Prolongation of the temporary
reintroduction of border control at the
internal borders of Estonia

25.03.2020 ne 9-2/12-1

Dear colleagues,

Estonia has informed you about the reintroduction of border control effective from 17 March at land, sea and air borders of Estonia.

Since the spread of COVID-19 still poses a significant threat to the health of the Estonian people, Estonia has decided, on the basis of Article 28 (3) of the Regulation (EU) 2016/399, on a Union Code on the rules governing the movement of persons across borders (Schengen Borders Code), to prolong the temporary reintroduction of border control at internal borders for additional 20 days until 15th April 2020 23:59.

The list of temporary border crossings points through which it is possible to cross internal borders remains the same as noted in previous notification.

The aim of the measure is to control and prevent the more extensive spread of Coronavirus which poses threat to public health and to ensure public order on the territory of the state.

Sincerely,

Mart Helme
Minister of the Interior
