3.2.2. *Technical assistance*

For the programming period 2014-2020, the amount for payment appropriations available for the operational technical assistance was EUR 18.5 million. The original amount of EUR 16.7 million in the Budget 2019 has been reinforced by EUR 1.8 million transferred from the rural development programmes under EAFRD 2014-2020 line. The final implementation amounted to EUR 17.0 million.

Table 10 hereafter presents the payments grouped by main activities. The most important part relates to the European Network for Rural Development.

3.3. **Analysis of expenditure declared by measure**

Table 11 shows the payment claims declared by Member State and by measure for rural development in 2019 (4th quarter of 2018 to 3rd quarter of 2019), the cumulative declared expenditure from the beginning of the programming period and also the financial plan of EAFRD 2014-2020 programmes.

The expenditure for EAFRD 2014-2020 in 2019 concentrated mainly in Measure 04 (Investments in physical assets), in Measure 13 (Payments to areas facing natural or other specific constraints) and in Measure 10 (Agri-environment-climate).

3.4. Implementation of EAFRD programmes

3.4.1. Programming period 2007-2013

Graph 2 presents the final absorption rate of rural development programmes 2007-2013 per Member State. The EU average reached 97%.

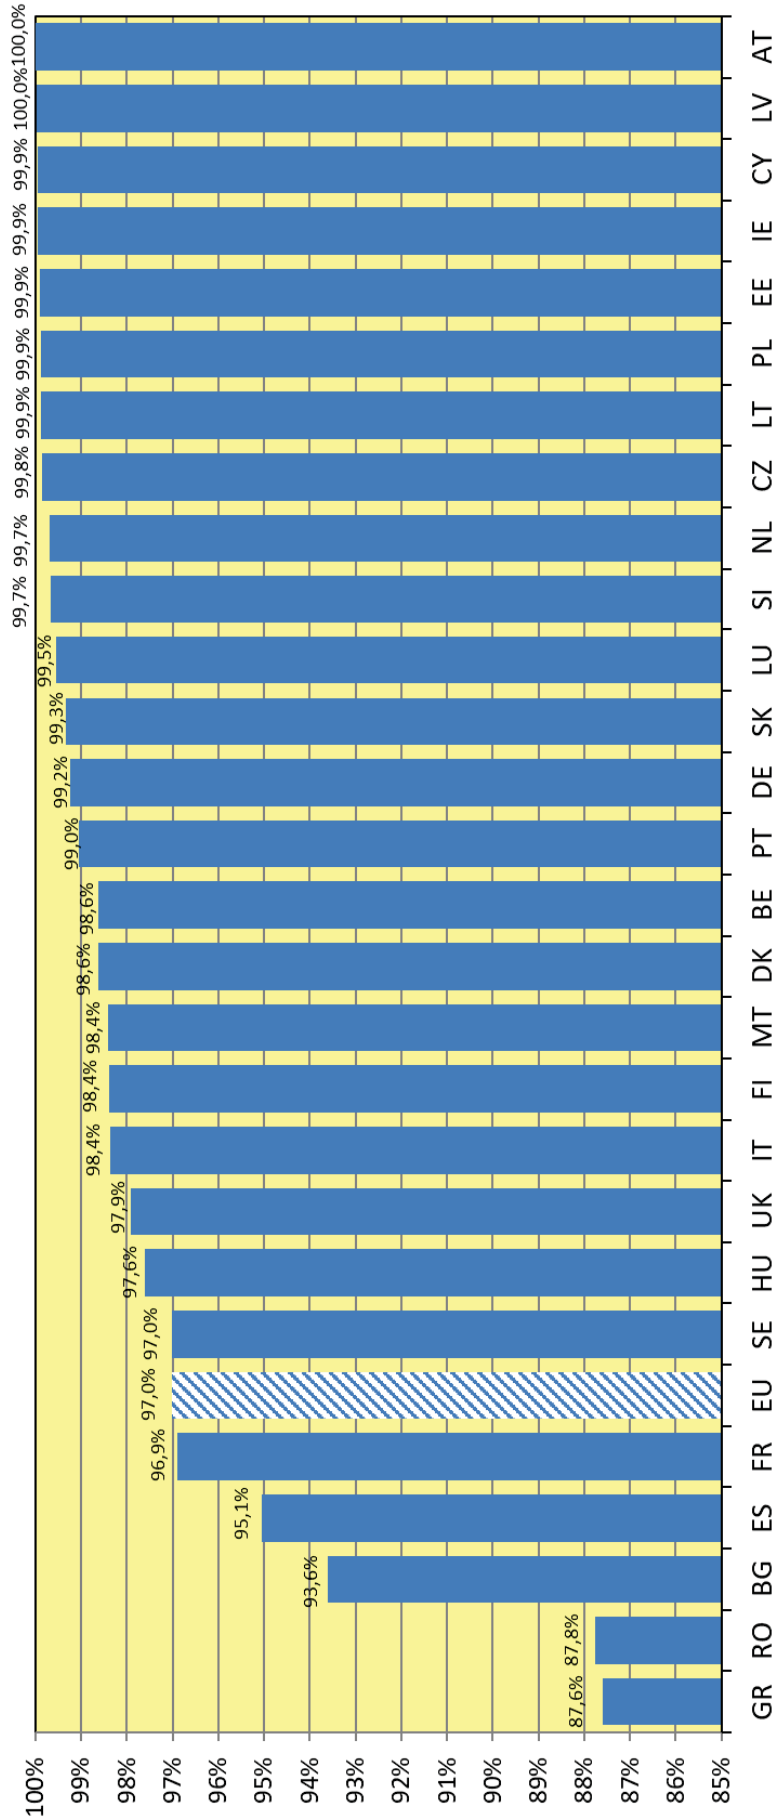

3.4.2. Programming period 2014-2020

Graph 3 presents the absorption rate of rural development programmes 2014-2020 per Member State: payments from the beginning of the programming period including payments made for the 4th quarter of 2019 that are reimbursed in financial year 2020 compared to the total 2014-2020 allocation.

In 2019 the level of consumption for the first time resulted in the decommitment of EUR 16.5 million.

Overall, the implementation of the EAFRD 2014-2020 rural development programmes reached by end 2019 on average an absorption rate of 56%. Programmes are generally well on track in terms of implementation, with the variation in the averages per Member State illustrated in graph 3 below.
