Statement by Hungary

Hungary recognises and promotes equality between men and women in accordance with the Fundamental Law of Hungary and the primary law, principles and values of the European Union, as well as commitments and principles stemming from international law. Equality between women and men is enshrined in the Treaties of the European Union as a fundamental value. In line with these and its national legislation, Hungary interprets gender equality as providing equal chances and opportunities for women and men. In Hungary, data collection is only possible based on biological sex. As a result, Hungary interprets the process of data collection in this context, referring to biological sex, in the Regulation of the European Parliament and of the Council on the European Union Drugs Agency.
