To:	Delegations
Subject:	Draft Council Conclusions on 'European Agenda for Tourism 2030'

Delegations will find attached a Presidency proposal for draft Council conclusions on "European Agenda for Tourism 2030" with a view to the discussion by the Working Party on Competitiveness and Growth (Tourism) at its meeting on 9 September 2022.

Draft Council Conclusions on 'European Agenda for Tourism 2030'

### THE COUNCIL OF THE EUROPEAN UNION,

1. RECALLING Article 6 of the Treaty on the Functioning of the European Union, as regards the EU supporting, coordinating and supplementing the actions of Member States in the area of tourism; in this sense REAFFIRMING Article 195 of the Treaty on the Functioning of the European Union.

### 2. RECALLING

- its Conclusions on 'The competitiveness of the tourism sector as a driver for sustainable growth, jobs and social cohesion in the EU for the next decade' of 27 May 2019<sup>1</sup>;
- its Conclusions on 'Tourism in Europe for the next decade: sustainable, resilient, digital, global and social' of 27 May 2021<sup>2</sup>.
- 3. UNDERLINES its determination to promote sustainable tourism, considering all the key dimensions of economic, environmental and social sustainability, in accordance with the United Nations 2030 Agenda for Sustainable Development, and its commitment to support tourism that creates sustainable jobs and promotes local culture, products and services.
- 4. ACKNOWLEDGES that tourism significantly contributes to economic development across Europe and can aid with achieving the objectives of various EU, national and regional policies thanks to its cross-cutting economic and social dimension and the high ratio of micro, small and medium-sized enterprises operating directly or indirectly along the tourism value chain.

8881/21.

\_

<sup>9707/19.</sup> 

- 5. WELCOMES the outcome of the co-creation process with the stakeholders led by the Commission under the Transition Pathway for Tourism<sup>3</sup> as a follow-up to the Communication from the Commission on 'Updating the 2020 New Industrial Strategy. Building a stronger Single Market for Europe's Recovery'<sup>4</sup>, which helped to identify actions, conditions and objectives for the green and digital transition of tourism towards a more resilient ecosystem.
- RECOGNISES the work of the Commission, Member States and stakeholders to build the 6. basis for the European Agenda for Tourism 2030 through the co-creation process; in this respect ACKNOWLEDGES that the co-implementation process, as part of the Transition Pathway for Tourism, is a good starting point for strengthening cooperation among tourism stakeholders and the Member States.
- 7. STRESSES the importance of promoting a sustainable, innovative and resilient tourism ecosystem given that:
  - in 2019, before the COVID-19 pandemic, the EU tourism ecosystem represented 12.9 % of EU Gross Value Added and 15.8 % of employment;
  - the tourism ecosystem is composed of several economic sectors, which have their own specific sectoral approaches, where over 99 % are micro, small and medium-sized enterprises;
  - the EU is a top destination for both international visitors and its own residents.

### Impact of recent crises on tourism

- 8. UNDERSCORES that the COVID-19 pandemic has had a particularly devastating effect on the tourism ecosystem and led to a significant loss of income, employment and staff.
- 9. EMPHASISES that re-opening and re-starting after the COVID-19 pandemic provides an opportunity to leverage the COVID-19 recovery phase for a green and digital transformation of the tourism ecosystem.

8553/21.

<sup>3</sup> 10089/21.

- 10. REGRETS the negative impact of Russia's invasion of Ukraine on tourism, among other sectors, particularly in countries close to Ukraine and, in this respect, ACKNOWLEDGES their continuous efforts to resume their tourism activities in a climate of uncertainty related to the military aggression.
- 11. POINTS OUT that across all Member States, limitations on travel have a serious effect on the operations of passenger transport companies and a particular impact on long-haul flights.
- 12. IS CONCERNED that rising prices on energy and food products heavily burden the provision of travel and hospitality services.
- 13. RECOGNISES that despite the continuing uncertainty, the tourism ecosystem has shown solidarity towards refugees from Ukraine by providing temporary accommodation for relocated citizens and by supporting their integration and offering them jobs.

### **Future vision**

- 14. STRESSES that the tourism sector is subject to unprecedented conditions that are evolving quickly and affecting its traditional business models.
- 15. EMPHASISES the need to bring more transparency into relations between online platforms and public bodies, especially as regards the identity of accommodation providers who offer their premises through online platforms.
- 16. CONSIDERS that the digital and green transitions of the tourism ecosystem must be based on collaboration between stakeholders across sectors and different levels of public and private actors at EU, national, regional and local levels.
- 17. TAKES INTO ACCOUNT that the COVID-19 pandemic has increased recognition of sustainability objectives among EU citizens and globally, and INVITES the Commission, Member States and tourism stakeholders to make use of the readiness of many Europeans to change their travel and tourism habits in order to become more sustainable.

- 18. POINTS OUT that businesses have proven able to quickly adjust and innovate their services, resources, and target markets in exceptional circumstances; CONSIDERS that further increased flexibility can be an instrument for a more resilient tourism market.
- 19. POINTS OUT that domestic and intra-EU tourism can also help to build resilience for destinations, businesses and services.

#### 20. INVITES Member States to:

- exchange knowledge and best practices for developing and implementing strategies at various governance levels, taking account of the economic, environmental and social sustainability of tourism and including the perspective of visitors, and awareness-raising activities;
- help to build resilience into the tourism ecosystem across sectors and at different levels of public and private actors;
- contribute to the green transition of the tourism ecosystem regarding:
  - transport, e.g. by supporting the decarbonisation of mobility, through the
    development of multimodal travel and improving the attractiveness of railways for
    passengers and by promoting alternative mobility modes, such as cycling and
    hiking, and encouraging longer stays;
  - more circular and sustainable operations of cultural establishments, attractions, travel agents and tour operators;
  - all related sectors through the use of relevant EU green public procurement criteria when procuring tourism-related services, such as events, hospitality or travel;
- create the conditions and incentive to improve the circularity of tourism services in line
   with EU-wide and national targets for food waste and waste separation;
- support sustainable tourism with regard to water management and sanitation capacity;

- facilitate the digital transition of tourism stakeholders and support the tourism industry and destinations, in particular by:
  - improving the availability of online information on the tourism offer, including on sustainability, accessibility and target audiences;
  - digitalising travel documents and border procedures for both EU and non-EU
     citizens and operating the EU Digital COVID Certificate framework as needed;
  - supporting the capacities and digital skills of tourism SMEs to ensure innovative tourism services and effective communication with their clients;
  - providing the necessary data to the Commission on travel information, including for the Re-open platform;
- support the development and implementation of innovations in the tourism sector,
   research and innovation (R&I) projects and multi-disciplinary efforts to develop models
   and transferable practices for sustainable tourism;
- work on improving the availability of statistics and data sharing at all levels relevant to the tourism ecosystem;
- support the development of the quality of education and skills needed by the tourism workforce, and fairness and equality in tourism jobs;
- in their policies, take into account the impact of tourism on the quality of life of local communities;
- foster the transition of the tourism ecosystem via financial support, in line with national tourism strategies and the European Agenda for Tourism 2030;
- engage in the implementation of this European Tourism Agenda 2030.

### 21. CALLS on the Commission to:

- engage, together with Member States, destinations and tourism stakeholders, in
   implementing the European Agenda for Tourism 2030, in particular through:
  - the co-implementation process as part of the Transition Pathway for Tourism;
  - the promotion of cross-sectoral cooperation across relevant EU policy domains (e.g. transport, environment and consumer protection);
  - the development and implementation of governance models for sustainable destinations through facilitating knowledge and best-practice exchange; and
  - the establishment of platforms for studies, knowledge development, best-practice
    collection and exchange, to provide information on existing communities,
    networks, ongoing projects and their results, topical events, training and funding
    opportunities, etc.;
- ensure user-friendly and actively updated provision of travel information in exceptional situations, including through the Re-open EU platform, based on users' own input, contributions from Member States and other possible sources;
- propose a common EU regulatory framework for short-term rentals in order to enhance transparency and to guarantee a level playing field for all accommodation service providers;
- implement the EU Tourism Dashboard to support the follow-up of environmental,
   digital and socio-economic aspects of tourism;
- support Member States and relevant stakeholders in tourism with its expertise and experience, including through continuous work within the Tourism Advisory Committee;

- support dialogue and cooperation between public authorities and private EU tourism stakeholders at all levels;
- support SME digitalisation by collecting and sharing best practices on digital tools and practices for tourism;
- identify relevant financing opportunities for Member States and stakeholders through
  the EU budget and other sources to work towards the objectives recognised in this
  Agenda, including through the regular update of the 'Guide on EU funding for tourism';
- support awareness-raising activities for citizens and tourism stakeholders on the benefits
  of the green and digital transformation, consumers' demand for sustainable offers, new
  skills needs and experimenting in tourism, and develop the use of environmental
  footprint methodologies for the tourism ecosystem;
- support capacity-building programmes and technical and financial assistance for SMEs
   to engage in environmentally friendly practices and schemes;
- revise harmonised data collection rules on tourism statistics that include elements and indicators on economic, social and environmental sustainability, in cooperation with European Statistical System actors;
- support Member States and tourism stakeholders in implementing interoperable datasharing practices;
- follow up the EU Tourism Agenda in the Tourism Advisory Committee (TAC) and report to the Council every three years on the implementation of the European Agenda for Tourism 2030 and the progress of the work of the Transition Pathway for Tourism [and on the specific actions included in the Multi-annual EU Work Plan].

### 22. INVITES tourism stakeholders to:

- engage in the implementation of this European Tourism Agenda 2030 [including its
   Multi-annual EU Work Plan], in cooperation with the Commission and the Member
   States, and contribute with their expertise and experience to the co-implementation of the tourism transition;
- [where relevant, commit with concrete pledges to the implementation of the Tourism
   Transition Pathway actions as their support for the Multi-annual EU Work Plan].

[Annex I: Multi-annual EU Work Plan]	

## [Annex I: Multi-annual EU Work Plan]

# [Priority area: Enabling policy framework and governance]

[Key topic	Goals and objectives	Actions and responsibilities	Output / target date
Fair measures for short- term rentals (STR)	A transparent EU STR market, promoting competition and consumer protection, creating opportunities and contributing to sustainable tourism.	Member States and the Commission to strengthen the EU framework for short-term rentals to enhance transparency, make it fairer and improve market access. Member States to support regional and local authorities.	EU-level common framework for short-term rentals by 2025 at the latest.
Statistics and indicators for tourism	Improving the availability and coverage of tourism statistics to consider the economic, social and environmental impacts of tourism.  Improving access to private and destination-level data for producing official statistics on tourism, respecting data protection rules and legitimate commercial interests.	European Statistical System actors to revise harmonised data collection rules on tourism statistics.  Tourism industry, regional, local authorities and DMOs to consider developing data collection and sharing mechanisms that can also benefit official tourism statistics aggregation.  The Commission to implement the EU Tourism Dashboard to support the follow-up of the environmental, digital and socio-economic aspects of tourism.	Revised EU framework for tourism statistics which includes indicators on the economic, environmental and social impacts of tourism by 2030. EU Tourism Dashboard publicly available and used by destinations and authorities, offering indicators on the green and digital transition and socio-economic resilience at national and regional levels.
Comprehensive tourism strategies development or update	Strategic approach to tourism at national, regional and local levels to consider the economic, environmental and social sustainability of tourism.	The Commission and Member States to facilitate knowledge and best practice sharing.	Best practice exchange. All Member States or their key tourism regions to have comprehensive tourism strategies by 2025.
Collaborative and data- based destination management	Expanding the scope of tourism destination management organisations to collaborative and data-based decision-making involving all stakeholders.	The Commission to provide awards for smart and sustainable destination management. The Commission and Member States to support destinations in developing their governance models.	Smart tourism capital/EDEN awards. Study on DMO governance models in the EU; community of practice and toolbox for destination management by 2023.
