Respect for these principles constitutes an essential element of this Agreement.

Article 2

Disarmament and non-proliferation of weapons of mass destruction

1. The Parties consider that the proliferation of weapons of mass destruction and their means of delivery, both to States and non-state actors, represents one of the most serious threats to international stability and security.

2. Consequently, the Parties agree to cooperate and contribute to countering the proliferation of weapons of mass destruction and their means of delivery through full compliance with and national implementation of their existing obligations under agreements, treaties and other relevant international obligations on matters of disarmament and non-proliferation.

3. In cooperating to contribute to the objective of disarmament and non-proliferation of weapons of mass destruction, the Parties agree to work together to achieve the universalisation and implementation of the treaties on these matters.

2. No Party shall require consular transactions⁽⁷⁾, including related fees and charges, in connection with the importation of any goods of another Party.

3. Each Party shall make available and maintain, preferably through the Internet, updated information of all fees and charges imposed in connection with importation or exportation.

⁽⁷⁾ For the purposes of this paragraph 'consular transactions' means requirements that goods of a Party intended for export to the territory of another Party must first be submitted for the supervision of the consul of the importing Party in the territory of the exporting Party for the purpose of obtaining consular invoices or consular visas for commercial invoices, certificates of origin, manifests, shippers' export declarations, or any other customs documentation required on or in connection with importation.

⁽⁸⁾ For greater certainty, it is understood that liquor enterprises acting under the framework of the '*monopolio rentístico*' as referred to in Article 336 of the Political Constitution of Colombia are encompassed in this definition of State Trading Enterprises.

2. The Parties, recognise that state trading enterprises should not operate in a manner that creates obstacles to trade, and to this end, commit to the obligations established under this Article.

3. The Parties reaffirm their existing rights and obligations under Article XVII of GATT 1994, its interpretative notes and supplementary provisions and the Understanding on the Interpretation of Article XVII of the General Agreement on Tariffs and Trade 1994, which are hereby incorporated into and made an integral part of this Agreement, *mutatis mutandis*.

4. Each Party shall ensure, in particular, that state trading enterprises shall comply, in their purchases or sales, or whenever they exercise any power, including any legislative or constitutional power which a Party has delegated to them at central or sub-central level, with the obligations undertaken by each Party in this Agreement.

5. The provisions of this Article shall not affect the rights and obligations of the Parties under Title VI (Government Procurement).

6. In the context of the notification submitted by the Parties under Article XVII of GATT 1994, when faced with a request for additional information on the effect of state trading enterprises on bilateral trade, the requested Party shall make its best efforts to ensure maximum possible transparency in order to answer these requests which look for information relevant to determine whether the state trading enterprises comply with the relevant obligations of this Agreement, in accordance with the provisions of Article XVII.4 (d) of GATT 1994 regarding confidential information.

Article 40

Lesser Duty Rule

Notwithstanding their rights under the Anti-dumping Agreement and the Subsidies Agreement as regards the application of anti-dumping and countervailing duties, the EU Party and Colombia consider it desirable that the duty applied be less than the corresponding margin of dumping or subsidy, as appropriate, if the lesser duty would be adequate to remove the injury to the domestic industry.

2. If consultations under paragraph 1 do not result in an agreement on compensation within 30 days of the offer to consult, and the importing Party decides to extend the safeguard measure, the Party whose products are subject to the safeguard measure may suspend the application of substantially equivalent concessions to the trade of the Party extending the measure.

Article 55

Re-Application of a Measure

2. The Parties understand that when a Party intends to adopt any measure under subparagraphs 1(i) and 1(j), such Party shall provide the other Parties with all relevant information, with a view to seeking a solution acceptable to the Parties. If no agreement is reached within 30 days, such Party may apply measures under subparagraphs 1(i) and 1(j) to the exportation of the product concerned. TITLE IV

TRADE IN SERVICES, ESTABLISHMENT AND ELECTRONIC COMMERCE

CHAPTER 1

General provisions

Article 107

Objective and Scope of Application

1. The Parties, reaffirming their commitments under the WTO Agreement, and with a view to facilitating their economic integration, sustainable development and continuous integration into the global economy, and considering the differences in the level of development of the Parties, hereby establish the necessary provisions for the progressive liberalisation of establishment and trade in services and for cooperation on electronic commerce.

⁽¹⁴⁾ The exception provided for in this subparagraph extends to any commodity agreement which conforms to the principles approved by the Economic and Social Council in its resolution 30 (IV) of 28 March 1947.

2. Nothing in this Title shall be construed to require any Party to privatise public undertakings or to impose any obligation with respect to government procurement.

3. The provisions of this Title shall not apply to subsidies granted by a Party ⁽¹⁵⁾.

4. The provisions of this Title shall not apply to services supplied in the exercise of governmental authority.

5. Subject to the provisions of this Title, each Party retains the right to exercise its powers and to regulate and introduce new regulations in order to meet legitimate public policy objectives.

6. This Title shall not apply to measures affecting natural persons seeking access to the employment market of a Party, nor shall it apply to measures regarding citizenship, residence or employment on a permanent basis.

7. Nothing in this Title shall prevent a Party from applying measures to regulate the entry of natural persons into, or their temporary stay in, its territory, including those measures necessary to protect the integrity of, and to ensure the orderly movement of natural persons across, its borders, provided that such measures are not applied in such a manner as to nullify or impair the benefits accruing to any Party under the terms of a specific commitment in this Title and its Annexes ⁽¹⁶⁾.

Article 108

Definitions

For the purposes of this Title:

— ‘economic integration agreement’ means an agreement substantially liberalising trade in services and establishment pursuant to WTO rules;

— ‘juridical person of a Party’ means a juridical person set up in accordance with the laws of that Party and having its registered office, central administration or principal place of business in the territory of that Party; in case a juridical person has only its registered office or central administration in the territory of a Party, it shall not be considered as a juridical person of that Party, unless its operations have a real and continuous link with the economy of that Party ⁽¹⁷⁾;

⁽¹⁵⁾ For the purposes of this paragraph, the term ‘subsidies’ includes government-supported loans, guarantees, and insurance.

⁽¹⁶⁾ The sole fact of requiring a visa for natural persons of a certain country and not for those of others shall not be regarded as nullifying or impairing benefits under a specific commitment.

⁽¹⁷⁾ Shipping companies established outside of the European Union or of the signatory Andean Countries but controlled by nationals of a Member State of the European Union or of a signatory Andean Country, respectively, shall also benefit from the provisions of this Title, if their vessels are registered in accordance with the respective legislation of the Member State of the European Union or signatory Andean Country and carry the flag of a Member State of the European Union or a signatory Andean Country.

— ‘measure’ means any measure by a Party, whether in the form of a law, regulation, rule, procedure, decision, administrative action, or any other form;

— ‘measures adopted or maintained by a Party’ means measures adopted or maintained by:

(b) non-governmental bodies in the exercise of powers delegated by central, regional or local governments or authorities;

— ‘natural person of a Party’ means a natural person that has the nationality of a Member State of the European Union or of a signatory Andean Country according to their respective domestic legislation ⁽¹⁸⁾;

— ‘services’ includes any service in any sector, except services supplied in the exercise of governmental authority;

— ‘services supplied in the exercise of governmental authority’ means any service which is supplied neither on a commercial basis, nor in competition with one or more service suppliers;

— ‘service supplier of a Party’ means any natural or juridical person of a Party that seeks to supply or supplies a service;

— ‘supply of a service’ includes the production, distribution, marketing, sale and delivery of a service.

Article 109

Working Groups

To the extent necessary and justified, the Trade Committee may establish a working group with the aim of performing, among others, the following tasks:

(a) discussing regulatory issues concerning establishment, trade in services and electronic commerce;

⁽¹⁸⁾ For purposes of this Title, a natural person of a Party having a dual nationality of a Member State of the European Union and a signatory Andean Country shall be considered exclusively a national of the Party in which he/she accredits his/her dominant and effective nationality. For these purposes, dominant and effective nationality of a Party shall be understood as the nationality of the Party in which the natural person has stronger ties, considering factors such as, among others, his/her habitual residence, his/her family links, his/her place of taxation or the place where he/she exercises his/her political rights.

- (b) proposing guidelines and strategies enabling the signatory Andean Countries to become a safe harbour for the protection of personal data. To this end, the working group shall adopt a cooperation agenda that shall define priority aspects for accomplishing that purpose, especially regarding the respective homologation processes of data protection systems;
- (c) seeking the necessary mechanisms to address the aspects covered under Article 162;
- (d) recommending mechanisms to assist Micro and SMEs in overcoming obstacles faced by them in the use of electronic commerce;
- (e) improving the security of electronic transactions and electronic government, among others;
- (f) encouraging the participation of the private sector in training and adoption of codes of conduct, contract models, guidelines and compliance mechanisms for electronic commerce, together with active participation in fora organised between the Parties;
- (g) establishing cooperation mechanisms on digital accreditation and certification for electronic transactions and mutual recognition of digital certificates; and
- (h) participating actively in regional and multilateral fora to promote the development of electronic commerce.
- ‘economic activity’ does not include activities carried out in the exercise of governmental authority, i.e. activities carried out neither on a commercial basis nor in competition with one or more economic operators;
- ‘establishment’ means any type of business or professional establishment ⁽¹⁹⁾ through:
- (a) the constitution, acquisition or maintenance of a juridical person ⁽²⁰⁾; or
- (b) the creation or maintenance of a branch or representative office;
- within the territory of a Party for the purpose of performing an economic activity;
- ‘investor of a Party’ means any natural or juridical person of that Party that seeks, through concrete actions to perform, is performing or has performed an economic activity in another Party through setting up an establishment;
- ‘measures of a Party affecting establishment’ include measures with respect to all activities covered by the definition of establishment;
- ‘subsidiary of a juridical person of a Party’ means a juridical person which is effectively controlled by another juridical person of that Party ⁽²¹⁾.

CHAPTER 2

Establishment

Article 110

Definitions

For the purposes of this Chapter:

- ‘branch of a juridical person’ means a place of business without legal personality, which:
- (a) has the appearance of permanence such as the extension of a parent body;
- (b) has a management; and
- (c) is materially equipped to negotiate business with third parties; therefore third parties, although knowing that there will, if necessary, be a legal link with the parent body, the head office of which is abroad, do not have to deal directly with such parent body but may transact business at the place of business constituting the extension;

Article 111

Scope of Application

This Chapter applies to measures adopted or maintained by the Parties affecting establishment ⁽²²⁾ in any economic activity, with the exception of:

- (a) mining, manufacturing and processing of nuclear materials;
- (b) production of or trade in arms, munitions and war material;

⁽¹⁹⁾ The term ‘business or professional establishment’ includes the establishment in any productive economic activity, whether industrial or commercial, relating to the production of goods and supply of services.

⁽²⁰⁾ The terms ‘constitution’ and ‘acquisition’ of a juridical person shall be understood as including capital participation in a juridical person with a view to establishing or maintaining lasting economic links.

⁽²¹⁾ A juridical person is controlled by another juridical person if the latter has the power to name a majority of its directors or otherwise to legally direct its actions.

⁽²²⁾ For greater certainty, and without prejudice to the obligations set out therein, this Chapter does not cover provisions on investment protection, such as provisions specifically relating to expropriation and fair and equitable treatment, nor does it cover investor-State dispute settlement procedures.

Article 112

Market Access

1. With respect to market access through establishment, each Party shall accord to establishments and investors of another Party treatment no less favourable than that provided for in the specific commitments contained in Annex VII (List of Commitments on Establishment).
2. In sectors where market access commitments are undertaken, the measures which a Party shall not maintain or adopt either on the basis of a regional subdivision or on the basis of its entire territory, unless otherwise specified in Annex VII (List of Commitments on Establishment), are defined as:
 - (a) limitations on the number of establishments whether in the form of numerical quotas, monopolies, exclusive rights or other establishment requirements such as economic needs test;
 - (b) limitations on the total value of transactions or assets in the form of numerical quotas or the requirement of an economic needs test;

⁽²³⁾ Without prejudice to the scope of activities which may be considered as cabotage under the relevant domestic legislation, national cabotage under this Chapter covers transportation of passengers or goods between a port or point located in a signatory Andean Country or a Member State of the European Union and another port or point located in the same signatory Andean Country or Member State of the European Union, including on its continental shelf, and traffic originating and terminating in the same port or point located in a signatory Andean Country or a Member State of the European Union.

Article 113

National Treatment

1. In sectors for which market access commitments are listed in Annex VII (List of Commitments on Establishment) by Colombia, and subject to any conditions and qualifications set out therein, Colombia shall grant to establishments and investors of the EU Party, with respect to all measures affecting establishment, treatment no less favourable than that it accords to its own like ⁽²⁶⁾ establishments and investors.
2. In the sectors for which market access commitments are listed in Annex VII (List of Commitments on Establishment) by Peru, and subject to any conditions and qualifications set out therein, Peru shall grant to establishments and investors of the EU Party, with respect to all measures affecting establishment, treatment no less favourable than that it accords in like circumstances to its own establishments and investors ⁽²⁷⁾.

⁽²⁴⁾ Subparagraphs 2(a), 2(b) and 2(c) do not cover measures taken in order to limit the production of an agricultural product.

⁽²⁵⁾ Each Party may require that in the case of constitution of juridical person under its own law, investors must adopt a specific legal form. To the extent that such requirement is applied in a non-discriminatory manner, it does not need to be specified in Annex VII (List of commitments on establishment) in order to be maintained or adopted by the Parties.

⁽²⁶⁾ For greater certainty, the term 'like' is without prejudice of the term 'like circumstances' that Colombia has agreed or agrees in other international agreements.

⁽²⁷⁾ For greater certainty, the rights which can be derived for the services and service suppliers of the EU Party from the obligations of Peru under the GATS remain fully enforceable within the framework of the WTO, particularly as concerns the application of principle of 'like services and service suppliers' as included in Article XVII of the GATS.

3. In the sectors for which market access commitments are listed in Annex VII (List of Commitments on Establishment) by the EU Party, and subject to any conditions and qualifications set out therein, the EU Party, with respect to all measures affecting establishment, shall grant to establishments and investors of the signatory Andean Countries treatment no less favourable than that it accords to its own like establishments and investors.

4. The specific commitments assumed under this Article shall not be construed to require any Party to compensate for inherent competitive disadvantages which result from the foreign character of the relevant investors.

Article 114

List of Commitments

Sectors committed by each Party pursuant to this Chapter, as well as any reservation or limitation on market access and/or national treatment applicable to establishments and investors of another Party in those sectors are listed in Annex VII (List of Commitments on Establishment).

Article 115

Other Agreements

1. Nothing in this Title shall be construed as limiting the rights and obligations of the Parties and of their investors established in any existing or future international agreement relating to investment to which a Member State of the European Union and a signatory Andean Country are parties.

2. Notwithstanding paragraph 1, any dispute settlement mechanism established under any existing or future international agreement relating to investment to which the European Union, a Member State of the European Union or a signatory Andean Country is a party shall not be applicable to alleged breaches of this Chapter.

Article 116

Investment Promotion and Review

1. With a view to a progressive liberalisation of investments, the European Union and the signatory Andean Countries shall seek to promote an environment attractive for reciprocal investment within their respective spheres of competence.

2. The promotion referred to in paragraph 1 shall lead to cooperation that shall include, among others, the review of the investment legal framework, the investment environment and the flow of investments between the Parties, consistent with their commitments under international agreements. Such review shall take place no later than five years following the entry into force of this Agreement and subsequently at regular intervals.

*Article 119***Market Access**

⁽²⁹⁾ Subparagraph 2(c) does not cover measures of a Party which limit inputs for the supply of services.

⁽³⁰⁾ For greater certainty, the rights which can be derived for the services and service suppliers of the EU Party from the obligations of Peru under the GATS remain fully enforceable within the framework of the WTO, particularly as concerns the application of principle of 'like services and service suppliers' as included in Article XVII of the GATS.

2. The entry and temporary stay in the territory of a Party by short term visitors of another Party when allowed shall be for a period of up to 90 days in any 12 month period.

CHAPTER 5

Regulatory framework

Section 1

Provisions of general application

Article 129

Mutual Recognition

1. Nothing in this Title shall prevent a Party from requiring natural persons to have the necessary qualifications and/or professional experience required in the territory where the service is supplied, for the sector of activity concerned.
2. The Parties shall encourage the relevant professional bodies in their respective territories to jointly develop and provide the Trade Committee with recommendations on mutual recognition for the purpose of the fulfilment, in whole or in part, by investors and service suppliers of the criteria applied by each Party for the authorisation, licensing, operation and certification of investors and service suppliers and, in particular, of professional services.
3. Upon receipt of a recommendation as referred to in paragraph 2, the Trade Committee shall review, within reasonable time, such recommendation with a view to determining whether it is consistent with this Agreement.
4. When a recommendation has been found by the Trade Committee to be consistent with this Agreement pursuant to paragraph 3, and there is a sufficient level of correspondence between the relevant regulations of the Parties, the Parties shall, with a view to implementing that recommendation, negotiate through their competent authorities an agreement on mutual recognition of requirements, qualifications, licences and other regulations.

5. Any agreement reached under paragraph 4 shall be consistent with the relevant provisions of the WTO Agreement, in particular Article VII of the GATS.

Article 130

Transparency and Disclosure of Confidential Information

1. Each Party shall:

- (a) respond promptly to all requests by another Party for specific information regarding any of its measures of general application or international agreements which relate to or affect this Title; and
- (b) establish one or more enquiry points to provide specific information to investors and services suppliers of another Party, upon request, on all matters referred to in subparagraph (a). Such enquiry points are listed in Annex X (Enquiry Points Regarding Trade in Services, Establishment and Electronic Commerce). Enquiry points need not be depositories of laws and regulations.

2. Nothing in this Title shall require a Party to provide confidential information the disclosure of which would impede law enforcement or otherwise be contrary to public interest, or which would prejudice legitimate commercial interests of particular enterprises, public or private.

Article 131

Domestic Regulation

1. In sectors where specific commitments are undertaken, each Party shall ensure that all measures of general application covered by this Title are administered in a reasonable, objective and impartial manner.
2. Where authorisation is required for the supply of a service or establishment for which a specific commitment has been made, the competent authorities of a Party shall, within a reasonable period of time after the submission of an application considered complete under domestic laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the competent authorities of the Party shall provide, without undue delay, information concerning the status of the application.
3. Each Party shall maintain or institute judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected investor or service supplier, for a prompt review of, and where justified, appropriate remedies for, administrative decisions affecting establishment, cross border supply of services or temporary presence of natural persons for business purposes. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Parties shall ensure that the procedure in fact provides for an objective and impartial review.

4. Following the necessary consultations between the Parties, this Article shall be amended, as appropriate, so as to incorporate into this Title the results of any negotiation pursuant to Article VI.4 of the GATS or any similar negotiation undertaken in other multilateral fora in which the Parties participate once the resulting commitments enter into force.

5. Pending the completion of negotiations pursuant to Article VI:4 of the GATS as referred to in paragraph 4, no Party shall apply licensing and qualification requirements, procedures and technical standards, that nullify or impair their specific commitments in a manner which:

- (a) does not comply with the criteria outlined in Article VI:4 (a), (b), (c) of the GATS; and
- (b) could not reasonably have been expected of that Party at the time the specific commitments were made.

6. In determining whether a Party is in conformity with its obligations under paragraph 5, account shall be taken of international standards of relevant international organisations⁽⁴⁰⁾ applied by that Party.

Section 2

Computer Services

Article 132

Understanding on Computer Services

To the extent that trade in computer services is liberalised in accordance with Chapters 2 (Establishment), 3 (Cross-Border Supply of Services) and 4 (Temporary Presence of Natural Persons for Business Purposes), the Parties subscribe to the understanding set out in the following subparagraphs:

- (a) the CPC 84 code, used for describing computer and related services, covers the basic functions used to provide all computer and related services: computer programmes defined as the sets of instructions required to make computers work and communicate (including their development and implementation), data processing and storage, and related services, such as consultancy and training services for staff of clients. Technological developments have led to the increased offering of these services as a bundle or package of related services that can include some or all of these basic functions. For example, services such as web or domain hosting, data mining services and grid computing each consist of a combination of basic computer services functions;
- (b) computer and related services, regardless of whether they are delivered via a network, including the Internet, include all services that provide:

- (i) consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, support, technical assistance, or management of or for computers or computer systems;
- (ii) computer programmes defined as the sets of instructions required to make computers work and communicate (in and of themselves), plus consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, adaptation, maintenance, support, technical assistance, management or use of or for computer programmes;
- (iii) data processing, data storage, data hosting or database services;
- (iv) maintenance and repair services for office machinery and equipment, including computers; or
- (v) training services for staff of clients related to computer programmes, computers or computer systems, and not classified elsewhere;

- (c) computer and related services enable the provision of other services (e.g. banking) by both electronic and other means. However, there is an important distinction between the enabling service (e.g. web-hosting or application hosting) and the content or core service that is being delivered electronically (e.g. banking). In such cases, the content or core service is not covered by the CPC 84 code.

Section 3

Postal and courier services

Article 133

Scope of Application

This Section sets out the principles of the regulatory framework for all postal and courier services committed in accordance with Chapters 2 (Establishment), 3 (Cross-Border Supply of Services) and 4 (Temporary Presence of Natural Persons for Business Purposes).

Article 134

Definitions

For the purpose of this Section and of Chapters 2 (Establishment), 3 (Cross-Border Supply of Services) and 4 (Temporary Presence of Natural Persons for Business Purposes):

- 'individual license' means an authorisation, concession, or any other kind of permit granted to an individual supplier by a regulatory authority, which is required before supplying a given service; and

⁽⁴⁰⁾ The term 'relevant international organisations' refers to international bodies whose membership is open to the relevant bodies of the Parties.

— ‘universal service’ means the permanent supply of a postal service of specified quality at all points in the territory of a Party at affordable prices for all users.

Article 135

Prevention of Anti-Competitive Practices in the Postal and Courier Services Sector

In accordance with the provisions of Title VIII (Competition), each Party shall introduce or maintain appropriate measures for the purpose of preventing suppliers who, alone or together, have the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for postal and courier services as a result of use of their position in the market, from engaging in or continuing anti-competitive practices.

Article 136

Universal Service

Each Party has the right to define the kind of universal service obligation it wishes to adopt or maintain. Such obligation shall not be regarded as anti-competitive *per se*, provided it is administered in a transparent, non-discriminatory and competitively neutral manner and it is not more burdensome than necessary for the kind of universal service defined by the Party.

Article 137

Individual Licences

1. A Party shall only require an individual licence for services within the scope of the universal service ⁽⁴¹⁾.
2. Where a Party requires an individual licence, the following information shall be made publicly available:
 - (a) all licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and
 - (b) the terms and conditions of individual licences.
3. Where a Party denies granting an individual licence, that Party shall, upon request, inform the applicant of the reasons for the denial. Each Party shall establish or maintain an appeal

⁽⁴¹⁾ In Colombia, the official postal operator or concessionary is a juridical person which supplies the universal postal service under a concession contract. The remaining postal services are subject to an expedited licensing regime administered by the Ministry of Information and Communications Technology. In Peru, the designated postal operator is a juridical person which under a concession granted by law, and with no exclusivity, has the obligation to supply the postal service in the whole country. The other postal services are subject to a permit regime granted by the Ministry of Transportation and Communications.

or review procedure, as appropriate, before an independent body ⁽⁴²⁾. Such procedures shall be transparent, non-discriminatory, and based on objective criteria.

Article 138

Independence of Regulatory Bodies

Regulatory bodies shall be legally separate from, and not accountable to, any supplier of postal and courier services. The decisions of regulatory bodies, as well as the procedures applied by them, shall be impartial with respect to all market participants.

Section 4

Telecommunications services

Article 139

Scope of Application

This Section sets out the principles of the regulatory framework for telecommunications services, other than broadcasting ⁽⁴³⁾, committed pursuant to Chapters 2 (Establishment), 3 (Cross-Border Supply of Services) and 4 (Temporary Presence of Natural Persons for Business Purposes) ⁽⁴⁴⁾ ⁽⁴⁵⁾.

Article 140

Definitions

For the purposes of this Section:

— ‘essential telecommunications facilities’ means facilities of a public telecommunications transport network and service ⁽⁴⁶⁾ that:

- (a) are exclusively or predominantly provided by a single or limited number of suppliers; and

⁽⁴²⁾ For greater certainty, the independent body may be of a judicial nature.

⁽⁴³⁾ ‘Broadcasting’ is defined as the uninterrupted chain of transmission required for the distribution of TV and radio programme signals to the general public, but does not cover contribution links between operators.

⁽⁴⁴⁾ Between the EU Party and Peru, this Section shall only apply to telecommunication services offered to the general public that involve the real-time transmission of customer-supplied information between two or more points without any end-to-end change in the form or content of the customer’s information.

⁽⁴⁵⁾ Between the EU Party and Colombia, this Section shall also apply to value added telecommunications services. For greater certainty and for the purposes of this Section and Annex VII (List of Commitments on Establishment) and Annex VIII (List of Commitments on Cross-Border Supply of Services), for Colombia and the EU Party, ‘value added telecommunications services’ are telecommunications services for which suppliers ‘add value’ to the customer’s information by enhancing its form or content or by providing for its storage and retrieval.

⁽⁴⁶⁾ For greater certainty, ‘public telecommunication transport service’ shall be understood as defined in the Annex on Telecommunications of the GATS.

(b) cannot feasibly be economically or technically substituted in order to provide a service;

— 'interconnection' means linking with suppliers providing public telecommunications transport networks or services ⁽⁴⁷⁾ in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier;

— 'major supplier' means a supplier in the telecommunications sector which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for telecommunications services as a result of control over essential facilities or the use of its position in the market;

— 'regulatory authority' means the body or bodies in the telecommunications sector in charge of the regulation of telecommunications referred to in this Section; and

— 'telecommunications services' means all services consisting of the transmission and reception of electro-magnetic signals and does not cover the economic activity consisting of the provision of content which requires telecommunications for its transport.

Article 141

Competitive Safeguards on Major Suppliers

In accordance with the provisions of Title VIII (Competition), each Party shall introduce or maintain appropriate measures for the purpose of preventing suppliers which, alone or together, are a major supplier from engaging in or continuing anti-competitive practices. These anti-competitive practices shall include, in particular:

- (a) engaging in anti-competitive cross-subsidisation, or in margin squeeze ⁽⁴⁸⁾;
- (b) using information obtained from competitors with anti-competitive results; and
- (c) not making available to other services suppliers on a timely basis, technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

⁽⁴⁷⁾ For greater certainty, 'public telecommunication transport service' shall be understood as defined in the Annex on Telecommunication of the GATS.

⁽⁴⁸⁾ The reference to 'margin squeeze' only applies to the EU Party.

Article 142 ⁽⁴⁹⁾

Additional Obligations of Major Suppliers

1. In accordance with the respective domestic legislation and procedures established by each Party, the regulatory authority of each Party shall, where appropriate, impose on major suppliers:

(a) obligations on transparency in relation to interconnection and/or access. Where a major supplier has obligations of non-discrimination as provided for in subparagraph (b), the regulatory authority may require that the major supplier publish a reference offer which is sufficiently unbundled to ensure that suppliers are not required to pay for facilities which are not necessary for the service requested. Such reference offer shall also include a description of the relevant offerings broken down into components according to market needs, and the associated terms and conditions, including prices;

(b) obligations of non-discrimination in relation to interconnection and/or access:

(i) to ensure that major suppliers in its territory apply equivalent conditions in equivalent circumstances to telecommunications services suppliers of another Party providing equivalent services; and

(ii) for services and information to other suppliers under the same conditions and of the same quality as they provide for their own services, or those of their subsidiaries or partners;

(c) obligations relating to cost recovery and price controls, including obligations for cost orientation of prices and obligations concerning the cost accounting systems for the provision of specific types of interconnection and/or access; and

(d) obligations to meet reasonable requests by the suppliers of another Party for access to and use of specific network elements and associated facilities, *inter alia*, in situations where the regulatory authority considers that denial of access or unreasonable terms and conditions having a similar effect would hinder the emergence of a sustainable competitive market at the retail level, or would not be in the end-user's interest.

⁽⁴⁹⁾ This Article is not part of the commitments assumed between Peru and the EU Party under this Agreement without prejudice to the domestic legislation of each Party. For Colombia and the EU Party, this Article shall only apply to telecommunication services that involve the real-time transmission of customer-supplied information between two or more points without any end-to-end change in the form or content of the customer's information.

2. Pursuant to subparagraph 1(d), major suppliers may be required to, *inter alia*:

- (a) grant third parties access to specified network elements and/or facilities;
- (b) negotiate in good faith with undertakings requesting access;
- (c) provide specified services on a wholesale basis for resale by third parties;
- (d) grant access to technical interfaces, protocols or other key technologies, which are indispensable for the interoperability of networks, and that allow, upon request, interconnection at additional points other than the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities;
- (e) provide co-location or other forms of facility sharing, including duct, building or mast sharing;
- (f) provide specified services needed to ensure interoperability of end-to-end services to users, including facilities for intelligent network services or roaming on mobile networks; and
- (g) interconnect networks or network facilities.

Article 143

Regulatory Authorities

1. Regulatory authorities for telecommunications services shall be legally distinct and functionally independent from any supplier of telecommunications services.
2. The regulatory authority shall be sufficiently empowered to regulate the sector. The tasks to be undertaken by a regulatory authority shall be made public in an easily accessible and clear form, in particular where those tasks are assigned to more than one body.
3. The decisions of, and the procedures applied by, regulatory authorities shall be transparent and impartial with respect to all market participants.
4. A supplier affected by a decision of a regulatory authority of Colombia shall have the right to an appeal or review procedure, as appropriate, before a body independent of that regulatory authority.
5. A supplier affected by a decision of a regulatory authority of Peru or of the EU Party shall have the right to appeal such decision before an appeal body independent of the parties involved and which can be either judicial or non-judicial in character.

6. Where an appeal body of a Party is not judicial in character, written reasons for its decision shall always be provided and its decisions shall also be subject to review by an impartial and independent judicial authority. Decisions adopted by review or appeal bodies of a Party, as appropriate, shall be effectively enforced.

Article 144

Authorisation to Provide Telecommunications Services

1. The Parties shall endeavour to apply simplified procedures in authorising the provision of telecommunications services.
2. In accordance with the domestic legislation of each Party, an authorisation⁽⁵⁰⁾ may be required to address issues of attributions of numbers and frequencies. The terms and conditions for such authorisation shall be made publicly available.
3. Where an authorisation is required:
 - (a) all authorisation criteria and a reasonable period of time normally required to reach a decision concerning that application for an authorisation shall be made publicly available;
 - (b) the reasons for the denial of an authorisation shall be communicated in writing to the applicant upon request;
 - (c) in case that an authorisation is unduly denied, the applicant shall be able to seek review of and/or appeal against the decision in accordance with the domestic legislation of the respective Party;
 - (d) fees required by any Party for granting an authorisation shall not exceed the administrative costs normally incurred in the management, control and enforcement of the applicable authorisation⁽⁵¹⁾.

Article 145

Interconnection

1. Each Party shall ensure that any supplier authorised to provide telecommunications services in its territory has the right to negotiate interconnection with other providers of publicly available telecommunications networks and services. Interconnection should, in principle, be agreed on the basis of a commercial negotiation between the suppliers concerned.

⁽⁵⁰⁾ For the purposes of this Section, the term 'authorisation' shall be understood to include licenses, concessions, permits, registries or any other authorisation that a Party may require to supply telecommunications services.

⁽⁵¹⁾ Authorisation fees do not include payments for auction, tendering or other non-discriminatory means of awarding concessions, or mandated contributions to universal service provision. For greater certainty, this subparagraph shall not be construed to restrict the right of each Party to require payment for the allocation of scarce resources such as the radio spectrum.

2. Regulatory authorities of each Party shall require that suppliers that acquire information from another supplier during the process of negotiating interconnection arrangements use that information solely for the purpose for which it was supplied and respect at all times the confidentiality of information transmitted or stored.

3. Interconnection with a major supplier shall be ensured at any technically feasible point in the network. Such interconnection shall be provided:

(a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates, and with a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;

(b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, which have regard to economic feasibility, and which are sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and

(c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

4. Each Party shall ensure that the procedures applicable for interconnection to a major supplier are made publicly available.

5. Each Party shall require that major suppliers make publicly available either their interconnection agreements or their reference interconnection offers.

6. Each Party shall ensure that a service supplier requesting interconnection with a major supplier has recourse, either at any time or after a reasonable period of time which has been made publicly known, to an independent domestic body, which may be a regulatory authority as referred to in Article 143, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time.

Article 146

Scarce Resources

Each Party shall ensure that any procedure for the allocation and use of scarce resources, including frequencies, numbers and rights-of-way, are carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands shall be made publicly available, but detailed identification of frequencies allocated for specific government uses shall not be required.

Article 147

Universal Service

1. Each Party has the right to define the kind of universal service obligations it wishes to adopt or maintain.

2. The obligations referred to in paragraph 1 shall not be regarded as anti-competitive *per se*, provided that such obligations are administered in a transparent, objective and non-discriminatory manner. The administration of such obligations shall also be neutral with respect to competition and shall not be more burdensome than necessary for the kind of universal service defined by each Party.

3. All suppliers should be eligible to ensure universal service and no supplier shall be *a priori* excluded. The designation shall be made through an efficient, transparent and non-discriminatory mechanism, in accordance with the domestic legislation of each Party.

Article 148

Telephone Directories

Each Party shall ensure that:

(a) directories of all fixed telephone subscribers are available to users in a form approved by the national regulatory authority, whether printed or electronic, or both, and are updated on a regular basis, and at least once a year; and

(b) organisations that provide the services referred to in subparagraph (a) apply the principle of non-discrimination to the treatment of information that has been provided to them by other organisations.

Article 149

Confidentiality of Information

Each Party shall ensure the confidentiality of telecommunications and related traffic data by means of a publicly available telecommunications networks and services without restricting trade in services.

Article 150

Disputes Between Suppliers

1. In the event of a dispute arising between suppliers of telecommunications networks or services in connection with rights and obligations set out in this Section, the regulatory authority of the Party concerned shall, at the request of a party to the dispute, issue a binding decision to resolve the dispute within the shortest possible timeframe.

2. When such a dispute relates to cross-border supply of services, the regulatory authorities of the Parties concerned shall coordinate their efforts in order to achieve a resolution of the dispute.

Where a Party accords recognition autonomously, such Party shall afford adequate opportunity for another Party to demonstrate that those circumstances exist.

*Article 159***Specific Exceptions**

4. A procuring entity may use a notice inviting suppliers to apply for inclusion in a multi-use list as a notice of intended procurement, provided that:

- (a) the notice is published in accordance with paragraph 1 and includes the information required under Appendix 5 of Annex XII (Government Procurement) and as much of the information required by Appendix 4 of Annex XII (Government Procurement) as is available, and contains a statement that it constitutes a notice of intended procurement;

4. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, the entity includes words such as 'or equivalent' in the tender documentation.

5. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement.

6. Each Party, including its procuring entities, may, in accordance with this Article, prepare, adopt or apply technical specifications to promote the conservation of natural resources or protect the environment.

*Article 182***Tender Documentation**

Unless already provided in the notice of intended procurement, such documentation shall include a complete description of the requirements set out in Appendix 8 of Annex XII (Government Procurement).

2. A procuring entity shall promptly reply to any reasonable request for relevant information by a supplier participating in the procurement, provided that such information does not give that supplier an advantage over its competitors in the procurement.

3. Where, prior to the award of a contract, a procuring entity modifies the criteria or requirements set out in the notice of intended procurement or tender documentation provided to participating suppliers, or amends a notice or tender documentation, it shall transmit in writing all such modifications or amended or re-issued notice or tender documentation:

- (a) to all suppliers that are participating at the time the information is amended, if known, and in all other cases, in the same manner as the original information; and

A procuring entity shall, in accordance with its own reasonable needs, provide sufficient time for suppliers to prepare and submit requests for participation in a procurement and responsive tenders, taking into account such factors as the nature and complexity of the procurement, the extent of subcontracting anticipated, and the time for transmitting tenders from foreign as well as domestic points where electronic means are not used. The applicable time periods are set out in Appendix 6 of Annex XII (Government Procurement).

*Article 184***Negotiations**

1. A Party may provide for its procuring entities to conduct negotiations:

2. A procuring entity shall:

- (a) ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the notices or tender documentation; and

 - (iii) no suppliers satisfied the conditions for participation; or
 - (iv) the tenders submitted have been collusive;

provided that the requirements of the tender documentation are not substantially modified;

- (b) where the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute goods or services exist because the procurement relates to a work of art; because of the protection of patents, copyrights or other exclusive rights; or because of the absence of competition for technical reasons, as in the case of the procurement of *intuitu personae* services;
- (c) for additional deliveries by the original supplier of goods or services that were not included in the initial procurement, where a change of supplier for such additional goods or services:
 - (i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services or installations procured under the initial procurement; and
 - (ii) would cause significant inconvenience or substantial duplication of costs for the procuring entity;
- (d) insofar as is strictly necessary where, for reasons of extreme urgency brought about by events unforeseen by the procuring entity, the goods or services could not be obtained in time using open tendering or selective tendering;
- (e) for goods purchased on a commodity market;

(g) for purchases made under exceptionally advantageous conditions which only arise in the very short term in the case of unusual disposals, such as arising from liquidation, receivership or bankruptcy, and not for routine purchases from regular suppliers; or

(h) where a contract is awarded to a winner of a design contest, provided that the contest has been organised in a manner that is consistent with the principles of this Title, and the participants are judged by an independent jury with a view to a design contract being awarded to a winner.

*Article 186***Electronic Auctions**

Where a procuring entity intends to conduct a covered procurement using an electronic auction, the entity shall provide each participant, before commencing the electronic auction, with:

3. Unless a procuring entity determines that it is not in the public interest to award a contract, the entity shall award the contract to the supplier that the entity has determined to be capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the notices and tender documentation, has submitted the most advantageous tender or, where price is the sole criterion, the lowest price.

4. Where a procuring entity receives a tender with a price that is abnormally lower than the prices in other tenders submitted, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract.

Article 188

Subject to Article 189 paragraphs 2 and 3, a procuring entity shall, on request, provide an unsuccessful supplier with an explanation of the reasons why the entity did not select its tender and the relative advantages of the tender of the successful supplier.

2. Not later than 72 days after the award of each contract covered by this Title, a procuring entity shall publish a notice of the award that shall include at least the information set out in Appendix 7 of Annex XII (Government Procurement) in the appropriate paper or electronic medium listed in Appendix 2 of Annex XII (Government Procurement). Where only an electronic medium is used, the information shall remain readily available for a reasonable period of time.

3. 1. A Party, upon request of another Party, shall provide promptly any information necessary to determine whether the procurement was conducted fairly, impartially and in accordance with this Title, including information on the characteristics and relative advantages of the successful tender. interests of particular persons, including the protection of intellectual property, or would otherwise be contrary to the public interest.

Article 190

Domestic Review Procedures

1. Each Party shall maintain or establish a timely, effective, transparent and non-discriminatory administrative or judicial review procedure through which a supplier which has or has had an interest in a covered procurement may challenge:

6. Where a body other than an authority referred to in paragraph 5 initially reviews a challenge, the corresponding Party shall ensure that the supplier may appeal the initial decision to an impartial administrative or judicial authority that is independent of the procuring entity whose procurement is the subject of the challenge. A review body which is not a court, shall either be subject to judicial review or shall have procedures which provide that:

- (a) the procuring entity responds in writing to the challenge and discloses all relevant documents to the review body;
- (b) participants to the proceedings (hereinafter referred to as 'participants') have the right to be heard prior to a decision of the review body being made on the challenge;

- (a) rapid interim measures to preserve the supplier's opportunity to participate in the procurement. Such interim measures may result in suspension of the procurement process. The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether such measures should be applied. Just cause for not acting shall be provided in writing; and
- (b) correction of a breach of this Title or compensation for the loss or damages suffered, where a review body has determined that there has been a breach or a failure as set out in paragraph 1. Such correction or compensation may be limited to either the costs for the preparation of the tender or the costs relating to the challenge, or both.

3. If another Party does not agree that:

2. The Parties recognise the past, present and future contribution of indigenous and local communities to the conservation and sustainable use of biological diversity and all of its components and, in general, the contribution of the traditional knowledge⁽⁶³⁾ of their indigenous and local communities to the culture and to the economic and social development of nations.

2. Without prejudice to the grounds for refusing the protection of geographical indications provided for in its domestic legislation, no Party shall have the obligation to protect a geographical indication where, in the light of a reputed or well-known trademark, protection is liable to mislead consumers as to the true identity of the product.

Article 212

1. The Parties may exchange additional information regarding the technical specifications of the products protected by geographical indications in Appendix 1 of Annex XIII (Lists of Geographical Indications) in the Sub-committee on Intellectual Property. Furthermore, the Parties may facilitate the exchange of information regarding the control bodies in their territory.

3. In the case of anonymous or pseudonymous works, the term of protection granted by this Agreement shall expire 70 years after the work has been lawfully made available to the public. However, when the pseudonym adopted by the author leaves no doubt as to his identity, the term of protection applicable shall be that laid down in paragraph 1. If the author of an anonymous or pseudonymous works discloses his identity during the above-mentioned period of time, the term of protection applicable shall be that laid down in paragraph 1. No Party shall be required to protect anonymous or pseudonymous works in respect of which it is reasonable to presume that their author has been dead for 70 years.

4. Whenever the term of protection of a work, other than a photographic work or a work of applied art, is calculated on a basis other than the life of a natural person, such term shall be no less than 70 years from the end of the calendar year of authorised publication, or, failing such authorised publication, within at least 50 years from the making of the work, 70 years from the end of the calendar year of its making.

5. The term of protection of cinematographic or audiovisual works shall be at least 70 years after the work has been made available to the public with the consent of the author, or, failing such an event, within at least 50 years from the making of such work, at least 70 years after its making. (b) the fixation of their unfixed performances.

3. Performers and producers of phonograms shall enjoy the right to a single equitable remuneration for the direct or indirect use of phonograms published for commercial purposes for broadcasting or for any communication to the public. The Parties shall establish in their domestic legislation that the single equitable remuneration shall be claimed from the user by the performer or by the producer of a phonogram or by both. The Parties may enact domestic legislation that, in the absence of an agreement between the performer and the producer of a phonogram, sets the terms according to which performers and producers of phonograms shall share the single equitable remuneration.

4. Each Party shall provide performers with the exclusive right to authorise or prohibit, in relation to their fixed performances:

(a) direct or indirect reproduction;

(b) distribution through sale or other transfer of ownership;

6. The Parties may recognise to performers of audiovisual works an unwaivable right to obtain an equitable remuneration for broadcasting or for any communication to the public of their performances fixed, remuneration which may be collected by a collecting society, duly authorised by law, in accordance with domestic law.

7. The Parties may provide in their domestic law, limitations or exceptions to rights of performers of audiovisual works, in certain special cases which do not conflict with the normal exploitation of the performances, and do not unreasonably prejudice the legitimate interests of the performers.

8. Each Party shall provide broadcasting organisations with the exclusive right to authorise or prohibit the re-transmission of their broadcasts by at least any wireless means.

The Parties shall make all reasonable efforts to accede to the Geneva Act to the Hague Agreement Concerning the International Registration of Industrial Designs adopted in Geneva on 2 July 1999.

Article 225

Requirements for Protection of Designs ⁽⁶⁸⁾

1. Each Party shall provide for the protection of independently created designs that are new. When the legislation of a Party so provides, individual character of such designs may also be required. This protection shall be provided by registration and shall confer an exclusive right upon their holders in accordance with the provisions of this Section.

2. A design applied to, or incorporated in, a product which constitutes a component part of a complex product shall only be considered protectable according to paragraph 1 if the component part, once it has been incorporated into the complex product ⁽⁶⁹⁾, remains visible during normal use ⁽⁷⁰⁾ of the latter, and to the extent that those visible features of the component part fulfil in themselves the requirements to be protectable.

Article 226

Rights Conferred by Registration

1. The holder of a registered design shall have the exclusive right at least to prevent third parties not having his/her consent, from making, offering for sale, selling, importing, exporting, stocking such a product or using articles bearing or embodying the protected design when such acts are undertaken for commercial purposes.

2. The holder of a registered design shall also have the right to take legal action against any person who produces or markets a product whose design only presents minor differences with respect to the protected design or where appearance is the same as the latter protected design.

⁽⁶⁸⁾ For the purposes of this Section, the European Union also grants protection to the unregistered design when it meets the requirements of Council Regulation (EC) No 6/2002 of 12 December 2001 on Community designs, as last amended by Council Regulation (EC) No 1891/2006 of 18 December 2006.

⁽⁶⁹⁾ For the purposes of this Section 'complex product' means a product which is composed of multiple components which can be replaced permitting disassembly and re-assembly of the product.

⁽⁷⁰⁾ For the purposes of this Section 'normal use' in this context means use by the end user, excluding maintenance, servicing or repair work.

Article 227

Term of Protection

The duration of protection of an industrial design shall amount to, at least, 10 years from the date of the submission of the application for registration. The Parties may implement a longer term of protection in their domestic legislation.

Article 228

Exceptions

1. The Parties may establish limited exceptions to the protection of designs, provided that such exceptions do not unreasonably conflict with the normal exploitation of protected designs and do not unreasonably prejudice the legitimate interests of the owner of the protected design, taking account of the legitimate interests of third parties.

2. Design protection shall not extend to designs dictated entirely by technical or functional considerations.

3. A design right shall not subsist in features of appearance of a product which must necessarily be reproduced in their exact form and dimensions in order to permit the product in which the design is incorporated, or to which it is applied, to be mechanically connected to or placed in, around or against another product so that either product may perform its function.

4. A design does not confer rights when it is contrary to public order or morality.

Article 229

Relationship to Copyright

The subject matter of protection of a design right may be protected under copyright legislation if the conditions for such protection are met. The extent to which, and the conditions under which, such protection is conferred, including the level of originality required, shall be determined by each Party.

Section 5

Patents

Article 230

1. The Parties shall comply with Articles 2 through 9 of the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure, done in Budapest on 28 April 1977 and amended on 26 September 1980.

2. The European Union shall make all reasonable efforts to comply with the Patent Law Treaty, adopted at Geneva on 1 June 2000 (hereinafter referred to as the 'PLT'). The signatory Andean Countries shall make all reasonable efforts to accede to the PLT.

3. When the marketing of a pharmaceutical or agricultural chemical product ⁽⁷¹⁾ in a Party requires to obtain an authorisation by its competent authorities in such matters, such Party shall make its best efforts to process the corresponding application expeditiously with a view to avoiding unreasonable delays. The Parties shall cooperate and provide mutual assistance to achieve this objective.

4. With respect to any pharmaceutical product that is covered by a patent, each Party may, in accordance with its domestic legislation, make available a mechanism to compensate the patent owner for unreasonable curtailment of the effective patent term resulting from the first marketing approval of that product in that Party. Such mechanism shall confer all of the exclusive rights of a patent, subject to the same limitations and exceptions applicable to the original patent.

Section 6

Protection of data of certain regulated products

Article 231

1. Each Party shall protect undisclosed test or other data related to safety and efficacy of pharmaceutical products ⁽⁷²⁾ and agricultural chemical products, in accordance with Article 39 of the TRIPS Agreement and its domestic legislation.

2. According to paragraph 1, and subject to paragraph 4, when a Party requires, as a condition for approving the marketing of pharmaceutical or of agricultural chemical products which contain new chemical entities, the submission of undisclosed test or other data related to safety and efficacy, that Party shall grant an exclusivity period normally of five years from the date of marketing approval in the territory of that Party for pharmaceutical products, and 10 years for agricultural chemical products, period during which a third party may not commercialise a product based on such data, unless he/she presents proof of the explicit consent of the holder of the protected information or his/her own test data.

⁽⁷¹⁾ For the purposes of this Title, 'agricultural chemical products' means, for the EU Party, active substances and preparations containing one or more active substances, put up in the form in which they are supplied to the user, intended to:

- (a) protect plants or plant products against all harmful organisms or prevent the action of such organisms, in so far as such substances or preparations are not otherwise defined below;
- (b) influence the life processes of plants, other than as a nutrient (e.g. plant growth regulators);
- (c) preserve plant products, in so far as such substances or products are not subject to special Council or Commission provisions on preservatives;
- (d) destroy undesirable plants; or
- (e) destroy parts of plants, check or prevent undesirable growth of plants.

⁽⁷²⁾ For Colombia and the EU Party, this protection will include data protection of biological and biotechnology products. For Peru, the protection of the undisclosed information of such products shall be granted against disclosure and the practices that are contrary to honest commercial practices, in accordance with Article 39.2 of the TRIPS Agreement, in absence of specific legislation regarding thereof.

3. For the purpose of this Article, a 'new chemical entity' is the one which has not been previously approved in the territory of the Party for its use in a pharmaceutical or chemical agricultural product, pursuant to its domestic legislation. Accordingly, the Parties need not apply this Article with respect to pharmaceutical products that contain a chemical entity that has been previously approved in the territory of the Party.

4. The Parties may regulate:

- (a) exceptions for reasons of public interest, situations of national emergency or extreme urgency, when it is necessary to allow access to those data to third parties; and
- (b) abbreviated marketing approval procedures in their territory, relying on a marketing approval granted by another Party. In such case, the period of exclusive use of the data submitted in connection with obtaining the approval shall begin from the date of the first marketing approval relied on, when the approval is granted within six months from the filing of a complete application.

5. With regard to agricultural chemical products, the Parties may provide procedures which make it possible to remit or refer to the undisclosed information on safety and efficacy related to tests and studies that involve vertebrate animals. During the term of protection, the interested person in using such information shall compensate the holder of the protected information. The costs of such compensation shall be determined in a fair, equitable, transparent and non-discriminatory manner. The right to this compensation shall apply for as long as the protection of the undisclosed information on safety and efficacy lasts.

6. In accordance with the provisions of Article 197 paragraph 5, the protection provided for in this Article does not prevent a Party from adopting measures in response to the abuse of intellectual property rights or practices which unreasonably restrain trade.

Section 7

Plant varieties

Article 232

The Parties shall cooperate to promote and ensure the protection of plant varieties based on the International Convention for the Protection of New Varieties of Plants (hereinafter referred to as 'UPOV Convention'), as revised on 19 March 1991, including the optional exception to the right of the breeder as referred to in Article 15(2) of such Convention.

Section 8

Unfair competition*Article 233*

1. Each Party shall grant effective protection against unfair competition in accordance with Article 10 *bis* of the Paris Convention. For this purpose, any act carried out in respect of industrial property in the course of trade that is contrary to honest commercial practices shall be considered unfair in accordance with the domestic legislation of each Party.

2. In accordance with the domestic legislation of each Party, this Article may be applied without prejudice to the protection granted under this Title.

CHAPTER 4

Section 1

General provisions*Article 234*

1. Without prejudice to their rights and obligations under the TRIPS Agreement, and in particular of its Part III, each Party shall provide for measures, procedures and remedies as established under this Chapter, which are necessary to ensure the enforcement of intellectual property rights as defined in Article 196, subparagraphs 5(a) to 5(i).

2. The provisions under this Chapter shall include measures, procedures and remedies that are expeditious, effective, and proportionate, and constitute a deterrent to further infringements and shall be applied in such a manner as to avoid the creation of barriers to legitimate trade and to provide for safeguards against their abuse.

3. Procedures concerning the enforcement of intellectual property rights shall be fair and equitable and shall not be unnecessarily complicated or costly, or entail unreasonable time-limits or unwarranted delays.

4. This Chapter does not create for the Parties any obligation to put in place a judicial system for the enforcement of intellectual property rights distinct from that for the enforcement of law in general, or any obligation with respect to the distribution of resources for enforcement of intellectual property rights and the enforcement of law in general.

Section 2

Civil and administrative remedies and procedures*Article 235*

Articles 237, 239 and 240 shall apply in respect of acts carried out on a commercial scale, and if permitted by their domestic law, the Parties may apply the measures provided for in such Articles in respect of other acts.

*Article 236***Entitled Applicants**

Each Party shall recognise as persons entitled to seek application of the measures, initiate the procedures and apply for remedies referred to in this Section and in Part III of the TRIPS Agreement:

- (a) holders of intellectual property rights in accordance with its applicable law;
- (b) all other persons authorised to use those rights, in particular the exclusive licensee and other licensees, in so far as permitted by and in accordance with its applicable law;
- (c) intellectual property collective rights management bodies which are regularly recognised as having a right to represent holders of intellectual property rights, in so far as permitted by and in accordance with the provisions of its applicable law; and
- (d) professional defence bodies which are regularly recognised as having a right to represent holders of intellectual property rights, in so far as permitted by and in accordance with its applicable law.

*Article 237***Evidence**

Each Party shall take such measures as are necessary, in the case of an infringement of an intellectual property right committed on a commercial scale, to enable its competent judicial authorities to order the opposing party, where appropriate and upon application by a party, the communication of relevant banking, financial or commercial documents under his/her control, subject to the protection of confidential information.

*Article 238***Measures for Preserving Evidence**

Each Party shall provide that, even before the commencement of proceedings on the merits of the case, the competent judicial authorities may, upon application by a person, who has presented reasonably available evidence enough to support his/her claims that his/her intellectual property right has been infringed or is about to be infringed, order prompt, effective and proportionate provisional measures to preserve relevant evidence in respect of the alleged infringement, subject to the protection of confidential information. Such measures may include, among others, the detailed description, with or without the taking of samples, or if the domestic legislation permits, the physical seizure of the alleged infringing goods, and, in appropriate cases, the materials and implements used in the production and/or distribution of these goods and the documents relating thereto. Those measures shall be taken, if

necessary, without the other party being heard, in particular where any delay is likely to cause irreparable harm to the right holder or where there is a demonstrable risk of evidence being destroyed.

Article 239

Right of Information

1. Each Party shall provide that, in the context of proceedings concerning an infringement of an intellectual property right and in response to a justified and proportionate request of the claimant, the competent judicial authorities may order that information on the origin and distribution networks of the goods or services which infringe an intellectual property right be provided by the infringer and/or any other person who:

- (a) was found in possession of the infringing goods on a commercial scale;
- (b) was found to be using the infringing services on a commercial scale;
- (c) was found to be providing on a commercial scale services used in infringing activities; or
- (d) was indicated by the person referred to in subparagraphs (a), (b) or (c) as being involved in the production, manufacture or distribution of the goods or the provision of the services in question.

2. The information referred to in paragraph 1 shall, as appropriate, comprise:

- (a) the names and addresses of the producers, manufacturers, distributors, suppliers and other previous holders of the goods or services, as well as the intended wholesalers and retailers;
- (b) information on the quantities produced, manufactured, delivered, received or ordered, as well as the price obtained for the goods or services in question.

3. Paragraphs 1 and 2 shall apply without prejudice to other statutory provisions which:

- (a) grant the right holder rights to receive fuller information;
- (b) govern the use in civil or criminal proceedings of the information communicated pursuant to this Article;
- (c) govern responsibility for misuse of the right of information;
- (d) afford an opportunity for refusing to provide information which would force the person referred to in paragraph 1 to admit his own participation or that of his close relatives in an infringement of an intellectual property right; or

(e) govern the protection of confidentiality of information sources or the processing of personal data.

Article 240

Provisional and Precautionary Measures

1. In accordance with its domestic legislation, each Party shall provide that its judicial authorities may, upon request of the applicant, issue an interlocutory injunction against any party, intended to prevent any imminent infringement of an intellectual property right, or to forbid, on a provisional basis and subject, where appropriate, to a recurring penalty payment where provided for by domestic law, the continuation of the alleged infringements of that right, or to subject such continuation to the lodging of guarantees intended to ensure the compensation of the right holder.

2. An interlocutory injunction may also be issued to order the seizure or withdrawal of the goods suspected of infringing an intellectual property right so as to prevent their entry into or movement within the channels of commerce.

Article 241

Corrective Measures

1. Each Party shall take the necessary measures to provide that its competent judicial authorities may order, upon request of the applicant and without prejudice to any damages due to the right holder by reason of the infringement, and without compensation of any sort to the infringer, the withdrawal, definitive removal from the channels of commerce or destruction of goods that they have found to be infringing an intellectual property right. If appropriate, the competent judicial authorities may also order the destruction of materials and implements principally used in the creation or manufacture of those goods.

2. The judicial authorities shall order that measures, as referred to in paragraph 1, shall be carried out at the expense of the infringer, unless particular reasons are invoked for not doing so.

Article 242

Injunctions

Without prejudice to the provisions of Article 44.2 of the TRIPS Agreement, each Party shall provide that, where a judicial decision is taken finding an infringement of an intellectual property right, the judicial authorities may issue an injunction against the infringer aimed at prohibiting the continuation of the infringement. Where provided for in the domestic law of a Party, non-compliance with an injunction shall, where appropriate, be subject to a recurring penalty payment, with a view to ensuring compliance ⁽⁷³⁾.

⁽⁷³⁾ The Parties shall ensure that the measures referred in this paragraph may also apply against those whose services have been used to infringe intellectual property rights to the extent they have been involved in the process.

Article 243

Alternative Measures

Each Party may provide, in accordance with its domestic legislation, that in appropriate cases and upon request of the person liable to be subject to the measures provided for in Article 241 and/or Article 242, the competent judicial authorities may order pecuniary compensation to be paid to the injured party instead of applying the measures provided for in Article 241 and/or Article 242 if that person acted unintentionally and without negligence, if execution of the measures in question would cause such person disproportionate harm and if pecuniary compensation to the injured party appears reasonably satisfactory.

Article 244

Damages

1. Each Party shall provide that when setting the damages, its judicial authorities:

(a) take into account all appropriate aspects, such as the negative economic consequences, including lost profits, which the injured party has suffered, any unfair profits made by the infringer and, in appropriate cases, elements other than economic factors, such as the moral prejudice caused to the right holder by the infringement; or

(b) as an alternative to subparagraph (a), may, in appropriate cases, set the damages as a lump sum on the basis of elements such as at least the amount of royalties or fees which would have been due if the infringer had requested authorisation to use the intellectual property right in question.

2. Where the infringer did not knowingly, or with reasonable grounds to know, engage in an infringing activity, the Parties may provide that the judicial authorities may order the recovery of profits or the payment of damages which may be pre-established.

Article 245

Legal Costs

Each Party shall ensure that reasonable and proportionate legal costs and other procedural expenses, including attorney's fees, incurred by the successful party shall, as a general rule, be borne by the unsuccessful party, except for equity or other reasons, in accordance with domestic legislation.

Article 246

Publication of Judicial Decisions

Each Party shall take the necessary measures to ensure that, in legal proceedings instituted for infringement of an intellectual property right, the judicial authorities may order, upon request of the applicant and at the expense of the infringer, appropriate measures for the dissemination of the information concerning the decision, including displaying the decision and publishing it in full or in part. The Parties may provide for other additional publicity measures which are appropriate to the particular circumstances, including prominent advertising.

Article 247

Presumption of Authorship or Ownership

For the purposes of applying the measures, procedures and remedies provided for under this Agreement in relation to the enforcement of copyright and related rights:

(a) for the author of a literary or artistic work, in the absence of proof to the contrary, to be regarded as such, and consequently to be entitled to institute infringement proceedings, it shall be sufficient for his/her name to appear on the work in the usual manner. This subparagraph shall be applicable even if such name is a pseudonym, where the pseudonym adopted by the author leaves no doubt as to his/her identity;

(b) subparagraph (a) shall apply *mutatis mutandis* to the holders of rights related to copyright with regard to their protected subject matter.

Article 248

Administrative Procedures

To the extent that any civil remedy can be ordered as a result of administrative procedures on the merits of a case, such procedures shall conform to principles equivalent in substance to those set forth in the relevant provisions of this Section.

Article 249

Border Measures

1. Each Party shall, unless otherwise provided for in this Article, adopt procedures⁽⁷⁴⁾ to enable a right holder, who has valid grounds for suspecting that the import, export, or transit of goods infringing a copyright or a trademark right⁽⁷⁵⁾ may take place, to lodge an application in writing with competent authorities, for the suspension by the customs authorities of the release into free circulation or for the detention of such goods. The Parties will evaluate the application of these measures for goods suspected of infringing a geographical indication.

⁽⁷⁴⁾ It is understood by the Parties that there shall be no obligation to apply such procedures to imports of goods put on the market in another country by or with the consent of the right holder.

⁽⁷⁵⁾ For the purposes of this provision, 'goods infringing a copyright or a trademark right' means:

(a) 'counterfeit goods', namely:

(i) goods, including packaging, bearing without authorisation a trademark identical to the trademark duly registered in respect of the same type of goods, or which cannot be distinguished in its essential aspects from such a trademark, and which thereby infringes the rights of the trademark holder;

(ii) any trademark symbol (logo, label, sticker, brochure, instructions for use or guarantee document), even if presented separately, on the same conditions as the goods referred to in (i) above;

(iii) packaging materials bearing the trademarks of counterfeit goods, presented separately, on the same conditions as the goods referred to in (i) above;

(b) 'pirated goods', namely goods which are or contain copies made without the consent of the holder, or of a person duly authorised by the holder in the country of production, of a copyright or related right or design right, regardless of whether it is registered in national law.

2. Each Party shall provide that when the customs authorities, in the course of their actions, have sufficient grounds for suspecting that goods infringe a copyright or a trademark right, such authorities may suspend *ex officio* the release of the goods or detain them in order to enable the right holder to submit, subject to the domestic law of each Party, a judicial or administrative action in accordance with paragraph 1.

3. Any right or obligation established in Part III, Section 4 of the TRIPS Agreement concerning the importer shall be also applicable to the exporter or to the consignee of the goods.

- (a) initiate the transmission;
- (b) select the receiver of the transmission; and
- (c) select or modify the information contained in the transmission.

2. The acts of transmission and provision of access referred to in paragraph 1 include the automatic, intermediate and transient storage of the information transmitted in so far as this takes place for the sole purpose of carrying out the transmission in the communication network, and provided that the information is not stored for a period longer than is reasonably necessary for the transmission.

Article 252

Liability of Intermediary Service Providers: 'caching'

1. Where the service that is provided consists of the transmission in a communication network of information provided by a recipient of the service, each Party shall ensure that the service provider is not liable for the automatic, intermediate and temporary storage of that information, performed for the sole purpose of making more efficient the onward transmission of the information to other recipients of the service upon their request, on condition that such provider:

- (a) does not modify the information;
- (b) complies with conditions on access to the information;
- (c) complies with rules regarding the updating of the information, specified in a manner widely recognised and used by industry;
- (d) does not interfere with the lawful use of technology, widely recognised and used by industry, to obtain data on the use of the information; and
- (e) acts expeditiously to remove or to disable access to the information it has stored upon obtaining actual knowledge of the fact that the information at the initial source of the transmission has been removed from the network, or access to it has been disabled, or that a court or an administrative authority has ordered such removal or disablement.

2. This Section shall not affect the possibility for a court or administrative authority, in accordance with the legal systems of each Party, of requiring the service provider to terminate or prevent an infringement.

- (a) does not have actual knowledge of illegal activity or information and, as regards claims for damages, is not aware of facts or circumstances from which the illegal activity or information is apparent; or
- (b) acts expeditiously to remove or to disable access to the information, upon obtaining such knowledge or awareness.

2. Paragraph 1 shall not apply when the recipient of the service is acting under the authority or the control of the provider.

3. This Section shall not affect the possibility for a court or administrative authority, in accordance with the legal system of each Party, of requiring the service provider to terminate or prevent an infringement, nor does it affect the possibility for a Party to establish procedures governing the removal or disabling of access to information.

Article 254

No General Obligation to Monitor

1. A Party shall not impose a general obligation on service providers, when providing the services covered by Articles 251, 252 and 253, to monitor the information which they transmit or store, nor a general obligation to actively seek for facts or circumstances indicating illegal activities.

2. The Parties may establish obligations for service providers to promptly inform the competent public authorities of alleged illegal activities undertaken or of information provided by recipients of their service, or obligations to communicate to the competent authorities, upon request of such authorities, information enabling the identification of recipients of their service with whom they have storage agreements.

dispute and to the Trade Committee within 30 days of the date when that arbitration panel has received the request. The benefits shall not be suspended until the original arbitration panel has notified its ruling to the parties to the dispute and any suspension shall comply with such ruling.

6. In case the original arbitration panel, or any of its members, is not available, the procedures established in Article 303 shall apply. The ruling shall be issued within 45 days from the date of establishment of the new arbitration panel.

7. The compensation or the suspension of benefits under this Article shall be temporary and shall not waive the obligation of the Party complained against of its obligation to comply with the ruling. Such remedies shall apply only until any measure declared inconsistent with this Agreement has been withdrawn or modified so as to comply with the provisions of this Agreement, or the parties to the dispute have reached a mutually agreed solution.

Article 311

Review of Any Measure Adopted After the Suspension of Benefits or Compensation for Non-compliance

1. The Party complained against may notify at any time to the complaining Party and the Trade Committee any measure that it has adopted to comply with the ruling of the arbitration panel and of its request to the complaining Party to terminate the suspension of benefits, or its intention to terminate the application of compensation for non-compliance, as the case may be. Except in the case provided for in paragraph 2, the suspension of benefits shall terminate 30 days following such notification.

2. If the parties to the dispute are unable to reach an agreement on the compatibility of the notified measure with the provisions of this Agreement within 30 days from the date of the notification provided for under paragraph 1, any of such parties may submit a written request to the original arbitration panel to rule on the matter. Such request shall be notified simultaneously to the Party complained against and the Trade Committee. If the arbitration panel decides that the compliance measure is compatible with the provisions of this Agreement, the suspension of benefits shall be terminated.

3. In case the original arbitration panel, or any of its members, is not available, the procedures established in Article 303 shall apply. The ruling shall be notified within 45 days from the date of establishment of a new arbitration panel.

4. If, following the 30-day period referred to in paragraph 2, none of the parties to the dispute has requested the original arbitration panel to decide on the consistency of the measure notified under paragraph 1, and the complaining Party has not complied with its obligation of terminating the suspension of

benefits, the Party complained against may suspend benefits at a level equivalent to that applied by the complaining Party, while such Party continues to suspend benefits.

Article 312

Request for Clarification of a Ruling

1. Within 10 days following the notification of the ruling, a party to the dispute may submit a request in writing to the arbitration panel, with copy to the other party to the dispute and the Trade Committee, for clarification of certain specific aspects of any determination or recommendation in the ruling that such party considers ambiguous, including those related to compliance. The other party to the dispute may submit comments on such request to the arbitration panel, with copy to the Party who submitted the original request for clarification. The arbitration panel shall respond to such request within 10 days following its receipt.

2. The submission of a request under paragraph 1 shall not affect the periods referred to in Article 308.

Article 313

Suspension and Termination of Arbitration Proceedings

The parties to the dispute shall notify such agreement in writing to the chairperson of the arbitration panel, with copy to the Trade Committee. In the event of such suspension, the time limits set out in Article 307 shall be extended by the amount of time during which the work has been suspended.

2. In any case, if the work of the arbitration panel has been suspended for more than 12 months, the authority of the arbitration panel shall lapse, unless the parties to the dispute agree otherwise. If the authority of the arbitration panel lapses, nothing in this Article shall prevent a Party from initiating another arbitration proceeding on the same matter.

3. The parties to a dispute may agree to terminate arbitration proceedings at any time, through a joint written notification to the chairperson of the arbitration panel, with copy to the Trade Committee.
