STATEMENT BY HUNGARY

Hungary believes that the Presidency's approach towards gender equality is based on a delicately balanced compromise therefore we support the current approach of the *Council Conclusions on mainstreaming a gender equality perspective in policies, programmes and budgets*.

Hungary is committed to promoting work-life balance and encouraging women's participation in the labour market, especially in areas where women are underrepresented compared to men, since providing adequate opportunities for women and men play a vital role in economic growth, prosperity and competitiveness. However we consider it important that we provide the Member States with the necessary flexibility with regard to financial matters and by bearing in mind the feasibility of the measures to avoid creating unnecessary administrative burdens.

Hungary is supporting women and men in vulnerable situations caused by crises and considers it important to promote gender equality in the context of the post- pandemic recovery from COVID-19 also defined as a priority in the *Council Conclusions on mainstreaming a gender equality perspective in policies, programmes and budgets*.

Hungary recognises and promotes equality between men and women in accordance with the Fundamental Law of Hungary and the primary law, principles and values of the European Union, as well as commitments and principles stemming from international law. Equality between women and men is enshrined in the Treaties of the European Union as a fundamental value. In line with these and its national legislation, Hungary interprets the term 'gender' as a reference to 'sex' in the *Council Conclusions on mainstreaming a gender equality perspective in policies, programmes and budgets*.

Furthermore, Hungary declares that the Commission's Communication on 'A Union of Equality: Gender Equality Strategy 2020-2025' referred to in the *Council Conclusions on mainstreaming a gender equality perspective in policies, programmes and budgets* should be interpreted with due regard to the national competences and the specific circumstances in each Member State.
