### 3. THE NUMBER OF INITIAL APPLICATIONS RECEIVED AND HANDLED

	2017	2018	2019	2020	2021
Applications registered	6,255	6,912	7,445	8,001	8,420

<sup>1</sup> The European Commission released the new Register of Commission Documents on 17 May 2021. It started using the new publication method on 1 May 2021. It features a number of improvements related to search, presentation of documents and publication of documents (e.g. same documents are published only once). This resulted in a decrease of the number of documents published compared to the 2020 figures.

<sup>2</sup> A single request can concern several documents and can consequently give rise to several different replies. On the other hand, several requests can be grouped together in some cases and give rise only to one single reply. This number encompasses all types of follow-ups provided by the European Commission, extending from replies provided under Regulation (EC) No 1049/2001 (including replies where no documents are held); to responses provided under different legal frameworks (due to the contents of the application or status of the applicant, etc.); or closures following the applicants' failure to provide requested clarifications or fulfil procedural requirements.
