The provisions of this Regulation shall, for the purposes of this Agreement, be read with the following adaptations:

Given the EU's decision not to extend the rights and obligations for San Marino to issue EU-type approvals and to designate EU technical services other than those established or designated by EU Member States:

(a) In relation to EU type approval, Articles 6, 7, 11, 25 to 37, 40, 41, 49, 51, 52, and 61 to 71, shall not apply.

(b) Article 42(9) is replaced by the following: "The approval authorities of EU Member States may accept the national type-approval issued by San Marino where they consider that the national technical requirements of San Marino in accordance with which the vehicle was approved are equivalent to their own. Such approval shall be valid only in that Member State accepting such equivalence."

(c) Article 53(1) is replaced by the following: "All decisions taken pursuant to this Regulation and all decisions refusing registration, prohibiting or restricting the placing on the market, registration or entry into service of a vehicle or requiring withdrawal of a vehicle from the market, shall state in detail the reasons on which they are based."

Notwithstanding these exceptions, San Marino shall accept, for vehicles, systems, components, and parts to be placed on the market, the EU and UN certificates issued by EU type approval authorities and markings thereof as a proof of conformity, without any further retesting or marking (beyond the markings or labels already mandated in the EU regulations/directives or UN regulations). With regard to UN certificates and markings, this only applies to UNECE 1958 regulations that the EU is applying.

For the UNECE 1958 regulations that both the EU and San Marino are applying in the same versions, the EU shall accept the UN certificates validly issued by San Marino.

San Marino shall be obliged to apply the provisions in the EU motor vehicle legislation relating to market surveillance. San Marino may outsource that task, partly or entirely, to the market surveillance authority of an EU Member State of its choice.

– 32020 R 1564: Commission Delegated Regulation (EU) 2020/1564 of 6 August 2020 (OJ L 358, 28.10.2020).

The provisions of this Regulation shall, for the purposes of this Agreement, be read with the following adaptations:

Given the EU's decision not to extend the rights and obligations for San Marino to issue EU-type approvals and to designate EU technical services other than those established or designated by EU Member States:

(a) In relation to EU type approval, Articles 5, 6, 20 to 32, 35, 36 and 57 to 67, shall not apply.

(b) Article 37(8) is replaced by the following: "The approval authorities of EU Member States may accept the national type-approval issued by San Marino where they consider that the national technical requirements of Marino in accordance with which the vehicle was approved are equivalent to their own. Such approval shall be valid only in that Member State accepting such equivalence."

(c) Article 48(1) is replaced by the following: "All decisions taken pursuant to this Regulation and all decisions refusing registration, prohibiting or restricting the placing on the market, registration or entry into service of a vehicle or requiring withdrawal of a vehicle from the market, shall state in detail the reasons on which they are based."

Notwithstanding these exceptions, San Marino shall accept, for vehicles, systems, components, and parts to be placed on the market, the EU and UN certificates issued by EU type approval authorities, as well as the OECD test reports and certifications issued by EU's national designated authorities, and markings thereof, as a proof of conformity, without any further retesting or marking (beyond the markings or labels already mandated in the EU regulations/directives or UN regulations). With regard to UN certificates and markings, this only applies to UNECE 1958 regulations that the EU is applying.

For the UNECE 1958 regulations that both the EU and San Marino are applying in the same versions, the EU shall accept the UN certificates validly issued by San Marino.

San Marino shall be obliged to apply the provisions in the EU agricultural and forestry vehicles legislation relating to market surveillance. San Marino may outsource that task, partly or entirely, to the market surveillance authority of an EU Member State of its choice.

The adaptations shall apply *mutatis mutandis* to the provisions concerning EU type approval in:

The provisions of this Regulation shall, for the purposes of this Agreement, be read with the following adaptations:

Given the EU's decision not to extend the rights and obligations for San Marino to issue EU-type approvals and to designate EU technical services to other than those established or designated by EU Member States,

(a) Articles 5, 6, 20 to 30, 34, 35, 36, 38, 39, 40, 45 to 54, and Article 61, shall not apply.

(b) Article 41 is replaced by the following: "All decisions taken pursuant to this Regulation and all decisions refusing registration, prohibiting or restricting the placing on the market, registration or entry into service of a vehicle or requiring withdrawal of a vehicle from the market, shall state in detail the reasons on which they are based."

Notwithstanding these exceptions, San Marino shall accept, for engines to be placed on the market, the EU and UN certificates issued by EU type approval authorities and markings thereof as a proof of conformity, without any further retesting or marking (beyond the markings or labels already mandated in the EU regulations/directives or UN regulations). With regard to UN certificates and markings, this only applies to UNECE 1958 regulations that the EU is applying.

For the UNECE 1958 regulations that both the EU and San Marino are applying in the same versions, the EU shall accept the UN certificates validly issued by San Marino.

San Marino shall be obliged to apply the provisions in the EU non-road mobile machinery legislation, as regards emissions, relating to market surveillance. San Marino may outsource that task, partly or entirely, to the market surveillance authority of an EU Member State of its choice.

These adaptations shall apply *mutatis mutandis* to the provisions concerning EU type approval in:

The number of new residence permits for stays of more than twelve months available annually for nationals of EU Member States pursuing an economic activity in San Marino shall be determined in such a way that the annual net increase in the number of such economically active nationals residing in San Marino is not less than 3 % of their number compared to 1 January of the year before. Residence permits issued to persons naturalised in the course of the year shall be deducted from the basis on which the increase for the following year is calculated. Long-term residence permits issued in excess of the minimum number shall not be counted against the increase due the following year.

2. Short-term residence permits

The authorities of San Marino shall grant residence permits for a period of twelve months or less to nationals of EU Member States who are engaged in an economic activity. Nationals of EU Member States who are in possession of a short-term residence permit and who are engaged in an economic activity must be included in the quota referred to in paragraph 1. Such persons may remain in San Marino under the conditions laid down in Directive 2004/38/EC after the expiry of the permit, within the limits of the quota under which they entered the country. A permit allocated under the quota shall be re-allocated when the person to whom it was allocated changes his or her residence to another country. The number of short-term permits available for the purpose of engaging in an economic activity shall not deviate by more than 10 % from the average of the preceding five years.

3. Right of residence for persons not engaged in any economic activity

An additional annual quota of 1 % of the base referred to in point 1 shall be reserved for nationals of EU Member States wishing to take up residence on the basis of Article 7(1)(b) of Directive 2004/38/EC. No quota shall apply to nationals of EU Member States who wish to take up residence on the basis of Article 7(1)(c) of the Directive.

The authorities of the Republic of San Marino shall grant residence permits in a non-discriminatory manner.

III

Family members of nationals of EU Member States residing legally in San Marino shall have the right to obtain a residence permit of the same validity as that of the person on whom they depend. They shall have the right to take up an economic activity, in which case they will be included in the number of residence permits granted to economically active persons in accordance with point II. However, the conditions in point II may not be invoked to refuse them a residence permit in the event that the annual number of permits available to economically active persons is filled.

IV

The right to permanent residence provided for in Chapter IV of Directive 2004/38/EC shall apply to: (1) nationals of EU Member States who resided in San Marino legally and in accordance with the conditions set out in the Directive before the application of this Agreement; (2) nationals of EU Member States who are resident in San Marino on the basis of a residence permit granted on the basis of this sectoral adaptation; (3) nationals of EU Member States residing in San Marino legally and in accordance with the conditions set out in the Directive who are not covered by points (1) and (2). Nationals of EU Member States who have a right to permanent residence under the conditions laid down in the Directive shall no longer be counted in the number of available permits.

V

Applicants for a residence permit shall receive a written reply by the end of the second month from the date of application. Unsuccessful applicants shall have the right to a reasoned refusal in writing. They shall have the same legal remedies as citizens of San Marino as regards administrative decisions.

The right of residence of nationals of EU Member States shall be evidenced by the issuing of a residence document which meets the requirements of Article 6 of Regulation (EU) 2019/1157.
The right of residence of family members of nationals of EU Member States who are not nationals of an EU Member State shall be evidenced by the issuing of a residence card which meets the requirements of Article 7 of Regulation (EU) 2019/1157.

VI

The Republic of San Marino shall be required to communicate to the EU all the information necessary to verify compliance with this sectoral adaptation.

7. This licence must be presented at the request of any authorised inspecting officer.

(b) carriage of school pupils and students to and from the educational institution.

The fact that a special service may be varied according to the needs of users shall not affect its classification as a regular service.

A. GENERAL PROVISIONS

1. Article 12(1), the second paragraph of Article 5(3) and Article 17(1) of Regulation (EC) No 1073/2009, as adapted for the purposes of the Association Agreement with San Marino, state that occasional services shall be carried out under cover of a control document (journey form detached from the book of journey forms issued to a carrier).

2. Article 2(4) of Regulation (EC) No 1073/2009, as adapted for the purposes of the Association Agreement with San Marino, defines occasional services as services 'which do not fall within the definition of regular services, including special regular services, and the main characteristic of which is the carriage of groups of passengers constituted on the initiative of a customer or the carrier himself'.

Regular services are defined in Article 2(2) of Regulation (EC) No 1073/2009 (as adapted for the purposes of the Association Agreement with San Marino) as 'services which provide for the carriage of passengers at specified intervals along specified routes, passengers being picked up and set down at predetermined stopping points.' Regular services are open to all, subject, where appropriate, to compulsory reservation.

The regular nature of the service is not affected by any adjustment to the service operating conditions.

Services, by whomsoever organised, which provide for the carriage of specified categories of passengers to the exclusion of other passengers, are deemed to be regular services. Such services are called 'special regular services' and include:

(a) the carriage of workers between home and work,

(b) the carriage of school pupils and students to and from the educational institution. The fact that a special service may be varied according to the needs of users does not affect its classification as a regular service.

3. The journey form is valid for the entire journey.

4. The Community licence and the journey form entitle the holder to carry out:

(i) international occasional services by coach and bus between two or more Member States;

(ii) cabotage operations in the form of occasional services in a Member State other than that in which the carrier is established.

5. The journey form is completed in duplicate, either by the carrier or by the driver before the beginning of each service. The copy of the journey form remains in the undertaking. The driver keeps the original on board the vehicle throughout the journey and presents it on request to enforcement officials.

6. The driver returns the journey form to the undertaking which delivered it at the end of the journey in question. The carrier is responsible for keeping the documents. They are filled in legibly and indelibly.

B. PROVISIONS SPECIFIC TO INTERNATIONAL OCCASIONAL SERVICES

1. The second subparagraph of Article 5(3) of Regulation (EC) No 1073/2009, as adapted for the purposes of the Association Agreement with San Marino, states that the organisation of parallel or temporary services comparable to existing regular services and serving the same public as the latter shall be subject to authorisation.

2. Carriers may carry out local excursions in a Member State other than that in which they are established within the framework of an international occasional service. Such services are intended for non-resident passengers previously transported by the same carrier in the framework of an international occasional service. They are transported in the same vehicle or another vehicle belonging to the same carrier or group of carriers.

3. In the case of local excursions, the journey form is completed before the departure of the vehicle on the excursion in question.

4. In the case of an international occasional service operated by a group of carriers acting on behalf of the same customer and possibly involving the passengers catching a connection en route with a different carrier of the same group, the original of the journey form is kept in the vehicle carrying out the service. A copy of the journey form is kept at the base of each carrier involved.

C. PROVISIONS SPECIFIC TO CABOTAGE OPERATIONS IN THE FORM OF OCCASIONAL SERVICES

1. Cabotage operations in the form of occasional services shall be subject, save as otherwise provided in Union legislation, to the laws, regulations and administrative measures in force in the host Member State with regard to the following:

(i) the conditions governing the transport contract;

(ii) the weights and dimensions of the road vehicles;

(iii) the requirements relating to the carriage of certain categories of passenger, namely schoolchildren, children and persons with reduced mobility;

(iv) the driving time and rest periods;

(v) the value added tax (VAT) or turnover tax on the transport services. In this area, Council Directive 2006/112/EC of 28 November 2006 on the common system of value added tax ([1]1), in particular Article 48 read in conjunction with Articles 193 and 194 shall apply to the services referred in Article 1 of Regulation (EC) No 1073/2009, as adapted for the purposes of the Association Agreement with San Marino.

2. The technical standards for construction and equipment which the vehicles used to carry out the cabotage transport operations must meet are those laid down for vehicles put into circulation in international transport.

3. Member States apply the national provisions referred to in points 1 and 2 above to non-resident carriers under the same conditions as those imposed on carriers established in the host Member State, in order to prevent any discrimination on grounds of nationality or place of establishment.

4. In the case of cabotage operations in the form of occasional services, the journey forms are returned by the carrier to the competent authority or body of the Member State of establishment in accordance with procedures to be laid down by that authority or body ([2]).

5. In the case of cabotage operations in the form of special regular services, the journey forms shall be filled out in the form of a monthly statement and returned by the carrier to the competent authority or body of the Member State of establishment in accordance with procedures to be laid down by that authority or body.----------

[2] Member States' competent authorities may supplement point 4 with personnel of the agency responsible for collecting the journey forms and the procedure for forwarding the information.

**ANNEX (PART 14/14)**

***Declaration to be annexes to this Agreement***

DECLARATION OF ANDORRA ON THE TOBACCO SECTOR

Andorra has in recent years embarked upon a deep and intensive process of reform aimed at creating more openness and transparency and bringing the Principality closer to Europe.

These reforms aim to ensure a structured transition of its economic model and to diversify its economy. The diversification of the Andorran economy, supported by the implementation of the Association Agreement, should result in the development of new sectors of the economy and increased competitiveness of certain existing sectors.

Economic transformation must go hand in hand with the steady development of the tax revenues resulting from important reforms carried out in recent years and the socio-economic situation, including employment.

In this context, one of Andorra's priorities is to further strengthen and protect responsible trade in tobacco. Andorra is fully committed to a policy to improve public health and tobacco control, in particular by acceding to the WHO Framework Convention on Tobacco Control and the Protocol to Eliminate Illicit Trade in Tobacco Products, as well as by adopting the relevant EU legislation.

A key element of Andorra's public health policy is the prevention and fight against fraud and smuggling of tobacco products. Andorra makes a firm commitment to strengthen its efforts in these areas, in particular by regularly adopting and implementing EU legislation with adequate administrative, judicial and material capacity.

Andorra undertakes to strengthen anti-fraud cooperation, in particular with the EU and the two neighbouring Member States. It will closely monitor changes in the quantities of tobacco products manufactured locally, imported, marketed and exported. Andorra recalls in particular the entry into force on 1 April 2018 of the Agreement between the Government of the French Republic and the Government of the Principality of Andorra on cross-border cooperation in police and customs matters, and the signing on 2 September 2015 of the Convention between the Principality of Andorra and the Kingdom of Spain on cooperation in combatting crime and on security.

Given the current price differentials (including taxes) for tobacco products between Andorra and, in particular, the two neighbouring Member States, Andorra undertakes not to increase the price differentials for tobacco products (including taxes) that exist, on the date of initialling of the Association Agreement between Andorra and the EU, in relation to the neighbouring Member State with the lowest prices.

Andorra will ensure that, during the transitional period referred to in Article 9 of the Associated State Protocol, any reduction in revenue resulting from the reduction in customs duties is offset simultaneously by other State revenue.

While stressing that taxation does not fall within the scope of this Agreement, Andorra will examine, where appropriate and with a view to securing adequate State revenue, the possibility of drawing inspiration from EU legislation on taxes on tobacco products.

JOINT DECLARATION BY THE EU AND ANDORRA ON FREEDOM OF MOVEMENT OF PERSONS

This Agreement, which sets out the conditions for the exercise of the right to free movement by nationals of an EU Member State or of Andorra, and the incorporation of Directive 2004/38/EC shall impose no obligation on Andorra to adopt the "Union citizenship" concept (Articles 20 et seq. of the TFEU), which has no equivalent in this Agreement.

Articles 18, 21, 46, 50 and 59 TFEU constitute the legal basis of Directive 2004/38/EC.

Directive 2004/38/EC of the European Parliament and of the Council[1] on the right of EU citizens and their family members to move and reside freely within the territory of EU Member States provides for a system of rights of entry, residence, exit and equal treatment subject to certain limitations and restrictions which, in turn, are subject, *inter alia*, to procedural guarantees (in particular judicial review).

Directive 2004/38/EC shall be applicable in relations between the EU and Andorra in accordance with the terms and conditions laid down in Annexes VIII and V to the Associated State Protocol.

The case-law of the Court of Justice of the EU provides useful clarifications, including as regards the measures available to the State of residence to maintain law and order and expel foreign criminals.

[1] Directive 2004/38/EC of the European Parliament and of the Council of 29 April 2004 on the right of citizens of the Union and their family members to move and reside freely within the territory of the Member States (OJ L 158, 30.4.2004, p. 77).

Andorra's incorporation of Directive 2004/38/EC shall be without prejudice to the evaluation of the relevance to this Agreement of future EU legislation, as well as future case law of the Court of Justice of the EU based on the concept of Union citizenship. This Agreement does not provide a legal basis for political rights of nationals of Andorra or an EU Member State.

The EU and Andorra agree that immigration policy shall not be covered by this Agreement. The rights of residence of third-country nationals shall not be covered by this Agreement, with the exception of rights conferred on third-country nationals who are family members of a national of an EU Member State or Andorra exercising his or her right to free movement under this Agreement, as these rights are corollary to the right of free movement of nationals of an EU Member State or Andorra.

Andorra recognises that it is of importance to nationals of an EU Member State or Andorra making use of their right of free movement of persons that their family members within the meaning of Directive 2004/38/EC and possessing third country nationality also enjoy certain derived rights, such as those set out in Articles 12(2), 13(2) and 18 of that Directive.

# DECLARATION OF ANDORRA ON THE SPECIFIC SITUATION OF THE COUNTRY AND ON SAFEGUARDING SECURITY AND PUBLIC POLICY

The Government of the Principality of Andorra,

Referring to the Declaration on Article 8 of the Treaty on European Union,

Recalling that Andorra has a very small inhabitable mountainous area, with an unusually high percentage of residents and employees who are not nationals of the Principality,

Recalling that safeguarding security and public policy is the primary goal of every State,

Noting that it is of vital interest for Andorra to be able to safeguard the security of the State, of persons and property and of the particular Andorran public policy,

Noting that the Andorran population enjoys a high level of public security which must be maintained as a major asset in terms of reputation, living conditions and social cohesion,

Recalling that security instruments, institutions and infrastructure which are normally available to a larger State are not available to Andorra,

Considers it necessary to take due account, in the application of the Agreement, of Andorra's specific geographical situation and demographic and social structure,

Reaffirming its commitment to ensuring compliance with all the provisions of the Association Agreement and to applying them in good faith,

Considers that it is for the Andorran courts, on the basis of Articles 27 and 28 of Directive 2004/38/EC of the European Parliament and of the Council[2], to determine the level of protection they consider desirable to give to the fundamental interests of society, in accordance with the case-law of the Court of Justice of the EU, which has clarified that this level of protection must be interpreted strictly.

Considers that the interpretation of the provisions maintaining a connection with the issues of security and public policy contained in this Agreement must take account, while observing the principles of equivalence and effectiveness and the interpretation of the Court of Justice of the EU, of the real impact that individual conduct which constitutes a genuine, present and sufficiently serious threat to one of the fundamental interests of society and a danger to security and public policy according to the case-law of the national courts may have in view of Andorra's geographical, demographic and social specificities.

Considers that the adoption by Andorra of the safeguard measures referred to in Article 97 of this Agreement could be justified, *inter alia*, where capital inflows from the other Associated Party might threaten the access of the resident population to the real estate market, where there is an extraordinary increase in the number of nationals of EU Member States which risks undermining public systems, or where the total number of jobs generated by the national economy, in relation to the number of residents, leads to a situation of obvious imbalance.

Undertakes to provide for the necessary mechanisms to ensure that the proportion of nationals of EU Member States in its population will not be reduced in the period during which safeguard measures are in place.

[2] Directive 2004/38/EC of the European Parliament and of the Council of 29 April 2004 on the right of citizens of the Union and their family members to move and reside freely within the territory of the Member States (OJ L 158, 30.4.2004, p. 77).

JOINT STATEMENT BY THE EU AND ANDORRA ON AIR TRANSPORT

Within eight years after the entry into force of this Agreement, the EU and Andorra agree to examine within the Joint Committee whether Annex XIII (Transport) to the Associated State Protocol could be extended to the air transport sector.
