**as regards the digitalisation of the visa procedure**

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 77(2), point (a) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee<sup>1</sup>,

Acting in accordance with the ordinary legislative procedure<sup>2</sup>,

---

<sup>1</sup> OJ C 75, 28.2.2023, p. 150.

<sup>2</sup> Position of the European Parliament of 18 October 2023 (not yet published in the Official Journal) and decision of the Council of 13 November 2023.

Whereas:

- (1) The Union's common visa policy has been an integral part of the establishment of an area without internal borders. It is important that visa policy remain an essential element in helping counter security risks and the risk of irregular migration to the Union, while facilitating tourism and business. To make the Schengen visa application process smoother and more effective for third-country nationals and Member State authorities, it is necessary to allow Schengen visa applications to be lodged online, thereby making full use of recent legal and technological developments.
- (2) Visas should be issued in a uniform digital format only, as a 2D barcode, and contain the facial image of the visa holder. The 2D barcode should be cryptographically signed by the Country Signing Certificate Authority of the issuing Member State. Council Regulation (EC) No 1683/95<sup>1</sup> should therefore be amended accordingly.
- (3) In order to ensure uniform conditions for the implementation of Regulation (EC) No 1683/95, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council<sup>2</sup>. The examination procedure should be used for the adoption of the technical specifications of the digital visa.
