Statement by the Commission

“The Commission recalls the importance of reducing fragmentation in the internal market in relation to the introduction of mandatory e-invoicing, as highlighted in its proposal on VAT in the digital age. In this sense, the commitment of Romania to provide for alternative ways of transmission and validation of e-invoices to the prior verification of such invoices by the tax administration goes in the right direction.”

Statement by the Commission

“The Commission considers it legally incorrect that a Council Decision authorising the opening of negotiations indicates a substantive legal basis.

The Decision authorising the opening of negotiations is premised solely on the existence of conferred powers of the Union and not on a determination of a specific competence. Its effect is limited to authorising the Commission or the High Representative, as the case may be, to use its prerogatives under the EU Treaties in order to start negotiations. The scope of these negotiations is therefore determined by the scope of the powers of the Union. Besides, the freedom of the envisaged treaty partner of the Union as regards the determination of the scope of the negotiations cannot be limited by the Council Decision authorising the opening of the negotiations. Thus, the precise legal basis for the future agreement can only be determined after the content of the agreement is known.

The Commission reserves all its rights in this regard.”
