/652 and repealing Regulation (EU) No 525/2013 (COM(2016)0759 – C8-0497/2016 – 2016/0375(COD))²

(Ordinary legislative procedure: first reading)

Amendment 1

Proposal for a regulation Recital 1

Text proposed by the Commission

(1) This Regulation sets out the necessary legislative foundation for a reliable **and** transparent Governance that ensures the achievement of the objectives and targets of the Energy Union through complementary, coherent and ambitious efforts by the Union and its Member States, while **promoting the Union's Better Regulation principles**.

Amendment

(1) This Regulation sets out the necessary legislative foundation for a reliable, **inclusive, cost-efficient, transparent and predictable** Governance that ensures the achievement of the **2030 and long-term** objectives and targets of the Energy Union **in line with the 2015 Paris Agreement on climate change following the 21st Conference of the Parties to the United Nations Framework Convention on Climate Change (the “Paris Agreement”)**, through complementary, coherent, and ambitious efforts by the Union and its Member States, while **limiting administrative complexity**.

² The matter was referred back for interinstitutional negotiations to the committees responsible, pursuant to Rule 59(4) fourth subparagraph (A8-0402/2017).

Amendment 3

Proposal for a regulation Recital 3

Text proposed by the Commission

(3) The goal of a resilient Energy Union with an ambitious climate policy at its core is to give Union consumers, both households and businesses, secure, sustainable, competitive and affordable energy, which requires a fundamental transformation of Europe's energy system. That objective can only be achieved through coordinated action, combining both legislative and non-legislative acts at Union **and** national level.

Amendment

(3) The goal of a resilient Energy Union with an ambitious climate policy at its core is to give Union consumers, both households and businesses, secure, sustainable, competitive and affordable energy, **and to foster research and innovation by means of attracting investments**, which requires a fundamental transformation of Europe's energy system. That objective can only be achieved through coordinated action, combining both legislative and non-legislative acts at Union, **macro-regional, regional**, national, **and local** level.

Amendment 4

Proposal for a regulation Recital 3 a (new)

Text proposed by the Commission

Amendment

(3a) A fully functional and resilient Energy Union would convert the Union into a leading region for innovation, investments, growth and social and economic development, in turn providing a good example of how pursuing high ambitions in terms of climate change mitigation is intertwined with measures to foster innovation, investments and growth.

Amendment 5

Proposal for a regulation Recital 4

Text proposed by the Commission

(4) The Commission's proposal was developed in parallel to and is adopted together with a series of initiatives in sectorial energy policy, notably with regard to renewable energy, energy efficiency and market design. Those initiatives form a package under the overarching theme of energy efficiency first, the Union's global leadership in renewables, and a fair deal for energy consumers.

Amendment

(4) The Commission's proposal was developed in parallel to and is adopted together with a series of initiatives in sectorial energy policy, notably with regard to renewable energy, energy efficiency ***(including on the energy performance of buildings)*** and market design. Those initiatives form a package under the overarching theme of energy efficiency first, the Union's global leadership in renewables, and a fair deal for energy consumers, ***including by addressing energy poverty and promoting fair competition on the internal market.***

Amendment 6

Proposal for a regulation Recital 5

Text proposed by the Commission

(5) The European Council ***agreed*** on 24 October 2014 ***on the*** 2030 Framework for Energy and Climate for the Union based on four key targets: at least 40% cut in economy wide greenhouse gas ("GHG") emissions, at least 27% improvement in energy efficiency with a view to a level of 30%, at least 27% for the share of renewable energy consumed in the Union, and at least 15% for electricity interconnection. It specified that the target for renewable energy is binding at Union level and that it will be fulfilled through Member States' contributions guided by the need to deliver collectively the Union target.

Amendment

(5) The European Council ***proposed*** on 24 October 2014 ***a*** 2030 Framework for Energy and Climate for the Union based on four key targets: at least 40% cut in economy wide greenhouse gas ("GHG") emissions, at least 27% improvement in energy efficiency with a view to a level of 30%, at least 27% for the share of renewable energy consumed in the Union, and at least 15% for electricity interconnection. It specified that the target for renewable energy is binding at Union level and that it will be fulfilled through Member States' contributions guided by the need to deliver collectively the Union target. ***However, this Regulation reflects***

the targets agreed upon in the sectoral legislation.

Amendment 7

Proposal for a regulation Recital 5 a (new)

Text proposed by the Commission

Amendment

(5a) The European Council agreed on 24 October 2014 that the Commission, supported by the Member States, will take urgent measures in order to ensure the achievement of a minimum target of 10 % of existing electricity interconnections, as a matter of urgency, and no later than 2020, at least for Member States which have not yet attained a minimum level of integration in the internal energy market.

Amendment 8

Proposal for a regulation Recital 6 a (new)

Text proposed by the Commission

Amendment

(6a) The Paris Agreement substantially increased the level of global ambition on climate change mitigation, with signatories to it committing to "holding the increase in the global average temperature to well below 2°C above pre-industrial levels and to pursue efforts to limit the temperature increase to 1,5°C above pre-industrial levels". The Union needs to prepare for much deeper and faster cuts in emissions than previously foreseen. At the same time such reductions are feasible at a lower cost than previously assessed, given the pace of development and deployment of

renewable energy technologies.

Amendment 9

Proposal for a regulation Recital 6 b (new)

Text proposed by the Commission

Amendment

(6b) In line with the aim of the Paris Agreement to achieve a balance between anthropogenic emissions by sources and removals of GHG by sinks in the second half of the 21st century, the Union should aim, on an equitable basis, to reach net-zero emissions domestically by 2050, followed by a period of negative emissions.

Amendment 10

Proposal for a regulation Recital 6 c (new)

Text proposed by the Commission

Amendment

(6c) For the climate system it is the cumulative total anthropogenic emissions over time that are relevant for the total concentration of greenhouse gases in the atmosphere. In order to be consistent with the commitments of Paris Agreement, it is necessary to analyse the global carbon budget which is consistent with pursuing efforts to limit the temperature increase to 1,5°C above pre-industrial levels, and establish a Union fair share of the remaining global carbon budget for the Union. Long-term climate and energy strategies should be consistent with that carbon budget.

Amendment 11

Proposal for a regulation Recital 6 d (new)

Text proposed by the Commission

Amendment

(6d) The Union and the Member States should keep the climate and energy targets under regular review and should revise the targets upwards as necessary, to reflect successive reviews carried out within the UNFCCC process and to reflect the latest scientific evidence on the pace and impacts of climate change.

Amendment 12

Proposal for a regulation Recital 6 e (new)

Text proposed by the Commission

Amendment

(6e) Even though the Union pledged to deliver by far the most ambitious cuts in GHG emissions by 2030, it cannot combat the threat of climate change alone. The Commission and the Member States should use every opportunity to persuade in particular countries profiting from international trade with the Union to assume a proportional share of global responsibility and raise the level of their ambition to the one of the Union.

Amendment 13

Proposal for a regulation Recital 7

Text proposed by the Commission

(7) The European Council also concluded on 24 October 2014¹⁴ that a reliable and transparent governance system, without any unnecessary administrative burden, should be developed to help ensure that the Union meets its energy policy goals, ***with the necessary flexibility for Member States and*** fully respecting ***their*** freedom to determine their energy mix. It emphasized that such governance system should build on existing building blocks, such as national climate programmes, national plans for renewable energy and energy efficiency as well as the need to streamline and bring together separate planning and reporting strands. It also agreed to step up the role and rights of consumers, transparency and predictability for investors, inter alia by systematic monitoring of key indicators for an affordable, safe, competitive, secure and sustainable energy system and to facilitate coordination of national energy policies and foster regional cooperation between Member States.

¹⁴ Conclusions of the European Council 23 - 24 October 2014 (EUCO 169/14).

Amendment

(7) The European Council also concluded on 24 October 2014¹⁴ that a reliable and transparent governance system, without any unnecessary administrative burden ***and with sufficient flexibility for Member States***, should be developed to help ensure that the Union meets its energy policy goals, ***while*** fully respecting ***Member States'*** freedom to determine their energy mix. It emphasized that such governance system should build on existing building blocks, such as national climate programmes, national plans for renewable energy and energy efficiency as well as the need to streamline and bring together separate planning and reporting strands. It also agreed to step up the role and rights of consumers, transparency and predictability for investors, inter alia by systematic monitoring of key indicators for an affordable, safe, competitive, secure and sustainable energy system and to facilitate coordination of national ***climate and*** energy policies and foster regional cooperation between Member States.

¹⁴ Conclusions of the European Council 23 - 24 October 2014 (EUCO 169/14).

Amendment 14

Proposal for a regulation Recital 10

Text proposed by the Commission

(10) The Conclusions of the Council of 26

Amendment

(10) The Conclusions of the Council of 26

November 2015¹⁶ recognised that the Governance of the Energy Union will be an essential tool for the efficient and effective construction of the Energy Union and the achievement of its objectives. They underlined that the governance system should be based on the principles of integration of strategic planning and reporting on the implementation of climate and energy policies and coordination between actors responsible for energy and climate policy, at Union, regional and national level. They also underlined that the Governance should ensure that the agreed energy and climate targets for 2030 are met; and that the Governance would monitor the Union's collective progress towards the achievement of *the policy* objectives across the five dimensions of the Energy Union.

¹⁶ Conclusions of the Council of 26 November 2015 (14632/15).

November 2015¹⁶ recognised that the Governance of the Energy Union will be an essential tool for the efficient and effective construction of the Energy Union and the achievement of its objectives. They underlined that the governance system should be based on the principles of integration of strategic planning and reporting on the implementation of climate and energy policies and coordination between actors responsible for energy and climate policy, at Union, regional and national level. They also underlined that the Governance should ensure that the agreed energy and climate targets for 2030 are met; and that the Governance would monitor *each Member State's and* the Union's collective progress towards the achievement of *targets and* objectives across the five dimensions of the Energy Union.

¹⁶ Conclusions of the Council of 26 November 2015 (14632/15).

Amendment 15

Proposal for a regulation

Recital 12

Text proposed by the Commission

(12) Therefore, the main objective of the Energy Union Governance should be to enable the achievement of the objectives of the Energy Union and in particular the targets of the 2030 Framework for Climate and Energy. This Regulation is therefore linked to sectorial legislation implementing the 2030 targets for energy and climate. While Member States need flexibility to choose policies that are best-matched to their national energy mix and preferences, that flexibility should be compatible with further market integration, increased competition, the attainment of climate and

Amendment

(12) Therefore, the main objective of the Energy Union Governance should be to enable the achievement of the objectives of the Energy Union and in particular the targets of the 2030 Framework for Climate and Energy, *in the field of GHG emissions reduction, renewable energy sources and energy efficiency*. This Regulation is therefore linked to sectorial legislation implementing the 2030 targets for energy and climate. While Member States need flexibility to choose policies that are best-matched to their national energy mix and preferences, that flexibility should be

energy objectives and the gradual shift towards a low-carbon economy.

compatible with further market integration, increased competition, the attainment of climate and energy objectives and the gradual shift towards a *sustainable* low-carbon economy ***based on a highly energy-efficient, renewables-based energy system. A mandatory template for the long-term climate and energy strategies should be introduced to ensure their quality and comparability.***

Amendment 16

Proposal for a regulation Recital 13

Text proposed by the Commission

(13) The transition to a low-carbon economy requires changes in investment behaviour and incentives across the entire policy spectrum. Achieving greenhouse gas emission reductions requires a boost to efficiency and innovation in the European economy and in particular should also lead to improvements of air quality.

Amendment

(13) The ***socially acceptable*** transition to a ***sustainable***, low-carbon economy requires ***substantial*** changes in investment behaviour, ***particularly regarding public and private investment***, and incentives across the entire policy spectrum ***as well as regional market reform***. Achieving greenhouse gas emission reductions requires a boost to efficiency and innovation in the European economy and in particular should also ***create sustainable jobs and*** lead to improvements of air quality.

Amendment 17

Proposal for a regulation Recital 13 a (new)

Text proposed by the Commission

Amendment

(13a) The Union and the Member States should undertake concrete actions by which to ban energy subsidies, at least for fossil fuels, in order to comply with the

Amendment 18

Proposal for a regulation Recital 14

Text proposed by the Commission

(14) As greenhouse gases and air pollutants largely derive from common sources, policy designed to reduce GHGs can have co-benefits for air quality that could offset *some or all of* the near-term costs of GHG mitigation. As data reported under Directive 2001/81/EC of the European Parliament and the Council¹⁸ represent an important input for the compilation of the GHG inventory and the national plans, the importance of compilation and reporting of consistent data between Directive 2001/81/EC and the GHG inventory should be recognised.

¹⁸ Directive 2001/81/EC of the European Parliament and the Council on National Emission Ceilings for certain pollutants (OJ L 309, 27.11.2001, p. 22).

Amendment

(14) As greenhouse gases and air pollutants largely derive from common sources, policy designed to reduce GHGs can have co-benefits for *public health and* air quality, *in particular in urban areas*, that could offset the near-term costs of GHG mitigation. As data reported under Directive 2001/81/EC of the European Parliament and the Council¹⁸ represent an important input for the compilation of the GHG inventory and the national plans, the importance of compilation and reporting of consistent data between Directive 2001/81/EC and the GHG inventory should be recognised.

¹⁸ Directive 2001/81/EC of the European Parliament and the Council on National Emission Ceilings for certain pollutants (OJ L 309, 27.11.2001, p. 22).

Amendment 19

Proposal for a regulation Recital 16

Text proposed by the Commission

(16) In line with the Commission's strong commitment to Better Regulation, the Energy Union Governance should result in a significant reduction of administrative

Amendment

(16) In line with the Commission's strong commitment to Better Regulation *and consistent with a policy for research, innovation and investments*, the Energy

burden for the Member States, the Commission and other Union Institutions and it should help to ensure coherence and adequacy of policies and measures at Union **and** national level with regard to the transformation of the energy system towards a low-carbon economy.

Union Governance should result in a significant reduction of administrative **complexity** for the Member States **and relevant stakeholders**, the Commission and other Union Institutions and it should help to ensure coherence and adequacy of policies and measures at Union, **macro-regional, regional**, national, **and local** level with regard to the transformation of the energy system towards a **sustainable** low-carbon economy

Amendment 20

Proposal for a regulation Recital 17

Text proposed by the Commission

(17) The achievement of the Energy Union objectives should be ensured through a combination of Union initiatives and coherent national policies set out in integrated national energy and climate plans. Sectorial Union legislation in the energy and climate fields sets out planning requirements, which have been useful tools to drive change at the national level. Their introduction at different moments in time has led to overlaps and insufficient consideration of synergies and interactions between policy areas. Current separate planning, reporting and monitoring in the climate and energy fields should **therefore as far as possible** be streamlined and integrated.

Amendment

(17) The achievement of the Energy Union **targets and** objectives should be ensured through a combination of Union initiatives and coherent national policies set out in integrated national energy and climate plans. Sectorial Union legislation in the energy and climate fields sets out planning requirements, which have been useful tools to drive change at the national level. Their introduction at different moments in time has led to overlaps and insufficient consideration of synergies and interactions between policy areas, **to the detriment of cost-efficiency**. Current separate planning, reporting and monitoring in the climate and energy fields should, **where relevant**, be streamlined and integrated.

Amendment 21

Proposal for a regulation Recital 17 a (new)

Text proposed by the Commission

Amendment

(17a) An assessment of the interactions between existing and planned policies and measures to achieve decarbonisation is necessary and Member States should produce a quantitative or qualitative evaluation.

Amendment 22

Proposal for a regulation Recital 17 b (new)

Text proposed by the Commission

Amendment

(17b) Member States should ensure policy coherence between their national energy and climate plans and their long-term low emission strategies with the UN 2030 Agenda for Sustainable Development.

Amendment 23

Proposal for a regulation Recital 18

Text proposed by the Commission

Amendment

(18) The integrated national energy and climate plans should cover ten-year periods and provide an overview of the current energy system and policy situation. They should set out national objectives for each of the five key dimensions of the Energy Union and corresponding policies and measures to meet those objectives and have an analytical basis. The national plans covering the first period from 2021 to 2030

(18) The integrated national energy and climate plans should cover ten-year periods and provide an overview of the current energy system and policy situation. They should set out national ***targets or*** objectives for each of the five key dimensions of the Energy Union and corresponding policies and measures to meet those objectives and have an analytical basis. The national plans

should pay particular attention to the 2030 targets for greenhouse gas emission reductions, renewable energy, energy efficiency and electricity interconnection. Member States should aim to ensure that the national plans are consistent with and contribute to achieving the Sustainable Development Goals.

covering the first period from 2021 to 2030 should pay particular attention to the 2030 targets for greenhouse gas emission reductions, renewable energy, energy efficiency and electricity interconnection. Member States should aim to ensure that the national plans are consistent with and contribute to achieving the Sustainable Development Goals.

Amendment 24

Proposal for a regulation

Recital 18 a (new)

Text proposed by the Commission

Amendment

(18a) When preparing their integrated national energy and climate plan, Member States should assess the number of households in energy poverty, taking into account the necessary domestic energy services needed to guarantee basic standards of living in the relevant national context, which they may not be able to afford due to a combination of low income, high energy expenditure and poor energy efficiency of their households. Member States should outline existing and planned policies and measures addressing energy poverty ***and, where necessary, include a national objective to reduce the number of households in energy poverty. The Commission should adopt a common methodology for Member States to define energy poverty and each Member State should define households in energy poverty in accordance with their specific national circumstances.***

Amendment 25

Proposal for a regulation Recital 18 b (new)

Text proposed by the Commission

Amendment

(18b) Member States should ensure that Union funding from the 2014 to 2020 multiannual financial framework is included in their integrated national energy and climate plans. National allocations from the post-2020 multiannual financial framework should actively contribute to the achievement of Energy Union targets and objectives, in particular in the sectors of greenhouse gas emission reductions including removals by sinks, renewable energy and energy efficiency. To that end, the programming process at national and local level for the post-2020 multiannual financial framework should take place in combination with a Commission assessment of integrated national energy and climate plans to reflect a high ambition, in particular in the light of the long-term objectives of the Paris Agreement and the Sustainable Development Goals.

Amendment 26

Proposal for a regulation Recital 19 a (new)

Text proposed by the Commission

Amendment

(19a) Member States should establish a permanent multi-level energy dialogue platform gathering local authorities, civil society organisations, business community, investors and other relevant stakeholders to discuss the different options envisaged for energy and climate

policies. Integrated national energy and climate plans as well as long-term climate and energy strategies should be discussed within the framework of that platform.

Amendment 27

Proposal for a regulation

Recital 20

Text proposed by the Commission

(20) The implementation of policies and measures in the areas of the energy and climate has an impact on the environment. Member States should therefore ensure that the public is given early and effective opportunities to participate in and to be consulted on the preparation of the integrated national energy and climate plans in accordance, where applicable, with the provisions of Directive 2001/42/EC of the European Parliament and of the Council²⁴ and the United Nations Economic Commission for Europe ("UNECE") Convention on Access to Information, Public Participation in Decision-making and Access to Justice in Environmental Matters of 25 June 1998 (the "Aarhus convention"). Member States should also ensure involvement of social partners in the preparation of the integrated national energy and climate plans.

²⁴ Directive 2001/42/EC of the European Parliament and of the Council of 27 June 2001 on the assessment of the effects of certain plans and programmes on the environment (OJ L 197, 21.7.2001, p.30).

Amendment

(20) The implementation of policies and measures in the areas of the energy and climate has an impact on the environment. Member States should therefore ensure that the public is given early and effective opportunities to participate **actively** in and to be consulted on the preparation of the integrated national energy and climate plans **and long-term climate and energy strategies** in accordance, where applicable, with the provisions of Directive 2001/42/EC of the European Parliament and of the Council²⁴ and the United Nations Economic Commission for Europe ("UNECE") Convention on Access to Information, Public Participation in Decision-making and Access to Justice in Environmental Matters of 25 June 1998 (the "Aarhus convention"). Member States should also ensure involvement of **the social partners, local authorities and all relevant stakeholders from early stages of the planning and reporting processes and** in the preparation of the integrated national energy and climate plans **and long-term strategies**.

²⁴ Directive 2001/42/EC of the European Parliament and of the Council of 27 June 2001 on the assessment of the effects of certain plans and programmes on the environment (OJ L 197, 21.7.2001, p.30).

Amendment 28

Proposal for a regulation Recital 21

Text proposed by the Commission

(21) Regional cooperation **is key to ensure an effective achievement of the objectives of the Energy Union.** Member States should get the opportunity to comment on other Member States' plans before they are finalised to avoid inconsistencies and potential negative impacts on other Member States and ensure that common objectives are met collectively. Regional cooperation in elaborating and finalising national plans as well as in the subsequent implementation of national plans should be essential to improve effectiveness and efficiency of measures and foster market integration and energy security.

Amendment

(21) **Macro-regional and** regional cooperation **are necessary for Member States to implement, jointly, certain policies and measures contributing to the achievement of common targets and objectives in a cost-optimal manner. The Commission should facilitate such cooperation between the Member States.** Member States should **also** get the opportunity to comment on other Member States' plans before they are finalised to avoid inconsistencies and potential negative impacts on other Member States and ensure that common objectives are met collectively. **Macro-regional and** regional cooperation in elaborating and finalising national plans as well as in the subsequent implementation of national plans should be essential to improve effectiveness and efficiency of measures and foster market integration and energy security.

Amendment 30

Proposal for a regulation Recital 22

Text proposed by the Commission

(22) National plans should be stable to ensure transparency and predictability of national policies and measures in order to ensure **investor** certainty. **Updates** of national plans **should however be foreseen once during the ten-year period covered** to give Member States the opportunity to adapt to significant changing circumstances. **For the plans covering the**

Amendment

(22) National plans should be stable to ensure transparency and predictability of national policies and measures in order to ensure **investment** certainty. **The regular submission** of national plans **over ten-year rolling periods** give Member States the opportunity to adapt to significant changing circumstances. Targets **and** objectives should only be modified to

period from 2021 to 2030, Member States should be able to update their plans by 1 January 2024. Targets, objectives and *contributions* should only be modified to reflect an increased overall ambition in particular as regards the **2030** targets for energy and climate. As part of *the updates*, Member States should make efforts to mitigate any adverse environmental impacts that become apparent as part of the integrated reporting.

reflect an increased overall ambition in particular as regards the targets for energy and climate. As part of *those plans*, Member States should make efforts to mitigate any adverse environmental impacts that become apparent as part of the integrated reporting.

Amendment 31

Proposal for a regulation Recital 23

Text proposed by the Commission

(23) Stable long-term *low emission* strategies are crucial to contribute towards economic transformation, jobs, growth and the achievement of broader sustainable development goals, as well as to move in a fair and cost-effective manner towards the long-term goal set by the Paris Agreement. Furthermore, Parties to the Paris Agreement are invited to communicate, by 2020, their mid-century, long-term low greenhouse gas emission development strategies.

Amendment

(23) Stable long-term *climate and energy* strategies are crucial to contribute towards economic transformation, jobs, growth and the achievement of broader sustainable development goals, as well as to move in a fair and cost-effective manner towards the long-term goal set by the Paris Agreement. Furthermore, Parties to the Paris Agreement are invited to communicate, by 2020, their mid-century, long-term low greenhouse gas emission development strategies.

Amendment 32

Proposal for a regulation Recital 23 a (new)

Text proposed by the Commission

Amendment

(23a) Member States should develop long-term climate and energy strategies for 2050 and beyond identifying the necessary transformations in different sectors that are necessary to shift to a renewable energy system and achieve the goals of the

Paris Agreement. The strategies should be consistent with the Union's fair share of remaining global carbon budget and should be developed in an open and transparent manner and with the full involvement of relevant stakeholders. The integrated national energy and climate plans should be based on the long-term climate and energy strategies and consistent with them.

Amendment 33

Proposal for a regulation Recital 23 b (new)

Text proposed by the Commission

Amendment

(23b) The land use, land use change and forestry (LULUCF) sector is highly exposed and very vulnerable to climate change. At the same time, the sector has huge potential to provide for long-term climate benefits and to contribute significantly to the achievement of Union and international long-term climate goals. It can contribute to climate change mitigation in several ways, in particular by reducing emissions, maintaining and enhancing sinks and carbon stocks, and providing bio-materials that can substitute fossil or carbon-intensive materials. In order for measures aiming in particular at increasing carbon sequestration to be effective, the sustainable resource management and long-term stability and adaptability of carbon pools is essential. Long-term strategies are essential to allow for sustainable investments in the long run.

Amendment 34

Proposal for a regulation Recital 23 c (new)

Text proposed by the Commission

Amendment

(23c) When developing further interconnections, it is important to make a complete assessment of the costs and benefits, including the full technical, socio-economic and environmental impacts, thereof as required by the TEN-E Regulation and take into account the positive externalities of interconnections, such as the integration of renewables, the security of supply and the increased competition in the internal market.

Amendment 35

Proposal for a regulation Recital 24

Text proposed by the Commission

Amendment

(24) As is the case for planning, sectorial Union legislation in the energy and climate fields sets out reporting requirements, many of which have been useful tools to drive change at the national level, but those requirements have been introduced at different moments in time which has led to overlaps and insufficient consideration of synergies and interactions between policy areas such as GHG mitigation, renewable energy, energy efficiency and market integration. To strike the right balance between the need to ensure a proper follow-up of the implementation of national plans and the need to reduce administrative **burden**, Member States should establish biennial progress reports on the implementation of the plans and other developments in the energy system. Some reporting however, particularly with regard to reporting requirements in the climate field stemming from the United

(24) As is the case for planning, sectorial Union legislation in the energy and climate fields sets out reporting requirements, many of which have been useful tools to drive change at the national level, **complementary to market reforms**, but those requirements have been introduced at different moments in time which has led to overlaps and **cost-inefficiency, as well as** insufficient consideration of synergies and interactions between policy areas such as GHG mitigation, renewable energy, energy efficiency and market integration. To strike the right balance between the need to ensure a proper follow-up of the implementation of national plans and the need to reduce administrative **complexity**, Member States should establish biennial progress reports on the implementation of the plans and other developments in the energy system. Some reporting however, particularly with regard to reporting

Nations Framework Convention on Climate Change ("UNFCCC") and Union Regulations, would still be necessary on a yearly basis.

requirements in the climate field stemming from the United Nations Framework Convention on Climate Change ("UNFCCC") and Union Regulations, would still be necessary on a yearly basis.

Amendment 36

Proposal for a regulation Recital 25

Text proposed by the Commission

(25) Member States' integrated progress reports should mirror the elements set out in the template for the national plans. A template for the integrated progress reports should be detailed in subsequent implementing act(s) given their technical nature and the fact that the first progress reports are due in 2021. The progress reports should be carried out in order to ensure transparency towards the Union, other Member States **and** market actors including consumers. They should be comprehensive across the five dimensions of the Energy Union and, for the first period, at the same time put emphasis on areas covered by the targets of the 2030 Climate and Energy Framework.

Amendment

(25) Member States' integrated progress reports should mirror the elements set out in the template for the national plans. A template for the integrated progress reports should be detailed in subsequent implementing act(s) given their technical nature and the fact that the first progress reports are due in 2021. The progress reports should be carried out in order to ensure transparency towards the Union, other Member States, **regional and local authorities**, market actors including consumers, **any other relevant stakeholders and the general public**. They should be comprehensive across the five dimensions of the Energy Union and, for the first period, at the same time put emphasis on areas covered by the targets of the 2030 Climate and Energy Framework.

(33) Aviation has impacts on the global climate as a result of the release of CO₂ as well as of other emissions, including nitrogen oxides emissions, and mechanisms, such as cirrus cloud enhancement. In the light of the rapidly

Amendment

(33) Aviation has impacts on the global climate as a result of the release of CO₂ as well as of other emissions, including nitrogen oxides emissions, and mechanisms, such as cirrus cloud enhancement. In the light of the rapidly

developing scientific understanding of those impacts, an updated assessment of the non-CO2 impacts of aviation on the global climate is already foreseen in Regulation (EU) No 525/2013. The modelling used in this respect should be adapted to scientific progress. Based on its assessments of such impacts, the Commission *could* consider relevant policy options for addressing them.

developing scientific understanding of those impacts, an updated assessment of the non-CO2 impacts of aviation on the global climate is already foreseen in Regulation (EU) No 525/2013. The modelling used in this respect should be adapted to scientific progress. Based on its assessments of such impacts, the Commission *should, by 1 March 2020, consider relevant policy options for addressing them and present a legislative proposal, if appropriate.*

Amendment 42

Proposal for a regulation Recital 33 a (new)

Text proposed by the Commission

Amendment

(33a) In accordance with the current UNFCCC greenhouse gas reporting guidelines, the calculation and reporting of methane emissions is based on global warming potentials (GWP) relating to a 100-year time horizon. Given the high GWP and relatively short atmospheric lifetime of methane, leading to a significant impact on the climate in the short and middle term, the Commission should analyse the implications for policies and measures of adopting a 20-year time horizon for methane. Based on its analysis, the Commission should consider relevant policy options for rapidly addressing methane emissions through a Union Methane Strategy, prioritising energy and waste-related methane emissions.

Amendment 43

Proposal for a regulation Recital 34

Text proposed by the Commission

(34) To help ensure coherence between national and Union policies and objectives of the Energy Union, there should be an on-going dialogue between the Commission and the Member States. **As *appropriate***, the Commission should issue recommendations to Member States including on the level of ambition of the draft national plans, on the subsequent implementation of policies and measures of the notified national plans, and on other national policies and measures of relevance for the implementation of the Energy Union. Member States should take ***utmost account of*** such recommendations and explain in subsequent progress reports how they have been implemented.

Amendment

(34) To help ensure coherence between national and Union policies and objectives of the Energy Union, there should be an on-going dialogue between the Commission and the Member States ***and, where appropriate, between the Member States***. The Commission should issue recommendations to Member States including on the level of ambition of the draft national plans, on the subsequent implementation of policies and measures of the notified national plans, and on other national policies and measures of relevance for the implementation of the Energy Union. Member States should take such recommendations ***into account*** and explain in subsequent progress reports how they have been implemented.

Amendment 44

Proposal for a regulation Recital 35

Text proposed by the Commission

(35) Should the ambition ***of*** integrated national energy and climate plans ***or their updates*** be insufficient for the collective achievement of the Energy Union objectives and, for the first period, in particular the 2030 targets for renewable energy and energy efficiency, the Commission should take measures at Union level in order to ensure the collective achievement of these objectives and targets (thereby closing any 'ambition gap'). Should progress made by the Union

Amendment

(35) Should the ambition ***and the targets, policies and measures described in the*** integrated national energy and climate plans be insufficient for the collective achievement of the Energy Union objectives and, for the first period, in particular the 2030 targets for renewable energy and energy efficiency, the Commission should take measures at Union level in order to ensure the collective achievement of these objectives and targets ***and Member States should***

towards these objectives and targets be insufficient for their delivery, the Commission should, in addition to issuing recommendations, take measures at Union level or Member States should take additional measures in order to ensure achievement of these objectives and targets (thereby closing any 'delivery gap'). Such measures should take into account early ambitious **contributions** made by Member States to the 2030 targets for renewable energy and energy efficiency when sharing the effort for collective target achievement. In the area of renewable energy, such measures can also include financial contributions by Member States to a financing platform managed by the Commission, which would be used to contribute to renewable energy projects across the Union. Member States' national renewable energy targets for 2020 should serve as baseline shares of renewable energy from 2021 onwards. In the area of energy efficiency, additional measures can in particular aim at improving the energy efficiency of products, buildings and transport.

review upwards their national targets in the field of renewable energy sources by 31 December 2020 (thereby closing any 'ambition gap'). Should progress made by the Union towards these objectives and targets be insufficient for their delivery, the Commission may, in addition to issuing recommendations, take measures at Union level or request additional measures from Member States in order to ensure their achievement (thereby closing any 'delivery gap'). Such measures should take into account early ambitious **efforts** made by Member States to the 2030 targets for renewable energy and energy efficiency when sharing the effort for collective target achievement. In the area of renewable energy, such measures can also include **voluntary** financial contributions by Member States to a financing platform managed by the Commission, which would be used to contribute to renewable energy projects across the Union, **including those of Energy Union interest**. Member States' national renewable energy targets for 2020 should serve as baseline shares of renewable energy from 2021 onwards **and should be maintained throughout the period**. In the area of energy efficiency, additional measures can in particular aim at improving the energy efficiency of products, buildings and transport.

(43) The Commission should be assisted

(43) The Commission should be assisted

in its tasks under this Regulation by an Energy **Union** Committee to prepare implementing acts. It should replace and take **on** the assignments of the Climate Change Committee and other committees as appropriate.

in its tasks under this Regulation by an Energy **and Climate** Committee to prepare implementing acts. **As regards matters related to the implementation of climate specific provisions, the Commission should be assisted by the Climate Change Committee established under Regulation (EU) No 525/2013.**

Amendment 48

Proposal for a regulation Recital 44 a (new)

Text proposed by the Commission

Amendment

(44a) In preparation for a future review of this Regulation and in the context of the Union cyber security strategy, the Commission should, in close cooperation with the Member States, assess whether it might be necessary to add additional uniform planning and reporting requirements on the Member States' efforts to improve the protection of critical infrastructure of the Union's energy system against any form of cyber threats, in particular in the view of the increasing number of potentially critical cyber attacks during the last decade, in order to guarantee energy security in any circumstances. However, such an improved coordination within the Union should not affect Member States' national security interest by revealing sensitive information.

Amendment 49

Proposal for a regulation Article 1

Text proposed by the Commission

Amendment

Article 1

Article 1

Subject matter and scope

1. This Regulation establishes a Governance mechanism to:

(a) implement strategies and measures designed to meet the objectives and targets of the Energy Union, and for the first ten-year period from 2021 to 2030 in particular the *EU's* 2030 targets for energy and climate;

(b) ensure the timeliness, transparency, accuracy, consistency, comparability and completeness of reporting by the Union and its Member States to the UNFCCC and Paris Agreement secretariat.

The governance mechanism shall be based on integrated national energy and climate plans covering ten-year periods starting from 2021 to 2030, corresponding integrated national energy and climate progress reports by the Member States and integrated monitoring arrangements by the European Commission. It shall define a structured, iterative process between the Commission and Member States in view of the finalisation of the national plans and their subsequent implementation, including with regard to regional cooperation, and

Subject matter and scope

1. This Regulation establishes a Governance mechanism to:

(-a) implement long-term climate and energy strategies and measures designed to fulfil Union greenhouse gas emissions commitments consistent with the Paris Agreement;

(a) implement strategies and measures designed to meet the objectives and targets of the Energy Union, and for the first ten-year period from 2021 to 2030 in particular the *Union's* 2030 targets for energy and climate;

(aa) structure partnerships and cooperation between Member States at macro-regional and regional level, designed to achieve the targets, objectives and commitments of the Energy Union;

(b) ensure the timeliness, transparency, accuracy, consistency, comparability and completeness of reporting by the Union and its Member States to the UNFCCC and Paris Agreement secretariat;

(ba) contribute to greater regulatory certainty as well as contribute to greater investor certainty and help take full advantage of opportunities for economic development, investment stimulation, job creation and social cohesion;

(bc) support a just transition for citizens and regions which could be negatively impacted by the transition to a low-carbon economy.

The governance mechanism shall be based on integrated national energy and climate plans covering ten-year periods starting from 2021 to 2030, corresponding integrated national energy and climate progress reports by the Member States and integrated monitoring arrangements by the European Commission. It shall define a structured, *transparent*, iterative process between the Commission and Member States *ensuring full participation of the general public and local authorities* in view of the finalisation of the national

corresponding Commission action.

2. This Regulation shall apply to the following five dimensions of the Energy Union:

- (a) energy security,
- (b) energy market,
- (c) energy efficiency,
- (d) decarbonisation and
- (e) research, innovation and competitiveness.

plans and their subsequent implementation, including with regard to **macro-regional and** regional cooperation, and corresponding Commission action.

2. This Regulation shall apply to the following five dimensions of the Energy Union:

- (a) energy security,
- (b) **internal** energy market,
- (c) energy efficiency,
- (d) decarbonisation and
- (e) research, innovation and competitiveness.

Article 3

Integrated national energy and climate plans

Integrated national energy and climate plans

1. By 1 January 2019 and every ten years thereafter, each Member State shall notify to the Commission an integrated national energy and climate plan. The plans shall contain the elements set out in paragraph 2 and Annex I. The first plan shall cover the period from 2021 to 2030. The following plans shall cover the ten-year period immediately following the end of the period covered by the previous plan.
2. The integrated national energy and climate plans shall consist of the following

1. By 1 January 2019 and every ten years thereafter, each Member State shall notify to the Commission an integrated national energy and climate plan. The plans shall contain the elements set out in paragraph 2 and Annex I. The first plan shall cover the period from 2021 to 2030. The following plans shall cover the ten-year period immediately following the end of the period covered by the previous plan..
2. The integrated national energy and climate plans shall consist of the following

main sections:

(a) an overview of the process followed for establishing the integrated national energy and climate plan consisting of an executive summary, a description of the consultation and involvement of **stakeholders** and their results, **and of regional** cooperation with other Member States in preparing the plan;

(b) a description of the national objectives, targets **and contributions** for each of the five dimensions of the Energy Union;

(c) a description of the policies and measures foreseen to meet the corresponding objectives, targets **and contributions** set out under point (b);

(d) a description of the current situation of the five dimensions of the Energy Union including with regard to the energy system and greenhouse gas emissions and removals as well as projections with regard to the objectives referred to in point (b) with already existing (implemented and adopted) policies and measures;

(e) an assessment of the impacts of the planned policies and measures to meet the objectives referred to in **point (b)**;

main sections:

(a) an overview of the process followed for establishing the integrated national energy and climate plan consisting of:

(1) an executive summary,

(2) a description of the consultation and involvement of **local authorities, civil society, business, the social partners and citizens** and their results,

(3) **a description of macro-regional and regional** cooperation with other Member States in preparing the plan;

(b) a description of the national objectives **and** targets for each of the five dimensions of the Energy Union;

(c) a description of the **planned** policies, measures **and investment strategies** foreseen to meet the corresponding objectives **and** targets set out under point (b);

(d) a description of the current situation of the five dimensions of the Energy Union including with regard to the energy system and greenhouse gas emissions and removals as well as projections with regard to the objectives **and targets** referred to in point (b) with already existing (implemented and adopted) policies and measures **and a description of the regulatory and non-regulatory barriers and hurdles to delivering the targets and objectives**;

(e) an assessment of the impacts of **individual and aggregated** planned policies and measures to meet the **targets and** objectives referred to in **Articles 1, 4, 13a and 14 and on environmental, including air quality and nature protection, health, macro-economic, and social impacts**;

(ea) an assessment of the impacts of the planned policies and measures on competitiveness linked to the five dimensions of the Energy Union;

(eb) an assessment of the potential impacts of climate in the Member State, including direct and indirect impacts, and resilience strategies to manage the climate impacts, such as national adaptation plans;

(ec) following the development of an investment strategy, an estimation of the public and private investment necessary to implement the planned policies and measures;

(f) an annex, drawn up in accordance with the requirements and structure laid down in Annex II to this Regulation, setting out the Member State's methodologies and policy measures for achieving the energy savings requirement in accordance with Article 7 to Directive 2012/27/EU [version as amended in accordance with proposal COM(2016)761] and Annex V thereto.

3. When preparing the national plans referred to in paragraph 1, Member States shall take into account the interlinkages between the five dimensions of the Energy Union **and they shall** use consistent data and assumptions across the five dimensions where relevant.

(f) an annex, drawn up in accordance with the requirements and structure laid down in Annex II to this Regulation, setting out the Member State's methodologies and policy measures for achieving the energy savings requirement in accordance with Article 7 to Directive 2012/27/EU [version as amended in accordance with proposal COM(2016)761] and Annex V thereto.

3. When preparing the national plans referred in paragraph 1, Member States shall:

(a) limit administrative complexity and costs for all relevant stakeholders;

(b) take into account the interlinkages between the five dimensions of the Energy Union, in particular the energy efficiency first principle;

(c) use credible and consistent data and assumptions across the five dimensions where relevant and make the data used for modelling exercises publicly available;

(d) ensure consistency with the objectives set out in Article 1 and with the national long-term climate and energy strategies as provided in Article 14;

(e) assess the number of households in energy poverty, taking into account the necessary domestic energy services needed to guarantee basic standards of living in the relevant national context, and outline existing and planned policies and measures addressing energy poverty, including social policy measures and other relevant national programmes;

In the event that a Member State has a significant number of households in energy poverty, as supported by the assessment based on verifiable data, using geographical dispersion indicators, it should include in its plan a national indicative objective to reduce energy poverty;

(f) include provisions to avoid, mitigate or, if the project is of public interest and no alternatives are available, compensate any adverse environmental impacts that become apparent as part of the integrated reporting pursuant to Articles 15 to 22;

(g) take into consideration the latest country-specific recommendations issued in the context of the European Semester.

3a. Member State shall ensure that, following their first integrated national energy and climate plans each of their subsequent plans, notified to the Commission in accordance with paragraph 1,, modify their national targets and objectives, as referred to in Article 4, to reflect an increase in ambition as compared to that set out in its previous integrated national energy and climate plan.

3b. Member States shall make available to the public the plans submitted to the Commission pursuant to this Article.

4. The Commission is empowered to adopt delegated acts in accordance with Article 36 to amend Annex I in order to adapt it to amendments to the Union Energy and Climate policy framework, energy market developments and new UNFCCC and Paris Agreement

4. The Commission is empowered to adopt delegated acts in accordance with Article 36 to amend Annex I in order to adapt it to amendments to the Union Energy and Climate policy framework, energy market developments and new UNFCCC and Paris Agreement

Text proposed by the Commission

Amendment

ia. the Member State's national target of energy from renewable sources in gross final consumption of energy in 2030

established pursuant to Article 3 and Annex Ia to Directive (EU).../... [recast of Directive 2009/28/EC as proposed by COM(2016) 767], with a progressive trajectory ensuring a regular deployment of renewable energy from 2021 onwards as set out in Annex Ia to this Regulation;

Amendment 292

Proposal for a regulation

Article 4 – paragraph 1 – point a – point 2 – point i b (new)

Text proposed by the Commission

Amendment

ib. The trajectory referred to in paragraph ia shall:

(i) start from the share of energy from renewable sources in 2020 as set out in the third column of the table in part A of Annex I to Directive (EU) .../... [recast of Directive 2009/28/EC as proposed by COM(2016) 767]. If a Member State surpasses its binding 2020 national target, its trajectory may start at the level achieved in 2020;

(ii) consist of a minimum of three reference points calculated as an average of the two or three preceding years as set out in Annex Ia;

(iii) reach at least its 2030 national target;

Amendment 67

Proposal for a regulation

Article 4 – paragraph 1 – point a – point 2 – point i c (new)

Text proposed by the Commission

Amendment

ic. The Member State's trajectory referred to in points ia and ib, taken together, shall add up to the Union's binding linear trajectory and shall reach the Union's binding target of at least 35 % energy from renewable sources in

gross final consumption of energy in 2030;

Amendment 68

Proposal for a regulation

Article 4 – paragraph 1 – point a – point 2 – point i d (new)

Text proposed by the Commission

Amendment

id. the Member State's trajectories for the overall share of renewable energy in final energy consumption from 2031 onwards shall be consistent with the long-term climate and energy strategies.

Amendments 69 and 287

Proposal for a regulation

Article 4 – paragraph 1 – point a – point 2 – point ii

Text proposed by the Commission

Amendment

ii. trajectories for the sectorial share of renewable energy in final energy consumption from 2021 to 2030 in the heating and cooling, electricity, and transport sectors;

ii. *the Member State's indicative* trajectories for the sectorial share of renewable energy in final energy consumption from 2021 to 2030 in the heating and cooling, electricity, and transport sectors;

Amendment 70

Proposal for a regulation

Article 4 – paragraph 1 – point a – point 2 – point iii

Text proposed by the Commission

Amendment

iii. trajectories by renewable energy technology that the Member State plans to use to achieve the overall and sectorial trajectories for renewable energy from 2021 to 2030 including total expected gross final energy consumption per technology and sector in Mtoe *and* total planned installed capacity per technology and sector in MW;

iii. *indicative* trajectories by renewable energy technology that the Member State plans to use to achieve the overall and sectorial trajectories for renewable energy from 2021 to 2030 including total expected gross final energy consumption per technology and sector in Mtoe, total planned installed capacity per technology and sector *including repowering* in MW;

Amendment 71

Proposal for a regulation

Article 4 – paragraph 1 – point a – point 2 – point iii a (new)

Text proposed by the Commission

Amendment

iiia. the Member State's share of, as well as objectives and trajectories for energy from renewable energy produced by cities, renewable energy communities and self-consumers from 2021 to 2030, including expected gross final energy consumption in Mtoe.

Amendment 73

Proposal for a regulation

Article 4 – paragraph 1 – point b – point 1

Text proposed by the Commission

Amendment

(1) the *indicative* national energy efficiency *contribution* to achieving the Union's binding energy efficiency target of **30%** in 2030 as referred to in Article 1(1) and Article 3(4) of Directive 2012/27/EU [version as amended in accordance with proposal COM(2016)761], based on either primary or final energy consumption, primary or final energy savings, or energy intensity.

Member States shall express their *contribution* in terms of absolute level of primary energy consumption and final energy consumption in 2020 and 2030, *with a linear trajectory for that contribution from 2021 onwards*. They shall explain their underlying methodology and the conversion factors used;

(1) *the binding* national energy efficiency *target* to achieving the Union's binding energy efficiency target of **40%** in 2030 as referred to in Article 1(1) and Article 3(4) of Directive 2012/27/EU [version as amended in accordance with proposal COM(2016)761], based on either primary or final energy consumption, primary or final energy savings, or energy intensity, *with a linear trajectory for that target from 2021 onwards*.

Member States shall express their *energy efficiency targets* in terms of absolute level of primary energy consumption and final energy consumption in 2020 and 2030. They shall explain their underlying methodology and the conversion factors used *in accordance with Annexes IV and V to ... [of the version as amended in accordance with proposal COM(2016)761]*;

The trajectory referred to in the first subparagraph shall consist of biennial interim targets starting in 2022 and then every two years;

Amendment 74

Proposal for a regulation

Article 4 – paragraph 1 – point b – point 2

Text proposed by the Commission

(2) the cumulative amount of energy savings to be achieved over the period 2021-2030 under Article 7 on energy saving obligations of Directive 2012/27/EU [version as amended in accordance with proposal COM(2016)761];

Amendment

(2) the cumulative amount of **additional** energy savings to be achieved over the period 2021-2030 **and beyond** under Article 7 on energy saving obligations of Directive 2012/27/EU [version as amended by proposal COM(2016)761];

Amendment 75

Proposal for a regulation

Article 4 – paragraph 1 – point b – point 3

Text proposed by the Commission

(3) the **objectives** for the long-term renovation of the national stock of residential and **commercial** buildings (both public and private);

Amendment

(3) **based on an analysis of the existing building stock**, the **milestones** for **2030 and 2040 for** the long-term **strategies for the** renovation of the national stock of residential and **non-residential** buildings, both public and private, **measuring progress towards the 2050 goal in accordance with Article 2a of Directive 2010/31/EU [as amended by proposal COM(2016)765];**

Amendment 76

Proposal for a regulation

Article 4 – paragraph 1 – point b – point 3 a (new)

Text proposed by the Commission

Amendment

(3a) the planned policies and actions as well as progress towards transforming the national building stock into highly energy efficient and decarbonised building stock, including an evidence-based estimate of expected energy savings and wider benefits, to be achieved from 2020 to 2030;

Amendment 77

Proposal for a regulation

Article 4 – paragraph 1 – point b – point 4

Text proposed by the Commission

Amendment

(4) the total floor area to be renovated or equivalent annual energy savings to be achieved **from 2020 to 2030** under Article 5 on the exemplary role of public bodies' buildings of Directive 2012/27/EU;

(4) the total floor area to be renovated and corresponding energy savings achieved through the renovation or equivalent annual energy savings stemming from the alternative approach to be achieved from 2020 to 2030 under Article 5 of Directive 2012/27/EU [as amended by proposal COM(2016)761];

Amendment 78

Proposal for a regulation

Article 4 – paragraph 1 – point b – point 4 a (new)

Text proposed by the Commission

Amendment

(4a) the identified potential for energy savings in heating and cooling, including the outcome of the comprehensive

assessment of the potential for the application of high-efficiency cogeneration and efficient and innovative district heating and cooling;

Amendment 79

Proposal for a regulation

Article 4 – paragraph 1 – point b – point 5

Text proposed by the Commission

(5) other national energy efficiency objectives, including long term targets or strategies and sectorial targets in areas such as transport, *heating and cooling*;

Amendment

(5) other national energy efficiency objectives, including long term targets or strategies and sectorial targets in areas such as transport, *the manufacturing industry and water and waste water or from sector coupling policies; as well as efficiency in other sectors with high energy efficiency potential throughout the entire flow chain from primary energy to end-users or such as data centres*;

Amendment 80

Proposal for a regulation

Article 4 – paragraph 1 – point c – point 1

Text proposed by the Commission

(1) national objectives with regard to increasing the diversification of energy sources and supply from third countries;

Amendment

(1) national objectives with regard to increasing the diversification of energy sources and supply from third countries, *for the purpose of increasing the resilience of macro-regional, regional and national energy systems*;

Amendment 81

Proposal for a regulation

Article 4 – paragraph 1 – point c – point 2

Text proposed by the Commission

(2) national objectives with regard to reducing energy import dependency from third countries;

Amendment

(2) national objectives with regard to reducing energy import dependency from third countries ***for the purpose of increasing the resilience of macro-regional, national and regional energy systems;***

Amendment 82

Proposal for a regulation

Article 4 – paragraph 1 – point c – point 4

Text proposed by the Commission

(4) national objectives with regard to ***deployment of*** domestic energy sources (***notably renewable energy***);

Amendment

(4) national objectives with regard to ***increasing the flexibility of the national energy system, in particular by means of deploying energy efficiency measures, domestic and regional renewable energy sources, demand response and storage;***

Amendment 83

Proposal for a regulation

Article 4 – paragraph 1 – point d – point 1

Text proposed by the Commission

(1) the level of electricity interconnectivity that the Member State aims for in 2030 in consideration of the electricity interconnection target for 2030 of ***at least*** 15 %; Member States shall explain the underlying methodology used;

Amendment

(1) the level of electricity interconnectivity that the Member State aims for in 2030 in consideration of the ***indicative*** electricity interconnection target for 2030 of ***at least*** 15%, ***taking into account the 2020 interconnection target of 10%, national and regional market***

conditions and potential, all aspects of cost-benefit analyses, the actual level of implementation of PCIs, as well as measures to increase the tradable capacity in existing interconnections; Member States shall explain the underlying methodology used, taking into account the methodology proposed by the Commission;

Amendment 84

Proposal for a regulation

Article 4 – paragraph 1 – point d – point 2

Text proposed by the Commission

(2) key national objectives for electricity and gas transmission infrastructure that are necessary for the achievement of objectives and targets under any of the five dimensions of the Energy Union Strategy;

Amendment

(2) key national objectives for electricity and gas transmission ***and distribution infrastructure and its modernisation*** that are necessary for the achievement of objectives and targets under any of the five dimensions of the Energy Union Strategy. ***For any planned major infrastructure project, a preliminary assessment of its compatibility with and contributions to the five dimensions of the Energy Union, in particular with regard to security of supply and competition;***

Amendment 85

Proposal for a regulation

Article 4 – paragraph 1 – point d – point 3

Text proposed by the Commission

(3) national objectives related to other aspects of the internal energy market such as market integration and coupling, including a timeframe for when the objectives should be met;

Amendment

(3) national objectives related to other aspects of the internal energy market such as ***increasing system flexibility, in particular through the removal of obstacles to free price formation,*** market integration and coupling, ***smart grids, aggregation, demand response, storage, distributed generation, mechanisms for dispatching, re-dispatching and curtailment, real-time price signals,*** including a timeframe for when the

objectives should be met;

Amendment 86

Proposal for a regulation

Article 4 – paragraph 1 – point d – point 3 a (new)

Text proposed by the Commission

Amendment

(3a) national objectives related to the non-discriminatory participation of renewable energy, demand response and storage, including via aggregation in all energy markets, including a timeframe for when the objectives should be met;

Amendment 87

Proposal for a regulation

Article 4 – paragraph 1 – point d – point 3 b (new)

Text proposed by the Commission

Amendment

(3b) national objectives with regard to ensuring that consumers participate in the energy system and benefit from self-generation and new technologies, including smart meters;

Amendment 88

Proposal for a regulation

Article 4 – paragraph 1 – point d – point 4

Text proposed by the Commission

Amendment

(4) national objectives with regard to ensuring electricity system adequacy ***as well as flexibility of the energy system with regard to renewable energy production***, including a timeframe for when the objectives should be met;

(4) national objectives with regard to ensuring electricity system adequacy, ***ensuring that no capacity mechanisms are implemented, or where implemented for the purpose of security of supply are limited to the extent possible*** including a timeframe for when the objectives should be met;

Amendment 89

Proposal for a regulation

Article 4 – paragraph 1 – point e – point 1

Text proposed by the Commission

(1) national objectives and funding targets for public **and private** research and innovation relating to the Energy Union; if applicable, including a timeframe for when the objectives should be met. Such targets and objectives should be coherent with those set out in the Energy Union Strategy and the SET-Plan;

Amendment

(1) national objectives and funding targets for public **support for** research and innovation relating to the Energy Union **and its expected leveraging effect on private research**; if applicable, including a timeframe for when the objectives should be met. Such targets and objectives should be coherent with those set out in the Energy Union Strategy and the SET-Plan;

Amendment 90

Proposal for a regulation

Article 4 – paragraph 1 – point e – point 2

Text proposed by the Commission

(2) national 2050 objectives **for the deployment** of **low-carbon** technologies;

Amendment

(2) national 2050 objectives **related to the promotion** of **sustainable** technologies;

Amendment 91

Proposal for a regulation

National policies and measures for each of the five dimensions of the Energy Union

Member States shall describe, in accordance with Annex I, in their integrated national energy and climate plan, the main existing (implemented and adopted) and planned policies and measures to achieve in particular the objectives set out in the national plan, including measures to ensure regional cooperation and appropriate financing at national, regional level.

National policies, measures *and investment strategies* for each of the five dimensions of the Energy Union

Member States shall describe, in accordance with Annex I, in their integrated national energy and climate plan, the main existing (implemented and adopted) and planned policies and measures to achieve in particular the objectives set out in the national plan, including measures to ensure regional cooperation and appropriate financing at national, regional *and local level, including mobilisation of Union programmes and instruments.*

The description of the main existing and planned policies and measures to achieve the objectives set out in the national plans shall be accompanied by a general overview of the investments needed to achieve those objectives.

Member States shall treat energy efficiency as an infrastructure priority. They shall include energy efficiency programs as part of their infrastructure planning and make renovation of buildings a priority investment.

Amendment 102

Proposal for a regulation Article 8 – paragraph 1

Text proposed by the Commission

1. Member States shall describe, in accordance with the structure and format specified in Annex I, the current situation for each of the five dimensions of the Energy Union including of the energy system and greenhouse gas emissions and removals at the time of submission of the national plan or on the basis of the latest available information. Member States shall also set out and describe projections for

Amendment

1. Member States shall describe, in accordance with the structure and format specified in Annex I, the current situation for each of the five dimensions of the Energy Union including of the energy system and greenhouse gas emissions and removals at the time of submission of the national plan or on the basis of the latest available information. Member States shall also set out and describe projections for

each of the five dimensions of the Energy Union for the first ten-year period at least until **2040** (including for the year 2030) expected to result from existing (implemented and adopted) policies and measures.

each of the five dimensions of the Energy Union for the first ten-year period at least until **2030** (including for the year 2030) expected to result from existing (implemented and adopted) policies and measures. ***Member States shall make available to the public the assumptions, parameters and methodologies used for projections and scenarios.***

Amendment 103

Proposal for a regulation

Article 8 – paragraph 2 – point a

Text proposed by the Commission

(a) the impacts on the development of the energy system and greenhouse gas emissions and removals for the first ten-year period at least until 2040 (including for the year 2030) under the planned policies and measures including a comparison with the projections based on existing (implemented and adopted) policies and measures referred to in paragraph 1;

Amendment

(a) the impacts on the development of the energy system and greenhouse gas emissions and removals for the first ten-year period at least until 2040 (including for the year 2030) under the planned policies and measures including a comparison with the projections based on existing (implemented and adopted) policies and measures referred to in paragraph 1. ***This should include an assessment of synergies deriving from sectorial coupling, digitalisation and improved market design as well as of the benefits in terms of air quality and security of supply;***

Amendment

Article 9

Article 9

Draft integrated national energy and climate plans

Draft integrated national energy and climate plans

1. By 1 **January** 2018 **and every ten years thereafter** Member States shall prepare and submit to the Commission a draft of the integrated national energy and climate plan referred to in Article 3(1).

1. By 1 **June** 2018, **each** Member State shall prepare and submit to the Commission a draft of **its first** the integrated national energy and climate plan referred to in Article 3(1). **Each Member State shall prepare and submit to the Commission a draft of its second plan by 1 January 2023 and drafts of its subsequent plans every five years thereafter.**

2. The Commission **may** issue recommendations **on the draft plans** to Member States in accordance with Article 28. **Those recommendations shall in particular set out:**

2. The Commission **shall assess the draft plans and shall** issue **country-specific** recommendations to Member States in accordance with Article 28 **no later than three months before the deadline for submitting the plan, referred to in Article 3(1) in order to:**

(a) **the level of ambition of objectives, targets and contributions in view of collectively achieving** the Energy Union objectives and **notably the Union's 2030 targets for renewable energy and energy efficiency;**

(a) **ensure the collective achievement by Member States of** the Energy Union objectives and targets **of all dimensions of the Energy Union;**

(aa) ensure the achievement by Member

(b) policies and measures *relating to Member States' and Union level objectives and other policies and measures* of potential cross-border relevance;

(c) *interactions between and* consistency of existing (implemented and adopted) and planned policies and measures included in the integrated national energy and climate plan within one dimension and among different dimensions of the Energy Union.

3. Member States shall take utmost account of any recommendations from the Commission when finalising their integrated national energy and climate plan.

States of national targets and objectives;

(b) *improve individual existing and planned* policies and measures *included in national energy and climate plans including those* of potential cross-border relevance;

(ba) *suggest the adoption of additional policies and measures in national energy and climate plans;*

(c) *ensure* consistency of existing (implemented and adopted) and planned policies and measures included in the integrated national energy and climate plan within one dimension and among different dimensions of the Energy Union;

(ca) *ensure the consistency of the investment strategies and instruments with the Member States' policies and measures provided for to meet the corresponding targets and objectives.*

3. Member States shall take utmost account of any recommendations from the Commission when finalising their integrated national energy and climate plan. *Where the position of the Member State concerned diverges from the Commission's recommendation, that Member State shall provide and make public the reasons for its position.*

3a. Member States shall make available to the public the draft plans referred to in paragraph 1.

Amendment 108

Proposal for a regulation Article 10 – paragraph 1

Text proposed by the Commission

Without prejudice to any other Union law requirements, Member States shall ensure that the public is given early and effective

Amendment

Without prejudice to any other Union law requirements, Member States shall ensure that the public is given early and effective

opportunities to participate in the preparation of draft plans referred to in Article 9 *and attach to the submission of their draft integrated national energy and climate plan to the Commission a summary of the public's views. In so far as the provisions of Directive 2001/42/EC are applicable, consultations undertaken in accordance with that Directive shall be deemed to satisfy also the obligations to consult the public under this Regulation.*

opportunities to participate in the preparation of draft plans referred to in Article 9, *of long-term strategies referred to in Article 14, when all options are open and effective public consultation can take place.*

Amendment 109

Proposal for a regulation

Article 10 – paragraph 1 a (new)

Text proposed by the Commission

Amendment

1a. Member States shall set reasonable timeframes allowing sufficient time for the public to be informed and to prepare and participate effectively in the different stages of planning process. Member States shall take due account of equal participation and ensure that the public is informed, whether by public notices or other appropriate means, such as electronic media where available, of all practical arrangements related to their participation and that they can access all relevant documents.

Amendment 110

Proposal for a regulation

Article 10 – paragraph 1 b (new)

Text proposed by the Commission

Amendment

1b. Member States shall include in the submission of their draft and final integrated national energy and climate plan and of their long-term strategies to the Commission a summary of the public's views and the way they have been taken into consideration.

Amendment 111

Proposal for a regulation Article 10 – paragraph 1 c (new)

Text proposed by the Commission

Amendment

1c. In so far as the provisions of Directive 2001/42/EC are applicable, consultations undertaken in accordance with that Directive shall be deemed to satisfy also the obligations to consult the public under this Regulation.

Amendment 112

Proposal for a regulation Article 10 – paragraph 1 d (new)

Text proposed by the Commission

Amendment

1d. Member States shall limit administrative complexity when implementing this Article.

Amendment 113

Proposal for a regulation Article 10 a (new)

Text proposed by the Commission

Amendment

Article 10a

Multilevel Climate and Energy Dialogue Platform

- 1. In a spirit of partnership, Member State shall establish a permanent Multilevel Climate and Energy Dialogue Platform to support active engagement of local authorities, civil society organisations, business community, investors, any other relevant stakeholders and the general public in managing the energy transition.***
- 2. Member States shall submit to their***

national Climate and Energy Dialogue Platform different options and scenarios envisaged for their short, medium and long-term energy and climate policies, together with a cost-benefit analysis for each option. Climate and Energy Dialogue Platforms shall be forums for discussion on and elaboration of plans, strategies and reports pursuant to Article 10.

3. Member States shall ensure that Climate and Energy Dialogue Platforms benefit from adequate human and financial resources and shall function in a transparent way.

Amendment 114

Proposal for a regulation Article 11

Text proposed by the Commission

Article 11

Regional cooperation

1. Member States shall cooperate with each other at **regional** level to effectively meet the targets, **objectives and contributions** set out in their integrated national energy and climate plan.
2. Member States shall, well before submitting their draft integrated national energy and climate plan to the Commission pursuant to Article 9(1), identify opportunities for regional cooperation and consult neighbouring Member States and the other Member States expressing an interest. Member States shall set out in their draft integrated national energy and climate plans the results of such regional consultation, including where applicable how comments have been taken into account.

Amendment

Article 11

Macro-regional and regional cooperation

1. Member States shall cooperate with each other at **macro-regional and regional level, taking into utmost consideration all existing and potential forms of cooperation** to effectively meet the targets and **objectives** set out in their integrated national energy and climate plan.
2. Member States shall, well before submitting their draft integrated national energy and climate plan to the Commission pursuant to Article 9(1), identify opportunities for **macro-regional and regional cooperation, taking into consideration existing macro-regional cooperations, in particular the Baltic Energy Market Interconnection Plan (BEMIP), Central and South-Eastern Europe Connectivity (CESEC), Central-West Regional Energy Market (CWREM), the North Seas Countries' Offshore Grid Initiative (NSCOGI), the Euro-Mediterranean Partnership** and consult

neighbouring Member States and the other Member States expressing an interest, ***in accordance with Directive 2011/92/EU and the Espoo Convention***. Member States shall set out in their draft integrated national energy and climate plans the results of such regional consultation, including where applicable how comments have been taken into account. ***When engaging in macro-regional cooperation, Member States shall agree on a governance structure allowing for meeting at ministerial level at least annually.***

2a. The Commission shall, upon the request by two or more Member States, facilitate the joint drafting of parts of their integrated national energy and climate plans, inter alia by means of establishing an enabling framework. When Member States pursue macro-regional or regional cooperation, they shall set out in their draft integrated national energy and climate plans the results and submit them to the Commission. The result of such macro-regional or regional cooperation may replace the equivalent parts of the relevant integrated national energy and climate plan.

2b. The Commission shall, with a view to promoting market integration and cost-efficient policies, identify opportunities for macro-regional or regional cooperation covering one or several of the five dimensions of the Energy Union and in accordance with this Article, with a long-term vision, based on existing market conditions. Based on such opportunities, the Commission may issue recommendations to Member States pursuant to Article 28 in order to facilitate effective cooperation, partnerships and consultations.

3. The Commission shall facilitate cooperation and consultation among the Member States on the draft plans submitted to it under Article 9 in view of their finalisation.

3. The Commission shall facilitate cooperation and consultation among the Member States on the draft plans submitted to it under Article 9 in view of their finalisation.

4. Member States shall take into consideration the comments received from other Member States pursuant to paragraphs 2 and 3 in their final integrated national energy and climate plan and explain how such comments have been taken into account.

5. For the purposes specified in paragraph 1, Member States shall continue to cooperate at **macro-regional** level when implementing the policies and measures of their plans.

4. Member States shall take into consideration the comments received from other Member States pursuant to paragraphs 2 and 3 in their final integrated national energy and climate plan and explain how such comments have been taken into account.

5. For the purposes specified in paragraph 1, Member States shall continue to cooperate at **macro-regional** level when implementing the policies and measures of their plans.

5a. Member States shall also envisage cooperation with Energy Community signatories and third countries that are members of the European Economic Area.

Amendment 116

Proposal for a regulation

Article 12 – paragraph 1 – introductory part

Text proposed by the Commission

The Commission shall assess the integrated national energy and climate plans **and their updates** as notified pursuant to **Articles 3 and 13**. It shall assess in particular whether:

Amendment

The Commission shall assess the integrated national energy and climate plans as notified pursuant to **Article 3**. It shall assess in particular whether:

Amendment 117

Proposal for a regulation

Article 12 – paragraph 1 – point a

Text proposed by the Commission

(a) the targets, **objectives and contributions** are sufficient for the collective achievement of the Energy Union objectives and for the first ten-years

Amendment

(a) the targets **and objectives** are sufficient for the collective achievement of the Energy Union objectives and for the first ten-years period in particular the

period in particular the targets of the Union's 2030 Climate and Energy Framework;

targets of the Union's 2030 Climate and Energy Framework;

Amendment 118

Proposal for a regulation

Article 12 – paragraph 1 – point a a (new)

Text proposed by the Commission

Amendment

(aa) the existing policies and those that are provided for and measures and related investment strategies are sufficient for the achievement of the national targets referred to in Article 4;

Amendment 120

Proposal for a regulation

Article 13

Text proposed by the Commission

Amendment

Article 13

deleted

Update of the integrated national energy and climate plan

- 1. By 1 January 2023, and every 10 years thereafter, Member States shall submit to the Commission a draft update of the latest notified integrated national energy and climate plan referred to in Article 3 or confirm to the Commission that the plan remains valid.***
- 2. By 1 January 2024, and every 10 years thereafter, Member States shall notify to the Commission an update of the latest notified integrated national energy and climate plan referred to in Article 3, unless they have confirmed that the plan remains valid pursuant to paragraph 1 of***

this Article.

3. Member States shall only modify the targets, objectives and contributions set out in the update referred to in paragraph 2 to reflect an increased ambition as compared to the ones set in the latest notified integrated national energy and climate plan.

4. Member States shall make efforts to mitigate in the updated plan any adverse environmental impacts that become apparent as part of the integrated reporting pursuant to Articles 15 to 22.

5. Member States shall take into consideration the latest country-specific recommendations issued in the context of the European Semester when preparing the update referred to in paragraph 2.

6. The procedures laid down in Article 9(2) and Article 11 shall apply to the preparation and assessment of the updated integrated national energy and climate plans.

Amendment 121

Proposal for a regulation

Chapter 3 – title

Text proposed by the Commission

Long-term *low emission* strategies

Amendment

Long-term *climate and energy* strategies

Amendment 122

Proposal for a regulation

Article 13 a (new)

Text proposed by the Commission

Amendment

Article 13a

Consistency with overall climate objective

The Commission shall, by 1 July 2018, report on the remaining global carbon budget that is consistent with pursuing efforts to limit the temperature increase to well below 2°C, in particular 1,5°C, above pre-industrial levels and shall publish an analysis of the Union's fair share for 2050 and 2100.

Amendment 123

Proposal for a regulation Article 14

Text proposed by the Commission

Article 14

Long-term *low emission* strategies

1. Member States shall ***prepare and report to the Commission*** by 1 January 2020 and every 10 years thereafter their long-term low emission strategies with a 50 years perspective, to contribute to:

(a) fulfilling the Union's and the Member States' commitments under the UNFCCC and the Paris Agreement to reduce anthropogenic greenhouse gas emissions and enhance removals by sinks;

(b) fulfilling the objective of holding the increase in the global average temperature to well below 2°C above pre-industrial levels and to pursue efforts to limit the temperature increase to 1.5°C above pre-industrial levels;

(c) achieving long-term greenhouse gas emission reductions and enhancements of removals by sinks in all sectors in line with the Union's objective, in the context of necessary reductions according to the IPCC by developed countries as a group, to reduce emissions by 80 to 95 % by 2050 compared to 1990 levels in a cost-effective

Amendment

Article 14

Long-term *climate and energy* strategies

1. Member States ***and the Commission on behalf of the Union*** shall ***adopt***, by 1 January 2019 and every ***five*** years thereafter, their long-term ***climate and energy*** strategies with a ***30*** years perspective, to contribute to:

(a) fulfilling the Union's and the Member States' commitments under the UNFCCC and the Paris Agreement to reduce anthropogenic greenhouse gas emissions and enhance removals by sinks ***in 10-year steps***;

(b) fulfilling the objective of holding the increase in the global average temperature to well below 2°C above pre-industrial levels and to pursue efforts to limit the temperature increase to 1.5°C above pre-industrial levels ***by limiting the Union's greenhouse gas emissions below its fair share of the remaining global carbon budget***;

(c) achieving long-term greenhouse gas emission reductions and enhancements of removals by sinks in all sectors in line with the Union's objective, in the context of necessary reductions according to the IPCC to reduce ***the Union's greenhouse gas*** emissions in a cost-effective manner ***and enhance removals by sinks in pursuit of***

manner.

2. The long-term *low emission* strategies shall cover:

- (a) total greenhouse gas emissions reductions and enhancements of removals by sinks;
- (b) emissions reductions and enhancement of removals in individual sectors including electricity, industry, transport, the buildings sector (residential and tertiary), agriculture and land use, land-use change and forestry (LULUCF);
- (c) expected progress on transition to a low greenhouse gas emission economy including greenhouse gas intensity, CO₂ intensity of gross domestic product and strategies for related research, development and innovation;

(d) links to other national long-term planning.

the temperature goals in the Paris Agreement so as to achieve a net-zero greenhouse gas emissions within the Union by 2050 and go into negative emissions soon thereafter;

(ca) by no later than 2050, achieve a highly energy efficient and renewables-based energy system within the Union.

2. The long-term *climate and energy* strategies shall *contain the elements set out in Annex IIa and shall* cover:

- (a) total greenhouse gas emissions reductions and enhancements of removals by sinks *with separate target for enhancing removals by sinks that is consistent with pursuing efforts to limit the temperature increase goals in the Paris Agreement;*
- (b) *with a view to decarbonisation, greenhouse gases'* emissions reductions and enhancement of removals in individual sectors including *among others* electricity, industry, transport, the *heating and cooling and* buildings sector (residential and tertiary), agriculture and land use, land-use change and forestry (LULUCF);
- (c) expected progress on transition to a low greenhouse gas emission economy including greenhouse gas intensity, CO₂ intensity of gross domestic product and strategies for related *long-term investments*, research, development and innovation;
- (ca) expected progress on energy transition including energy savings, total share of renewable energy and planned renewable energy installed capacity;*
- (cb) expected contribution of deep decarbonisation of the economy on macro-economic development, and social development, and health risks and benefits and the environmental protection;*
- (d) links to other national long-term *objectives, planning and other policies and measures and investments.*

3. The *long-term low emission strategies and the* integrated national energy and climate plans referred to in Article 3 *should* be consistent with each other.

4. The Member States shall *make available to the public forthwith their respective long-term low emission strategies and any updates thereof.*

2a. The Commission is empowered to adopt delegated acts in accordance with Article 36 to amend Annex IIa in order to adapt it to amendments to the Union Energy and Climate policy framework, energy market developments and new UNFCCC and Paris Agreement requirements.

3. The integrated national energy and climate plans referred to in Article 3 *shall* be consistent with *the long-term climate and energy strategies.*

4. The Member States *and the Commission* shall *develop their strategies openly and transparently, and ensure that the public, the social partners, businesses, investors, civil society and other stakeholders are given early and effective opportunities to participate in the preparation of the long-term climate and energy strategies and make the strategies and any supporting analyses and data public, including through the e-platform as referred to in Article 24.*

4a. The Commission shall support Member States in their preparation of long-term strategies by providing information on the state of the underlying scientific knowledge and technological development relevant to achieving the objectives referred to in Article 1. The Commission shall also provide for opportunities for Member States and other stakeholders to provide additional information and discuss their perspectives, and produce best practices and guidance for Member States to use during the development and implementation phase of their strategies.

4b. The Commission shall assess whether the national long-term strategies are adequate for the collective achievement of the Union objectives set out in Article 1. The Commission may issue recommendations to Member States to facilitate this end and to assist Member States in their efforts to prepare and

implement their long-term strategies.

Amendment 124

Proposal for a regulation

Article 15 – paragraph 2 – point a

Text proposed by the Commission

(a) information on the progress accomplished towards reaching the targets, objectives ***and contributions*** set out in the integrated national energy and climate plan, and towards implementing the policies and measures necessary to meet them;

Amendment

(a) information on the progress accomplished towards reaching the targets ***and*** objectives set out in the integrated national energy and climate plan, and towards ***financing and*** implementing the policies and measures necessary to meet them;

Amendment 125

Proposal for a regulation

Article 15 – paragraph 2 – point a a (new)

Text proposed by the Commission

Amendment

(aa) the results of the public consultations made in accordance with Article 10;

Amendment 126

Proposal for a regulation

Article 15 – paragraph 2 – point a b (new)

Text proposed by the Commission

Amendment

(ab) information on the progress accomplished supporting active engagement in accordance with Article 10a;

Amendment 127

Proposal for a regulation

Article 15 – paragraph 2 – point a c (new)

Text proposed by the Commission

Amendment

(ac) the information referred to and on the progress accomplished towards reaching the goals, objectives and commitments set out in the long-term energy and climate strategies in Article 14;

Amendment 128

Proposal for a regulation

Article 15 – paragraph 5

Text proposed by the Commission

Amendment

5. Where the Commission has issued recommendations pursuant to Article 27(2) or (3), the Member State concerned shall include in its report referred to in paragraph 1 of this Article information on the policies and measures adopted, or intended to be adopted and implemented, to address those recommendations. Such information shall include a detailed timetable for implementation.

5. Where the Commission has issued recommendations pursuant to Article 27(2) or (3), the Member State concerned shall include in its report referred to in paragraph 1 of this Article information on the policies and measures adopted, or intended to be adopted and implemented, to address those recommendations. Such information shall include a detailed timetable for implementation. ***Where the Member State concerned deviates from a recommendation issued, that Member State shall provide and make public a well-substantiated justification, based on reliable data and objective criteria.***

Amendment 129

Proposal for a regulation

Article 15 – paragraph 5 a (new)

Text proposed by the Commission

Amendment

5a. *Member States shall make available to the public the reports submitted to the Commission pursuant to this Article.*

Amendment 130

Proposal for a regulation

Article 18 – paragraph 1 – point a – point 4

Text proposed by the Commission

Amendment

(4) trajectories on bioenergy demand, disaggregated between heat, electricity and transport, and on biomass supply, by feedstock and origin (distinguishing between domestic production and imports). For forest biomass, an assessment of its source and impact on the LULUCF sink;

(4) trajectories on bioenergy demand, disaggregated between heat, electricity and transport, ***including the share of biofuels, share of advanced biofuels, share of biofuel produced from crops produced on agricultural land***, and on biomass supply, by feedstock and origin (distinguishing between domestic production and imports). For forest biomass, an assessment of its source and impact on the LULUCF sink;

Amendment 131

Proposal for a regulation

Article 18 – paragraph 1 – point a – point 4 a (new)

Text proposed by the Commission

Amendment

(4a) *objectives and trajectories for renewable energy produced by regions, cities, energy communities and self-consumers;*

Amendment 132

Proposal for a regulation

Article 18 – paragraph 1 – point a – point 5

Text proposed by the Commission

(5) if applicable, other national trajectories and objectives including long-term and sectorial ones (such as share of biofuels, share of advanced biofuels, share of biofuel produced from main crops produced on agricultural land, share of electricity produced from biomass without the utilisation of heat, share of renewable energy in district heating, renewable energy use in buildings, **renewable energy produced by cities, energy communities and self-consumers**);

Amendment

(5) if applicable, other national trajectories and objectives including long-term and sectorial ones (such as share of electricity produced from biomass without the utilisation of heat, share of renewable energy in district heating, renewable energy use in buildings, **energy recovered from the sludge acquired through the treatment of wastewater**);

Amendment 133

Proposal for a regulation

Article 18 – paragraph 1 – point b – point 1

Text proposed by the Commission

(1) implemented, adopted and planned policies and measures to achieve the national **contribution** to the binding Union-level 2030 target for renewable energy as indicated in Article 4(a)(2)(i), including sector- and technology-specific measures, with a specific review of the implementation of measures laid down in Articles 23, 24 and 25 of [recast of Directive 2009/28/EC as proposed by COM(2016) 767];

Amendment

(1) implemented, adopted and planned policies and measures to achieve the national **targets** to **meet** the binding Union-level 2030 target for renewable energy as indicated in Article 4(a)(2)(i), including sector- and technology-specific measures, with a specific review of the implementation of measures laid down in Articles 23, 24 and 25 of [recast of Directive 2009/28/EC as proposed by COM(2016) 767];

Amendment 134

Proposal for a regulation

Article 18 – paragraph 1 – point b – point 4 a (new)

Text proposed by the Commission

Amendment

(4a) specific measures to assess, make transparent and reduce the need for must-run capacity that can lead to curtailment of renewable energy sources;

Amendment 135

Proposal for a regulation

Article 19 – paragraph 1 – point a – point 1

Text proposed by the Commission

Amendment

(1) the trajectory for primary and final energy consumption from 2020 to 2030 as the national energy savings ***contribution*** to achieving the Union-level 2030 target including underlying methodology;

(1) the trajectory for primary and final energy consumption from 2020 to 2030 as the national energy savings ***binding targets*** to achieving the Union-level 2030 target including underlying methodology;

Amendment 136

Proposal for a regulation

Article 19 – paragraph 1 – point a – point 2

Text proposed by the Commission

Amendment

(2) objectives ***for*** the long-term renovation of the national stock of both public and private residential ***and commercial*** buildings;

(2) objectives ***of*** the long-term strategy for the renovation of the national stock of residential ***as well as public and private non-residential buildings***;

Amendment 137

Proposal for a regulation

Article 19 – paragraph 1 – point b – point 1

Text proposed by the Commission

(1) implemented, adopted and planned policies, measures and programmes to achieve the **indicative** national energy efficiency **contribution** for 2030 as well as other objectives presented in Article 6, including planned measures and instruments (also of financial nature) to promote the energy performance of buildings, measures to utilise energy efficiency potentials of gas and electricity infrastructure and other measures to promote energy efficiency;

Amendment

(1) implemented, adopted and planned policies, measures and programmes to achieve the **binding** national energy efficiency **target** for 2030 as well as other objectives presented in Article 6, including planned measures and instruments (also of financial nature) to promote the energy performance of buildings, measures to utilise energy efficiency potentials of gas and electricity infrastructure and other measures to promote energy efficiency;

Amendment 138

Proposal for a regulation

Article 19 – paragraph 1 – point b – point 3

Text proposed by the Commission

(3) national energy efficiency obligation scheme and alternative measures pursuant to Article 7a and 7b of Directive 2012/27/EU [version as amended in accordance with proposal COM(2016) 761] in accordance with Annex II to this Regulation;

Amendment

(3) national energy efficiency obligation scheme and alternative measures pursuant to Article 7a and 7b of Directive 2012/27/EU [version as amended in accordance with proposal COM(2016) 761] in accordance with Annex II to this Regulation, **including the energy savings achieved through national energy efficiency obligations and/or alternative measures adopted in application Articles 7a and 7b and Article 20(6) of Article 7 of Directive 2012/27/EU [as amended by proposal COM(2016) 761] and the impact on consumer bills and including requirements with a social aim;**

Amendment 139

Proposal for a regulation

Article 19 – paragraph 1 – point b – point 4

Text proposed by the Commission

(4) long-term strategy for the renovation of the national stock of both public and private residential and **commercial** buildings, including policies and measures to stimulate cost-effective deep and staged deep renovation;

Amendment

(4) long-term strategy for the renovation of the national stock of both public and private residential and **non-residential** buildings, including policies and measures **to guide investment** to stimulate cost-effective deep and staged deep renovation **taking in particular into account an evidence-based estimate of expected energy savings and wider benefits in accordance with Article 2a of Directive (EU) .../... [EPBD, COD 0381/16];**

Amendment 140

Proposal for a regulation

Article 19 – paragraph 1 – point b – point 5 a (new)

Text proposed by the Commission

Amendment

(5a) policies and measures to develop the economic potential of high efficient cogeneration and efficient heating and cooling systems pursuant to Article 14 (2) of Directive (EU) .../... [Directive 2012/27/EU as amended by proposal COM(2016)761];

Amendment 141

Proposal for a regulation

Article 19 – paragraph 1 – point b – point 5 b (new)

Text proposed by the Commission

Amendment

(5b) If applicable, progress on other implemented, adopted and planned policies, measures and actions resulting from the long-term renovation strategies pursuant to Article 2a of Directive (EU) .../... [EPBD, COD 0381/16], including those targeting the worst performing segments of the national building stock and on access to information and financing.

Amendment 142

Proposal for a regulation

Article 20 – paragraph 1 – point a

Text proposed by the Commission

Amendment

(a) national objectives for ***the diversification of*** energy sources and supply countries, storage, demand response;

(a) national objectives for ***improved energy efficiency and renewable*** energy sources and ***a diversification of supply,*** supply ***routes and*** countries, storage, demand response;

Amendment 143

Proposal for a regulation

Article 20 – paragraph 1 – point b

Text proposed by the Commission

Amendment

(b) national objectives with regard to reducing energy import dependency from third countries;

(b) national objectives ***and measures*** with regard to reducing energy import dependency from third countries ***and which do not create obstacles to the***

successful implementation of the Energy Union;

Amendment 144

Proposal for a regulation

Article 20 – paragraph 1 – point c a (new)

Text proposed by the Commission

Amendment

(ca) national objectives with regard to increasing the flexibility of the national energy system, in particular by means of deploying energy efficiency measures, domestic renewable energy sources, demand response and storage;

Amendment 145

Proposal for a regulation

Article 21 – paragraph 1 – point a

Text proposed by the Commission

Amendment

(a) the level of electricity interconnectivity that the Member State aims for in 2030 in relation to the 15% target on electricity interconnection;

(a) the level of electricity interconnectivity that the Member State aims for in 2030 in relation to the ***indicative at least*** 15% target on electricity interconnection;

Amendment 146

Proposal for a regulation

Article 21 – paragraph 1 – point b

Text proposed by the Commission

Amendment

(b) key national objectives for electricity and gas transmission infrastructure that are

(b) key national objectives for electricity and gas transmission ***and distribution***

necessary for the achievement of objectives and targets under any of the five key dimensions of the Energy Union;

infrastructure *and its modernisation* that are necessary for the achievement of objectives and targets under any of the five key dimensions of the Energy Union;

Amendment 147

Proposal for a regulation

Article 21 – paragraph 1 – point d

Text proposed by the Commission

(d) national objectives related to *other aspects of the internal energy market such as market integration and coupling, if applicable*;

Amendment

(d) national objectives *and measures* related to *the system flexibility, in particular through the removal of obstacles to free price formation, market integration and coupling, smart grids, aggregation, demand response, storage, distributed generation, mechanisms for dispatching, re-dispatching and curtailment, real-time price signals*;

Amendment 148

Proposal for a regulation

Article 21 – paragraph 1 – point e

Text proposed by the Commission

(e) *national objectives with regards to energy poverty, including the number of households in energy poverty*

Amendment

deleted

Amendment 149

Proposal for a regulation

Article 21 – paragraph 1 – point e a (new)

Text proposed by the Commission

Amendment

(ea) national objectives and measures related to the non-discriminatory participation of renewable energy, demand response and storage, including via aggregation, in all energy markets;

Amendment 150

Proposal for a regulation

Article 21 – paragraph 1 – point e b (new)

Text proposed by the Commission

Amendment

(eb) national objectives and measures with regard to ensuring that consumers participate in the energy system and benefits from self-generation and new technologies, including smart meters;

Amendment 151

Proposal for a regulation

Article 21 – paragraph 1 – point f

Text proposed by the Commission

Amendment

(f) national objectives with regard to ensuring electricity system adequacy, ***if applicable;***

(f) national objectives with regard to ensuring electricity system adequacy, ***ensuring that no capacity mechanisms are implemented, or where implemented for the purpose of security of supply are limited to the extent possible;***

Amendment 152

Proposal for a regulation

Article 21 – paragraph 1 – point f a (new)

Text proposed by the Commission

Amendment

(fa) national measures to establish or review bidding zones so as to address structural congestion, maximise economic efficiency and cross-border trading and ensure security of supply;

Amendment 153

Proposal for a regulation

Article 21 – paragraph 1 – point g

Text proposed by the Commission

Amendment

(g) implemented, adopted and planned policies and measures to achieve the objectives referred to in points (a) to ***(f)***;

(g) implemented, adopted and planned policies and measures to achieve the objectives referred to in points (a) to ***(fa)***;

Amendment 154

Proposal for a regulation

Article 21 a (new)

Text proposed by the Commission

Amendment

Article 21a

Integrated Reporting on Energy Poverty

Where applicable, a Member State shall include in the integrated national energy and climate progress report quantitative information on the number of households in energy poverty as well as information on policies and measures addressing energy poverty pursuant to Article 3

(3)(v).

Where the second subparagraph of Article 3(3)(v) applies, the Member State concerned shall include in the integrated national energy and climate progress report information on the implementation of their national indicative objective to reduce the number of households in energy poverty.

The Commission shall share data communicated by Member States pursuant to this Article with the European Energy Poverty Observatory.

Amendment 155

Proposal for a regulation

Article 22 – paragraph 1 – point b

Text proposed by the Commission

(b) national objectives for total (public and private) spending in research and innovation relating to clean energy technologies as well as for technology cost and performance development;

Amendment

(b) national objectives for total public and, **where available**, private spending in research and innovation relating to clean energy technologies as well as for technology cost and performance development;

Amendment 156

Proposal for a regulation

Article 22 – paragraph 1 – point d

Text proposed by the Commission

(d) **national objectives to phase out energy subsidies;**

Amendment

(d) **national objectives to phase out energy subsidies, in particular for fossil fuels;**

Amendment 157

Proposal for a regulation

Article 22 – paragraph 1 point g

Text proposed by the Commission

(g) financing measures, including Union support and the use of Union funds, in this area at national level, if applicable.

Amendment

(g) financing measures, including Union support and the use of Union funds, in this area at national level, if applicable. ***The use made of any financial contribution by the Commission to funding instruments in which Member States jointly commit national resources shall be published.***

Amendment 158

Proposal for a regulation

Article 23 – paragraph 1 – point a

Text proposed by the Commission

(a) *approximated greenhouse gas inventories for the year X-1;*

Amendment

deleted

Amendment 159

Proposal for a regulation

Article 23 – paragraph 1 – point c a (new)

Text proposed by the Commission

Amendment

(ca) approximated gross final consumption of energy from renewable sources and their approximated gross, primary and final energy consumption for the year X-1.

Amendment 160

Proposal for a regulation

Article 23 – paragraph 1 – subparagraph 2

Text proposed by the Commission

For *the* purposes *of point (a)* the Commission shall, on the basis of the Member States' approximated greenhouse gas inventories or, if a Member State has not communicated its approximated inventories by that date, on the basis of its own estimates, annually compile a Union approximated greenhouse gas inventory. The Commission shall make that information available to the public by 30 September every year.

Amendment

For *those* purposes the Commission shall, on the basis of the Member States' approximated greenhouse gas inventories or, if a Member State has not communicated its approximated inventories by that date, on the basis of its own estimates, annually compile a Union approximated greenhouse gas inventory. The Commission shall make that information available to the public by 30 September every year.

Amendment 161

Proposal for a regulation

Article 23 – paragraph 1 a (new)

Text proposed by the Commission

Amendment

1a. By 31 July 2021, and annually thereafter (year X), Member States shall report to the Commission its approximated greenhouse gas inventories for the year X-1;

Amendment 162

Proposal for a regulation

Article 24

Text proposed by the Commission

Article 24
E-reporting platform

Amendment

Article 24
E-platform

1. The Commission shall establish *an* online *reporting* platform to facilitate communication between the Commission and Member States *and* promote cooperation among Member States.

2. Member States shall use the online platform for the purposes of submitting to the Commission the reports referred to in this Chapter once the platform becomes operational.

1. *As a means of ensuring cost-efficiency*, the Commission shall establish *a public online* platform to facilitate communication between the Commission and Member States, promote cooperation among Member States *and facilitate public access to information*.

2. Member States shall use the online platform for the purposes of submitting to the Commission the reports referred to in this Chapter once the platform becomes operational. *Member States shall make available these reports to the public*.

2a. The Commission shall use the e-platform to facilitate public online access to the draft and final integrated national energy and climate plans and national long-term climate and energy referred to in Articles 3, 9 and 14.

Amendment 163

Proposal for a regulation

Article 25 – paragraph 1 – introductory part

Text proposed by the Commission

1. By 31 October 2021 and every second year thereafter, the Commission shall assess, in particular on the basis of the integrated national energy and climate progress reports, of other information reported under this Regulation, of the indicators and of European statistics where available:

Amendment

1. By 31 October 2021 and every second year thereafter the Commission shall assess, in particular on the basis of the integrated national energy and climate progress reports, of other information reported under this Regulation, *of data from the European Environment Agency and* of the indicators and of European statistics where available:

Amendment 164

Proposal for a regulation

Article 25 – paragraph 1 – point a

Text proposed by the Commission

(a) the progress made at Union level towards meeting the objectives of the Energy Union, including for the first ten-year period the Union's 2030 targets for energy and climate, notably in view of avoiding any gaps to the Union's 2030 targets for renewable energy and energy efficiency;

Amendment

(a) the progress made at Union level towards meeting the objectives of the Energy Union, including for the first ten-year period the Union's 2030 targets for energy and climate, notably in view of avoiding any gaps to the Union's 2030 targets for renewable energy and energy efficiency ***and in view of the revised Union climate and energy action as appropriate, as outlined in Article 38;***

Amendment 165

Proposal for a regulation

Article 25 – paragraph 1 – point a a (new)

Text proposed by the Commission

Amendment

(aa) the progress made at Union level towards diversifying its energy sources and suppliers, contributing to a fully functioning and resilient Energy Union based on security of supply, solidarity and trust;

Amendment 166

Proposal for a regulation

Article 25 – paragraph 1 – point b

Text proposed by the Commission

(b) the progress made by each Member State towards meeting its targets, ***objectives and contributions*** and implementing the policies and measures set out in its integrated national energy and climate plan;

Amendment

(b) the progress made by each Member State towards meeting its targets ***and objectives*** and implementing the policies and measures set out in its integrated national energy and climate plan;

Amendment 167

Proposal for a regulation

Article 25 – paragraph 1 – point c a (new)

Text proposed by the Commission

Amendment

(ca) the overall impact of the policies and measures of integrated national plans on the operation of the Union climate and energy policy measures, with a view to revising the Union nationally determined contribution and increasing ambition in line with Paris Agreement commitments;

Amendment 168

Proposal for a regulation

Article 25 – paragraph 1 – point c b (new)

Text proposed by the Commission

Amendment

(cb) the overall impact of the policies and measures of integrated national plans on the operation of the EU ETS;

Amendment 169

Proposal for a regulation

Article 25 – paragraph 1 – point c c (new)

Text proposed by the Commission

Amendment

(cc) the accuracy of Member State estimates of the effect of national level overlapping policies and measures on the supply-demand balance of the EU ETS, or, in absence of such estimates, conduct its own assessment of the same impact;

Amendment 170

Proposal for a regulation

Article 25 – paragraph 1 a (new)

Text proposed by the Commission

Amendment

1a. *The Commission shall announce in advance the indicators that it intends to use to make such assessments.*

Amendment 171

Proposal for a regulation

Article 25 – paragraph 2

Text proposed by the Commission

Amendment

2. In the area of renewable energy, as part of its assessment referred to in paragraph 1, the Commission shall assess the progress made in the share of energy from renewable sources in the Union's gross final consumption on the basis of a linear trajectory starting from 20% in 2020 and reaching at least **27%** in 2030 as referred to in Article 4(a)(2)(i).

2. In the area of renewable energy, as part of its assessment referred to in paragraph 1, the Commission shall assess the progress made in the share of energy from renewable sources in the Union's gross final consumption on the basis of a **binding** linear trajectory starting from 20% in 2020 and reaching at least **35%** in 2030 as referred to in Article 4(a)(2)(ic).

Amendment 172

Proposal for a regulation

Article 25 – paragraph 3 – subparagraph 1

Text proposed by the Commission

Amendment

In the area of energy efficiency, as part of its assessment referred to in paragraph 1, the Commission shall assess progress towards collectively achieving a maximum energy consumption at Union level of **1 321** Mtoe of primary energy consumption and **987** Mtoe of final energy consumption in 2030 as referred to in Article **6(1)(a)**.

In the area of energy efficiency, as part of its assessment referred to in paragraph 1, the Commission shall assess progress towards collectively achieving a maximum energy consumption at Union level of **1 132** Mtoe of primary energy consumption and **849** Mtoe of final energy consumption in 2030 as referred to in Article **6(1)(a)**.

Amendment 173

Proposal for a regulation

Article 25 – paragraph 3 – subparagraph 2 – point a

Text proposed by the Commission

(a) **consider** whether the Union's **milestone** of no more than 1483 Mtoe of primary energy and no more than 1086 Mtoe of final energy in 2020 is achieved;

Amendment

(a) **assess whether individual Member States are on track to meet their national binding target and** whether the Union's **target** of no more than 1483 Mtoe of primary energy and no more than 1086 Mtoe of final energy in 2020 is achieved;

Amendment 174

Proposal for a regulation

Article 25 – paragraph 5

Text proposed by the Commission

5. **By 31 October 2019 and every four years thereafter, the Commission shall assess the implementation of Directive 2009/31/EC.**

Amendment

Amendments 175 and 307

Proposal for a regulation

Article 26

Text proposed by the Commission

Article 26

Follow-up in case of inconsistencies with overarching Energy Union objectives and targets under the Effort Sharing Regulation

1. Based on the assessment pursuant to

Amendment

Article 26

Follow-up in case of inconsistencies with overarching Energy Union objectives and targets under the Effort Sharing Regulation

1. Based on the assessment pursuant to

Article 25, the Commission shall issue recommendations to a Member State pursuant to Article 28 if policy developments in that Member State show inconsistencies with the overarching objectives of the Energy Union.

2. The Commission may issue opinions on the action plans submitted by Member States according to Article 8(1) of Regulation [] [ESR].

Article 25, the Commission shall issue recommendations to a Member State pursuant to Article 28 if policy developments in that Member State show inconsistencies with the overarching objectives of the Energy Union **and with the Union's long-term greenhouse gas reductions targets.**

1a. A Member State that intends to use the flexibility pursuant to Article 7 of Regulation (EU) .../... [Effort Sharing] shall include in the plan pursuant to Article 3 of this Regulation the level of intended use and the planned policies and measures to exceed the requirements under Article 4 of Regulation (EU) .../... [LULUCF] for the period from 2021 to 2030 to the level necessary.

2. The Commission may issue opinions on the action plans submitted by Member States according to Article **7 and Article** 8(1) of Regulation [] [ESR].

2a. The Commission may temporarily suspend the possibility of a Member State to transfer annual emission allocations to other Member States.

2b. Given the high global warming potential and relatively short atmospheric lifetime of methane, the Commission shall analyse the implications for policies and measures of adopting a 20-year time horizon for methane. The Commission shall consider policy options for rapidly addressing methane emissions and come forward with a Union Methane Strategy, taking into account the circular economy objectives as appropriate, with a priority to energy and waste related methane emissions.

2c. The Commission shall report in 2027 for the period from 2021 to 2025, and in 2032 for the period 2026 to 2030, on the Union's total emissions and removals of greenhouse gases for each of the land accounting categories referred to in Article 2 under Regulation (EU) .../... [LULUCF], calculated as the total reported emissions and removals for the

period minus the value obtained by multiplying by five the Union's average annual reported emissions and removals in the period 2000 to 2009. On the basis of the findings of the report, the Commission shall, as appropriate, make proposals to ensure the integrity of the Union's overall 2030 greenhouse gas emission reduction target and its contribution to the goals of the Paris Agreement.

Amendment 309

Proposal for a regulation Article 27 – paragraph -1 (new)

Text proposed by the Commission

Amendment

-1. If, on the basis of the assessment of the draft integrated national energy and climate plans pursuant to Article 9, the Commission concludes that Member States' targets are insufficient for the collective achievement of the Union's 2030 binding overall targets for renewable energy sources and energy efficiency, it may request Member States whose targets it deems to be insufficient to increase their level of ambition in order to ensure the relevant level of collective ambition.

Amendment 310

Proposal for a regulation Article 27 – paragraph -1 a (new)

Text proposed by the Commission

Amendment

-1a. In the area of renewable energy, the Commission shall use the circumstances listed in Article 5(1) as the objective criteria for its assessment referred to in Article 12. Member States with a target below that resulting from applying the formula set out in Annex Ia shall increase

their target accordingly.

Amendment 176

Proposal for a regulation Article 27 – paragraph 1

Text proposed by the Commission

1. If, on the basis of its assessment of the integrated national energy and climate plans ***and their updates*** pursuant to Article 12, the Commission concludes that the targets, objectives ***and contributions*** of the national plans ***or their updates*** are insufficient ***for the collective achievement of the Energy Union objectives and, in particular, for the first ten-years period, for the Union's 2030 targets for renewable energy and energy efficiency***, it shall take measures at Union level in order to ensure the ***collective*** achievement of those objectives and targets. With regard to renewable energy, ***such measures shall take into consideration the level of ambition of contributions to the Union's 2030 target by Member States set out in the national plans and their updates.***

Amendment

1. If, on the basis of its assessment of the integrated national energy and climate plans pursuant to Article 12, the Commission concludes that the targets ***and*** objectives of the national plans are insufficient, it shall take measures at Union level in order to ensure the achievement of those objectives and targets.

With regard to renewable energy, ***without prejudice to other measures, Member States' national 2030 target shall be revised pursuant to Article 3(2) and Annex Ia to Directive (EU) .../... [RED recast] by 31 December 2020.***

Amendment 177

Proposal for a regulation Article 27 – paragraph 2

Text proposed by the Commission

2. If, on the basis of its assessment

Amendment

2. If on the basis of its assessment

pursuant to Article 25(1)(b), the Commission concludes that insufficient progress is made by a Member State towards meeting *the* targets, objectives and *contributions* or implementing the policies and measures set out in its integrated national climate and energy plan, it shall issue recommendations to the Member State concerned pursuant to Article 28. ***In issuing such recommendations, the Commission shall take into consideration ambitious early efforts by Member States to contribute to the Union's 2030 target for renewable energy.***

pursuant to Article 25(1)(b), the Commission concludes that insufficient progress is made by a Member State towards meeting *their trajectories*, targets ***and*** objectives or implementing the policies and measures set out its integrated national climate and energy plan, it shall issue recommendations to the Member State concerned pursuant to Article 28.

Amendment 178

Proposal for a regulation Article 27 – paragraph 3

Text proposed by the Commission

3. If, on the basis of its ***aggregate*** assessment of Member States' integrated national energy and climate progress reports ***pursuant to Article 25(1)(a), and*** supported by other information sources, as appropriate, the Commission concludes that the Union is at risk of not meeting the objectives of the Energy Union and, in particular, for the first ten-years period, the targets of the Union's 2030 Framework for Climate and Energy, it ***may*** issue recommendations to all Member States pursuant to Article 28 to mitigate such risk. The Commission shall, as appropriate, take measures at Union level in addition to the recommendations in order to ensure, in particular, the achievement of the Union's 2030 targets for renewable energy and energy efficiency. ***With regard to renewable energy***, such measures shall take into consideration ambitious early efforts by Member States to contribute to the Union's 2030 target.

Amendment

3. If, on the basis of its assessment of Member States' integrated national energy and climate progress reports ***or*** supported by other information sources, as appropriate, ***pursuant to Article 25*** the Commission concludes that the Union is at risk of not meeting the objectives of the Energy Union and, in particular, for the first ten-years period, the targets of the Union's 2030 Framework for Climate and Energy, it ***shall*** issue recommendations to all Member States pursuant to Article 28 to mitigate such risk. ***In issuing such recommendations, the Commission shall take into consideration the Member State's level of ambition to the Union's 2030 targets.*** The Commission shall, as appropriate, take measures at Union level in addition to the recommendations in order to ensure in particular the achievement of the Union's 2030 targets for renewable energy and energy efficiency. Such measures shall take into consideration ambitious early efforts, ***in particular those from 2021 onwards*** by

Member States to contribute to the Union's 2030 *targets, the level of compliance by Member States with their national targets and trajectories as well as any contribution to the financial platform pursuant to paragraph 4(c).*

Amendment 179

Proposal for a regulation

Article 27 – paragraph 3 – subparagraph 1 a (new)

Text proposed by the Commission

Amendment

In the area of energy efficiency, such additional measures may in particular improve the energy efficiency of:

(a) products, pursuant to Directives 2009/125/EC and 2010/30/EU;

(b) buildings, pursuant to Directives 2010/31/EU and 2012/27/EU; and

(c) transport.

Amendment 180

Proposal for a regulation

Article 27 – paragraph 3 a (new)

Text proposed by the Commission

Amendment

3a. If, on the basis of its assessment pursuant to Article 25(1)(a), the Commission concludes that an infrastructure project is potentially obstructing the development of a resilient Energy Union, the Commission shall issue a preliminary assessment of the project's compatibility with the long-term objectives of the internal energy market, in particular taking into account the long-term objective, and include

recommendations to the Member State concerned pursuant to Article 28. Prior to issuing such an assessment, the Commission may consult other Member States.

Amendment 293

Proposal for a regulation

Article 27 – paragraph 4 – introductory part

Text proposed by the Commission

4. If, in the area of renewable energy, without prejudice to the measures at Union level set out in paragraph 3, the Commission concludes, based on its assessment pursuant to Article 25(1) and (2) **in the year 2023, that the linear Union trajectory referred to in Article 25(2) is not collectively met**, Member States shall ensure **by the year 2024** that any emerging gap is covered by additional measures, such as:

Amendment

4. If, in the area of renewable energy, without prejudice to the measures at Union level set out in paragraph 3, the Commission concludes, based on its assessment pursuant to Article 25(1) and (2), **that a Member State is not making sufficient progress to comply with its 2030 national target, in particular by not complying with its reference points in 2022, 2025 and 2027 as set out in Annex Ia, the Member States concerned** shall ensure that any emerging gap **with its trajectory** is covered **within one year** by additional measures, such as:

Amendment 182

Proposal for a regulation

Article 27 – paragraph 4 – point b a (new)

Text proposed by the Commission

Amendment

(ba) action to promote a higher share of electricity generated by renewable energy based on the criteria in Article 4 of Directive (EU) .../... [recast of Directive 2009/28/EC];

Amendment 183

Proposal for a regulation

Article 27 – paragraph 4 – point c

Text proposed by the Commission

(c) making a financial contribution to a financing platform set up at Union level, contributing to renewable energy projects and managed directly or indirectly by the Commission;

Amendment

(c) making a **voluntary** financial contribution to a financing platform set up at Union level contributing to renewable energy projects, ***in particular those having an Energy Union interest***, and managed directly or indirectly by the Commission;

Amendment 184

Proposal for a regulation

Article 27 – paragraph 4 – point c a (new)

Text proposed by the Commission

Amendment

(ca) using cooperation mechanisms set out in Directive (EU) .../... [recast of the RED];

Amendment 185

Proposal for a regulation

Article 27 – paragraph 4 – subparagraph 2

Text proposed by the Commission

Such measures shall take into account the level of ***ambition of early*** contributions to ***the Union's 2030 target*** for renewable energy ***by the Member State concerned***.

Amendment

Such measures shall take into account the ***Member State's*** level of ***compliance with its national target and trajectory*** for renewable energy.

The Commission shall, as appropriate, take measures at Union level in addition to measures at national level in order to ensure the achievement of the Union's binding linear trajectory and the Union's 2030 binding target for renewable energy.

Amendment 186

Proposal for a regulation Article 27 – paragraph 5

Text proposed by the Commission

5. If, in the area of energy efficiency, without prejudice to other measures at Union level pursuant to paragraph 3, the Commission concludes, based on its assessment pursuant to Article 25(1) and (3), in the year 2023 ***that progress towards collectively achieving the Union's energy efficiency target mentioned in the first subparagraph of Article 25(3) is insufficient, it shall take measures by the year 2024 in addition to those set out in Directive 2010/31/EU [version as amended in accordance with proposal COM(2016) 765] and Directive 2012/27/EU [version as amended in accordance with proposal COM(2016) 761] to ensure that the Union's binding 2030 energy efficiency targets are met. Such additional measures may in particular improve the energy efficiency of:***

(a) products, pursuant to Directive 2010/30/EU and Directive 2009/125/EC;

(b) buildings, pursuant to Directive 2010/31/EU [version as amended in accordance with COM(2016) 765] and Directive 2012/27/EU [version as amended in accordance with COM(2016) 761];

(c) transport.

Amendment

5. If, in the area of energy efficiency, without prejudice to other measures at Union level pursuant to paragraph 3, the Commission concludes, based on its assessment pursuant to Article 25(1) and (3), in the year 2023 ***and every two years thereafter that a Member State is not making sufficient progress to comply with its 2030 national binding target and trajectory, the Member State concerned shall ensure by the year 2024 and every two years thereafter, respectively, that any emerging gap to its trajectory is covered by additional measures within one year.***

Amendment 187

Proposal for a regulation Article 27 – paragraph 5 a (new)

Text proposed by the Commission

Amendment

5a. *Each Member State concerned referred to in paragraph 4 or 5 shall detail the additional implemented, adopted and planned measures to cover the gap to comply with its 2030 national targets and trajectories as part of its following progress report referred to in Article 15.*

Amendment 188

Proposal for a regulation Article 28 – paragraph 2 – point b

Text proposed by the Commission

Amendment

(b) the Member State shall set out, in its integrated national energy and climate progress report made in the year following the year the recommendation was issued, how it has taken utmost account of the recommendation and how it has implemented or intends to implement it. It shall provide *justifications* where it deviates from it;

(b) the Member State shall set out, in its integrated national energy and climate progress report made in the year following the year the recommendation was issued, how it has taken account of the recommendation and how it has implemented or intends to implement it. It shall provide *reasons* where it deviates from it.

Transitional provisions

By way of derogation from Article 50 of this Regulation, Articles 7 and 17(1)(a) and

By way of derogation from Article 50 of this Regulation, Articles 7 and 17(1)(a) and

(d) of Regulation (EU) No 525/2013 shall continue to apply to the reports containing the data required under those Articles for the years 2018, 2019 and 2020.

Article 19 of Regulation (EU) No 525/2013 shall continue to apply to the reviews of the GHG inventory data for the years 2018, 2019 and 2020.

Article 22 of Regulation (EU) No 525/2013 shall continue to apply to the submission of the report required under that Article.

(d) of Regulation (EU) No 525/2013 shall continue to apply to the reports containing the data required under those Articles for the years 2018, 2019 and 2020.

Article 11(3) of Regulation (EU) No 525/2013 shall continue to apply as regards the second commitment period of the Kyoto Protocol.

Article 19 of Regulation (EU) No 525/2013 shall continue to apply to the reviews of the GHG inventory data for the years 2018, 2019 and 2020.

Article 22 of Regulation (EU) No 525/2013 shall continue to apply to the submission of the report required under that Article.

Article 26(1) of Regulation (EU) No 525/2013 shall continue to apply for the purpose of the implementation of Articles 15, 17, 23, 31 and 32 of this Regulation as well as where referred to in other Union legal acts.

Amendment 214

Proposal for a regulation

Annex I – part 1 – section A – paragraph 1 – point 1.3 – point iii

Text proposed by the Commission

iii. Consultations with stakeholders, including social partners, and engagement of civil society

Amendment

iii. Consultations with stakeholders, including ***the*** social partners, and engagement of civil society ***and the general public***

Amendment 215

Proposal for a regulation

Annex I – part 1 – section A – paragraph 1 – point 1.4 – title

Text proposed by the Commission

Amendment

1.4. Regional cooperation in preparing the plan

1.4. **Macro-regional and** regional cooperation in preparing the plan

Amendment 216

Proposal for a regulation

Annex I – part 1 – section A – paragraph 1 – point 1.4 – point ii

Text proposed by the Commission

Amendment

ii. Explanation of how regional cooperation is considered in the plan

ii. Explanation of how **macro-regional and** regional cooperation is considered in the plan

Amendment 217

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.1 – point 2.1.1 – title

Text proposed by the Commission

Amendment

2.1.1. GHG emissions and removals (***for the plan covering the period from 2021 to 2030, the 2030 Framework target of at least 40% domestic reduction in economy-wide greenhouse gas emissions as compared to 1990***)¹

2.1.1. GHG emissions and removals¹

¹ Consistency to be ensured with long-term low emission strategies pursuant to Article 14.

¹ Consistency to be ensured with long-term low emission strategies pursuant to Article 14.

Amendment 218

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.1 – point 2.1.1 – point i a (new)

Text proposed by the Commission

Amendment

ia. The Member State's national trajectories from 2021 onwards for maintaining and enhancing the carbon removals from sinks consistent with the Paris Agreement

Amendment 219

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.1 – point 2.1.1 – point ii

Text proposed by the Commission

Amendment

ii. ***If applicable***, other national objectives and targets consistent with existing long-term low emission strategies. If applicable, other objectives and targets, including sector targets and adaptation goals

ii. Other national objectives and targets consistent with ***the Paris Agreement and the long-term climate and energy*** strategies. If applicable, other objectives and targets, including sector targets and adaptation goals

Amendment 220

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.1 – point 2.1.2 – point i

Text proposed by the Commission

Amendment

i. The Member State's ***planned share of*** energy from renewable sources in gross final consumption of energy in 2030 ***as its national contribution to achieve the binding EU-level target of at least 27% in 2030***

i. The Member State's ***national target for*** energy from renewable sources in gross final consumption of energy in 2030

Amendment 221

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.1 – point 2.1.2 – point iii

Text proposed by the Commission

iii. Trajectories for the sectorial share of renewable energy in final energy consumption from 2021 to 2030 in the electricity, heating and cooling, and transport sectors

Amendment

iii. ***The Member State's*** trajectories for the sectorial share of renewable energy in final energy consumption from 2021 to 2030 in the electricity, heating and cooling, and transport (***disaggregated between road, rail and air***) sector

Amendment 222

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.1 – point 2.1.2 – point iv

Text proposed by the Commission

iv. Trajectories by renewable energy technology that the Member State projects to use to achieve the overall and sectorial trajectories for renewable energy from 2021 to 2030 including expected total gross final energy consumption per technology and sector in Mtoe and total planned installed capacity (divided by new capacity and repowering) per technology and sector in MW

Amendment

iv. Trajectories by renewable energy technology that the Member State projects to use to achieve the overall and sectorial trajectories for renewable energy from 2021 to 2030 including expected total gross final energy consumption per technology and sector in Mtoe and total ***net*** planned installed capacity (divided by new capacity and repowering) per technology and sector in MW

Amendment 223

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.1 – point 2.1.2 – point v

Text proposed by the Commission

v. Trajectories on bioenergy demand, disaggregated between heat, electricity and transport, and on biomass supply, by

Amendment

v. ***The Member State's*** trajectories on bioenergy demand, disaggregated between heat, electricity and transport, and on

feedstocks and origin (distinguishing between domestic production and imports). For forest biomass, an assessment of its source and impact on the LULUCF sink

biomass supply by feedstocks, domestic production vs imports. For forest biomass, an assessment of its source and impact on the LULUCF sink

Amendment 224

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.1 – point 2.1.2 – point v a (new)

Text proposed by the Commission

Amendment

va. The Member State's share of as well as trajectories and objectives for energy from renewable sources produced by cities, energy communities and self-consumers in 2030 and renewable energy trajectories from 2021 to 2030 including expected total gross final energy consumption

Amendment 225

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.1 – point 2.1.2 – point vi

Text proposed by the Commission

Amendment

vi. If applicable, other national trajectories and objectives, including long-term or sectorial ones (e.g. share of advanced biofuels, share of renewable energy in district heating, renewable energy use in buildings, **renewable energy produced by cities, energy communities and self-consumers**)

vi. If applicable, other national trajectories and objectives, including long-term or sectorial ones (e.g. share of renewable energy in district heating, renewable energy use in buildings, **energy recovered from the sludge acquired through the treatment of wastewater**)

Amendment 226

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.2 – point i

Text proposed by the Commission

i. ***The indicative national energy efficiency contribution to achieving the Union's binding energy efficiency target of 30%*** in 2030 as referred to in Article 1(1) and Article 3(4) of Directive 2012/27/EU [version as amended in accordance with proposal COM(2016)761], ***based on either primary or final energy consumption, primary or final energy savings, or energy intensity***; expressed in terms of absolute level of primary energy consumption and final energy consumption in 2020 and 2030, with a linear trajectory for that ***contribution*** from 2021 onwards; including the underlying methodology and the conversion factors used

Amendment

i. ***The Member State's binding target for energy efficiency in 2030*** as referred to in Article 1(1), Article 3(4) of Directive 2012/27/EU [version as amended in accordance with proposal COM(2016)761], expressed in terms of absolute level of primary energy consumption and final energy consumption in 2020 and 2030, with a linear trajectory for that ***target*** from 2021 onwards; including the underlying methodology and the conversion factors used

Amendment 227

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.2 – point ii

Text proposed by the Commission

ii. Cumulative amount of energy savings to be achieved over the period 2021-2030 under Article 7 on energy saving obligations of Directive 2012/27/EU [version as amended in accordance with proposal COM(2016)761],

Amendment

ii. Cumulative amount of ***additional*** energy savings to be achieved over the period 2021-2030 ***and following periods*** under Article 7 on energy saving obligations of Directive 2012/27/EU [version as amended in accordance with proposal COM(2016)761],

Amendment 228

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.2 – point iii

Text proposed by the Commission

iii. Objectives for the long-term renovation of the national stock of residential and commercial buildings (both public and private)

Amendment

iii. Objectives **for 2030 and 2040** for the long-term renovation of the national stock of residential and **non-residential** buildings (both public and private), **in line with the 2050 goal of a nearly zero energy and decarbonised building stock**

Amendment 229

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.2 – point iv

Text proposed by the Commission

iv. The total floor area to be renovated or equivalent annual energy savings to be achieved from 2021 to 2030 under Article 5 on the exemplary role of public bodies' buildings of Directive [2012/27/EU](#),

Amendment

iv. The total floor area to be renovated **and corresponding energy savings** or equivalent annual energy savings to be achieved from 2021 to 2030 under Article 5 on the exemplary role of public bodies' buildings of Directive [2012/27/EU](#)

Amendment 230

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.3 – point i

Text proposed by the Commission

i. National objectives with regard to increasing the diversification of energy sources and supply from third countries, storage and demand response

Amendment

i. National objectives with regard to increasing the diversification of energy sources and supply from third countries, **the uptake of energy savings measures**, storage and demand response

Amendment 231

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.3 – point ii

Text proposed by the Commission

ii. National objectives with regard to reducing energy import dependency from third countries

Amendment

ii. National objectives with regard to reducing energy import dependency dependency ***from fossil fuels (oil, coal and gas) and, if applicable, other fuels*** from third countries

Amendment 232

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.3 – point iv

Text proposed by the Commission

iv. National objectives with regard to deployment of domestic energy sources (notably renewable energy)

Amendment

iv. National objectives with regard to ***increasing the flexibility of the national energy system***

Amendment 233

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.4 – point 2.4.1 – point i

Text proposed by the Commission

i. The level of electricity interconnectivity that the Member State aims for in 2030 ***in relation to the October 2014 European Council objective***

Amendment

i. The level of electricity interconnectivity that the Member State aims for in 2030 ***of at least 15 %, taking into account the 2020 interconnection target of 10 %***

Amendment 234

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.4 – point 2.4.2 – point i

Text proposed by the Commission

i. Key national objectives for electricity and gas transmission infrastructure that are necessary for the achievement of objectives and targets under any of the dimensions of the Energy Union *strategy*

Amendment

i. Key national objectives for electricity and gas transmission *and distribution* infrastructure *and its modernisation* that are necessary for the achievement of objectives and targets under any of the dimensions of the Energy Union *listed in point 2*

Amendment 235

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.4 – point 2.4.3 – point i

Text proposed by the Commission

i. National objectives related to other aspects of the internal energy market such as market integration and coupling, including a timeframe for when the objectives shall be met

Amendment

i. National objectives related to other aspects of the internal energy market such as *increasing system flexibility*, market integration and coupling, *smart grids, aggregation, demand response, storage, distributed generation, mechanisms for dispatching, re-dispatching and curtailment, real-time price signals*, including a timeframe for when the objectives should be met;

Amendment 236

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.4 – point 2.4.3 – point i a (new)

Text proposed by the Commission

Amendment

ia. National objectives related to the non-discriminatory participation of

renewable energy, demand response and storage, including via aggregation, in all energy markets including a timeframe for when the objectives should be met;

Amendment 237

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.4 – point 2.4.3 – point i b (new)

Text proposed by the Commission

Amendment

ib. National objectives with regard to ensuring that consumers participate in the energy system and benefit from self-generation and new technologies, including smart meters;

Amendment 238

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.4 – point 2.4.3 – point iii

Text proposed by the Commission

Amendment

iii. National objectives to protect energy consumers and improve the competitiveness of the retail energy sector

iii. National objectives to protect energy consumers, **increase transparency, encourage supplier switch** and improve the competitiveness of the retail energy sector

Amendment 240

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.5 – point i

Text proposed by the Commission

Amendment

i. National objectives and funding

i. National objectives and funding

targets for public *and private* research and innovation relating to the Energy Union including, if appropriate, a timeframe for when the objectives shall be met; reflecting the priorities of the Energy Union Strategy and the SET-Plan

targets for public *support for* research and innovation relating to the Energy Union *and its expected leveraging effect on private research* including, if appropriate, a timeframe for when the objectives shall be met; reflecting the priorities of the Energy Union Strategy and the SET-Plan

Amendment 241

Proposal for a regulation

Annex I – part 1 – section A – paragraph 2 – point 2.5 – point ii

Text proposed by the Commission

ii. *If appropriate, national objectives including long-term targets (2050) for the deployment of low-carbon technologies, including for decarbonising energy- and carbon-intensive industrial sectors and, if applicable, for related carbon transport and storage infrastructure*

Amendment

ii. *National 2050 objectives related to the promotion of sustainable technologies*

Amendment 242

Proposal for a regulation

Annex I – part 1 – section A – paragraph 3 – point 3.1 – point 3.1.1

Text proposed by the Commission

3.1.1 GHG emissions and removals (*for the plan covering the period from 2021 to 2030, the 2030 Framework target*)

i. Policies and measures to achieve the target set under Regulation [] [ESR] as referred to in 2.1.1 and policies and measures to comply with Regulation [] [LULUCF], covering all key emitting sectors and sectors for the enhancement of removals, with an outlook to the long-term vision and goal to become a *low-carbon economy with a 50 years perspective* and

Amendment

3.1.1 GHG emissions and removals

i. Policies and measures to achieve the target set under Regulation [] [ESR] as referred to in 2.1.1 and policies and measures to comply with Regulation [] [LULUCF], *and the trajectories for maintaining and enhancing the carbon removals from sinks as referred in 2.1.1*, covering all key emitting sectors and sectors for the enhancement of removals,

achieving a balance between emissions and removals in accordance with the Paris Agreement

- ii. Regional cooperation in this area
- iii. If applicable, without prejudice to the applicability of State aid rules, financing measures, including EU support and the use of EU funds, in this area at national level

with an outlook to the long-term vision and goal *so as to achieve a net-zero greenhouse gas emissions within the Union by 2050 and go into negative emissions soon thereafter* in accordance with the Paris Agreement

- ii. Regional cooperation in this area
- iii. Without prejudice to the applicability of state aid rules, financing measures, including EU support and the use of EU funds, in this area at national level, if applicable

Amendment 243

Proposal for a regulation

Annex I – part 1 – section A – paragraph 3 – point 3.1 – point 3.1.2 – point i

Text proposed by the Commission

- i. Policies and measures to achieve the national **contribution** to the binding EU-level 2030 target for renewable energy and trajectories as presented in 2.1.2 including sector- and technology-specific measures⁶

⁶ When planning these measures, Member States shall take into account the end of life of existing installations and the potential for repowering.

Amendment

- i. Policies and measures to achieve the **2030 national target and the 2030** binding EU-level target for renewable energy and trajectories as presented in 2.1.2 including sector- and technology-specific measures⁶

⁶ When planning these measures, Member States shall take into account the end of life of existing installations and the potential for repowering.

Amendment 244

Proposal for a regulation

Annex I – part 1 – section A – paragraph 3 – point 3.1 – point 3.1.2 – point iii

Text proposed by the Commission

- iii. Specific measures on financial support, including EU support and the use of EU funds, for the promotion of the

Amendment

- iii. Specific **national** measures on financial support **and fiscal measures as well as** including EU support and the use

production and use of energy from renewable sources in electricity, heating and cooling, and transport

of EU funds, for the promotion of the production and use of energy from renewable sources in electricity, heating and cooling, and transport

Amendment 245

Proposal for a regulation

Annex I – part 1 – section A – paragraph 3 – point 3.1 – point 3.1.2 – point iv

Text proposed by the Commission

iv. Specific measures to introduce a one-stop-shop, streamline administrative procedures, provide information and training, and empower renewable self-consumers and energy communities

Amendment

iv. Specific measures ***to remove excessively burdening costs and barriers to renewable deployment and*** to introduce a one-stop-shop, streamline administrative procedures, provide information and training. ***Expected impact in terms of triggered new renewable energy capacity***

Amendment 246

Proposal for a regulation

Annex I – part 1 – section A – paragraph 3 – point 3.1 – point 3.1.2 – point iv a (new)

Text proposed by the Commission

Amendment

iva. Specific measures to confer the right to and encourage all consumers to become renewable self-consumers, individually and collectively, producing, storing, self-consuming and selling their renewable energy, and expected impact in terms of triggered new renewable energy capacity

Amendment 247

Proposal for a regulation

Annex I – part 1 – section A – paragraph 3 – point 3.1 – point 3.1.2 – point vi a (new)

Text proposed by the Commission

Amendment

via. Other planned or adopted measures to promote renewable energy, in particular, but not limited to the following:

(a) measures aimed to ensure that all public administrations (national, regional or local) integrate the consumption of renewable energy in their activities;

(b) provisions included in the context of public procurement legislation aimed to guarantee that public administrations (national, regional and local) incorporate green public procurement awarding criteria for the purpose of encouraging the use of renewable energy sources by legal entities that intend to contract with them, regardless of the product or service to be awarded;

(c) provisions concerning the use of renewable energies as a requirement for the granting of any public subsidies or support, when appropriate.

Amendment 248

Proposal for a regulation

Annex I – part 1 – section A – paragraph 3 – point 3.1 – point 3.1.3 – point iv a (new)

Text proposed by the Commission

Amendment

iva. National policies, timelines and measures planned to phase out indirect and indirect fossil fuel subsidies by 2020

Amendment 249

Proposal for a regulation

Annex I – part 1 – section A – paragraph 3 – point 3.2 – introductory part

Text proposed by the Commission

Planned policies, measures and programmes to achieve the *indicative* national energy efficiency target for 2030 as well as other objectives presented in 2.2, including planned measures and instruments (also of financial nature) to promote the energy performance of buildings, in particular as regards the following:

Amendment

Planned policies, measures and programmes to achieve the *binding* national energy efficiency target for 2030 as well as other objectives presented in 2.2, including planned measures and instruments (also of financial nature) to promote the energy performance of buildings, in particular as regards to the following:

Amendment 250

Proposal for a regulation

Annex I – part 1 – section A – paragraph 3 – point 3.2 – point ii

Text proposed by the Commission

ii. Long-term strategy for the renovation of the national stock of residential and commercial buildings (both public and private)⁷ including policies and measures to stimulate cost-effective deep and staged deep renovations

Amendment

ii. Long-term strategy for the renovation of the national stock of residential and *non-residential* buildings (both public and private)⁷ including *energy efficiency and savings* policies, measures *and actions* to stimulate cost-effective deep and staged deep renovations *as well as those targeting the worst performing building stock and households in energy poverty*

7. In accordance with Article 2a of Directive 2010/31/EU [version as amended in accordance with proposal COM(2016)765].

⁷. In accordance with Article 2a of Directive 2010/31/EU [version as amended in accordance with proposal COM(2016)765].

Amendment 251

Proposal for a regulation

Annex I – part 1 – section A – paragraph 3 – point 3.2 – point iv

Text proposed by the Commission

iv. Other planned policies, measures and programmes to achieve the **indicative** national energy efficiency target for 2030 as well as other objectives presented in 2.2 (for example measures to promote the exemplary role of public buildings and energy-efficient public procurement, measures to promote energy audits and energy management systems⁹, consumer information and training measures¹⁰, and other measures to promote energy efficiency¹¹)

⁹. In accordance with Article 8 of Directive 2012/27/EU.

¹⁰. In accordance with Articles 12 and 17 of Directive 2012/27/EU

¹¹. In accordance with Article 19 of Directive 2012/27/EU.

Amendment

iv. Other planned policies, measures and programmes to achieve **binding** national energy efficiency target for 2030 as well as other objectives presented in 2.2 (for example measures to promote the exemplary role of public buildings and energy-efficient public procurement, measures to promote energy audits and energy management systems⁹, consumer information and training measures¹⁰, and other measures to promote energy efficiency¹¹)

⁹. In accordance with Article 8 of Directive 2012/27/EU.

¹⁰. In accordance with Articles 12 and 17 of Directive 2012/27/EU

¹¹. In accordance with Article 19 of Directive 2012/27/EU.

Amendment 252

Proposal for a regulation

Annex I – part 1 – section A – paragraph 3 – point 3.2 – point iv a (new)

Text proposed by the Commission

Amendment

iva. Description of policies and measures to promote the role of local energy communities in contributing to the implementation of policies and measures in points i, ii, iii and iv

Amendment 253

Proposal for a regulation

Annex I – part 1 – section A – paragraph 3 – point 3.4 – point 3.4.3 – point ii

Text proposed by the Commission

ii. Measures to increase the flexibility of the energy system with regard to renewable energy production, including the roll-out of intraday market coupling and cross-border balancing markets

Amendment

ii. Measures to increase the flexibility of the energy system, including the roll-out of intraday market coupling and cross-border balancing markets, ***the deployment of smart grids and storage, the growth of demand response and distributed generation as well as the adjustment of price formation, including via real-time price signals***

Amendment 254

Proposal for a regulation

Annex I – part 1 – section A – paragraph 3 – point 3.4 – point 3.4.3 – point ii a (new)

Text proposed by the Commission

Amendment

ii.a. Measures to ensure the non-discriminatory participation of renewable energy, demand response and storage, including via aggregation, in all energy markets

Amendment 255

Proposal for a regulation

Annex I – part 1 – section A – paragraph 3 – point 3.4 – point 3.4.3 – point iii

Text proposed by the Commission

iii. Measures ***to ensure priority access and dispatch of electricity produced from renewable energy sources or high-efficiency cogeneration and prevent the curtailment or re-dispatch of this***

Amendment

iii. Measures ***related to the adaptation of system operation rules and practices to enhance system flexibility; measures related to the use of dispatching rules which serve the achievement of the***

*electricity*¹⁸

*national renewable energy and greenhouse gas emissions reduction targets; measures related to the use of rules which minimise and compensate renewable energy re-dispatching and curtailment; measures to advance aggregation*¹⁸

¹⁸. In accordance with [recast of Directive 2009/72/EC as proposed by COM(2016) 864 and recast of Regulation (EC) No 714/2009 as proposed by COM(2016) 861]

¹⁸. In accordance with [recast of Directive 2009/72/EC as proposed by COM(2016) 864 and recast of Regulation (EC) No 714/2009 as proposed by COM(2016) 861]

Amendment 256

Proposal for a regulation

Annex I – part 1 – section A – paragraph 3 – point 3.5 a (new)

Text proposed by the Commission

Amendment

3.5a. Energy efficiency first principle

Description of how the dimensions and the policies and measures are taking into account the energy efficiency first principle

Amendment 257

Proposal for a regulation

Annex I – part 1 – section B – paragraph 4 – point 4.4 – point i

Text proposed by the Commission

Amendment

i. Current energy mix, domestic energy resources, import dependency, including relevant risks

i. Current energy mix, domestic energy resources, ***including demand response***, import dependency, including relevant risks

Amendment 258

Proposal for a regulation

Annex I – part 1 – section B – paragraph 4 – point 4.6 – point iii a (new)

Text proposed by the Commission

Amendment

iiia. Current level of national fossil fuel subsidies

Amendment 259

Proposal for a regulation

Annex I – part 1 – section B – paragraph 4 – point 4.6 – point iv

Text proposed by the Commission

Amendment

iv. Projections of developments in i. to *iii.* with existing policies and measures at least until 2040 (including for the year 2030)

iv. Projections of developments in i. to *iiia.* with existing policies and measures at least until 2040 (including for the year 2030)

Amendment 260

Proposal for a regulation

Annex I – part 1 – section B – paragraph 4 – point 4.6 a (new)

Text proposed by the Commission

Amendment

*4.6a. Energy efficiency first principle
Description of how the dimensions and the policies and measures are taking into account the energy efficiency first principle*

Amendment 261

Proposal for a regulation

Annex I – part 1 – section B – paragraph 5 – title

Text proposed by the Commission

5. IMPACT ASSESSMENT OF
PLANNED POLICIES AND
MEASURES²⁹

²⁹. Planned policies and measures are options under discussion and having a realistic chance of being adopted and implemented after the date of submission of the national plan. The resulting projections under section 5.1.i shall therefore include not only implemented and adopted policies and measures (projections with existing policies and measures), but also planned policies and measures.

Amendment

5. IMPACT ASSESSMENT OF
PLANNED POLICIES MEASURES AND
INVESTMENT STRATEGIES²⁹

²⁹. Planned policies and measures are options under discussion and having a realistic chance of being adopted and implemented after the date of submission of the national plan. The resulting projections under section 5.1.i shall therefore include not only implemented and adopted policies and measures (projections with existing policies and measures), but also planned policies and measures.

Amendment 262

Proposal for a regulation

Annex I – part 1 – section B – paragraph 5 – point 5.1

Text proposed by the Commission

5.1. Impacts of planned policies and measures described in section 3 on energy system and greenhouse gas emissions and removals including comparison to projections with existing policies and measures (as described in section 4).

Amendment

5.1. Impacts of planned policies, measures and **investment strategies** described in section 3 on energy system and greenhouse gas emissions and removals including comparison to projections with existing policies and measures (as described in section 4).

Amendment 263

Proposal for a regulation

Annex I – part 1 – section B – paragraph 5 – point 5.1 – point ii

Text proposed by the Commission

ii. Assessment of policy interactions (between existing and planned policies and measures within a policy dimension and between existing and planned policies and measures of different dimensions) at least until the last year of the period covered by the plan

Amendment

ii. Assessment of policy interactions (between existing and planned policies and measures within a policy dimension and between existing and planned policies and measures of different dimensions) at least until the last year of the period covered by the plan, ***in particular to establish a robust understanding of the impact of energy efficiency / energy savings policies on the sizing of the energy system and to reduce the risk of stranded investments in energy supply.***

Amendment 264

Proposal for a regulation

Annex I – part 1 – section B – paragraph 5 – point 5.1 – point ii a (new)

Text proposed by the Commission

Amendment

ii.a. Assessment of interactions between existing and planned national policies and measures, and Union climate and energy policy measures.

Amendment 265

Proposal for a regulation

Annex I – part 1 – section B – paragraph 5 – point 5.2 a (new)

Text proposed by the Commission

Amendment

5.2a Health and wellbeing

i. Implications for air quality and related health effects

ii. Other health and wellbeing impacts (e.g. water, noise or other pollution, walking and cycling expansion, commuting or other transport changes etc.)

Amendment 266

Proposal for a regulation

Annex I – part 1 – section B – paragraph 5 – point 5.2 b (new)

Text proposed by the Commission

Amendment

5.2b. Environmental impacts

- i. Details of any strategic environmental assessment or environmental impact assessments related to the strategy or national plans*
- ii. Water-related aspects e.g. water demand or extraction (taking account of potential future climate change), impacts on water or marine habitats of hydro or tidal power etc.*
- iii. Environmental (and climate) impacts of any increased mobilisation of bioenergy use (crop-based biofuels, forest biomass etc.) and relationship to strategy for removals in the land use sector*

Amendment 267

Proposal for a regulation

Annex I – part 1 – section B – paragraph 5 – point 5.2 c (new)

Text proposed by the Commission

Amendment

5.2c Investment impacts

- i. existing investment flows;*
- ii. forward investment assumptions linked to each of the planned policies and measures, including the risk profile of the planned policies and measures;*
- iii. sector or market risk factors or barriers in the national (or macro-regional) context;*

iv. analysis of additional public finance support or resources to fill identified gaps identified under (iii);

v. qualitative assessment of investor confidence, including visibility of a project pipeline and viability or attractiveness of investment opportunities;

vi. review of previous year against assumptions, forward view including substantive factors facing investors.

Amendment 294/rev

**Proposal for a regulation
Annex I a (new)**

Text proposed by the Commission

Amendment

Annex Ia

NATIONAL TRAJECTORIES FOR THE SHARE OF ENERGY FROM RENEWABLE SOURCES IN GROSS FINAL CONSUMPTION OF ENERGY BETWEEN 2020 AND 2030

The trajectory referred to in the second subparagraph of Article 4(a)(2) shall consist of the following reference points:

S2020 + 0,20 (S2030 – S2020), as an average for the period 2021 to 2022;

S2020 + 0,45 (S2030 – S2020), as an average for the period 2023 to 2025; and

S2020 + 0,70 (S2030 – S2020), as an average for the period 2025 to 2027;

where:

S2020 = the target for that Member State in 2020 pursuant to Article 3 and Annex I - part A of Directive .../... [recast of Directive 2009/28/EC as proposed by COM(2016)767]

and

S2030 = the target for that Member State in 2030.

Amendment 270

**Proposal for a regulation
Annex II – paragraph 1 – point b**

Text proposed by the Commission

Amendment

(b) volume of sales of energy used in transport excluded from the calculation [in ktoe];

(b) volume of sales of energy used in transport excluded from the calculation, *if any* [in ktoe];

Amendment 271

Proposal for a regulation Annex II – paragraph 1 – point c

Text proposed by the Commission

(c) quantity of energy generated for own use excluded from the calculation [in ktoe];

Amendment

(c) quantity of energy generated for own use excluded from the calculation *if any* [in ktoe];

Amendment 272

Proposal for a regulation Annex II – paragraph 1 – point f – introductory part

Text proposed by the Commission

(f) *application of exemptions (b), (c), (d) and (e) referred to Article 7(2) and (3) of Directive 2012/27/EU:*

Amendment

(f) *volumes of sales of energy or amount of energy savings [in ktoe] that are exempted pursuant to Article 7(2) and (3) of Directive 2012/27/EU;*

Amendment 274

Proposal for a regulation Annex II – paragraph 1 – point f – point ii

Text proposed by the Commission

(ii) *amount of energy savings [in ktoe] achieved in the energy transformation, distribution and transmission sectors in line with point (c),*

Amendment

deleted

Amendment 275

Proposal for a regulation

Annex II – paragraph 1 – point f – point iii

Text proposed by the Commission

Amendment

(iii) amount of energy savings [in ktoe] resulting from individual actions newly implemented since 31 December 2008 that continue to have an impact in 2020 and beyond and in line with point (d);

deleted

Amendment 276

Proposal for a regulation

Annex II – paragraph 1 – point f – point iv

Text proposed by the Commission

Amendment

(iv) amount of energy generated on or in buildings for own use as a result of policy measures promoting new installation of renewable energy technologies in line with point (e) [in ktoe];

deleted

Amendment 277

Proposal for a regulation

Annex II a (new)

Text proposed by the Commission

Amendment

Annex IIa

GENERAL FRAMEWORK FOR LONG-TERM CLIMATE AND ENERGY STRATEGIES

1. OVERVIEW AND PROCESS FOR DEVELOPING THE STRATEGIES

1.1. Executive Summary

1.2. Context

1.2.1. National, EU and international policy context for the long term strategies

1.2.2. Legal context

1.3. Consultations

1.3.1. Consultations with public and stakeholders (national parliament, local and regional, public and other relevant stakeholders)

1.3.2. Consultations with other Member States, third countries and EU institutions

2. NATIONAL LONG TERM CLIMATE AND ENERGY STRATEGIES

2.1. TOTAL GREENHOUSE GAS EMISSIONS REDUCTIONS AND ENHANCEMENTS OF REMOVALS BY SINK

2.1.1. Carbon budget until 2100 consistent with Paris Agreement

2.1.2. Trajectory for cost-effective pathway for net zero greenhouse gas emission - by 2050 and negative emissions soon thereafter

2.1.3. National target for 2030 and milestones for at least 2040 and 2050 aligned with the trajectory referred to under 2.1.2.

2.1.4. International dimension

2.1.5. Long-term adaptation goals

2.2. RENEWABLE ENERGY

2.2.1. Trajectory for reaching a renewables-based energy system in gross final consumption of energy - by 2050

2.2.2. National target for the share of energy from renewable sources in gross final consumption of energy in 2030 and the milestones for at least 2035, 2040 and 2045 aligned with the trajectory referred to under 2.2.2.

2.3. ENERGY EFFICIENCY

2.3.1. Trajectory for reaching the most energy efficient based economy by 2050 in

line with the objectives referred to in 2.1.2 and 2.2.1

2.3.2. National energy efficiency target expressed in terms of absolute level of primary energy consumption and final energy consumption in 2030, and the milestones for at least 2035, 2040 and 2045

3. SECTORIAL STRATEGIES

3.1. Energy system

3.1.1. Likely future demand, by energy carrier

3.1.2. Likely future generation capacity, including centralised and distributed storage, by technology

3.1.3. Intended or likely future emissions trajectory or range

3.1.4. Description of main drivers for energy efficiency, demand-side flexibility and energy consumption and their evolution from 2021 and beyond

3.1.5. Outline of policies and measures envisaged to achieve the renewables-based energy system referred to in 2.2.1 in gross final consumption of energy and the most energy efficient and flexible economy by 2050, including trajectories per technology

3.2. Industry

3.2.1. Expected emissions trajectories by sector and sources of energy supply

3.2.2. Decarbonisation options or policy approaches and any existing targets, plans or strategies, including electrification, alternative fuels, energy efficiency measures, etc

3.3. Buildings

3.3.1. Expected energy demand in buildings, differentiated by building category, including commercial, residential and public buildings

3.3.2. Future energy supply source

3.3.3. Potential for energy demand reduction through renovation of existing

buildings and related societal, economic and environmental benefits

3.3.4. Policy measures to stimulate renovation of the existing building stock

3.4. Transport

3.4.1. Expected emissions and energy sources by transport type (e.g. cars and vans, heavy duty road transport, shipping, aviation, rail)

3.4.2. Decarbonisation options or policy approaches

3.5. Agriculture and land use, land-use change and forestry (LULUCF)

3.5.1. Current emissions by all sources and by individual greenhouse gases

3.5.2. Emissions reduction options and policy measures to maintain and enhance sinks including national targets or objectives

3.5.3. Links to agricultural and rural development policies

3.6. Cross-sectorial strategy elements and other relevant sectors

4. FINANCING

4.1. Estimates of investment needed

4.2. Policies and measures related to use of public finance and incentivising private investment

4.3. Strategies for related research, development and innovation

5. ANALYTICAL BASIS AND SOCIO-ECONOMIC IMPACTS

5.1. Modelling, scenarios or analysis drawn on in developing the strategy

5.2. Competitiveness and economic impacts

5.3. Health, environment and social impacts

5.4. Strategy to ensure long-term resilience of the sectors in section 3

6. Annexes (as necessary)

6.1. Supporting analysis

6.1.1. Details of any 2050 modelling (including assumptions) and/or other quantitative analysis, indicators etc

6.1.2. Data tables or other technical annexes

6.2. Other sources

Amendment 278

**Proposal for a regulation
Annex III – part 1 – point n**

Text proposed by the Commission

(n) information of the Member State's intentions to make use of the flexibilities in Article 5(4) and (5) of Regulation [] [ESR].

Amendment

(n) information of the Member State's intentions to make use of the flexibilities in Article 5(4) and (5), **7, and of the use of revenues under Article 5(5a)** of Regulation [] [ESR].

Amendment 279

**Proposal for a regulation
Annex VII – part 1 – point m – point 1 – point a**

Text proposed by the Commission

(a) Primary biomass from forest used directly for energy production

Amendment

(a) Primary biomass from forest used directly for energy production **or for producing processed wood-based fuel**

Amendment 280

Proposal for a regulation

Annex VII – part 1 – point m – point 1 – point a – point iii

Text proposed by the Commission

iii) Round wood (split into industrial roundwood and fuelwood)

Amendment

iii) Round wood (split into industrial roundwood, *precommercial thinnings* and fuelwood)

Amendment 281

Proposal for a regulation

Annex VII – part 1 – point m – point 2 – point b a (new)

Text proposed by the Commission

Amendment

(ba) Manure

Amendment 282

Proposal for a regulation

Annex VII – part 2 – point b

Text proposed by the Commission

(b) energy savings achieved through Article 7 of Directive 2012/27/EU [version as amended in accordance with proposal COM(2016)761] in years X-3 and X-2;

Amendment

(b) *the cumulative amount of* energy savings achieved through Article 7 of Directive 2012/27/EU [version as amended in accordance with proposal COM(2016)761] in years X-3 and X-2, *as well as:*

(i) the amount of savings achieved by each policy, measure and individual action

(ii) an explanation on how and on the basis of which data these savings have been estimated

(iii) an explanation on whether or not

the Member State is on track to achieve the total amount of savings required by the end of the period described in Article 7 of Directive 2012/27/EU [as amended by proposal COM(2016)761]. If the Member State is not on track, it shall provide further explanation on the corrective actions it intends to take to deliver the savings

(iv) in case the measures included in the progress report deviate from the measures included in the Member State's notification, a justification;

Amendment 283

Proposal for a regulation Annex VIII – point b

Text proposed by the Commission

(b) the impact of the production and use of biomass on sustainability in the Union and in third countries, including impacts on biodiversity;

Amendment

(b) the impact of the production and use of biomass on sustainability in the Union and in third countries, including impacts on biodiversity, ***water and air quality and land-use rights, taking due account of the principles of the waste hierarchy established in Directive 2008/98/EC;***

Amendment 284

Proposal for a regulation Annex VIII – point f

Text proposed by the Commission

(f) in respect of both third countries and Member States that are a ***significant*** source of biofuels, bioliquids and biomass fuels consumed within the Union, on national measures taken to respect the sustainability criteria and greenhouse gas saving criteria

Amendment

(f) in respect of both third countries and Member States that are a source of ***raw materials for and of*** biofuels, bioliquids and biomass fuels consumed within the Union, on national measures taken to respect the sustainability criteria and

set out in Article 26, paragraphs 2 to 7, of [recast of Directive 2009/28/EC as proposed by COM(2016) 767], for soil, water and air protection.

greenhouse gas saving criteria set out in Article 26, paragraphs 2 to 7, of [recast of Directive 2009/28/EC as proposed by COM(2016) 767], for soil, water and air protection.

Amendment 285

Proposal for a regulation Annex VIII – point f a (new)

Text proposed by the Commission

Amendment

(fa) an evaluation of the effectiveness of bioenergy sustainability criteria as outlined in Directive (EU) .../... [Renewable Energy Directive] in providing greenhouse gas savings, protecting carbon sinks, biodiversity, food security and peoples' land use rights.
