Item based on a Commission proposal

Public debate proposed by the Presidency (Article 8(2) of the Council's Rules of Procedure)

Statements to the legislative "A" items set out in doc. 11238/22

Ad "A" item 1:

Regulation amending and correcting Regulation (EU) No 508/2014 as regards specific measures to alleviate the consequences of the military aggression of Russia against Ukraine on fishing activities

Adoption of the legislative act

STATEMENT BY THE COMMISSION

“The Commission welcomes the swift adoption by the European Parliament and the Council of the amendment to Regulation (EU) No 508/2014 on the European Maritime and Fisheries Fund, thus making the specific support measures available to operators to alleviate the consequences of the military aggression of Russia against Ukraine on fishing activities and to mitigate the effects caused by that military aggression on the market of fishery and aquaculture products, including the additional costs of raw material, input and energy. However, the Commission urges caution in the use of the measures providing compensation for the temporary cessation of fishing activities in cases where the Russian aggression ‘impedes the economic viability of fishing operations’.

Indeed, temporary cessation is subject to the condition that all fishing activities carried out by the fishing vessel benefitting are ‘effectively suspended’, which means that the fishing vessel concerned has to stop any fishing activities during the period concerned by the temporary cessation. The Commission encourages Member States to prioritise the measures that aim to compensate additional costs and income forgone incurred due to the market disruption caused by the military aggression of Russia against Ukraine and its effects on the supply chain of fishery and aquaculture products, which are better suited to keeping the supply chain of fishery and aquaculture products functioning. Widespread use of temporary cessation could have the unintended consequence of exacerbating the disruption of the fishery supply chain because of a drop of supply on the market.”

Regulation on temporary measures concerning Ukrainian driver documents

Ad "A" item 2:

Adoption of the legislative act

Decision to derogate from the eight-week period provided for in Article 4 of Protocol 1 on the role of national parliaments in the EU

STATEMENT BY POLAND

“The Republic of Poland welcomes the direction of the solutions proposed in the abovementioned draft Regulation. Nevertheless, the Government of the Republic of Poland wishes to draw attention to the following two points.

First, the Government of the Republic of Poland considers that the specific and temporary measures applicable to driver documents issued by Ukraine should not be made conditional upon the Ukrainian national enjoying temporary or adequate protection under national law in accordance with Directive 2001/55/EC and Implementing Decision (EU) 2022/382. The aim is for the draft provisions to apply to the maximum possible number of drivers who are Ukrainian nationals. The scope of the draft Regulation as proposed by the European Commission only covers the category of people who have been granted temporary protection, the vast majority of whom are women, people over 60 years old and children. Few of the people in this category hold a driving licence that permits them to drive vehicles used for the carriage of goods or passengers by road.

Second, in the opinion of the Government of the Republic of Poland, the material scope of the draft Regulation should also be broadened so as to extend the period of validity of documents issued to professional drivers after 24 February 2022 – i.e. driving certificates, driver qualification cards, driving licences under code 95 or certificates of professional competence – for one to two years from the date of entry into force of the Regulation or until the end of the period for which so-called temporary protection applies. This solution would ensure the continuity of the rights held and would make it possible, inter alia, to work as a road transport driver.”
