ITEMS DEBATED

Priorities of the Croatian presidency

The Croatian presidency presented its [priorities](#) and [programme](#) for the next six months.

In the area of general affairs, the Croatian presidency will focus its activities on the remaining work on sectoral and horizontal legislation related to the next multiannual financial framework, both in the Council and with the European Parliament. In this priority area, the presidency is cooperating closely with the President of the [European Council](#), who was called in December to take the negotiations on the multiannual financial framework forward with the aim of reaching a final agreement.

Special attention will be given to the enlargement policy and to achieving further progress by candidates and potential candidates in line with the established criteria, while reaffirming their European perspective. An informal EU-Western Balkans summit will take place in Zagreb in May 2020.

Croatia will continue to work on the effective implementation of the EU Strategic Agenda and on promoting constructive cooperation between the European institutions in setting legislative priorities for the forthcoming period.

The presidency will promote a balanced and sustainable development of the EU aimed at reducing economic, social and territorial disparities, by also taking forward the negotiations on the cohesion policy legislative package under the MFF.

The priorities of the Croatian presidency also include enabling an orderly withdrawal of the United Kingdom from the EU and starting negotiations on future partnership.

The presidency will continue to promote the EU as a community of values, advocating a comprehensive and efficient approach to prevention, protection and promoting the rule of law in the EU, while strengthening dialogue and unity of member states. The [General Affairs Council](#) will remain seized of these highly important matters.

Conference on the Future of Europe

Ministers exchanged views on the proposed Conference on the Future of Europe due to start in 2020 and end in 2022.

The European Council considered the idea of such a conference at its [meeting on 12 December 2019](#). It asked the Croatian presidency to work towards defining a Council position on the content, scope, composition and functioning of the conference and to engage, on this basis, with the European Parliament and the Commission.

During the discussion, ministers stressed the importance of putting citizens at the heart of the conference and focusing on issues that truly matter to them. As underlined in the conclusions of the December European Council, priority should be given to implementing the Strategic Agenda for 2019-2024 and delivering concrete results. The conference should contribute to the development of EU policies in the medium and longer term in order to better address the challenges facing Europe. Building on the success of the citizens' dialogues which have taken place over the past two years, the process should involve a wide range of stakeholders and groups to ensure that different views and opinions are represented.

Ministers also expressed their views on the detailed organisation of the conference. Many speakers underlined the need to ensure a balanced representation of the three EU institutions and to fully involve national parliaments. Several ministers also expressed their preference for a lean and simple governance of the conference process.

The presidency concluded that discussions would continue after the Council meeting with a view to defining the Council position on the conference and engaging with the other EU institutions.

Significant deviation procedures of Hungary and Romania

The Council adopted a report to the [European Council](#) on its recent decisions on the significant deviation procedures regarding Hungary and Romania.
