- ³(1) The Visa Information System (VIS) was established by Council Decision 2004/512/EC⁴ to serve as the technology solution to exchange visa data between Member States. Regulation (EC) No 767/2008 of the European Parliament and of the Council⁵ laid down the VIS purpose, functionalities and responsibilities, as well as the conditions and procedures for the exchange of short-stay visa data between Member States to facilitate the examination of short-stay visa applications and related decisions. Regulation (EC) No 810/2009 of the European Parliament and of the Council⁶ set out the rules on the registration of biometric identifiers in the VIS. Access of law enforcement authorities of the Member States and of Europol to VIS has been established by Council Decision 2008/633/JHA⁷. The content of this Decision should be integrated into the VIS Regulation, to bring it in line with the current treaty framework.
- ⁸(2) Interoperability between EU information systems was established by Regulations (EU) 2019/817 and 2019/818 so that these EU information systems and their data supplement each other with a view to improving the management of the external borders, contributing to preventing and combating illegal immigration and ensuring a high level of security within the area of freedom, security and justice of the Union, including the maintenance of public security and public policy and safeguarding the security in the territories of the Member States.
- ⁹(3) The interoperability between the EU information systems allows systems to supplement each other to facilitate the correct identification of persons, contribute to fighting identity fraud, improve and harmonise data quality requirements of the respective EU information systems, facilitate the technical and operational implementation by Member States of existing and future EU information systems, strengthen and simplify the data security and data protection safeguards that govern the respective EU information systems, streamline the law enforcement access to the EES, the VIS, the ETIAS and Eurodac, and support the purposes of the EES, the VIS, the ETIAS, Eurodac, the SIS and the ECRIS-TCN.

³ Recital 1 of Commission proposal.

⁴ Council Decision 2004/512/EC of 8 June 2004 establishing the Visa information System (VIS) (OJ L 213, 15.6.2004, p. 5).

⁵ Regulation (EC) No 767/2008 of the European Parliament and of the Council of 9 July 2008 concerning the Visa Information System (VIS) and the exchange of data between Member States on short-stay visas (VIS Regulation) (OJ L 218, 13.8.2008, p. 60).

⁶ Regulation (EC) No 810/2009 of the European Parliament and of the Council of 13 July 2009 establishing a Community Code on Visas (Visa Code) (OJ L 243, 15.9.2009, p. 1).

⁷ Council Decision 2008/633/JHA of 23 June 2008 concerning access for consultation of the Visa Information System (VIS) by designated authorities of Member States and by Europol for the purposes of the prevention, detection and investigation of terrorist offences and of other serious criminal offences (OJ L 218, 13.8.2008, p. 129).

⁸ Recital 12 of Commission proposal.

⁹ Recital 13 of Commission proposal.

- ¹⁰(4) The interoperability components cover the EES, the VIS, the ETIAS, Eurodac, the SIS, and the ECRIS-TCN, and Europol data to enable it to be queried simultaneously with these EU information systems and therefore it is appropriate to use these components for the purpose of carrying out the automated checks and when accessing the VIS for law enforcement purposes. The European search portal (ESP) should be used for this purpose to enable a fast, seamless, efficient, systematic and controlled access to the EU information systems, the Europol data and the Interpol databases needed to perform their tasks, in accordance with their access rights, and to support the objectives of the VIS.
- ¹¹(5) The comparison against other databases should be automated. Whenever such comparison reveals that a correspondence (a 'hit') exists with any of the personal data or combination thereof in the applications and a record, file or alert in the above information systems, or with personal data in the ETIAS watchlist, the application should be processed manually by an operator in the responsible authority. The assessment performed by the responsible authority should lead to the decision to issue or not the short-stay visa, long-stay visa or residence permit.
- ¹²(6) This Regulation lays down how this interoperability and the conditions for the consultation of data stored in Eurodac, SIS and ECRIS-TCN and of Europol data by the VIS automated process for the purposes of identifying hits are to be implemented. As a result, it is necessary to amend Regulations (EU) 603/2013, 2016/794, 2018/1862, 2019/816 and 2019/818 in order to connect the VIS Central System to the other EU information systems and to Europol data.
- ¹³(7) The conditions under which, on the one hand, the visa authorities may consult data stored in Eurodac and, on the other hand, the VIS designated authorities may consult Europol data, certain SIS data and data stored in ECRIS-TCN for the purposes of the VIS should be safeguarded by clear and precise rules regarding the access by those authorities to those data, the type of queries and categories of data, all of which should be limited to what is strictly necessary for the performance of their duties. In the same vein, the data stored in the VIS application file should only be visible to those Member States that are operating the underlying information systems in accordance with the modalities of their participation.
- ¹⁴(8) Regulation (EU) XXXX/XXX [amending the VIS Regulation] allocates new tasks to the European Union Agency for Law Enforcement Cooperation (Europol) such as the provision of opinions following consultation requests by the VIS designated authorities and the ETIAS National Units. To implement those tasks, it is therefore necessary to amend Regulation (EU) 2016/794 of the European Parliament and of the Council¹⁵ accordingly.

¹⁰ Recital 14 of Commission proposal.

¹¹ Recital 15 of Commission proposal.

¹² Recital 4 of Commission proposal 2019/0001 on the ETIAS consequential amendments.

¹³ Recital 11 of Commission proposal 2019/0001 on the ETIAS consequential amendments.

¹⁴ Recital very similar to recital 1 of Regulation (EU) 2018/1241.

¹⁵ Regulation (EU) 2016/794 of the European Parliament and of the Council of 11 May 2016 on the European Union Agency for Law Enforcement Cooperation (Europol) and replacing and repealing Council Decisions 2009/371/JHA, 2009/934/JHA, 2009/935/JHA, 2009/936/JHA and 2009/968/JHA (OJ L 135, 24.5.2016, p. 53).

- (9) In order to support the VIS objective of assessing whether the applicant for a visa, a long-stay visa or a residence permit would pose a threat to public policy or public security, VIS should be able to verify if correspondences exist between data in the VIS application files and the ECRIS-TCN data in the Common Identity Repository (CIR) as regards which Member States hold conviction information on third-country nationals and stateless persons for a terrorist offence or any other criminal offence listed in the annex to Regulation (EU) 2018/1240 if they are punishable under national law by a custodial sentence or a detention order for a maximum period of at least three years.
- (9a) A hit indicated by the ECRIS-TCN system should not of itself be taken to mean that the third-country national concerned has been convicted in the Member States that are indicated. The existence of previous convictions should only be confirmed based on information received from the criminal records of the Member States concerned.
- (10) This Regulation is without prejudice to Directive 2004/38/EC¹⁶.
- (11) In accordance with Articles 1 and 2 of Protocol No 22 on the position of Denmark, annexed to the TEU and to the TFEU, Denmark is not taking part in the adoption of this Regulation and is not bound by it or subject to its application. Given that this Regulation, insofar as its provisions relate to SIS as governed by Regulation (EU) 2018/1862, builds upon the Schengen *acquis*, Denmark shall, in accordance with Article 4 of that Protocol, decide within a period of six months after the Council has decided on this Regulation whether it will implement it in its national law.
- (12) Insofar as its provisions relate to SIS as governed by Regulation (EU) 2018/1862, Ireland could, in principle, take part in this Regulation, in accordance with Article 5(1) of Protocol No 19 on the Schengen *acquis* integrated into the framework of the European Union, annexed to the TEU and to the TFEU, and Article 6(2) of Council Decision 2002/192/EC¹⁷. Insofar as its provisions relate to Europol as governed by Regulation (EU) 2016/794, Ireland could, in principle, take part in the adoption and application of this Regulation, in accordance with Article 3 of Protocol No 21 on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the TEU and the TFEU, and without prejudice to Article 4 of that Protocol. Furthermore, insofar as its provisions relate to Eurodac and to ECRIS-TCN, in accordance with Articles 1 and 2 of Protocol No 21 on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the TEU and the TFEU, and without prejudice to Article 4 of that Protocol, Ireland is not taking part in the adoption of this Regulation and is not bound by it or subject to its application. Since it is not possible, under these circumstances, to ensure that this Regulation is applicable in its entirety to Ireland, as required by Article 288 of the TFEU, Ireland is not taking part in the adoption of this Regulation and is not bound by it or subject to its application, without prejudice to its rights under Protocols No 19 and No 21.

¹⁶ OJ L 158, 30.4.2004, p. 77.

¹⁷ Council Decision 2002/192/EC of 28 February 2002 concerning Ireland's request to take part in some of the provisions of the Schengen *acquis* (OJ L 64, 7.3.2002, p. 20).

- (13) As regards Iceland and Norway, this Regulation constitutes, insofar as it relates to SIS as governed by Regulation (EU) 2018/1862, a development of the provisions of the Schengen *acquis* within the meaning of the Agreement concluded by the Council of the European Union and the Republic of Iceland and the Kingdom of Norway concerning the latter's association with the implementation, application and development of the Schengen *acquis*¹⁸ which fall within the area referred to in Article 1, point G of Council Decision 1999/437/EC¹⁹.
- (14) As regards Switzerland, this Regulation constitutes insofar as it relates to SIS as governed by Regulation (EU) 2018/1862, a development of the provisions of the Schengen *acquis* within the meaning of the Agreement between the European Union, the European Community and the Swiss Confederation on the Swiss Confederation's association with the implementation, application and development of the Schengen *acquis*²⁰ which fall within the area referred to in Article 1, point G of Decision 1999/437/EC read in conjunction with Article 3 of Council Decision 2008/149/JHA²¹.
- (15) As regards Liechtenstein, this Regulation constitutes insofar as it relates to SIS as governed by Regulation (EU) 2018/1862, a development of the provisions of the Schengen *acquis* within the meaning of the Protocol between the European Union, the European Community, the Swiss Confederation and the Principality of Liechtenstein on the accession of the Principality of Liechtenstein to the Agreement between the European Union, the European Community and the Swiss Confederation on the Swiss Confederation's association with the implementation, application and development of the Schengen *acquis*²² which fall within the area referred to in Article 1, point G of Decision 1999/437/EC read in conjunction with Article 3 of Council Decision 2011/350/EU²³.
- (16) In order to have this Regulation fit into the existing legal framework, Regulations (EU) 603/2013, 2016/794, 2019/816 and 2019/818 of the European Parliament and of the Council should be amended accordingly,

²⁴ This formulation can stay if we refer to the current Eurodac Regulation (EU) 603/2013. This turn of phrase will need to be changed if we refer to the new Eurodac since it will enter into operations after the new VIS.

- (2) a new article is inserted:

"Article 28a

Keeping of records or logs for the purpose of VIS

For the consultation of Eurodac referred to in Article 22a of this Regulation, a record or log of each data processing operation carried out within Eurodac and VIS shall be kept in accordance with Article 28 of this Regulation and Article 34 of Regulation (EC) No 767/2008."
