EUROPEAN
COMMISSION

Brussels, 4.3.2024
C(2024) 1319 final

ANNEX

ANNEX

to the

Commission Delegated Directive

amending Directive 2005/36/EC of the European Parliament and of the Council as regards the minimum training requirements for the professions of nurse responsible for general care, dental practitioner and pharmacist

ANNEX

Annex V is amended as follows:

(1) point 5.2.1 is replaced by the following:

‘5.2.1 Training programme for nurses responsible for general care

The training leading to the award of a formal qualification of nurses responsible for general care shall consist of the following two parts.

A. Theoretical instruction

a. Nursing:

- Nature, ethics and general principles of health and nursing, including person-centred care theories
- Nursing principles in relation to:
 - general and specialist medicine
 - general and specialist surgery
 - childcare and paediatrics
 - maternity care
 - mental health and psychiatry
 - care of the elderly and geriatrics
- Evidence-based nursing practice and research

b. General health sciences:

- Anatomy and physiology
- Pathology
- Bacteriology, virology and parasitology
- Biophysics, biochemistry and radiology
- Dietetics
- Hygiene:
 - preventive medicine
 - health education
- Pharmacology

c. Social sciences:

- Sociology
- Psychology
- Principles of administration and management
- Principles of teaching
- Social and health legislation
- Legal aspects of nursing

d. Science and technology:

- e-health

B. Clinical instruction

- Nursing in relation to:
 - general and specialist medicine
 - general and specialist surgery
 - childcare and paediatrics
 - maternity care
 - mental health and psychiatry
 - care of the elderly and geriatrics
 - nursing care in community settings
 - person-centred approach
- Science and technology:
 - e-health

One or more of these subjects may be taught in the context of the other disciplines or in conjunction therewith.

Theoretical instruction must be weighted and coordinated with clinical instruction in such a way that the knowledge and skills referred to in this Annex can be acquired in an adequate fashion.’;

- (2) point 5.3.1 is replaced by the following:

‘5.3.1 Study programme for dental practitioners

The programme of studies leading to evidence of formal qualifications in dentistry shall include at least the following subjects. One or more of these subjects may be taught in the context of the other disciplines or in conjunction therewith.

A. Basic subjects

- Chemistry
- Physics
- Biology, genetics and regenerative medicine

B. Medico-biological subjects and general medical subjects

- Anatomy
- Embryology
- Histology, including cytology
- Physiology
- Biochemistry (or physiological chemistry)
- Pathological anatomy
- General pathology
- Pharmacology
- Microbiology

- Hygiene
- Preventive medicine and dental public health
- Radiology
- Physiotherapy
- General surgery
- General medicine, including paediatrics
- Oto-rhino-laryngology
- Dermato-venereology
- General psychology — psychopathology — neuropathology
- Anaesthetics
- Immunology

C. Subjects directly related to dentistry

- Prosthodontics
- Dental materials and equipment
- Conservative dentistry
- Preventive dentistry
- Anaesthetics and sedation
- Special surgery
- Special pathology
- Clinical practice
- Paedodontics
- Orthodontics
- Periodontics
- Dental radiology
- Dental occlusion and function of the jaw
- Practice management, professionalism, ethics and legislation
- Social aspects of dental practice
- Gerodontology
- Oral implantology
- Interprofessional collaborative care
- Digital technology in dentistry’;

(3) point 5.6.1 is replaced by the following:

‘5.6.1 Course of training for pharmacists

- Plant and animal biology
- Physics

- General and inorganic chemistry
- Organic chemistry
- Analytical chemistry
- Pharmaceutical chemistry, including analysis of medicinal products
- General and applied biochemistry (medical)
- Anatomy, physiology, pathology and pathophysiology; medical terminology
- Microbiology
- Pharmacology and pharmacotherapy
- Pharmaceutical technology
- Biopharmaceutical technology
- Toxicology
- Pharmacognosy
- Legislation and, where appropriate, professional ethics
- Genetics and pharmacogenomics
- Immunology
- Clinical pharmacy
- Pharmaceutical care
- Social pharmacy
- Public health, including epidemiology
- Pharmacy practice
- Pharmacoeconomics

The balance between theoretical and practical training shall, in respect of each subject, give sufficient importance to theory to maintain the university character of the training.’
