#### Statements to the legislative "B" items set out in doc. 9710/22

Ad "B" item 5: Regulation on digital information exchange in terrorism cases

General approach

#### STATEMENT BY CYPRUS

"As regards the abovementioned proposal, and in particular to the provisions therein related to the exchange of information with third countries and the secondment of a liaison Prosecutor from a third country to Eurojust, Cyprus recalls its position as regards the horizontal obligation of third countries, including candidate countries, to fully and effectively cooperate with all EU Member States in a non-discriminatory manner, both for the exchange of information as well as at the level of liaison officers of third countries seconded to Eurojust."

Regulation establishing a collaboration platform to support the

**<u>Ad "B" item 6:</u>** functioning of Joint Investigation Teams

General approach

#### STATEMENT BY GERMANY

"The Federal Government agrees with the proposal for a Regulation establishing a platform for the cooperation of joint investigative teams (JITs). Establishing a secure and functional collaboration platform, which is embedded in the existing collaboration systems and allows for more efficient collaboration between judicial and criminal prosecution authorities across the EU is an important step in combating of cross-border crime.

However, the Federal Government takes the view that access to this collaboration platform should also be granted to joint investigation teams within the meaning of Article 24 of the Naples II Convention, which are established by judicial and criminal prosecution authorities in the course of carrying out their duties in cases of breaches of customs or excise duty regulations, or of prohibitions and restrictions (e.g. smuggling drugs or weapons). Joint investigation teams within the meaning of the Naples II Convention are regularly used and are highly significant in practice in order to be able to effectively combat cross-border organised and serious crime. Moreover, they are an important instrument for safeguarding the EU's financial interests. For this reason, the Federal Government takes the view that they should also have access to the most modern collaboration tools, such as the proposed collaboration platform."

## Ad "B" item 13: Amendments to the Schengen Borders Code General approach

#### STATEMENT BY GERMANY

"Germany welcomes the common Council position on a draft regulation amending the Schengen Border Code adopted by the Council on 10 June 2022.

With a view to clarifying the interpretation of paragraph 5 of article 27a of the draft Code, Germany wishes to specify its position on the said provision's operational implementation.

In Germany's view para. 5 of article 27a needs to be read in conjunction with the rulings of the European Court of Justice of 26 April 2022 (C-368/20 and C-369/20), and indeed serves to implement the principles as spelled out by the Court in these decisions. As a consequence, Germany considers that internal border controls in the Schengen Area need to be restricted to what is strictly necessary. More specifically, para. 5 of article 27a cannot be construed so as to allow for the indefinite prolongation of internal border controls.

Therefore, it is Germany's position that para. 5 of article 27a provides for a prolongation of internal border controls beyond two years due to persistent threats only in major, exceptional cases. Given the principle of free movement of persons without border controls, as laid down in the Treaties, this exception needs to be construed in a strict and narrow way, taking into account that conceivable threats normally do not persist over a period of two years without the possibility of being effectively addressed by other, less intrusive measures.

By the same token, any extension of internal border controls under the said provision even beyond these additional six months can be applied only in very rare and most exceptional cases. It is Germany's express view that border controls shall expire on the date specified by the Member State concerned under para. 5 article 27a as the date that controls will be lifted at the latest. Therefore, any extension of border controls beyond this final prolongation regarding the same threat will need to be considered as not being covered by para. 5 of article 27a and will need to be lifted without undue delay. If, however, the European Commission under the said provision recommends that internal border controls need to be lifted earlier in the light of necessity and proportionality, the Commission's recommendation shall prevail.

Germany invites the European Commission to continue to effectively exert its functions as the guardian of the Treaties by ensuring that the principle of free movement of persons without border controls, one of the European Union's principal achievements, is maintained. The European Commission is invited to do so by closely scrutinizing the operational implementation of this provision."
