## **NOTE**

From:	General Secretariat of the Council	
To:	Delegations	
Subject:	Updates to Commission Proposal for a COUNCIL REGULATION fixing for 2024, 2025 and 2026 the fishing opportunities for certain fish stocks, applicable in Union waters and, for Union fishing vessels, in certain non-Union waters, and amending Regulation (EU) 2023/194 as regards deepsea stocks (COM(2023)587)  - Commission services non-paper	

Delegations will find attached a non paper as received from the Commission services.

15290/23 CK/km 1 LIFE.2 **EN** 

## COMMISSION SERVICES NON-PAPER

## **15 NOVEMBER 2023**

This document serves as a basis for discussion at the Working Party on Fisheries Policy. It cannot in any circumstances be regarded as the official position of the Commission.

It is intended solely for those to whom it is addressed.

Updates to Commission proposal for a Council Regulation fixing for 2024, 2025 and 2026 the fishing opportunities for certain fish stocks, applicable in Union waters and, for Union fishing vessels, in certain non-Union waters, and amending Regulation (EU) 2023/194 as regards deep-sea stocks [COM(2023) 587]

	OTHER AMENDMENTS	

## 1. AMENDMENTS IN RELATION TO EUROPEAN EEL IN THE MEDITERRANEAN SEA

## **EXPLANATORY NOTE**

At its 46th annual meeting in 2023, the General Fisheries Commission for the Mediterranean (GFCM) adopted Recommendation GFCM/46/2023/16 on a long-term management plan for European eel (*Anguilla anguilla*) in the Mediterranean Sea, repealing Recommendations GFCM/45/2022/1 and GFCM/42/2018/1. That recommendation maintains, for 2024, the existing transitional measures, sixmonth closure period and ban on recreational fishing. Furthermore, the recommendation provides that Contracting Parties are to implement additional measures to reduce the fishing mortality of glass eel by at least 30% in 2024, compared to the reference period 2019-2021. It is therefore proposed to implement those measures in EU law.

## AMENDMENTS TO THE RECITALS

Recital (19) is replaced by the following:

"(19) At its 46th annual meeting in 2023, the General Fisheries Commission for the Mediterranean (GFCM) adopted Recommendation GFCM/46/2023/16 on a long-term management plan for European eel. The recommendation maintains, for 2024, the existing transitional measures, sixmonth closure period and ban on recreational fishing. Furthermore, the recommendation provides that Contracting Parties are to implement additional measures to reduce the fishing mortality of glass eel by at least 30% in 2024 compared to the reference period 2019-2021. Those measures should apply to all marine waters of the Mediterranean Sea, to freshwaters and to brackish waters such as estuaries, coastal lagoons and transitional waters, in accordance with that recommendation. Those measures should be implemented in Union law."

## AMENDMENTS TO THE ARTICLES

In Article 13, the square brackets are deleted.

In Article 13, the following paragraph 4a is inserted:

"4a. Member States shall implement additional measures to reduce the fishing mortality for European eel of an overall length of less than 12 cm. This reduction shall represent a decrease of at least 30 % compared to the reference period 2019-2021."

In Article 13(5), the following point (c) is inserted:

"(c) about the measures established in accordance with paragraph 4a by 31 March 2024."

## 2. AMENDMENTS IN RELATION TO NAFO

#### EXPLANATORY NOTE

At its 45th annual meeting in 2023, the Northwest Atlantic Fisheries Organisation (NAFO) adopted fishing opportunities for certain stocks in the NAFO Convention area for 2024. It also adopted certain measures for 2024 that are functionally linked to the fishing opportunities of shortfin squid (*Illex illecebrosus*) in NAFO subareas 3 and 4 and yellowtail flounder (*Limanda ferruginea*) in NAFO divisions 3LNO, aiming at minimising the levels of by-catches of non-target species and without which the fishing opportunities for those stocks would have to be reduced to protect the non-target species. It is therefore proposed to implement those measures in EU law.

## AMENDMENTS TO THE ARTICLES

Article 4 is amended as follows:

- (a) The following point (pa) is inserted:
  - "(pa) 'the NAFO Convention Area' means the geographical areas defined in the Convention on Cooperation in the Northwest Atlantic Fisheries<sup>1</sup>;"
- (b) The following point (pb) is inserted:
  - "(pb) 'the NAFO Regulatory Area' means the part of the NAFO Convention Area which is beyond national jurisdiction;"

## AMENDMENTS TO THE RECITALS

Recital (49) is replaced by the following:

"(49) At its 45th annual meeting in 2023, the Northwest Atlantic Fisheries Organisation (NAFO) adopted fishing opportunities for certain stocks in the NAFO Convention area for 2024. It also adopted certain measures for 2024 that are functionally linked to the fishing opportunities of shortfin squid (*Illex illecebrosus*) in NAFO subareas 3 and 4 and yellowtail flounder (*Limanda ferruginea*) in NAFO divisions 3LNO, aiming at minimising the levels of by-catches of nontarget species and without which the fishing opportunities for those stocks would have to be reduced to protect the non-target species. Those measures should be implemented in Union law."

#### AMENDMENTS TO THE ANNEXES

Annex IC is replaced by the following:

\_

OJ L 378, 30.12.1978, p. 2. The Union acceded the NAFO Convention by means of Council Regulation (EEC) No 3179/78 of 28 December 1978 concerning the conclusion by the European Economic Community of the Convention on Future Multilateral Cooperation in the Northwest Atlantic Fisheries (OJ L 378, 30.12.1978, p. 1).

No directed fisheries are permitted under this quota. This species shall only be taken as by-catch within the following limits: a maximum of 2 500 kg or 10%, whichever is greater. However, if the Union is assigned an 'Others' quota, once the 'Others' quota is exhausted, the by-catch limits shall be as follows: a maximum of 1 250 kg or 5%, whichever is greater.

However, if following quota transfers or exchanges or charter, directed fisheries are conducted, the following shall apply:

- (a) A by-catch of 15% of American plaice is permitted. However, if a fishing vessel is carrying an observer:
  - (i) this maxima shall be  $2\,900\,\mathrm{kg}$  or 15% of American plaice, whichever the greater; and
  - (ii) a vessel may exceed the maxima referred to in point (i) for by-catches of American plaice retained on board during the first 9 fishing days in the NAFO Regulatory Area, provided that American plaice by-catch represents 15% or less by the end of that period or when the vessel leaves the NAFO Regulatory Area, whichever occurs first.
- (b) The first two times that catches of American plaice comprise the largest percentage by weight of the total catch in a haul, such catches shall be considered as incidental catch, but the vessel shall immediately move a minimum of 10 nautical miles from any position of the previous haul throughout the subsequent haul.

## 3. AMENDMENTS IN RELATION TO CCSBT

## **EXPLANATORY NOTE**

At its 2023 annual meeting, the Commission for the Conservation of Southern Bluefin Tuna (CCSBT) adopted the total allowable catch (TAC) for Southern bluefin tuna (*Thunnus maccoyii*) for a three-year period from 2024 to 2026. It is therefore proposed to implement that measure in EU law.

## AMENDMENTS TO THE RECITALS

Recital (46) is replaced by the following:

"(46) At its 2023 annual meeting, the Commission for the Conservation of Southern Bluefin Tuna (CCSBT) adopted the TAC for Southern bluefin tuna (*Thunnus maccoyii*) for a three-year period from 2024 to 2026. That measure should be implemented in Union law."

## **AMENDMENTS TO THE ANNEXES**

Annex IF is replaced by the following:

۲,

# **ANNEX IF**

"

#### 4. AMENDMENTS IN RELATION TO CCAMLR

## **EXPLANATORY NOTE**

At its 2023 annual meeting, the Commission for the Conservation of Antarctic Marine Living Resources (CCAMLR) adopted catch limits for target and by-catch species for the period from 1 December 2023 to 30 November 2024. It is therefore proposed to implement those measures in EU law.

In addition, it is also proposed to clarify the periods of application for those measures and other measures regarding exploratory fisheries adopted by CCAMLR. Such measures regarding exploratory fisheries apply for the 2024-2025 fishing season, so as to provide sufficient time for the consideration by CCAMLR's Scientific Committee and the Standing Committee on Implementation and Compliance (SCIC) of the information submitted by Contracting Parties before the start of that fishing season.

#### AMENDMENTS TO THE RECITALS

Recital (42) is replaced by the following:

"(42) At its 2023 annual meeting, the Commission for the Conservation of Antarctic Marine Living Resources (CCAMLR) adopted catch limits for target and by-catch species for the period from 1 December 2023 to 30 November 2024. Those measures should be implemented in Union law."

## AMENDMENTS TO THE ARTICLES

In Chapter III of Title II, Section 4 is replaced by the following:

# SECTION 4 CCAMLR CONVENTION AREA

## Article 27

Exploratory fisheries notifications for toothfish for the 2024-2025 fishing season

- 1. Member States may participate, or authorise their vessels to participate, in longline exploratory fisheries for toothfish (*Dissostichus* spp.) in FAO subareas 48.6, 88.1 and 88.2 and FAO divisions 58.4.1, 58.4.2 and 58.4.3a outside areas of national jurisdiction for fishing in the period from 1 December 2024 to 30 November 2025, in accordance with Article 7(2) to (7) of Regulation (EC) No 601/2004.
- 2. By way of derogation from the deadlines set out in Article 7(5) and (6) of Regulation (EC) No 601/2004, those Member States intending to do so shall notify the CCAMLR Secretariat no later than 1 June 2024.

# Article 28 Toothfish fishery during the 2023-2024 fishing season

- 1. In addition to the special requirements for exploratory fisheries set out in Article 7a of Regulation (EC) No 601/2004, fishing for toothfish in the period from 1 December 2023 to 30 November 2024 shall be limited to the Member States, subareas and number of fishing vessels set out in Table A in Annex VII, and the TACs and by-catch limits set out in Table B in that Annex shall apply.
- 2. Direct fishing of shark species for purposes other than scientific research shall be prohibited. Any by-catch of shark, especially juveniles and gravid females, taken accidentally in the toothfish fishery shall be released alive.
- 3. Where applicable, fishing for toothfish in any small-scale research unit (SSRU) shall cease when the reported catch reaches the specified TAC, and the SSRU shall be closed to fishing for the remainder of the fishing season.
- 4. Fishing shall take place over a geographical and bathymetric range as large as possible, so as to obtain the information necessary to determine fishery potential and avoid an overconcentration of catch and fishing effort. However, fishing in FAO subareas 48.6, 88.1 and 88.2 shall be prohibited in depths of less than 550 m.

## Article 29 Krill fishery during the 2024–2025 fishing season

1. For the purpose of Article 5a of Regulation (EC) No 601/2004, Member States intending to fish for krill (*Euphausia superba*) in the CCAMLR Convention area during the period from 1

15290/23 CK/km 15 LIFE.2 FN

- December 2024 to 30 November 2025 shall notify the Commission of their intention no later than 1 May 2024, using the form in Part B of the Appendix to Annex VII.
- 2. By way of derogation from the deadlines set out in Article 7(5) and (6) of Regulation (EC) No 601/2004, and on the basis of the information provided by Member States, the Commission shall submit the notifications to the CCAMLR Secretariat no later than 30 May 2024.
- 3. The notification referred to in paragraph 1 of this Article shall include the information provided for in Article 3(2) and (3) of Regulation (EC) No 601/2004 for each fishing vessel to be authorised to participate in the krill fishery.
- 4. A Member State intending to fish for krill in the CCAMLR Convention area shall notify its intention to do so only in respect of authorised fishing vessels that, at the time of the notification:
  - (a) are flying its flag; or
  - (b) are flying the flag of another CCAMLR member and are expected to be flying the flag of that Member State at the time the fishery takes place.
- 5. Where an authorised fishing vessel notified to the CCAMLR Secretariat in accordance with paragraphs 1, 2 and 3 is prevented from participating in a krill fishery due to legitimate operational reasons or force majeure, the Member State concerned may authorise its replacement by another fishing vessel. In such a case, the Member State concerned shall immediately inform the CCAMLR Secretariat with the Commission in copy, providing:
  - (a) full details of the intended replacement fishing vessel(s), including the information provided for in Article 3(2) and (3) of Regulation (EC) No 601/2004; and
  - (b) a comprehensive account of the reasons justifying the replacement and any relevant supporting evidence or references."

In Article 57, point (d) is replaced by the following:

"(d) Article 28 and Annex VII shall apply from 1 December 2023 to 30 November 2024;"

15290/23 CK/km 16 LIFE.2 EN

## AMENDMENTS TO THE ANNEXES

In Annex VII, Tables A and B are replaced by the following:

۲,

 $\label{eq:table A} \mbox{ Table A}$  Authorised Member States, subareas and maximum number of fishing vessels

Member State	Subarea	Maximum number of vessels
Spain	48.6	1
Spain	88.1	1
Spain	88.2	1

Table B

# TACs and by-catch limits

The TACs set out in the table below, which are adopted by CCAMLR, are not allocated to CCAMLR members and hence the Union's share is undetermined. Catches are monitored by the CCAMLR Secretariat, which will communicate to the Contracting Parties when fishing is to be ceased due to TAC exhaustion.

				Antarctic toothfish (Dissostichus	Antarctic toothfish	Bycatch limit (in tonnes)/SSRUs or research blocks		
Subarea	Region	Season	SSRUs or research blocks	mawsoni) catch limit (in tonnes)/SSRUs or research blocks	(Dissostichus mawsoni) catch limit (in tonnes)/whole subarea <sup>(1)</sup>	Skates and rays (Rajiformes)	Grenadiers ( <i>Macrourus</i> spp.) <sup>(2)</sup>	Other species
			48.6_2	148		7	23	23
19.6	8.6 Whole subarea 2023 to	2023 to 30 November 2024	48.6_3	42	518	2	6	6
46.0			48.6_4	126		6	20	20
			48.6_5	202		10	32	32
			A, B, C, G <sup>(3)</sup> ('N70')	665		33	106	33
	1 December	1 December	G, H, I, J, K <sup>(4)</sup> ('S70') 2 309	2 309		115	316	115
88.1	Whole subarea	2023 to 31 August 2024	Special Research Zone of the Ross Sea Region marine protected area ('SRZ')	456	3499	22	72	22

				Antarctic toothfish (Dissostichus	Antarctic toothfish	Bycatch limit (in tonnes)/SSRUs or research blocks		
Subarea	Region	Season	SSRUs or research blocks	mawsoni) catch limit (in tonnes)/SSRUs or research blocks	( <i>Dissostichus mawsoni</i> ) catch limit (in tonnes)/whole subarea <sup>(1)</sup>	Skates and rays	Grenadiers (Macrourus	Other species
						(Rajiformes)	spp.) <sup>(2)</sup>	species
			A, B <sup>(3)</sup> (N70)	Included in the catch limit for N70 in sub-area 88.1		Included in the by-catch limits for N70 i sub-area 88.1		N70 in
			A, B <sup>(4)</sup> (S70)	Included in the catch limit for S70 in sub-area 88.1		Included in the sub-area 88.1	by-catch limits for	S70 in
		1 December 2023 to 31	Part of SSRU_A within SRZ	Included in the catch limit for SRZ in sub-area 88.1		Included in the sub-area 88.1	by-catch limits for	SRZ in
88.2	Whole	August 2024	88.2_1	184		9	29	29
	subarea		88.2_2	322	070	16	53	53
			88.2_3	242	970	12	38	38
			88.2_4	222		11	35	35
		14 December 2023 to 31 August 2024	88.2_H	146	146	7	23	23

The target species is Antarctic toothfish (*Dissostichus mawsoni*). Any Patagonian toothfish (*Dissostichus eleginoides*) caught shall be counted towards the overall catch limit for Antarctic toothfish (*Dissostichus mawsoni*).

All areas outside the Ross Sea region marine protected area and north of 70°S.

(4) All areas outside the Ross Sea region marine protected area and south of 70°S.

In area 88.1 and in SSRUs A and B in area 88.2, where the catch of grenadiers (*Macrourus* spp.) taken by a single vessel in any two 10-day periods (i.e. from day 1 to day 10, day 11 to day 20, or day 21 to the last day of the month) in any SSRU exceeds 1 500 kg in each 10-day period and exceeds 16% of the catch of Antarctic toothfish (*Dissostichus* spp.) by that vessel in that SSRU, the vessel shall cease fishing in that SSRU for the remainder of the season.

In Part B of Annex VII, the text under the heading "Marine mammal exclusion device" is replaced by
the following:
"Device diagram(s):
For each type of device used, or any change in device configuration, refer to the relevant diagram in the
CCAMLR fishing gear library if available (www.ccamlr.org/node/74407), or submit a detailed diagram

Provide details of each marine mammal exclusion device used, including noting whether it is a seal, whale or other exclusion device."

and description to the forthcoming meeting of WG-EMM.

## 5. OTHER AMENDMENTS

#### **EXPLANATORY NOTE**

The Commission proposal should be amended to correct a small number of errors:

- In recital (6), the reference to the Western Waters multiannual plan is missing. The reference to that plan should therefore be added;
- In recital (26), "precautionary and analytical stocks TACs" should be replaced by "stocks subject to precautionary and analytical TACs" to reflect the wording of Article 2 of Council Regulation (EC) No 847/96<sup>2</sup>;
- Article 46 lists the same species, *Harriotta raleighana*, twice. In that Article, one of the references to that species should therefore be deleted; and
- The period referred to in Article 57, point (e), should correspond to the period referred to in Article 26(2). In Article 57, point (e), "31 December 2024" should therefore be replaced by "31 December 2023".

#### AMENDMENTS TO THE RECITALS

In the first sentence of recital (6), the text of footnote 37 is replaced by the following:

"Regulation (EU) 2018/973 of the European Parliament and of the Council of 4 July 2018 establishing a multiannual plan for demersal stocks in the North Sea and the fisheries exploiting those stocks, specifying details of the implementation of the landing obligation in the North Sea and repealing Council Regulations (EC) No 676/2007 and (EC) No 1342/2008 (OJ L 179, 16.7.2018, p. 1).

Regulation (EU) 2019/472 of the European Parliament and of the Council of 19 March 2019 establishing a multiannual plan for stocks fished in the Western Waters and adjacent waters, and for fisheries exploiting those stocks, amending Regulations (EU) 2016/1139 and (EU) 2018/973, and repealing Council Regulations (EC) No 811/2004, (EC) No 2166/2005, (EC) No 388/2006, (EC) No 509/2007 and (EC) No 1300/2008 (OJ L 83, 25.3.2019, p. 1)."

In recital (26), the first sentence is replaced by the following:

"Articles 3 and 4 of Council Regulation (EC) No 847/96<sup>3</sup> provide for year-to-year flexibility for quotas for both stocks subject to precautionary and analytical TACs."

15290/23 CK/km 21 LIFE.2 EN

<sup>&</sup>lt;sup>2</sup> Council Regulation (EC) No 847/96 of 6 May 1996 introducing additional conditions for year-to-year management of TACs and quotas (OJ L 115, 9.5.1996, p. 3).

Council Regulation (EC) No 847/96 of 6 May 1996 introducing additional conditions for year-to-year management of TACs and quotas (OJ L 115, 9.5.1996, p. 3).

## AMENDMENTS TO THE ARTICLES

Article 46 is amended as follows:

- (a) point (n) is replaced by the following:
  - "(n) Pacific longnose chimaera (Harriotta raleighana);"; and
- (b) point (ab) is deleted.

In Article 57, point (e) is replaced by the following:

"(e) Article 26(2) shall apply from 17 December 2023 to 31 December 2023;"

CK/km 15290/23 22 LIFE.2
