EXPLANATORY REMARKS

This working document gives details on the committees that assist the Commission in each policy sector and snapshots of their activities in 2021. It lists all the committees for which each Commission department is responsible, whether they are still active or not, in order to provide transparency with regard to policy sector activities. The comments below the tables highlight important changes (e.g. the creation, transfer or abolition of committees or procedures), together with cases referred to the appeal committee and, for the regulatory procedure with scrutiny, cases referred to the Council (in cases where the committee issued a negative opinion or no opinion) or in which the European Parliament or the Council opposed the adoption of a measure during the year in question.

Details of each committee, such as basic legal acts and applicable comitology procedure(s), are available in the Comitology Register:

http://ec.europa.eu/transparency/regcomitology/index_en.htm

The following explanations are intended to help the reader to better understand the statistical data, including why the total number of positive opinions may differ from the total number of implementing acts/measures adopted in a specific sector:

Opinions delivered by the committees may concern various types of draft Commission acts (directives, regulations, decisions).

The impact of the committee's opinion varies, depending on the procedure. Under the examination procedure, following a *positive opinion* the Commission adopts the implementing act. It may also adopt an implementing act if no opinion is given¹. However, in the following three cases a no opinion has a blocking effect according to Article 5 (4), 2nd subparagraph of Regulation 182/20112 (the Comitology Regulation) and the Commission may not adopt the draft act: where the draft implementing act concerns certain areas referred to in Article 5 (4), 2nd subparagraph a)3; where the basic legal act provides that the draft implementing act may not be adopted where no opinion is delivered; or where a simple majority of the members of the committee opposes the draft. Following a *negative opinion*, the Commission cannot adopt the implementing act. However, in cases of a negative opinion or 'no opinion' with a blocking effect, if the Commission deems the act necessary it can continue the procedure by either amending the draft implementing act and submitting the revised version to the (same) committee or by referring the original draft to the appeal committee. If the Commission refers the draft implementing act to the appeal committee and the appeal committee delivers a positive opinion, the Commission adopts the implementing act. The Commission may also adopt the implementing act if the appeal committee gives no opinion. If the appeal committee delivers a negative opinion, the Commission cannot adopt the implementing act.

¹ This is the situation if, in a committee vote, no majority is obtained for either a *positive* or a *negative opinion*.

Under the advisory procedure, the committee's opinion is not legally binding, but the Commission must take utmost account of the conclusions drawn from the discussions within the committee and of the opinion delivered before deciding on the draft implementing act.

Under the regulatory procedure with scrutiny, following a *positive opinion*, the Commission adopts the measure. If a *negative opinion* or *no opinion* is given, the Commission submits a proposal on the measure to the Council, which then has the power to decide (see *Cases referred to the Council*). In addition, the European Parliament and the Council can oppose the adoption of a draft measure, even if the committee has given a positive opinion.

The total number of *positive opinions* delivered by committees may differ from the number of *implementing acts/measures* adopted by the Commission in a given sector, if opinions are delivered one year but the instruments are not adopted until the following year.

As regards the list of committees, all those are listed that had a valid legal basis in 2021, during the entire year or part of it. In certain cases the committees were abolished in the course of the year as the basic act establishing it expired or was repealed; these cases are flagged as 'abolished' in the remarks following the summary tables. Newly created committees are equally indicated and in case the abolished committees were replaced by a new committee with the same or a similar title (and area of activity), established by a new basic act², the 'old' and the 'new' committee are both listed for the year.

A number of committees had no activity at all in the reporting year. This is indicated by the figure '0' in all columns.

In a limited number of cases the changes made in the Comitology Register in 2021 (i. e. new committees set up or old ones abolished) only reflected a change in the legal situation that had already occurred prior to 2021. Consequently, some committees were added³ or removed⁴ from the tables below – compared to last year's report – , without being identified for 2021 as 'newly created' or 'abolished', since that the report takes the legal and not the technical changes as reference point.

Similarly, a small number of committees were removed⁵ from the report due to a previously happening change in their basic acts that were aligned to the post-Lisbon framework and

² This was the case notably for (most of) those committees that operated under basic acts related to MFF programmes/funds, which were renewed in 2021 for the new programming period 2021-2027, repealing in most cases the old basic acts referring to the period 2014-2020.

³ C60400 Committee on Cableway Installations

⁴ C01300 Committee for the adaptation to technical progress of the directives on the removal of technical barriers to trade in colouring matters which may be added to medicinal products, C19300 Tobacco Products Committee, C23400 Committee on Access to Medicines, C03800 Committee on Agricultural Structures and Rural Development (STAR Committee), C00400 Committee for harmonisation of national regulations relating to cableway installations designed to carry persons, C40400 Committee for the Integrated Maritime Policy

⁵ C12500 Committee for the adaptation to technical progress of the directive on the control of volatile organic compound emissions resulting from the storage of petrol and its distribution from terminals to service stations (VOC) and C42200 Committee for the adaptation to technical progress of the directive on the Stage II control of volatile organic compound emissions resulting from the refuelling of motor vehicles

which resulted in the transformation of the original empowerment (regulatory procedure with scrutiny) into an empowerment to adopt delegated acts (instead of implementing acts).

The methodology to count written procedures was adjusted compared to last year's report so that each procedure is counted individually (i.e. indicating the total number of drafts acts that were put to a vote via written procedure), also in those cases where technically a single action was launched to cover several draft acts jointly.
