ANDORRA PROTOCOL

PART I

GENERAL PROVISIONS

CHAPTER 1

COOPERATION BETWEEN THE EU AND ANDORRA

ARTICLE 1

Replacement and succession of the Cooperation Agreement of 15 November 2004

This Agreement replaces and succeeds the Cooperation Agreement between the European Economic Community and the Principality of Andorra signed in Brussels on 15 November 2004¹.

¹ OJ L 135, 28.5.2005, p. 14.

ARTICLE 2

Specific provisions on cooperation

1. Cooperation between the EU and Andorra pursuant to Article 64 of the Framework Agreement shall take into account the experience of Andorra's participation in EU programmes, in particular existing territorial cooperation programmes and cross-border cooperation structures in the Pyrenees.
2. To this end, the EU and Andorra agree to intensify their regional cooperation, along the lines of the EU policy of cross-border, transnational and interregional cooperation, and will explore coordinated action to develop the border areas around Andorra with a view to promoting a policy for the Pyrenees comparable to that for the Alps. At the same time, they agree to develop their cooperation on a policy for mountain areas, along the lines of the EU policy to ensure continued and sustainable agricultural land use, economic development and preservation of the natural environment.

PART II

FREE MOVEMENT OF GOODS

CHAPTER 1

GENERAL PROVISIONS

ARTICLE 3

Principles

The free movement of goods between the EU and Andorra is based, on the one hand, on a customs union and, on the other hand, on the implementation and application by Andorra of the EU acquis in the area of free movement of goods.

ARTICLE 4

Customs union between the EU and Andorra

This Agreement establishes a customs union between the EU and Andorra which replaces and succeeds the agreement in the form of an exchange of letters between the European Economic Community and the Principality of Andorra signed in Luxembourg on 28 June 1990¹.

¹ OJ L 374, 31.12.1990, p. 16.

ARTICLE 5

Scope of the customs union

1. The customs union between the EU and Andorra shall cover all goods, without prejudice to specific provisions set out in Article 10 of this Protocol.
2. The customs union between the EU and Andorra shall cover both the customs territory of the EU as defined in Article 4 of the Union Customs Code¹ and the territory of Andorra.
3. The customs union between the EU and Andorra shall cover:
 - (a) goods produced in the customs territory of the EU or in Andorra, including those obtained in whole or in part from products coming from third countries that are in free circulation in the customs territory of the EU or in Andorra;
 - (b) goods coming from third countries that are in free circulation in the customs territory of the EU or in Andorra.
4. Products coming from third countries shall be considered to be in free circulation in the customs territory of the EU or in Andorra if the import formalities have been complied with and any customs duties or charges having equivalent effect which are payable have been levied, and there has been no total or partial reimbursement of such duties or charges in respect of those products.

¹ Regulation (EU) No 952/2013 of the European Parliament and of the Council of 9 October 2013 laying down the Union Customs Code (OJ L 269, 10.10.2013 p.1).

5. The customs union shall also cover goods obtained in the customs territory of the EU or in Andorra, the manufacture of which involves products coming from third countries that are in free circulation neither in the customs territory of the EU nor in Andorra. The provisions on customs union shall, however, apply to those goods only if the exporting Associated Party levies EU customs duties on third country products used in their manufacture.

ARTICLE 6

Measures implementing common commercial policy

1. By way of derogation from Article 81 of the Framework Agreement, Andorra shall directly apply all measures that the EU applies to goods imported into or exported from the customs territory of the EU provided for in Council Regulation (EEC) No 2658/87¹ with the exception of tariff quotas.
2. Andorra shall directly apply all obligations arising from the international agreements concluded by:
 - (a) the EU;
 - (b) EU Member States acting on behalf of the EU; or
 - (c) EU Member States and the EU acting jointly;

insofar as such obligations concern trade in goods between the EU and third countries.

¹ OJ L 256, 07.09.1987, p.1

3. Without prejudice to paragraph 1, the Joint Committee set up by Article 76(1), point (a) of the Framework Agreement may adopt decisions to update Section I of Annex XXV.
4. The measures referred to in paragraph 1 shall include measures resulting from the application in the EU of the legal acts referred to in Section I of Annex XXV.
5. All legal acts listed in Section II of Annex XXV shall be implemented by Andorra into its legal system.
6. Paragraphs 1 and 2 shall apply without prejudice to any specific provisions or rules set out in Annexes I and II to the Associated State Protocol.

ARTICLE 7

Customs Cooperation Subcommittee

1. By way of derogation from the first sentence of Article 76(8) of the Framework Agreement, hereby a Customs Cooperation Subcommittee is established. The methodology, composition and functioning of that Subcommittee shall be determined by the Joint Committee in its rules of procedure.
2. The Subcommittee shall examine issues of interpretation and implementation of the customs provisions contained in this Agreement periodically or at the request of one of the Associated Parties. It shall also deal with all matters relating to customs cooperation and mutual administrative assistance in customs matters between the EU and Andorra.

3. The Subcommittee on its own initiative or at the request of the Joint Committee, as the case may be, shall make recommendations to the Joint Committee on customs matters that must be resolved by a decision of the Joint Committee.

CHAPTER 2

SPECIFIC PROVISIONS

ARTICLE 8

Preferential agreements negotiated by the EU

The EU shall do its utmost, in its trade negotiations with third countries, to obtain the extension of any preferential arrangements applicable to goods to products originating in Andorra.

ARTICLE 9

Mutual recognition agreements negotiated by the EU

The EU shall do its utmost, in its negotiations on mutual recognition agreements with third countries, to obtain their extension for the purposes of conformity assessment and marking of products to Andorra.

ARTICLE 10

Progressive inclusion of tobacco products in the customs union

1. Without prejudice to the provisions of Chapter I of Part II of the Framework Agreement and Chapter I of Part II of this Protocol, customs duties and charges having equivalent effect applicable to imports into Andorra of EU products covered by Chapter 24 of the Nomenclature annexed to the International Convention on the Harmonized Commodity Description and Coding System¹ (the Harmonised System Nomenclature) shall be phased out over a transitional period of 30 years from the date of entry into force of this Agreement, in accordance with the arrangements set out in paragraphs 2 to 5.
2. The arrangements applied to imports into Andorra as regards products covered by Chapter 24 of the Harmonised System Nomenclature from third countries may not be more favourable than those applied to imports of the same products from the EU.
3. The products covered by headings 24.02, 24.03 and 24.04 of the Harmonized System Nomenclature, in its 2022 version², manufactured in the EU from raw tobacco and meeting the conditions of Article 5(3) of Chapter I of Part II of this Protocol shall be eligible, when imported into Andorra, for a preferential rate corresponding to 60 % of the rate applied in Andorra to the same products from third countries.
4. Customs duties and charges having equivalent effect resulting from the application of the arrangements under paragraph 2 and the calculation of the preferential rate referred to in paragraph 3 shall be referred to as ‘basic duties’ and shall be those applied by Andorra on the date of entry into force of this Agreement.

¹ Council Decision 87/369/EEC of 7 April 1987 concerning the conclusion of the International Convention on the Harmonized Commodity Description and Coding System and of the Protocol of Amendment thereto (OJ L 198, 20.7.1987, p. 1).

5. The customs duties and charges having equivalent effect applicable to EU products under Chapter 24 imported into Andorra shall be progressively eliminated in the following six steps:
- (a) seven years from the date of entry into force of this Agreement, those duties shall be equal to 95 % of the basic duties;
 - (b) ten years from the date of entry into force of this Agreement, these duties shall be equal to 90 % of the basic duties;
 - (c) 15 years from the date of entry into force of this Agreement, these duties shall be equal to 70 % of the basic duties;

 - (e) 25 years from the date of entry into force of this Agreement, these duties shall be equal to 30 % of the basic duties; and

from the 30th anniversary and every subsequent year, these duties shall be equal to 0 %.

1. Andorra shall transmit to the EU, before the 15th day of each month, the following data on the products covered by Chapter 24 of the Harmonized System Nomenclature (raw tobacco and tobacco products): changes, on a monthly basis, in the quantities produced and manufactured in Andorra, imported, marketed and exported.

4. Every five years, or at the request of either Andorra or the EU, a follow-up meeting shall be held during which the EU and Andorra shall be informed of developments in the indicators measuring the impact on Andorra of the gradual transition to the free movement of tobacco products.

5. The Joint Committee may decide to adapt the elements and indicators referred to in paragraphs 2 and 3.

6. The Joint Committee may decide, in the event of satisfactory developments in the diversification of the Andorran economy, in particular the tobacco sector, to suspend the transmission of the data and the report referred to in paragraphs 1 to 3.

ARTICLE 12

Tobacco safeguard measures

1. In the event of serious economic, fiscal, societal or environmental difficulties caused by the rate of progressive tariff elimination applicable to Chapter 24 of the Harmonised System referred to in Article 10 of this Protocol, Andorra may unilaterally take safeguard measures to adjust that rate, under the conditions and in accordance with this Article.
2. The EU may unilaterally take appropriate safeguard measures, under the conditions and in accordance with this Article, where it considers that there have been unfavourable developments in the prevention and combatting of fraud and smuggling in Andorra; or an adverse increase in production, imports, marketing or exports of raw tobacco and tobacco products; or an increase in the price differentials for tobacco products (including taxes) between Andorra and the Member States of the EU, particularly in relation to the neighbouring Member State with the lowest price.
3. The safeguard measures under paragraphs 1 and 2 shall be restricted in their scope and duration to what is strictly necessary in order to remedy the situation.
4. Where Andorra or the EU intend to take safeguard measures pursuant to paragraph 1 or 2, respectively, Andorra or the EU shall notify the other Associated Party without delay and provide all relevant information.
5. Paragraphs 4 to 9 of Article 97 of the Framework Agreement shall apply.

ARTICLE 13

ARTICLE 14

General provisions

1. The EU and Andorra shall grant, on the basis of monetary thresholds or quantitative limits, exemptions from import duties, from VAT or general indirect tax and from excise duties for goods imported in the personal luggage of travellers coming from the other Associated Party, provided that such imports are of a non-commercial character.
2. For the purposes of the application of paragraph 1 imports shall be regarded as being of a non-commercial character if they:
 - (a) are of an occasional nature;
 - (b) consist exclusively of goods for the personal or family use of the travellers, or of goods intended as presents.
3. The nature or quantity of the goods must not be such as to indicate that they are being imported for commercial reasons.

ARTICLE 15

2. By way of derogation from paragraph 1 and provided that the goods are acquired subject to the general conditions governing taxation on the domestic market of one of the Associated Parties, the monetary thresholds and quantitative limits set out in paragraphs 3 and 5 shall apply.
3. For goods to which a monetary threshold applies, the total value of the exemption shall be set at three times the value of the exemption applied by the EU in respect of third countries. This paragraph shall not apply to travellers under the age of 15.
4. For the purposes of applying monetary thresholds, the value of an individual item may not be split up.
5. For goods to which a quantitative limit applies, exemptions shall be set at:
 - (a) Tobacco products:
 - 300 cigarettes, or
 - 150 cigarillos, or

Definition

"Customs security measures" shall mean the provisions concerning the declaration of goods prior to their entry to and exit from the customs territory, authorised economic operators, and customs security checks and security-related risk management, which are applicable in line with the relevant customs legislation in force at any time in the EU.

ARTICLE 17

General principles concerning customs security measures

1. The EU and Andorra undertake to apply to the carriage of goods to and from third countries the customs security measures set out in Article 15 of this Protocol and thus to ensure an equivalent level of security at their external borders.
2. The EU and Andorra shall waive the application of the customs security measures referred to in Article 16 of this Protocol during the carriage of goods between their customs territories.

ARTICLE 18

Agreements with third countries

1. The EU and Andorra shall consult each other prior to the conclusion of any agreement with a third country relating to customs security measures in order to ensure consistency with this Chapter, particularly if the proposed agreement includes provisions that derogate from the customs security measures set out in this Chapter.
2. The EU and Andorra agree that agreements concluded by either of them with a third country in an area covered by customs security measures shall not create obligations for the other Associated Party, unless the Joint Committee decides otherwise.

ARTICLE 19

Place for lodging an entry summary declaration and a declaration prior to exit of goods

1. The entry summary declaration shall be lodged with the competent authority of the Associated Party into whose customs territory the goods are brought from third countries. That authority shall carry out a risk analysis based on data contained in the declaration and any customs security controls deemed necessary, including in cases where goods are destined for the other Associated Party.

2. The declaration prior to exit of goods shall be lodged with the competent authority of the Associated Party in whose customs territory the formalities for export or, where appropriate, exit to third countries are carried out. That competent authority shall carry out a risk analysis based on the data in that declaration together with the customs security controls deemed necessary.
3. When goods destined for a third country leave the customs territory of an Associated Party through the customs territory of the other Associated Party, the declaration prior to the exit of the goods shall be lodged only with the competent authorities of the second Party.

ARTICLE 20

 - (a) exchanging information with the aim of improving and strengthening their risk analysis and the effectiveness of security-related customs controls;
 - (b) establishing in good time a common framework for risk management, common risk criteria and common priority areas for controls, and setting up an electronic system to implement such joint risk management.
2. The Joint Committee shall adopt any decision necessary for the application of paragraph 1.

ARTICLE 21

Monitoring the implementation of customs security measures

1. The Joint Committee shall adopt decisions setting out the way in which the EU and Andorra are to monitor the implementation of this Chapter and to verify compliance with customs security measures.

That monitoring may take the form of:

- (a) a regular assessment of the implementation of this Chapter;
 - (b) a review to improve the manner in which it is applied or to amend its provisions so that it better fulfils its objectives;
 - (c) the organisation of thematic meetings between experts of the EU and Andorra and audits of administrative procedures, including on-the-spot visits.
2. The Joint Committee shall ensure that measures taken under paragraph 1 uphold the rights of economic operators.

1. The information exchanged by the EU and Andorra under this Chapter shall enjoy the protection extended to professional secrecy and personal data as defined in the law of the recipient Associated Party.
2. Information may not be transferred to persons other than the competent authorities of the Associated Party concerned, nor may it be used by those authorities for purposes other than those provided for in this Agreement.

ARTICLE 24

Rebalancing measures

1. The EU or Andorra may, after consultation within the Joint Committee, take appropriate rebalancing measures, including the suspension of the application of customs security measures, where it finds that the other Associated Party does not comply with the conditions thereof.
2. Where any delay could jeopardise the effectiveness of customs security measures, provisional precautionary measures may be taken, without prior consultation, provided consultations take place within the Joint Committee immediately after the adoption of those measures.

3. Where the implementation of the relevant acquis on customs security measures is no longer ensured by Andorra in accordance with this Chapter, the EU may suspend the application of the customs security measures, unless the Joint Committee, after having examined ways of maintaining the application of the acquis, decides otherwise.

4. Rebalancing measures should be proportional, and their scope and duration should be limited to what is necessary to address the situation. An Associated Party may request the Joint Committee to hold consultations on the proportionality of those measures.

CHAPTER 5

ARTICLE 25

Mutual assistance for the recovery of claims

1. Each EU Member State and Andorra shall provide mutual assistance for the recovery of claims relating to import duties and export duties.

The statistics referred to in points (i) and (ii) shall be communicated to the European Commission no later than 30 June of each year. The European Commission shall communicate the information received from EU Member States to Andorra;

The connection costs shall be borne by Andorra.
2. The decision of the Joint Committee referred to in paragraph 1 shall also set out a timetable for the gradual connection of Andorra to EU electronic systems, taking into account the real needs of Andorran foreign trade and of the EU, as well as alternative solutions for cases where connection costs would be disproportionate to the expected utility.

PART II

DEFINITION OF THE CONCEPT OF "ORIGINATING PRODUCTS"

ARTICLE 2

General requirements

For the purpose of implementing this Agreement, the following products shall be considered as originating in an Associated Party when exported to the other Associated Party:

- (a) products wholly obtained in an Associated Party within the meaning of Article 3 of this Appendix;
- (b) products obtained in an Associated Party incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in that Associated Party within the meaning of Article 4 of this Appendix.

ARTICLE 3

Wholly obtained products

1. The following shall be considered as wholly obtained in an Associated Party when exported to the other Associated Party:
 - (a) mineral products and natural water extracted from its soil or from its seabed;
 - (b) plants, including aquatic plants, and vegetable products grown or harvested there;
 - (c) live animals born and raised there;
 - (d) products from live animals raised there;
 - (e) products from slaughtered animals born and raised there;

- (m) goods produced there exclusively from the products specified in points (a) to (l).

2. The terms "its vessels" and "its factory ships" in points (h) and (i) of paragraph 1, respectively, shall apply only to vessels and factory ships which meet each of the following requirements:

- (a) they are registered in the exporting or the importing Associated Party;
- (b) they sail under the flag of the exporting or the importing Associated Party;

- are at least 50 % owned by the exporting or the importing Associated Party or public entities or nationals of these Associated Parties.
3. For the purpose of paragraph 2, when the exporting or the importing Associated Party is the EU, it means the EU Member States.

ARTICLE 4

Sufficient working or processing

1. Without prejudice to paragraph 3 of this Article and to Article 6 of this Appendix, products which are not wholly obtained in an Associated Party shall be considered to be sufficiently worked or processed when the conditions laid down in Annex II for the goods concerned are fulfilled.
2. If a product which has obtained originating status in an Associated Party in accordance with paragraph 1 is used as a material in the manufacture of another product, no account shall be taken of the non-originating materials which may have been used in its manufacture.
3. The determination of whether the requirements of paragraph 1 have been met, shall be carried out for each product.

However, where the relevant rule is based on compliance with a maximum content of non-originating materials, the customs authorities of the Associated Parties may authorise exporters to calculate the ex-works price of the product and the value of the non-originating materials on an average basis as set out in paragraph 4, in order to take into account the fluctuations in costs and currency rates.

4. Where the second subparagraph of paragraph 3 applies, an average ex-works price of the product and average value of non-originating materials used shall be calculated on the basis of, respectively, the sum of the ex-works prices charged for all sales of the same products carried out during the preceding fiscal year and the sum of the value of all the non-originating materials used in the manufacture of the same products over the preceding fiscal year as defined in the exporting Associated Party, or, where figures for a complete fiscal year are not available, a shorter period which should not be less than three months.
5. Exporters having opted for calculation on an average basis shall consistently apply such a method during the year following the fiscal year of reference, or, where appropriate, during the year following the shorter period used as a reference. They may cease to apply such a method where during a given fiscal year, or a shorter representative period of no less than three months, they record that the fluctuations in costs or currency rates which justified the use of such a method have ceased.
6. The averages referred to in paragraph 4 shall be used as the ex-works price and the value of non-originating materials, respectively, for the purpose of establishing compliance with the maximum content of non-originating materials.

ARTICLE 5

Tolerance rule

1. By way of derogation from Article 4 of this Appendix and subject to paragraphs 2 and 3 of this Article, non-originating materials which, according to the conditions set out in the list in Annex II, are not to be used in the manufacture of a given product may nevertheless be used, provided that their total net weight or value assessed for the product does not exceed:
 - (a) 15 % of the net weight of the product falling within Chapters 2 and 4 to 24, other than processed fishery products of Chapter 16;
 - (b) 15 % of the ex-works price of the product for products other than those covered by point (a).

This paragraph shall not apply to products falling within Chapters 50 to 63 of the Harmonised System, for which the tolerances mentioned in Notes 6 and 7 of Annex I shall apply.

2. Paragraph 1 of this Article shall not allow to exceed any of the percentages for the maximum content of non-originating materials as specified in the rules set out in Annex II.

3. Paragraphs 1 and 2 of this Article shall not apply to products wholly obtained in an Associated Party within the meaning of Article 3 of this Appendix. However, without prejudice to Articles 6 and 9(1) of this Appendix, the tolerance provided for in those provisions shall nevertheless apply to products for which the rules set out in Annex II requires that the materials which are used in the manufacture of that product are wholly obtained.

ARTICLE 6

Insufficient working or processing

1. Without prejudice to paragraph 2 of this Article, the following operations shall be considered to be insufficient working or processing to confer the status of an originating product, whether or not the requirements of Article 4 of this Appendix are fulfilled:
 - (a) preserving operations to ensure that the products remain in good condition during transport and storage;
 - (b) breaking-up and assembly of packages;
 - (c) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;
 - (d) ironing or pressing of textile
 - (e) simple painting and polishing operations;

- (f) husking and partial or total milling of rice; polishing, and glazing of cereals and rice;

- (h) peeling, stoning and shelling, of fruits, nuts and vegetables;
- (i) sharpening, simple grinding or simple cutting;
- (j) sifting, screening, sorting, classifying, grading, matching; (including the making-up of sets of articles);
- (k) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;
- (l) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging;
- (m) simple mixing of products, whether or not of different kinds;
- (n) mixing of sugar with any material;
- (o) simple addition of water or dilution or dehydration or denaturation of products;
- (p) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;

(q) slaughter of animals;

(r) a combination of two or more operations specified in points (a) to (q).

2. All the operations carried out in the exporting Associated Party on a given product shall be taken into account when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

ARTICLE 7

Bilateral cumulation of origin

1. Without prejudice to Article 2 of this Appendix, products shall be considered as originating in the exporting Associated Party when exported to the other Associated Party if they are obtained there, incorporating materials originating in the other Associated Party provided that the working or processing carried out in the exporting Associated Party goes beyond the operations referred to in Article 6 of this Appendix. It shall not be necessary for such materials to have undergone sufficient working or processing.
2. Without prejudice to Article 2 of this Appendix, working or processing carried out in an Associated Party shall be considered as having been carried out in the exporting Associated Party when the products obtained undergo subsequent working or processing in this exporting Associated Party.

ARTICLE 8

Unit of qualification

1. The unit of qualification for the application this Appendix shall be the particular product which is considered to be the basic unit when determining the classification using the nomenclature of the Harmonised System. It follows that:
 - (a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonised System in a single heading, the whole constitutes the unit of qualification;
 - (b) when a consignment consists of a number of identical products classified under the same heading of the Harmonised System, each individual item shall be taken into account when applying these Rules.
2. Where, under General Rule 5 of the Harmonised System packaging, is included with the product for classification purposes, it shall be included for the purposes of determining the origin.
3. Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle which are part of the normal equipment and included in the ex-works price thereof shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

ARTICLE 9

Sets

Sets, as defined in General Rule 3 of the Harmonised System, shall be regarded as originating when all the component products are originating. Where a set is composed of originating and non-originating products, the set as a whole shall however be regarded as originating, provided that the value of the non-originating products does not exceed 15 % of the ex-works price of the set.

ARTICLE 10

Neutral elements

In order to determine whether a product is an originating product, no account shall be taken of the origin of the following which might be used in its manufacture:

- (a) energy and fuel;
- (b) plant and equipment;
- (c) machines and tools;
- (d) any other goods which do not enter, and which are not intended to enter, into the final composition of the product.

ARTICLE 11

Accounting segregation

1. If originating and non-originating fungible materials are used in the working or processing of a product, economic operators may ensure the management of materials using the accounting segregation method, without keeping the materials on separate stocks.
2. Economic operators may ensure the management of originating and non-originating fungible products of HS heading 1701 using the accounting segregation method, without keeping the products on separate stocks.
3. The Associated Parties may require that the application of accounting segregation is subject to prior authorisation by the customs authorities. The customs authorities may grant the authorisation subject to any conditions they deem appropriate and shall monitor the use made of the authorisation. The customs authorities may withdraw the authorisation whenever the beneficiary makes improper use of the authorisation in any manner whatsoever or fails to fulfil any of the other conditions laid down in this Appendix.

Through the use of accounting segregation it must be ensured that, at any time, no more products can be considered as "originating in the exporting Associated Party" than would have been the case if a method of physical segregation of the stocks had been used.

The method shall be applied and the application thereof shall be recorded on the basis of the general accounting principles applicable in the exporting Associated Party.

4. The beneficiary of the method referred to in paragraphs 1 and 2 shall make out or apply for proofs of origin for the quantity of products which may be considered as originating in the exporting Associated Party. At the request of the customs authorities, the beneficiary shall provide a statement of how the quantities have been managed.

PART III

TERRITORIAL REQUIREMENTS

ARTICLE 12

Principle of territoriality

1. The conditions set out in Part II shall be fulfilled without any interruption in the Associated Party concerned.
2. If originating products exported from an Associated Party to a third country are returned, they shall be considered to be non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:
 - (a) the products returned are the same as those which were exported; and
 - (b) they have not undergone any operations beyond that which is necessary to preserve them in good condition while in that country or while being exported.
3. The obtention of originating status in accordance with the conditions set out in Part II shall not be affected by working or processing done outside the exporting Party on materials exported from this Associated Party and subsequently re-imported there, provided:
 - (a) those materials are wholly obtained in the exporting Associated Party or have undergone working or processing beyond the operations referred to in Article 6 of this Appendix prior to being exported; and

- (b) it can be demonstrated to the satisfaction of the customs authorities that:
- (i) the re-imported products have been obtained by working or processing the exported materials; and
 - (ii) the total added value acquired outside the exporting Associated Party by applying this Article does not exceed 10 % of the ex-works price of the end product for which originating status is claimed.
4. For the purposes of paragraph 3 of this Article, the conditions for obtaining originating status set out in Title II shall not apply to working or processing done outside the exporting Associated Party. However, where, in the list in Annex II, a rule setting a maximum value for all the incorporated non-originating materials is applied in determining the originating status of the end product, the total value of the non-originating materials incorporated in the territory of the exporting Associated Party, taken together with the total added value acquired outside this Associated Party by applying this Article, shall not exceed the stated percentage.
5. For the purposes of applying paragraphs 3 and 4, "total added value" shall be taken to mean all costs arising outside the exporting Associated Party, including the value of the materials incorporated there.
6. Paragraphs 3 and 4 of this Article shall not apply to products which do not fulfil the conditions listed in Annex II or which can be considered sufficiently worked or processed only if the general tolerance fixed in Article 5 of this Appendix is applied.

7. Any working or processing of the kind covered by this Article and done outside the exporting Associated Party shall be done under the outward processing arrangements, or similar arrangements.

ARTICLE 13

Non-alteration

1. The preferential treatment provided for under this Agreement shall apply only to products fulfilling the requirements set out in this Appendix and declared for importation in an Associated Party provided that those products are the same as those exported from the exporting Party. They shall not have been altered, transformed in any way or subjected to operations other than to preserve them in good condition or than adding or affixing marks, labels, seals or any documentation to ensure compliance with specific domestic requirements of the importing Associated Party carried out under customs supervision in the third country(ies) of transit or splitting prior to being declared for home use.
2. Storage of products or consignments may take place, provided that they remain under the supervision of customs authorities in the third country(ies) of transit.
3. Without prejudice to Title IV of this Appendix, the splitting of consignments may take place, provided that they remain under the supervision of customs authorities in the third country(ies) of splitting.

4. In the case of doubt, the importing Associated Party may request the importer or its representative to submit at any time all appropriate documents to provide evidence of compliance with this Article, which may be given by any documentary evidence, and notably by:
- (a) contractual transport documents such as bills of lading;
 - (b) factual or concrete evidence based on marking or numbering of packages;
 - (c) a certificate of non-manipulation provided by the customs authorities of the third country(ies) of transit or splitting or any other documents demonstrating that the goods remained under the supervision of the customs authorities in the third country(ies) of transit or splitting; or
 - (d) any evidence related to the goods themselves.

ARTICLE 14

Exhibitions

1. Originating products, sent for exhibition in a country other than that with which cumulation is applicable in accordance with Article 7 of this Appendix and sold after the exhibition for importation in an Associated Party, shall benefit on importation from this Agreement, provided that it is shown to the satisfaction of the customs authorities that:
 - (a) an exporter has consigned the products from an Associated Party to the country in which the exhibition is held and has exhibited them there;
 - (b) the products have been sold or otherwise disposed of by that exporter to a person in another Associated Party;
 - (c) the products have been consigned during the exhibition or immediately thereafter in the State in which they were sent for exhibition; and
 - (d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. A proof of origin shall be issued or made out in accordance with Part V and submitted to the customs authorities of the importing Associated Party in the normal manner. The name and address of the exhibition shall be indicated thereon. Where necessary, additional documentary evidence of the conditions under which they have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

PART IV

PROOF OF ORIGIN

ARTICLE 15

General requirements

1. Products originating in an Associated Party shall, on importation into the other Associated Party, benefit from the provisions of this Agreement upon submission of one of the following proofs of origin:
 - (a) a movement certificate EUR.1, a specimen of which appears in Annex IV to this Appendix;
 - (b) in the cases specified in Article 16(1) of this Appendix, a declaration, subsequently referred to as the 'origin declaration' given by the exporter on an invoice, a delivery note or any other commercial document which describes the products concerned in sufficient detail to enable them to be identified; the text of the origin declaration appears in Annex III to this Appendix.
2. Notwithstanding paragraph 1 of this Article, originating products within the meaning of this Appendix shall, in the cases specified in Article 25 of this Appendix, benefit from the provisions of this Agreement without being necessary to submit any of the proofs of origin referred to in paragraph 1 of this Article.

3. Without prejudice to paragraph 1, the Associated Parties may agree that, for the preferential trade between them, proofs of origin referred to in paragraph 1 are replaced by statements on origin made out by exporters registered in an electronic database in accordance with the law of the Associated Parties.
4. For the purposes of paragraph 1, the Associated Parties may agree to establish a system that allows for proofs of origin referred to in paragraph 1 to be issued or submitted electronically.

ARTICLE 16

Conditions for making out an origin declaration

1. An origin declaration as referred to in point (b) of Article 15(1) of this Appendix may be made out:

 - (b) by any exporter for any consignment consisting of one or more packages containing originating products the total value of which does not exceed EUR 6 000.
2. An origin declaration may be made out if the products can be considered as originating in an Associated Party and fulfil the other requirements of this Appendix.

3. The exporter making out an origin declaration shall be prepared to submit at any time, at the request of the customs authorities of the exporting Associated Party, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Appendix.
4. An origin declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Annex III to this Appendix, using one of the linguistic versions set out in that Annex and in accordance with the provisions of the national law of the exporting Associated Party. If the declaration is handwritten, it shall be written in ink in printed characters.
5. Origin declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 17 of this Appendix shall not be required to sign such declarations provided that the exporter provides the customs authorities of the exporting Associated Party with a written undertaking that the exporter accepts full responsibility for any origin declaration which identifies the exporter as if it had been signed in manuscript by the exporter.
6. An origin declaration may be made out by the exporter when the products to which it relates are exported, or after exportation (the "retrospective origin declaration") provided that it is presented in the importing Associated Party within two years after the importation of the products to which it relates.

Where the splitting of a consignment takes place in accordance with Article 13(3) of this Appendix and provided that the same two-year deadline is respected, the retrospective origin declaration shall be made out by the approved exporter of the exporting Associated Party of the products.

ARTICLE 17

Approved exporter

1. The customs authorities of the exporting Associated Party may, subject to national requirements, authorise any exporter established in that Associated Party (the "approved exporter"), to make out origin declarations irrespective of the value of the products concerned.
2. An exporter who requests such authorisation must offer, to the satisfaction of the customs authorities, all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Appendix.
3. The customs authorities shall grant the approved exporter a customs authorisation number which shall appear on the origin declaration.
4. Customs authorities shall verify the proper use of an authorisation. Customs authorities may withdraw the authorisation where the approved exporter makes improper use of it and shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 2.

ARTICLE 18

Procedure for issuing of a movement certificate EUR.1

1. A movement certificate EUR.1 shall be issued by the customs authorities of the exporting Associated Party at the written application of the exporter or, under the exporter's responsibility, by his authorised representative.
2. For that purpose, the exporter or his authorised representative shall fill in both the movement certificate EUR.1 and the application form as contained in Annex IV to this Appendix. Those forms shall be completed in one of the languages in which this Agreement is drawn up and in accordance with the provisions of the national law of the exporting Associated Party. If the completion of the forms is done in handwriting, they shall be completed in ink in printed characters. The description of the products shall be given in the box reserved for that purpose without leaving any blank lines. Where the box is not completely filled in, a horizontal line shall be drawn below the last line of the description, the empty space being crossed through.
3. The exporter applying for the issue of a movement certificate EUR.1 shall be prepared to submit at any time, at the request of the customs authorities of the exporting Party where the movement certificate EUR.1 is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Appendix.

4. A movement certificate EUR.1 shall be issued by the customs authorities of the exporting Associated Party where the products concerned can be considered as products originating and fulfil the other requirements of this Appendix.
5. The customs authorities issuing movement certificates EUR.1 shall take any steps necessary to verify the originating status of the products and the fulfilment of the other requirements of this Appendix. For that purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. They shall also ensure that the forms referred to in paragraph 2 of this Article are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.
6. The date of issue of the movement certificate EUR.1 shall be indicated in Box 11 of the movement certificate EUR.1.
7. A movement certificate EUR.1 shall be issued by the customs authorities and made available to the exporter as soon as the exportation has been effected or ensured.

ARTICLE 19

Movement certificates EUR.1 issued retrospectively

1. Notwithstanding Article 18(7) of this Appendix, a movement certificate EUR.1 may be issued after the exportation of the products to which it relates if:
 - (a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances;
 - (b) it is demonstrated to the satisfaction of the customs authorities that a movement certificate EUR.1 was issued but was not accepted at importation for technical reasons;
 - (c) the final destination of the products concerned was not known at the time of exportation and was determined during their transportation or storage and after possible splitting of consignments in accordance with Article 13(3) of this Appendix.
2. For the purposes of paragraph 1 of this Article, the exporter shall indicate in his application the place and date of exportation of the products to which the movement certificate EUR.1 relates, and state the reasons for his request.

3. The customs authorities may issue a movement certificate EUR.1 retrospectively within two years from the date of exportation and only after verifying that the information supplied in the exporter's application is in conformity with the information in the corresponding file.
4. Movement certificates EUR.1 issued retrospectively shall be endorsed with the following phrase in English: 'ISSUED RETROSPECTIVELY'.
5. The endorsement referred to in paragraph 4 shall be inserted in Box 7 of the movement certificate EUR.1.

ARTICLE 20

Issue of a duplicate movement certificate EUR.1

1. In the event of theft, loss or destruction of a movement certificate EUR.1, the exporter may apply to the customs authorities which issued it for a duplicate made out on the basis of the export documents in their possession.
2. The duplicate issued in accordance with paragraph 1 of this Article shall be endorsed with the following word in English: 'DUPLICATE'.
3. The endorsement referred to in paragraph 2 shall be inserted in Box 7 of the duplicate movement certificate EUR.1.

4. The duplicate, which shall bear the date of issue of the original movement certificate EUR.1, shall have effect from that date.

ARTICLE 21

Validity of proof of origin

1. A proof of origin shall be valid for ten months from the date of issue or making out in the exporting Associated Party, and shall be submitted within that period to the customs authorities of the importing Associated Party.
2. Proofs of origin which are submitted to the customs authorities of the importing Associated Party after the period of validity referred to in paragraph 1 may be accepted for the purpose of applying the tariff preferences, where failure to submit those documents by the final date set is due to exceptional circumstances.
3. In other cases of belated presentation, the customs authorities of the importing Associated Party may accept the proofs of origin where the products have been presented to customs before the said final date.

ARTICLE 22

Free zones

1. The Associated Parties shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their territory are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.
2. By way of derogation from paragraph 1, when products originating in an Associated Party are imported into a free zone under cover of a proof of origin and undergo treatment or processing, a new proof of origin may be issued or made out, if the treatment or processing undergone complies with this Appendix.

ARTICLE 23

Importation requirements

Proofs of origin shall be submitted to the customs authorities of the importing Associated Party in accordance with the procedures applicable in that Party.

ARTICLE 24

Importation by instalments

Where, at the request of the importer and subject to the conditions laid down by the customs authorities of the importing Party, dismantled or non-assembled products within the meaning of General Rule 2(a) for the interpretation of the Harmonised System falling within Sections XVI and XVII or headings 7308 and 9406 are imported in instalments, a single proof of origin for such products shall be submitted to the customs authorities on the importation of the first instalment.

ARTICLE 25

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as fulfilling the requirements of this Appendix and where there is no doubt as to the veracity of such a declaration.
2. Imports shall not be considered as imports by way of trade where all the following conditions are met:
 - (a) the imports are occasional;

- (b) the imports consist solely of products for the personal use of the recipients or travellers or their families;
 - (c) it is evident from the nature and quantity of the products that no commercial purpose is intended.
3. The total value of those products shall not exceed EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of the personal luggage of travellers.

ARTICLE 26

Discrepancies and formal errors

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing products shall not ipso facto render the proof of origin null and void if it is established that that document corresponds to the products in respect of which it was submitted.
2. Obvious formal errors such as typing errors on a proof of origin shall not cause the documents referred to in paragraph 1 to be rejected where those errors are not such as to create doubts concerning the correctness of the statements made in those documents.

ARTICLE 27

Supplier's declarations

1. When a movement certificate EUR.1 is issued or an origin declaration is made out in an Associated Party for originating products, in the manufacture of which goods coming from the other Party which have undergone working or processing there without having obtained preferential originating status have been used in accordance with Article 7 of this Appendix account shall be taken of the supplier's declaration given for those goods in accordance with this Article.
2. The supplier's declaration referred to in paragraph 1 shall serve as evidence of the working or processing undergone in an Associated Party by the goods concerned for the purposes of determining whether the products in the manufacture of which those goods are used, may be considered as products originating in the exporting Associated Party and as fulfilling the other requirements of this Appendix.
3. A separate supplier's declaration shall, except in the cases referred to in paragraph 4, be made out by the supplier for each consignment of goods in the form contained in Annex VI on a sheet of paper annexed to the invoice, the delivery note or any other commercial document describing the goods concerned in sufficient detail to enable them to be identified.
4. Where a supplier regularly supplies a particular customer with goods for which the working or processing undergone in an Associated Party is expected to remain constant for a period of time, he may provide a single supplier's declaration to cover subsequent consignments of those goods (the "long-term supplier's declaration").

A long-term supplier's declaration may be valid for a period of up to two years from the date of making out the declaration. The customs authorities of the Associated Party where the declaration is made out shall lay down the conditions under which longer periods may be used.

The long-term supplier's declaration shall be made out by the supplier in the form contained in Annex VII and shall describe the goods concerned in sufficient detail for them to be identifiable. It shall be provided to the customer concerned before the customer is supplied with the first consignment of goods covered by that declaration or together with the first consignment. The supplier shall inform the customer immediately where the long-term supplier's declaration no longer applies to the goods supplied.

5. The supplier's declarations referred to in paragraphs 3 and 4 shall be typed or printed using one of the languages of this Agreement, in accordance with the law of the Associated Party where the declaration is made out, and shall bear the original signature of the supplier in manuscript. The declaration may also be in handwriting; in such case, it shall be written in ink in printed characters.
6. The supplier making out a declaration shall be prepared to submit at any time, at the request of the customs authorities of the Associated Party where the declaration is made out, all appropriate documents proving that the information given on that declaration is correct.

ARTICLE 28

Amounts expressed in euro

1. For the purposes of point (b) of Article 16(1) and Article 25(3) of this Appendix in cases where products are invoiced in a currency other than euro, amounts in the national currencies of the EU Member States that have not adopted the euro equivalent to the amounts expressed in euro shall be fixed annually by each EU Member State concerned.
2. A consignment shall benefit from the point (b) of Article 16(1) or Article 25(3) of this Appendix by reference to the currency in which the invoice is drawn up, according to the amount fixed by the EU Member State concerned.
3. The amounts to be used in a national currency shall be the equivalent in that currency to the amounts expressed in euro as at the first working day of October. The amounts shall be communicated to the European Commission by 15 October and shall apply from 1 January the following year. The European Commission shall notify the countries concerned of the relevant amounts.
4. The EU Member State concerned may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The amount rounded off shall not differ from the amount resulting from the conversion by more than 5 %. An EU Member State may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding off, results in an increase of less than 15 % in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion were to result in a decrease in that equivalent value.

5. The amounts expressed in euro shall be reviewed by the Joint Committee at the request of an Associated Party. In that review the Joint Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For that purpose, it may decide to modify the amounts expressed in euro.

PART V

PRINCIPLES OF COOPERATION AND DOCUMENTARY EVIDENCE

ARTICLE 29

Documentary evidence, preservation of proofs of origin and supporting documents

1. An exporter who has made out an origin declaration or has applied for a movement certificate EUR.1 shall keep a hard copy or an electronic version of those proofs of origin and all documents supporting the originating status of the product, for at least three years from the date of issuance or making out of the origin declaration.
2. The supplier making out a supplier's declaration shall keep copies of the declaration and of all the invoices, delivery notes or other commercial documents to which that declaration is annexed as well as the documents referred to in Article 27(6) of this Appendix for at least three years.

The supplier making out a long-term supplier's declaration shall keep copies of the declaration and of all the invoices, delivery notes or other commercial documents concerning goods covered by that declaration sent to the customer concerned, as well as the documents referred to in Article 27(6) of this Appendix for at least three years from the date of expiry of the validity of the long-term supplier's declaration.

3. For the purposes of paragraph 1, the documents supporting the originating status, *inter alia*, are the following:
 - (a) direct evidence of the processes carried out by the exporter or supplier to obtain the product, contained, for example, in his accounts or internal bookkeeping;
 - (b) documents proving the originating status of materials used, issued or made out in the relevant Associated Party in accordance with its national legislation;
 - (c) documents proving the working or processing of materials in the relevant Associated Party, made out or issued in that Associated Party in accordance with its national legislation;
 - (d) origin declarations or movement certificates EUR.1 proving the originating status of materials used, made out or issued in the Associated Parties in accordance with this Appendix;
 - (e) appropriate evidence concerning working or processing undergone outside the Associated Parties pursuant to Articles 12 and 13 of this Appendix, proving the fulfilment of the requirements of those Articles.

4. The customs authorities of the exporting Associated Party issuing movement certificates EUR.1 shall keep the application form referred to in Article 18(2) of this Appendix for at least three years.

5. The customs authorities of the importing Associated Party shall keep the origin declarations and the movement certificates EUR.1 submitted to them for at least three years.
6. Supplier's declarations proving the working or processing undergone in an Associated Party by materials used, made out in that Associated Party, shall be treated as a document referred to in Articles 16(3), 18(4) and 27(6) of this Appendix used for the purpose of proving that products covered by a movement certificate EUR.1 or an origin declaration may be considered as products originating in that Associated Party and fulfil the other requirements of this Appendix.

ARTICLE 30

Dispute settlement

Without prejudice to Article 90 of the Framework Agreement, where disputes arise in relation to the verification procedures under Articles 32 and 33, or in relation to the interpretation of this Appendix, which cannot be settled between the customs authorities requesting a verification and the customs authorities responsible for carrying out the verification, they shall be submitted to the Joint Committee. The settlement of disputes between an importer and the customs authorities of the importing Associated Party shall take place in accordance with the legislation of that Party.

PART VI

ADMINISTRATIVE COOPERATION

ARTICLE 31

Notification and cooperation

1. The customs authorities of the Associated Parties shall provide each other with specimen impressions of stamps used in their customs offices for the issue of movement certificates EUR.1, with the models of the authorisation numbers granted to approved exporters and with the addresses of the customs authorities responsible for verifying those certificates and origin declarations.
2. In order to ensure the proper application of this Appendix, the customs authorities of the Associated Parties shall assist each other in checking the authenticity of the movement certificates EUR.1, origin declarations, supplier's declarations as well as the correctness of the information provided in those documents.

ARTICLE 32

Verification of proofs of origin

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the importing Associated Party have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of other requirements of this Appendix.

2. When they make a request for subsequent verification, the customs authorities of the importing Associated Party shall return the movement certificate EUR.1, the invoice, where it has been submitted, the origin declaration, or a copy of those documents, to the customs authorities of the exporting Associated Party giving, where appropriate, the reasons for the request for verification. Any documents and information obtained suggesting that the information provided in the proof of origin is incorrect shall be forwarded in support of the request for verification.
3. The verification shall be carried out by the customs authorities of the exporting Associated Party. For that purpose, they shall have the right to request any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.
4. Where the customs authorities of the importing Associated Party decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.
5. The customs authorities requesting the verification shall be informed of the results thereof as soon as possible. Those results shall indicate clearly whether the documents are authentic and whether the products concerned may be considered as products originating in one of the Associated Parties and fulfil the other requirements of this Appendix.
6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

ARTICLE 33

Verification of supplier's declarations

1. Subsequent verifications of supplier's declarations or long-term supplier's declarations may be carried out at random or whenever the customs authorities of an Associated Party where such declarations have been taken into account to issue a movement certificate EUR.1 or to make out an origin declaration, have reasonable doubts as to the authenticity of the document or the correctness of the information provided in that document.
2. For the purposes of paragraph 1, the customs authorities of the Associated Party shall return the supplier's declaration or the long-term supplier's declaration and invoice(s), delivery note(s) or other commercial document(s) concerning goods covered by such declaration, to the customs authorities of the Associated Party where the declaration was made out, stating, where appropriate, the reasons of substance or form for the request for verification.

They shall forward, in support of the request for subsequent verification, any documents and information that have been obtained which suggest that the information provided in the supplier's declaration or the long-term supplier's declaration is incorrect.

3. The verification shall be carried out by the customs authorities of the Associated Party where the supplier's declaration or the long-term supplier's declaration was made out. For that purpose, they shall have the right to call for any evidence and carry out any inspection of the supplier's accounts or any other check which they consider appropriate.

4. The customs authorities requesting the verification shall be informed of the results thereof as soon as possible. Those results shall indicate clearly whether the information given in the supplier's declaration or the long-term supplier's declaration is correct and make it possible for them to determine whether and to what extent such declaration could be taken into account for issuing a movement certificate EUR.1 or for making out an origin declaration.

ARTICLE 34

Penalties

Each Associated Party shall provide for the imposition of criminal, civil or administrative penalties for violations of its national legislation related to this Appendix.

PART VII

APPLICATION OF APPENDIX

ARTICLE 35

Republic of San Marino

Without prejudice to Article 2 of this Appendix, a product originating in the Republic of San Marino shall, due to the customs union between the EU and the Republic of San Marino, be considered as originating in the EU.

ARTICLE 36

Ceuta and Melilla

1. For the purposes of this Appendix, the term “EU” shall not cover Ceuta and Melilla.
2. Products originating in Andorra, when imported into Ceuta or Melilla, shall enjoy in all respects the same customs regime as that which is applied to products originating in the customs territory of the EU under Protocol 2 of the Act concerning the conditions of accession of the Kingdom of Spain and the Portuguese Republic and the adjustments to the Treaties¹. Andorra shall grant to imports of products covered by this Agreement and originating in Ceuta and Melilla the same customs regime as that which is granted to products imported from and originating in the EU.

¹ OJ EU L 302, 15.11.1985, p. 23.

3. For the purposes of paragraph 2 of this Article concerning products originating in Ceuta and Melilla, this Appendix shall apply *mutatis mutandis* subject to the special conditions set out in Annex V.

INTRODUCTORY NOTES TO THE LIST IN ANNEX II

Note 1 – General introduction

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 4 of Part II of this Appendix. There are four different types of rules, which vary depending on the product:

- (a) through working or processing a maximum content of non-originating materials is not exceeded;
- (b) through working or processing the 4-digit Harmonised System heading or 6-digit Harmonised System subheading of the manufactured products becomes different from the 4-digit Harmonised System heading or 6-digit subheading respectively of the materials used;
- (c) a specific working or processing operation is carried out;
- (d) working or processing is carried out on certain wholly obtained materials.

Note 2 – The structure of the list

- 2.1. The first two columns in the list describe the product obtained. The column (1) gives the heading number or chapter number used in the Harmonised System and the column (2) gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns, a rule is specified in column (3). Where, in some cases, the entry in the column (1) is preceded by an "ex", this signifies that the rules in column (3) apply only to the part of that heading as described in column (2).
- 2.2. Where several heading numbers are grouped together in column (1) or a chapter number is given and the description of products in column (2) is therefore given in general terms, the adjacent rules in column (3) apply to all products which, under the Harmonised System, are classified in headings of the chapter or in any of the headings grouped together in column (1).
- 2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column (3).
- 2.4. Where two alternative rules are set out in column (3), separated by "or", it is at the choice of the exporter which one to use.

Note 3 – Examples of how to apply the rules

- 3.1. Article 4 of Part II of this Appendix, concerning products having obtained originating status which are used in the manufacture of other products, shall apply, regardless of whether that status has been obtained inside the factory where those products are used or in another factory in a Party.

- 3.2. Pursuant to Article 6 of Part II of this Appendix, the working or processing carried out shall go beyond the list of operations mentioned in that Article. If it does not, the goods shall not qualify for the granting of the benefit of preferential tariff treatment, even if the conditions set out in the list below are met.

Without prejudice to Article 6 of Part II of this Appendix, the rules in the list represent the minimum amount of working or processing required, and the carrying out of more working or processing also confers originating status; conversely, the carrying out of less working or processing cannot confer originating status.

Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.

If a rule provides that non-originating material, at a certain level of manufacture, may not be used, the use of materials at an earlier stage of manufacture is allowed, and the use of materials at a later stage is not.

3.3. Without prejudice to Note 3.2, where a rule uses the expression "Manufacture from materials of any heading", then materials of any heading(s) (even materials of the same description and heading as the product) may be used, subject, however, to any specific limitations which may also be contained in the rule.

However, the expression "Manufacture from materials of any heading, including other materials of heading ..." or "Manufacture from materials of any heading, including other materials of the same heading as the product" means that materials of any heading(s) may be used, except those of the same description as the product as given in column (2) of the list.

3.4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that one or more materials may be used. It does not require that all be used.

3.5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition does not prevent the use of other materials which, because of their inherent nature, cannot satisfy this.

3.6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then those percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentages given. The individual percentages shall not be exceeded in relation to the particular materials to which they apply.

Note 4 – General provisions concerning certain agricultural goods

- 4.1 Agricultural goods falling within heading 2401 which are grown or harvested in the territory of an Associated Party shall be treated as originating in the territory of that Party, even if grown from imported seeds, bulbs, rootstock, cuttings, grafts, shoots, buds, or other live parts of plants.

2. Assistance in customs matters, as provided for in this Appendix, applies to any administrative authority of either Associated Party which is competent for the application of this Appendix. 3. Assistance to recover duties, taxes or fines is not covered by this Appendix.

ARTICLE 3

Assistance on request

1. At the request of an applicant authority, the requested authority shall provide it with all relevant information which may enable it to ensure that customs legislation is applied correctly, including information regarding activities noted or planned which are or could be operations in breach of customs legislation.
2. At the request of an applicant authority, the requested authority shall inform it whether:

The information shall focus in particular on:

- (a) persons, goods and means of transport; and
- (b) new means or methods employed in carrying out operations in breach of customs legislation.

4. If a request does not meet the formal requirements set out in paragraphs 1 to 3, the requested authority may require the correction or the completion of the request; in the meantime precautionary measures may be ordered.

ARTICLE 6

Execution of requests

1. In order to comply with a request for assistance, the requested authority shall proceed, within the limits of its competence and available resources, as though it were acting on its own account or at the request of another authority of that same Associated Party, by supplying information already possessed and by carrying out appropriate enquiries or by arranging for them to be carried out. This provision shall also apply to any other authority to which the request has been addressed by the requested authority when the latter cannot act on its own.
2. Any request for assistance shall be executed in accordance with the legal or regulatory provisions of the requested Associated Party.

ARTICLE 7

Form in which information is to be communicated

1. The requested authority shall communicate results of enquiries to the applicant authority in writing together with relevant documents, certified true copies or other items. This information may be provided in electronic format.
2. Original documents shall be transmitted according to each Associated Party's legal constraints only upon request of the applicant authority in cases where certified true copies would be insufficient. The applicant authority shall return those originals at the earliest opportunity.
3. The requested authority shall, subject to paragraph 2, deliver to the applicant authority any information related to the authenticity of the documents issued or certified by official agencies within its territory in support of a goods declaration.

ARTICLE 8

1. Duly authorised officials of an Associated Party may, with the agreement of the other Associated Party and subject to the conditions laid down by the latter, be present in the offices of the requested authority or any other authority concerned as referred to in Article 6(1) in order to obtain information relating to activities that are or could be operations in breach of customs legislation, that the applicant authority needs for the purposes of this Appendix.

2. Duly authorised officials of an Associated Party may, with the agreement of the other Associated Party and subject to the conditions laid down by the latter, participate at enquiries carried out in the latter's territory.
3. The officials of an Associated Party shall be present in the territory of the other Associated Party only in an advisory capacity and, to that end, such authorised officials shall:
 - (a) at all times be able to furnish proof of their official capacity;
 - (b) not wear uniform nor carry arms; and
 - (c) enjoy the same protection as that afforded to officials of the other Associated Party, in accordance with the legal and administrative provisions in force in its territory.

ARTICLE 9

Delivery and notification

1. Upon request of the applicant authority, the requested authority shall, in accordance with legal or regulatory provisions applicable to that authority, take all necessary measures in order to deliver any documents or to notify any decisions originating from the applicant authority and falling within the scope of this Appendix, to an addressee residing or established in the territory of the requested authority.
2. Requests for delivery of documents or notification of decisions shall be made in writing in an official language of the requested authority or in a language accepted by that authority.

ARTICLE 11

Exceptions to the obligation to provide assistance

- (b) be likely to prejudice the public order, public security or other essential interests, in particular in the cases referred to in Article 12(5) of this Appendix; or
 - (c) violate an industrial, commercial or professional secret.
2. The requested authority may postpone the assistance on the grounds that such assistance might interfere with ongoing investigations, prosecutions or proceedings. In that case, the requested authority shall consult the applicant authority to determine whether the assistance can be granted under such terms or conditions as the requested authority may require.
 3. Where the applicant authority seeks assistance which it would itself be unable to provide if so requested, it shall draw attention to that fact in its request. It shall then be for the requested authority to decide how to respond to that request.
 4. In the cases referred to in paragraphs 1 and 2, the requested authority shall communicate its decision and the reasons therefor to the applicant authority without delay.

ARTICLE 12

Information exchange and confidentiality

1. Information obtained under this Appendix shall be used solely for the purposes set out in this Appendix.

2. The use of information obtained under this Appendix in administrative or judicial proceedings instituted in respect of operations in breach of customs legislation shall be considered to be for the purposes of this Appendix. Therefore, the Associated Parties may, in their records of evidence, reports and testimonies and in proceedings and charges brought before the courts, use as evidence information obtained and documents consulted in accordance with the provisions of this Appendix. The requested authority may subject the supply of information or the granting of access to documents to the condition that it is notified of such use.
3. Where one Associated Party wishes to use that information for other purposes, it shall obtain the prior written consent of the authority which provided that information. Such use shall be subject to any restrictions laid down by that authority.
4. Any information communicated in whatsoever form pursuant to this Appendix shall be considered to be of a confidential or restricted nature, in accordance with the applicable laws and regulations of each of the Associated Parties. That information shall be covered by the obligation of professional secrecy and shall enjoy the protection granted to similar information under the applicable laws and regulations of the receiving Associated Party. The Associated Parties shall communicate to each other their applicable laws and regulations for that purpose.
5. Personal data may be transferred only in accordance with the data protection rules of the Associated Party providing the data. An Associated Party shall inform the other Associated Party about its relevant data protection rules and, if needed, make best efforts to agree on additional protection.

The requested authority may authorise its officials to appear, within the limitations of the authorisation granted, as experts or witnesses in judicial or administrative proceedings regarding matters covered by this Appendix, and produce such objects, documents or certified true copies thereof as may be needed for the proceedings. The request for appearance must indicate specifically before which judicial or administrative authority the official will have to appear, on what matters and by virtue of what title or qualification the official will be questioned.

ARTICLE 14

Assistance expenses

1. Subject to paragraphs 2 and 3, the Associated Parties shall waive any claims on each other for reimbursements of expenses incurred in the application of this Appendix.
2. Expenses and allowances paid to experts, witnesses, interpreters and translators, other than public service employees, shall be borne as appropriate by the applicant Associated Party.
3. If expenses of an extraordinary nature are required to execute the request, the Associated Parties shall determine the terms and conditions under which the request is to be executed, as well as the manner in which such costs are to be borne.
