<i>Approval of a letter</i> | 11326/1/22 REV 1

Statement by Germany

"While we share the view that time is of the essence with respect to everything that is related to the CSRD and the related standard setting process, we want to propose changes to the respective procedures for similar matters in the future. We are of the opinion, that we should choose appropriate procedures with respect to the matter that is at stake as regards sustainability reporting.

For future nominations, Germany asks to conduct a transparent consultation procedure in the Council with sufficient time for Member States to assess the candidates, including an oral hearing with all candidates and an exchange of views of Member States in a Council Working Party meeting.

We are of the opinion that a transparent procedure on Council level is necessary as a solid foundation for EFRAG's future work on standards for sustainability reporting. The Council should – as opposed to the EP – not be left with the possibility to either accept or reject the candidates nominated by the Commission.

We also would like to point out that the future work of EFRAG's Boards should be based on open-ended and integrative discussions and good collaboration across all hierarchies."

EU positions for international negotiations

15. Union position on the reply to ICAO State letter on Sustainability Criteria for CORSIA Eligible Fuels 11935/22
AVIATION
Approval

Joint statement by Denmark, Austria, Germany, Ireland and Luxembourg

"Denmark, Austria, Germany, Ireland and Luxembourg are of the opinion that an inclusion of LCAF (Lower Carbon Aviation Fuels) - as defined in ICAO - in the sustainability criteria, and thereby allowing LCAF as equally eligible to SAF, would risk undermining the long-term development of sustainable fuels on a global scale. We are sceptical towards the sustainability of LCAF, and therefore the inclusion of it in the sustainability criteria, as LCAF can be based on fossil feedstock.

In the spirit of compromise, and with an understanding of the different situations of ICAO Member States, as well as keeping in mind the importance of having a broadly supported global CO2-reduction scheme such as CORSIA, we will not oppose the union position on the reply to the ICAO State letter."

16. Council Decision on the EU position at the eighth session of the Meeting of the Parties to the Agreement on the Conservation of African-Eurasian Migratory Waterbirds with regard to certain amendments to Annex 3 to the Agreement (AEWA) 11996/22
11609/22
ENV
Adoption

Statement by the Commission

"The Commission considers that the Council Decision should be addressed to the Commission, and therefore considers the changes to Article 2 to be inappropriate.

The expression of the Union position in a body set up by an agreement is an act of external representation of the Union which, in accordance with Article 17(1) TEU, is the institutional prerogative of the Commission.

The Commission reserves all its rights in this regard."

11439/22 + ADD 1
RECH
Adoption

Statement by the Commission

"The Commission recalls its right of initiative when it comes to the initial proposal of an international agreement. These decisions are taken on a case-by-case basis considering the merits of the bilateral relations in question and in line with the procedures set out in the relevant provisions of the Treaty (Article 218 TFEU). In so doing, the Commission is respecting the prerogatives of all institutions involved in the procedure of negotiating and concluding international agreements between the Union and third countries and is acting fully in line with the principle of sincere cooperation and transparency between the institutions."
