NOTE

From: Presidency
To: Delegations

No. Cion doc.: 9645/18 + COR 1 + ADD 1

Subject: Proposal for a REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL establishing rules on support for strategic plans to be drawn up by Member States under the Common agricultural policy (CAP Strategic Plans) and financed by the European Agricultural Guarantee Fund (EAGF) and by the European Agricultural Fund for Rural Development (EAFRD) and repealing Regulation (EU) No 1305/2013 of the European Parliament and of the Council and Regulation (EU) No 1307/2013 of the European Parliament and of the Council
- Presidency drafting suggestions (Annexes I, II, III, X, XII, [X])

Delegations will find in the Annex the consolidated Croatian Presidency drafting suggestions on Annexes I, II, III, X, XII and [X] of the abovementioned proposal.

Compared to the Commission proposal, the added text is marked in **bold and underlined** and ~~strikethrough~~ is used for deleted text.

The Presidency would like to bring to the attention of delegations the following remarks on

Annex I:

- The column “Annual performance clearance – OUTPUT” is not horizontally linked to the column “Assessment of the performance of the policy (multi-annual) - IMPACT” and “Performance review - RESULT”. Therefore, the list of output indicators is to be considered as independent from the lists of impact and result indicators.
- The columns “Assessment of the performance of the policy (multi-annual) - IMPACT” and “Performance review - RESULT” are horizontally linked. Therefore, it is to be stressed that there is a correspondence between impact and result indicators.
- The Croatian Presidency suggests that, when finalising Annex I, the column “Annual performance clearance – OUTPUT” is moved and placed under the column “Assessment of the performance of the policy (multi-annual) – IMPACT”, just before "CONTEXT INDICATORS" to avoid possible confusion regarding the horizontal linkages of specific columns. The Croatian Presidency has refrained from introducing this suggestion at this stage to avoid that the required formatting prevents from seeing clearly the previous changes made in this column.
- The Croatian Presidency highlights the necessity for further detailed discussions on the result and output indicators fiches, but also on the context and impact indicators fiches. This discussion should take place among experts for monitoring and evaluation (in the Commission *ad-hoc* expert group) before agreeing on the final titles of the indicators in Annexes I and XII.
- Questions related to methodological details such as data collecting, calculation formulas, types of interventions concerned, related monitoring indicators, the necessity and feasibility of potential sub-indicators, are to be elaborated in the indicators fiches. Having carefully considered the numerous technical questions received from delegations, the Croatian Presidency encourages the continuation of work on such aspects in the appropriate venue, for instance the Commission expert group as it was the case over the last months.
