Subject: Draft general budget of the European Union for the financial year 2024:  
Council position

---

### I. INTRODUCTION

The draft general budget of the European Union for 2024 (**DB 2024**) as proposed by the European Commission amounts<sup>1</sup> to:

- EUR 189 340.98 million in **commitment** appropriations<sup>2</sup>;
- EUR 143 053.38 million in **payment** appropriations<sup>2</sup>.

Compared to the budget 2023<sup>3</sup>, these amounts represent a +1.4 % increase in commitment appropriations and a –15.2 % decrease in payment appropriations.

---

<sup>1</sup> These amounts include appropriations foreseen for special instruments outside the MFF.

<sup>2</sup> Of which EUR 1 690 million programme-specific adjustments stemming from Article 5 MFF Regulation.

<sup>3</sup> Amending budgets Nos 1/2023 and 2/2023 not included.

## II. APPROACH TAKEN BY THE BUDGET COMMITTEE

The DB 2024 has been examined during the months of June and July 2023 in the framework of the annual budgetary procedure alone and taking into account that the Commission proposal is based on the current Multiannual Financial Framework (MFF). It has also been examined on the basis of the principles established in the Council conclusions on the budget guidelines for 2024<sup>4</sup>. In particular, the aim to ensure prudent and realistic budgeting, as well as to provide adequate resources to support clearly set priorities, constituted the guiding principles in establishing the present Council position on the DB 2024.

This led the Budget Committee to undertake a detailed analysis of the commitment appropriations for each programme and action by budget line, in order to ensure:

- a realistic absorption capacity;
- an appropriate acceleration of the implementation of programmes by avoiding excessive increases compared to 2023;
- sufficient margins under the ceilings to deal with unforeseen circumstances.

The result of the Budget Committee's assessment is reflected in the proposal to adjust downwards the commitment appropriations by EUR 771.92 million. Very targeted adjustments are limited to headings 1 (*Single Market, Innovation and Digital*), 2 (*Cohesion and Values*), 3 (*Natural Resources and Environment*), 4 (*Migration and Border Management*) and 5 (*Security and Defence*) and aim at reducing lines that were increased compared to the voted budget 2023, in order to prevent risks in terms of absorption capacity.

---

<sup>4</sup> Doc. 7415/23.

A targeted adjustment is also proposed for sub-heading 2b (*Resilience and Values*) for the European Union Recovery Instrument (EURI) line. The proposal supports a more conservative approach, in line with prudent budgeting, with respect to the financing costs of NextGenerationEU (NGEU). The suggested adjustment for the EURI line will make the use of the Single Margin Instrument, which was proposed by the Commission for sub-heading 2b, no longer necessary and it will also bring a reduction of the proposed use of the Flexibility Instrument.

An upward adjustment under heading 6 (*Neighbourhood and the World*) in Humanitarian Aid (HUMA) is also suggested to maintain the same level of humanitarian support as in the voted budget 2023, in order to respond to the consequences of Russia's war of aggression against Ukraine. As there is no margin available under heading 6, the proposed adjustment requests a proportional use of the Flexibility Instrument.

As regard payment appropriations, the result of the Budget Committee's assessment is reflected in the proposal to adjust the level downwards by EUR 514.62 million. In heading 6, it is proposed to maintain the same level of appropriations as in the voted budget 2023 for HUMA. The reduction on the EURI line (sub-heading 2b) results from the fact that this line contains non-differentiated appropriations (NDA). A Council statement on payments is recorded in Addendum 1 to this note.

As regards administrative expenditure, it is suggested to accept the Commission's proposal as such. The Commission has applied a horizontal approach and reduced all institutions' budgets to comply with its instructions. By doing so the Commission has aligned the institutions' budgets with the Council's expectations, especially when it comes to stable staffing levels and a limited increase in non-salary related expenditure. A Council statement on heading 7 (*European Public Administration*) is recorded in Addendum 1 to this note.

### III. OUTCOME OF PROCEEDINGS OF THE BUDGET COMMITTEE<sup>5,6</sup>

On the basis of the above approach, an agreement was reached on the **Council's position on the DB 2024** that would amount<sup>7</sup> to:

- EUR 187 008.20 million in **commitment** appropriations;
- EUR 141 167.37 million in **payment** appropriations.

The total amount of payment appropriations provided for in the Council's position on the DB 2024 corresponds to 0.80 % of the EU gross national income (GNI).<sup>8</sup>

In this respect, the following adjustments to the DB 2024 are suggested:

#### A. EXPENDITURE BY HEADING OF THE MFF 2021-2027

##### 1. Single Market, Innovation and Digital (heading 1 of the MFF)<sup>9</sup>
