LEGISLATIVE ACTS AND OTHER INSTRUMENTS

Subject: Free Trade Agreement between the European Union and New Zealand

EXISTING MEASURES

Headnotes

1. The schedules of New Zealand and the Union set out, under Article 10.10 (Non-conforming measures) or 10.18 (Non-conforming measures), the existing measures of New Zealand and the Union that do not conform with obligations imposed by:

- (a) Article 10.5 (Market access) or 10.14 (Market access);
- (b) Article 10.6 (National treatment) or 10.16 (National treatment);
- (c) Article 10.7 (Most-favoured-nation treatment) or 10.17 (Most-favoured-nation treatment);
- (d) Article 10.8 (Senior management and boards of directors);
- (e) Article 10.9 (Performance requirements); or
- (f) Article 10.15 (Local presence).

2. The reservations of a Party are without prejudice to the rights and obligations of the Parties under GATS.

3. Each entry sets out the following elements:

- (a) "sector" refers to the general sector in which the entry is made;
- (b) "sub-sector" refers to the specific sector in which the entry is made;
- (c) "industry classification" refers, where applicable, to the activity covered by the entry according to the CPC, ISIC Rev. 3.1, or as expressly otherwise described in that entry;
- (d) "obligations concerned" specifies the obligation referred to in paragraph 1 for which an entry is made;
- (e) "level of government" indicates the level of government maintaining the listed measure;

(f) "measures" identifies the law, regulation or other measure for which the entry is made.

A "measure" cited in the "measures" element:

(i) means the measure as amended, continued or renewed as of the date of entry into force of this Agreement;

(ii) includes any subordinate measure adopted or maintained under the authority of and consistent with the measure; and

(iii) in respect of the schedule of the Union, includes any law, regulation or other measure which implements a directive at Member State level; and

(g) "description" sets out the non-conforming aspects of the existing measure for which the entry is made.

4. In the interpretation of an entry, all elements of the entry shall be considered. An entry shall be interpreted in light of the relevant obligations of the Sections or Sub-Sections against which the entry is made. In the event of an inconsistency between the "measures" element and the other elements of an entry, the "measures" element shall prevail.

5. For the purposes of the schedules of New Zealand and the Union:
- (a) "ISIC Rev. 3.1" means the International Standard Industrial Classification of All Economic Activities as set out in Statistical Office of the United Nations, Statistical Papers, Series M No. 4, ISIC Rev. 3.1, 2002;
 - (b) "CPC" means the Provisional Central Product Classification (Statistical Papers, Series M No. 77, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991).
6. For the purposes of the schedules of New Zealand and the Union, an entry for a requirement to have a local presence in the territory of the Union or New Zealand is made against Article 10.15 (Local presence), and not against Article 10.14 (Market access) or 10.16 (National treatment). Furthermore, such a requirement is not made as an entry against Article 10.56 (Access to major suppliers' essential facilities).

7. An entry made at the level of the Union applies to a measure of the Union, to a measure of a Member State at the central level or to a measure of a government within a Member State, unless the entry excludes a Member State. An entry for a Member State applies to a measure of a government at the central, regional or local level within that Member State. For the purposes of the entries of Belgium, the central level of government covers the federal government and the governments of the regions and the communities as each of them holds equipollent legislative powers. For the purposes of the entries of the Union and the Member States, a regional level of government in Finland means the Åland Islands. An entry made at the level of New Zealand applies to a measure of the central government or a local government.

8. The list of entries in this Annex does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures where they do not constitute a limitation within the meaning of Article 10.5 (Market access), 10.6 (National treatment), 10.14 (Market access), Article 10.15 (Local presence) or 10.16 (National treatment). Such measures may include the need to obtain a licence, to satisfy a universal service obligation, to have a recognised qualification in a regulated sector, to pass a specific examination, including a language examination, to fulfil a membership requirement of a particular profession, such as membership of a professional organisation, to have a local agent for service, or to maintain a local address, or any other non-discriminatory requirements that certain activities may not be carried out in protected zones or areas. While not listed, such measures continue to apply.

9. For greater certainty, for the Union, the obligation to grant national treatment does not entail the requirement to extend to persons of New Zealand the treatment granted in a Member State, in the application of the TFEU, or any measure adopted pursuant to TFEU, including its implementation in the Member States, to:

- (a) natural persons or residents of another Member State; or
- (b) juridical persons constituted or organised under the law of another Member State or of the Union and having their registered office, central administration or principal place of business in the Union.

10. Treatment granted to juridical persons established by investors of a Party in accordance with the law of the other Party (including, in the case of the Union, the law of a Member State) and having their registered office, central administration or principal place of business within that other Party, is without prejudice to any condition or obligation, consistent with Section B (Investment liberalisation) of Chapter 10 (Trade in services and investment), which may have been imposed on such juridical person when it was established in that other Party, and which shall continue to apply.

11. The schedules of New Zealand and the Union apply only to the territories of New Zealand and the Union in accordance with Article 1.4 (Territorial application) and are only relevant in the context of trade relations between the Union, the Member States and New Zealand. They do not affect the rights and obligations of the Member States under Union law.

12. For greater certainty, non-discriminatory measures do not constitute a limitation within the meaning of Article 10.5 (Market access) or Article 10.14 (Market access) for any measure:

- (a) requiring the separation of the ownership of infrastructure from the ownership of the goods or services provided through that infrastructure to ensure fair competition, for example in the fields of energy, transportation and telecommunications;
- (b) restricting the concentration of ownership to ensure fair competition;
- (c) seeking to ensure the conservation and protection of natural resources and the environment, including a limitation on the availability, number and scope of concessions granted, and the imposition of a moratorium or ban;

- (d) limiting the number of authorisations granted because of technical or physical constraints, for example telecommunications spectra and frequencies; or
- (e) requiring that a certain percentage of the shareholders, owners, partners, or directors of an enterprise be qualified or practice a certain profession such as lawyers or accountants.

13. With respect to computer services, any of the following services shall be considered as computer and related services, regardless of whether they are delivered via a network, including the internet:

- (a) consulting, adaptation, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, support, technical assistance or management of or for computers or computer systems;
- (b) computer programmes defined as the sets of instructions required to make computers work and communicate (in and of themselves), as well as consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, adaptation, maintenance, support, technical assistance, management or use of or for computer programmes;
- (c) data processing, data storage, data hosting or database services;

- (d) maintenance and repair services for office machinery and equipment, including computers; and
- (e) training services for staff of clients, related to computer programmes, computers or computer systems, and not elsewhere classified.

For greater certainty, services enabled by computer and related services, other than those listed in points (a) to (e), shall not be regarded as computer and related services in themselves.

14. With respect to financial services, unlike foreign subsidiaries, branches established directly in a Member State by a non-Union financial institution are not, with certain limited exceptions, subject to prudential regulations harmonised at Union level which enable such subsidiaries to benefit from enhanced facilities to set up new establishments and to provide cross-border services throughout the Union. Therefore, such branches receive an authorisation to operate in the territory of a Member State under conditions equivalent to those applied to domestic financial institutions of that Member State, and may be required to satisfy a number of specific prudential requirements such as, in the case of banking and securities, separate capitalisation and other solvency requirements, and reporting and publication of accounts requirements or, in the case of insurance, specific guarantee and deposit requirements, a separate capitalisation, and the localisation in the Member State concerned of the assets representing the technical reserves and at least one third of the solvency margin.

15. With respect to Article 10.5 (Market access), juridical persons supplying financial services and constituted under the law of New Zealand or the law of the Union or of at least one of the Member States, are subject to non-discriminatory limitations on legal form.¹

Establishment of branches is subject to authorisation.

Representative offices of foreign enterprises must be registered with the Bulgarian Chamber of Commerce and Industry and may not engage in economic activity but are only entitled to act as representatives or agents for their owner and may not supply services.

In EE: If the residence of at least half of the members of the management board of a private limited company, a public limited company or the branch of a foreign company is not in Estonia, in another Member State of the EEA or in the Swiss Confederation, the private limited company, the public limited company or the branch of the foreign company shall designate a point of contact whose Estonian address can be used for the delivery of the procedural documents of the undertaking and the declarations of intent addressed to the undertaking (i.e. the branch of a foreign company).

For all sectors except legal services, establishment by non-Union investors and their enterprises may only be in the form of a limited partnership, limited joint-stock partnership, limited liability company, and joint-stock company, while domestic investors and enterprises also have access to the forms of non-commercial partnership companies (general partnership and unlimited liability partnership).

Measures:

PL: Act of 6 March 2018 on rules regarding economic activity of foreign entrepreneurs and other foreign persons in the territory of the Republic of Poland.

(b) Acquisition of real estate

With respect to Investment liberalisation – National treatment:

In AT (applies to the regional level of government): The acquisition, purchase and rental or leasing of real estate by non-Union natural persons and enterprises requires authorisation by the competent regional authorities (Länder). Authorisation will only be granted if the acquisition is considered to be in the public (in particular economic, social and cultural) interest.

In CY: Cypriots or persons of Cypriot origin, as well as nationals of a Member State, may acquire any property in Cyprus without restrictions. A foreigner may not acquire, otherwise than *mortis causa*, any immovable property without obtaining a permit from the Council of Ministers. For foreigners, where the acquisition of immovable property exceeds the extent necessary for the erection of premises for a house or professional roof, or otherwise exceeds the extent of two donums (2 676 square meters), any permit granted by the Council of Ministers shall be subject to such terms, limitations, conditions and criteria which are set by Regulations made by the Council of Ministers and approved by the House of Representatives. A foreigner is any person who is not a citizen of the Republic of Cyprus, including a foreign-controlled company. The term does not include foreigners of Cypriot origin or non-Cypriot spouses of citizens of the Republic of Cyprus.

In CZ: Specific rules apply to agricultural land under state ownership. State agricultural land may be acquired only by Czech nationals, nationals of another Member State, or States party to the Agreement on the EEA or the Swiss Confederation. Juridical persons may acquire state agricultural land from the state only if they are agricultural entrepreneurs in the Czechia or persons with similar status in other Member States of the European Union, or States party to the Agreement on the EEA or the Swiss Confederation.

In DK: Natural persons who are not resident in Denmark, and who have not previously been resident in Denmark for a total period of five years, must in accordance with the Danish Acquisition Act obtain permission from the Ministry of Justice to acquire title to real property in Denmark. This also applies for juridical persons that are not registered in Denmark. For natural persons, acquisition of real property will be permitted if the applicant is going to use the real property as their primary residence.

For juridical persons that are not registered in Denmark, acquisition of real property will in general be permitted, if the acquisition is a prerequisite for the business activities of the purchaser. Permission is also required if the applicant is going to use the real property as a secondary dwelling. Such permission will only be granted if, following an overall and concrete assessment, the applicant is regarded to have particularly strong ties to Denmark.

Permission under the Acquisition Act is only granted for the acquisition of specific real property. The acquisition of agricultural land is in addition governed by the Danish Agricultural Holdings Act, which imposes restrictions on all persons, Danish or foreign, when acquiring agricultural property. Accordingly, any person who wishes to acquire agricultural real property, must fulfil the requirements in that Act. This generally means a limited residence requirement on the agricultural holding applies. The residence requirement is not personal. Juridical entities must be of the types listed in §20 and §21 of the Agricultural Holdings Act and must be registered in the Union or EEA.

In EE: A juridical person from an OECD Member country has the right to acquire immovable property which contains:

- (i) less than 10 hectares of agricultural land, forest land or agricultural and forest land in total without restrictions;
- (ii) 10 hectares or more of agricultural land if the juridical person has been engaged, for three years immediately preceding the year of making the transaction of acquisition of immovable property, in production of agricultural products listed in Annex I to the TFEU, except fishery products and cotton (hereinafter referred to as "agricultural products");

- (iii) 10 hectares or more of forest land if the juridical person has been engaged, for three years immediately preceding the year of making the transaction of acquisition of immovable property, in forest management within the meaning of the Forest Act (hereinafter referred to as "forest management") or production of agricultural products; and
- (iv) less than 10 hectares of agricultural land and less than 10 hectares of forest land, but 10 hectares or more of agricultural and forest land in total, if the juridical person has been engaged, for three years immediately preceding the year of making the transaction of acquisition of immovable property, in the production of agricultural products or forest management.

If a juridical person does not meet the requirements in points (ii) to (iv), the juridical person may acquire immovable property which contains 10 hectares or more of agricultural land, forest land or agricultural and forest land in total only with the authorisation of the council of the local government of the location of immovable property to be acquired.

Restrictions on acquiring immovable property apply in certain geographical areas for non-EEA nationals.

In EL: Real estate acquisition or tenancy in the border regions is prohibited for persons whose nationality or base is outside the Member States and the European Free Trade Association. The ban may be lifted by a discretionary decision taken by a committee of the appropriate Decentralised Administration (or the Minister of National Defence in case the properties to be exploited belong to the Fund for the Exploitation of Private Public Property).

In HR: Foreign companies are only allowed to acquire real estate for the supply of services if they are established and incorporated in Croatia as juridical persons. Acquisition of real estate necessary for the supply of services by branches requires the approval of the Ministry of Justice. Agricultural land cannot be acquired by foreigners.

In MT: Non-nationals of a Member State may not acquire immovable property for commercial purposes. Companies with a 25 % (or more) non-Union shareholding must obtain authorisation from the competent authority (Minister responsible for Finance) to buy immovable property for commercial or business purposes. The competent authority will determine whether the proposed acquisition represents a net benefit to the Maltese economy.

In PL: The acquisition of real estate, direct and indirect, by foreigners requires a permit. A permit is issued through an administrative decision by a minister competent in internal affairs, with the consent of the Minister of National Defence, and in the case of agricultural real estate, also with the consent of the Minister of Agriculture and Rural Development.
