Adoption

 16113/1/23 REV 1
+ REV 1 ADD 1
15135/1/23 REV 1
+ ADD 1
RECH

Statement by Hungary

“Hungary recognises and promotes equality between men and women in accordance with the Fundamental Law of Hungary and the primary law, principles and values of the European Union, as well as commitments and principles stemming from international law. Equality between women and men is enshrined in the Treaties of the European Union as a fundamental value. In line with these and its national legislation, Hungary interprets the term ‘gender’ as a reference to ‘sex’ in the *Council Recommendation on a European framework to attract and retain research, innovation and entrepreneurial talents in Europe*.

Furthermore, Hungary declares that the Commission’s Communication on ‘the European Commission’s Gender Equality Strategy 2020-2025’ mentioned in the *Council Recommendation on a European framework to attract and retain research, innovation and entrepreneurial talents in Europe* should be interpreted with due regard to the national competences and the specific circumstances in each Member State.”

Delegated or Implementing Acts

Environment

55. Commission Delegated Directive (EU) .../... of 25.10.2023
amending Directive 2011/65/EU of the European Parliament and
of the Council as regards an exemption for cadmium and lead in
plastic profiles in electrical and electronic windows and doors
containing recovered rigid polyvinyl chloride
16467/23 + ADD 1
14775/23 + ADD 1
ENV
Delegated act - Intention not to raise objections

Statement by Denmark

“Denmark has objected to the issuing of the delegated directive due to concerns regarding the content of lead. Denmark acknowledges the intention from the Commission to further the circular Economy and increase the recycling of PVC. However, Denmark is not in favor of the proposal by the Commission as regard lead and its compounds because Denmark is concerned that the proposal will lower the protection for European citizens and the environment. Further, we fear that the proposed threshold limit of 1,5% will not protect against the continued practice of actively adding lead to products produced with recycled PVC as a stabilizer.

There is no safe lower limit value for lead, which will provide full protection against damages on the kidneys and the development of the brain. Therefore, setting a sufficiently low limit level for lead in PVC is critical. Denmark considers the limit value of 0.1% appropriate, which will lead to the same protection whether the PVC profiles are made of new or recycled PVC.”

56. Commission Decision of XXX establishing, pursuant to
Directive 2000/60/EC of the European Parliament and of the
Council, the values of the Member State monitoring system
classifications as a result of the intercalibration exercise and
repealing Commission Decision (EU) 2018/229
16640/23
15079/23
+ ADD 1-2
ENV
Decision not to oppose adoption

Economic and Financial Affairs
