ANNEX

**ANNEX**

**to the**

**COMMISSION REGULATION (EU) .../..**

**refusing to authorise certain health claims made on foods, other than those referring to  
the reduction of disease risk and to children's development and health**

**ANNEX**

**Rejected health claims**

Application – Relevant provisions of Regulation (EC) No 1924/2006	Nutrient, substance, food or food category	Claim	EFSA opinion reference
Article 13(5) health claim based on newly developed scientific evidence and/or including a request for the protection of proprietary data	L-carnitine	L-carnitine contributes to normal lipid metabolism.	2018;16(1):5137
Article 13(5) health claim based on newly developed scientific evidence and/or including a request for the protection of proprietary data	Black tea	Improves endothelium-dependent vasodilation, which contributes to healthy blood flow.	2018;16(1):5138
Article 13(5) health claim based on newly developed scientific evidence and/or including a request for the protection of proprietary data	NWT-02, a fixed combination of lutein, zeaxanthin and docosahexaenoic acid in egg yolk.	Consumption of NWT- 02 reduces loss of vision.	2018;16(1):5139
Article 13(5) health claim based on newly developed scientific evidence and/or including a request for the protection of proprietary data	Xanthohumol in XERME®, a xanthohumol-enriched malt roasted extract.	Helps to maintain the integrity of DNA and protects against oxidative damage in the cells of the body.	2018;16(3):5192
Article 13(5) health claim based on newly developed scientific evidence and/or including a request for the protection of proprietary data	A combination of beta- sitosterol and beta- sitosterol glucoside	Contributes to the normal function of the immune system by restoring balance between TH1- and TH2-mediated immunity.	2019;17(7):5776
