No. prev. doc.: 8761/20
No. Cion doc.: 9556/18 + REV 1 (en, de, fr) + COR 1

Subject: Proposal for a REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL amending Regulations (EU) No 1308/2013 establishing a common organisation of the markets in agricultural products, (EU) No 1151/2012 on quality schemes for agricultural products and foodstuffs, (EU) No 251/2014 on the definition, description, presentation, labelling and the protection of geographical indications of aromatised wine products, (EU) No 228/2013 laying down specific measures for agriculture in the outermost regions of the Union and (EU) No 229/2013 laying down specific measures for agriculture in favour of the smaller Aegean islands
- Presidency suggested amendments

1. Based on the progress made by the preceding presidencies, the German Presidency considers the Amending Regulation to be largely stable.

2. At the "Agriculture and Fisheries" Council on 19 November 2018, during the Austrian presidency, Ministers held a policy debate on the Commission's proposal, focusing in particular on the effectiveness of the current **market support measures**. On the basis of the interventions from Ministers, it could be concluded that many Member States had no major appetite for a review of the CMO and were of the opinion that the Commission had managed to use currently available instruments in a flexible and timely manner in the recent years.
3. During the Romanian presidency, the discussions focused on **wine** provisions. There was broad agreement on a compromise package consisting of:
 - maintaining the existing prohibition on six specific hybrid varieties and on the species *Vitis labrusca* but allowing the use of hybrids in PDO wines;
 - clarifying the rules on checks on wine labelling to ensure a proportionate approach; and
 - making the use of terms "de-alcoholised" and "partially de-alcoholised" mandatory on the labelling of such wine products.
4. Most delegations agreed at the "Agriculture and Fisheries" Council meeting in October 2019 with the assessment of the Finnish Presidency that the text of the Amending Regulation was largely stable.
5. In the light of the discussions on **wine labelling**, the Finnish Presidency made some modifications, in particular clarifying:
 - in the labelling rules in Article 119 that the option to make the list of ingredients available by electronic means did not apply to allergens; and
 - that consumers consulting such lists should not have their data collected or tracked and should not be targeted with marketing material.
6. During the Croatian Presidency, some largely technical issues were covered.

7. The Annex to this document contains the Presidency's suggested amendments to the above-mentioned Amending Regulation.
 8. The Presidency has merely made changes to ensure coherence with the **Transitional Regulation**. This consisted of the deletion of duplicate provisions (the amendment to Article 68 of, and the addition of a new Article 167a to, Regulation (EU) 1308/2013) and the changing of the date mentioned in recitals 37 and 38, in the amendment to Article 214a of Regulation (EU) 1308/2013 and in Articles 6 and 7 of the Amending Regulation from 2021 to 2022, to reflect the agreed two-year transitional period.
 9. The Presidency's suggested changes are highlighted with grey shading. Text added to the Commission proposal is marked in ***bold italics***, while deleted text is in **~~bold strikethrough~~**. The sign "[...]" indicates a deletion compared to a previous presidency text.

Proposal for a Draft

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

amending Regulations (EU) No 1308/2013 establishing a common organisation of the markets in agricultural products, (EU) No 1151/2012 on quality schemes for agricultural products and foodstuffs, and (EU) No 251/2014 on the definition, description, presentation, labelling and the protection of geographical indications of aromatised wine products, ~~(EU) No 228/2013 laying down specific measures for agriculture in the outermost regions of the Union and (EU) No 229/2013 laying down specific measures for agriculture in favour of the smaller Aegean islands~~

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 43(2), Article 114, *and* the first paragraph of Article 118 ~~and Article 349~~ thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee¹,

Having regard to the opinion of the Committee of the Regions²,

Having regard to the opinion of the Court of Auditors,

¹ OJ C 62, 15.2.2019, p. 214.

² OJ C 86, 7.3.2019, p. 173.

Acting in accordance with the ordinary legislative procedure,

Whereas:

- (1) The Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions entitled ‘The Future of Food and Farming’ of 29 November 2017 sets out the challenges, objectives and orientations for the future Common Agricultural Policy (CAP) after 2020. These objectives include, *inter alia*, the need for the CAP to be more result-driven, to boost modernisation and sustainability, including the economic, social, environmental and climate sustainability of the agricultural, forestry and rural areas, and to help reducing the Union legislation-related administrative burden for beneficiaries.
- (2) Since the CAP needs to sharpen its responses to the challenges and opportunities as they manifest themselves at Union, international, national, regional, local and farm levels, it is necessary to streamline the governance of the CAP and improve its delivery on the Union objectives and to significantly decrease the administrative burden. In the CAP based on delivery of performance (‘delivery model’), the Union should set the basic policy parameters, such as objectives of the CAP and basic requirements, while Member States should bear greater responsibility as to how they meet the objectives and achieve targets. Enhanced subsidiarity makes it possible to better take into account local conditions and needs, tailoring the support to maximise the contribution to Union objectives.
- (3) To ensure coherence of the CAP, all interventions of the future CAP should be part of a strategic support plan which would include certain sectoral interventions that were laid down in Regulation (EU) No 1308/2013 of the European Parliament and of the Council³.

³ Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007 (OJ L 347, 20.12.2013, p. 671).

- (4) Annex II to Regulation (EU) No 1308/2013 sets out certain definitions concerning sectors falling within the scope of that Regulation. Definitions concerning the sugar sector set out in Section B of Part II of that Annex should be deleted because they are no longer applicable. In order to update definitions concerning other sectors referred to in that Annex, in light of new scientific knowledge or market developments, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of the amendment of those definitions. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and to the Council. Consequently, the individual empowerment delegated to the Commission in point 4 of section A of Part II of that Annex to amend the definition of inulin syrup should be deleted.
- (5) Part I of Regulation (EU) No 1308/2013 should be simplified. Redundant and obsolete definitions and provisions empowering the Commission to adopt implementing acts should be deleted.
- (6) The limits of Union aid for the supply of fruit and vegetables and of milk and milk products in educational establishments, set out in Article 23a of Regulation (EU) No 1308/2013 should be updated.
- (7) Provisions concerning Aid schemes set out in Sections 2 to 6 of Chapter II of Title I of Part II of Regulation (EU) No 1308/2013 should be deleted as all types of interventions in these sectors will be set out in Regulation (EU).../... of the European Parliament and of the Council⁴ (*CAP Strategic Plan Regulation*).

⁴ Regulation (EU).../... of the European Parliament and of the Council of establishing rules on support for strategic plans to be drawn up by Member States under the Common agricultural policy (CAP Strategic Plans) and financed by the European Agricultural Guarantee Fund (EAGF) and by the European Agricultural Fund for Rural Development (EAFRD) and repealing Regulation (EU) No 1305/2013 of the European Parliament and of the Council and Regulation (EU) No 1307/2013 of the European Parliament and of the Council (OJ L ...,, p...).

- (8) In view of the decrease in the actual area planted with vines in several Member States in the years 2014-2017, and in view of the potential loss in production ensuing, when establishing the area for new planting authorisations referred to in Article 63(1) of Regulation (EU) No 1308/2013, Member States should be able to choose between the existing basis and a percentage of the total area actually planted with vines in their territory on 31 July 2015 increased by an area corresponding to the planting rights under Regulation (EC) No 1234/2007 available for conversion into authorisations in the Member State concerned on 1 January 2016.
- ~~(9) Rules for classifying wine grape varieties by Member States should be modified to include the wine grape varieties *Noah*, *Othello*, *Isabelle*, *Jacquez*, *Clinton* and *Herbemont*, previously excluded. To ensure that wine production in the Union develops a higher resistance to diseases and that it uses vine varieties better adapted to changing climatic conditions, provision should be made allowing *Vitis Labrusca* varieties and varieties stemming from crosses between *Vitis vinifera*, *Vitis Labrusca* and other species of the genus *Vitis* to be planted for wine production in the Union.~~
- (10) To enable producers to use vine varieties that are better adapted to changing climatic conditions and with higher resistance to diseases, provision should be made permitting products using designations of origin not only from vine varieties belonging to *Vitis vinifera* but also from vine varieties stemming from a cross between *Vitis vinifera* and other species of the genus *Vitis*.
- (11) Provisions concerning certificates of compliance and analysis reports for imports of wine should be applied in light of the international agreements concluded in accordance with the Treaty on the Functioning of the European Union ('TFEU').

(12) The definition of a designation of origin *in Regulation (EU) No 1308/2013* should be aligned with the definition in the Agreement on Trade-Related Aspects of Intellectual Property Rights⁵ ('TRIPS Agreement'), approved by Council Decision 94/800/EC⁶, in particular with Article 22(1) thereof, in that the name is to identify the product as originating in a specific region or a specific place.

(12a) The geographical environment with its natural and human factors is a crucial element that affects the quality and characteristics of the product which should benefit from a protected designation of origin or geographical indication. Particularly, where fresh products that undergo little or no processing are concerned, natural factors may be predominant in determining the quality and characteristics of the product concerned whilst the human factors' contribution to the quality and characteristics of the product may be less specific. The human factors that may be taken into account should therefore not be limited to specific methods of production or processing, conferring a specific quality to the product concerned, but may involve soil and landscape management, cultivation practices as well as any other human activities that contribute to the maintenance of the essential natural factors that predominantly determine the geographical environment and the quality and characteristics of the product concerned.

⁵ Uruguay Round of Multilateral Trade Negotiations (1986- 1994) - Annex 1 - Annex 1C - Agreement on Trade-Related Aspects of Intellectual Property Rights (WTO) (OJ L 336, 23.12.1994, p. 214).

⁶ Council Decision 94/800/EC of 22 December 1994 concerning the conclusion on behalf of the European Community, as regards matters within its competence, of the agreements reached in the Uruguay Round multilateral negotiations (1986-1994) (OJ L 336, 23.12.1994, p. 1).

- (13) To ensure coherent decision-making as regards applications for protection and objection submitted in the preliminary national procedure referred to in Article 96 of Regulation (EU) No 1308/2013 *and in Article 49 of Regulation (EU) No 1151/2012*, the Commission should be informed in a timely and regular manner when procedures are launched before national courts or other bodies concerning an application for protection forwarded by the Member State to the Commission, as referred to in Article 96(5) of Regulation (EU) No 1308/2013 *and in Article 49(4) of Regulation (EU) No 1151/2012*. Implementing powers should be conferred on the Commission in order to, in those circumstances and where appropriate, suspend the examination of the application until the national court or other national body has adjudicated on the challenge to the Member State's assessment of the application in the preliminary national procedure. ***Delegated powers should be conferred on the Commission to lay down a non-exhaustive list of grounds for the suspension of the examination or scrutiny of the application.***
- (14) Registration of geographical indications should be made simpler and faster by separating the assessment of compliance with intellectual property rules from the assessment of compliance of the product specifications with the requirements laid down in the marketing standards and labelling rules.
- (15) The assessment carried out by the competent authorities of Member States is an essential step in the procedure. Member States have knowledge, expertise and access to data and facts that make them the best placed to verify whether the information provided in the application is correct and truthful. Therefore, Member States should guarantee that the result of that assessment, which is to be faithfully recorded in a single document summarising the relevant elements of the product specification, is reliable and accurate. Having regard to the principle of subsidiarity, the Commission should subsequently scrutinise applications to ensure that there are no manifest errors and that Union law and the interests of stakeholders outside the Member State of application are taken into account. ***The Commission should check the applications for manifest errors in order to ensure, in particular, that they contain the required information, are free of obvious substantive errors and that the reasoning presented supports the application.***

- (16) The period during which an objection can be made should be extended to three months to ensure that all interested parties have sufficient time to analyse the application for protection and the possibility to submit a statement of objection. To ensure that the same procedure for objections is applied under Regulation (EU) No 1308/2013 and under Regulation (EU) No 1151/2012 of the European Parliament and of the Council⁷ and thus enable Member States to forward objections stemming from natural or legal persons residing or established in their territory to the Commission in a coordinated and efficient manner, objections from natural or legal persons should be submitted via the authorities of the Member State in which they reside or are established. To simplify the objection procedure, the Commission should be empowered to reject inadmissible statements of objection in the implementing act conferring protection. Therefore, Article 111 of Regulation (EU) No 1308/2013 conferring implementing powers on the Commission to reject inadmissible objections under a separate implementing act should be deleted.
- (17) To increase procedural efficiency and in order to ensure uniform conditions for the conferral of protection on designations of origin or geographical indications, implementing powers should be conferred on the Commission to adopt implementing acts conferring protection without recourse to the examination procedure in circumstances where no admissible statement of objections to the application for protection has been submitted. Where an admissible statement of objection has been submitted, implementing powers should be conferred on the Commission to adopt implementing acts in accordance with the examination procedure either conferring protection or rejecting the application for protection.

⁷ Regulation (EU) No 1151/2012 of the European Parliament and of the Council of 21 November 2012 on quality schemes for agricultural products and foodstuffs (OJ L 343, 14.12.2012, p. 1).

- (18) ~~Having due regard to the TRIPS Agreement, in particular to Articles 22 and 23 thereof, and to the General Agreement on Tariffs and Trade⁸ ('GATT Agreement') in particular Article V thereof on freedom of transit, both of which were approved by Council Decision 94/800/EC and aim at strengthening the protection of designations of origin and geographical indications, and to combat counterfeiting more effectively, the protection conferred by Article 103(2) of Regulation (EU) No 1308/2013 should be extended to cover goods which are in transit across the Union customs territory and to goods which are sold over the internet or by other means of electronic commerce.~~
Concerning the protection of geographical indications, it is important to have due regard to the General Agreement on Tariffs and Trade ('GATT Agreement') including Article V thereof on freedom of transit, which was approved by Council Decision 94/800/EC.
Within such legal framework, in order to strengthen geographical indication protection and to combat counterfeiting more effectively, the protection should also apply with regard to goods entering the customs territory of the Union, without being released for free circulation, and placed under customs special procedures such as transit, storage, specific use or processing. The protection conferred by Articles 103(2) of Regulation (EU) No 1308/2013 and 13 and 24 of Regulation (EU) No 1151/2012 to geographical indications and traditional specialities guaranteed should be extended to cover goods which are sold over the internet or by other means of electronic commerce. Traditional specialities guaranteed should also be protected against misuse, imitation and evocation where they refer to products used as ingredients.
- (19) It should be possible to cancel the protection of a designation of origin or geographical indication in circumstances where they are no longer in use or where the applicant referred to in Article 95 of Regulation (EU) No 1308/2013 no longer wishes to maintain that protection.

⁸ Uruguay Round of Multilateral Trade Negotiations (1986 - 1994) – Annex 1 – Annex 1A – General Agreement on Tariffs and Trade in Goods (WTO) (OJ L 336, 23.12.1994, p. 1).

- (19a) *Within the framework of the CAP reform, provisions concerning withdrawal from the market of products that do not comply with the labelling rules should be integrated into Regulation (EU) No 1308/2013. In view of the [...] increasing consumer demand for product controls, Member States should take measures to ensure that products which are not labelled in conformity with that Regulation are not placed on the market or, if they have already been placed on the market, are withdrawn from it. [...] Withdrawal includes the possibility to correct the labelling of the products without definitely removing them from the market.***
- (20) In view of the ever increasing consumer demand for innovative grapevine products with a lower actual alcoholic strength than the minimum actual alcoholic strength set out for grapevine products in Part II of Annex VII to Regulation (EU) No 1308/2013, it should be possible to produce such innovative grapevine products also in the Union.
- (21) It is necessary to provide for definitions of de-alcoholised grapevine products and partially de-alcoholised grapevine products. These definitions should take into account the definitions set out in the Resolutions of the International Organisation of Vine and Wine (OIV), OIV-ECO 433-2012 *Beverage Obtained By Partial Dealcoholisation of Wine* and OIV-ECO 523-2016 *Wine With An Alcohol Content Modified by Dealcoholisation*.

- (21a) *In order to provide a higher level of information to consumers, the mandatory labelling of wine with a nutrition declaration, limited to the energy value only, and the list of ingredients should be added to Article 119 of Regulation 1308/2013 under compulsory particulars. As stated in Article 118 of that Regulation, the specific rules laid down in Regulation 1169/2011 should apply to the labelling and presentation. Producers should have the option of making the list of ingredients available by electronic means, while avoiding any collection or tracking of user data and the provision of information aimed at marketing purposes. However, this should not affect the existing requirement to list substances causing allergies or intolerances on the label. In Article 122 of that Regulation, the Commission should be empowered to adopt delegated acts regarding conditions relating to the presentation and use of the nutrition declaration and of the list of ingredients. The marketing of existing stocks of wine should be allowed to continue after the dates of application of the new labelling requirements, until those stocks are exhausted.***
- (22) In order to ensure that the rules governing labelling and presentation of products in the wine sector also apply to de-alcoholised or partially de-alcoholised grapevine products, to establish rules governing the dealcoholisation processes for the production of certain de-alcoholised or partially de-alcoholised grapevine products within the Union, and rules concerning the conditions of use of closures in the wine sector in order to ensure that consumers are protected from misleading use of certain closures associated with certain beverages and from hazardous closure materials that may contaminate the beverages, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level and that those consultations be conducted in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making. In particular, to ensure equal participation in the preparation of delegated acts, the European Parliament and the Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.

- (23) The rules on production and the requirements applying to the sugar sector expired at the end of the 2016/2017 marketing year. Article 124 and Articles 127 to 144 of Regulation (EU) No 1308/2013 are now obsolete and should be deleted.
- (23a) Following the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union, Union milk production will decrease. Consequently, in order to ensure the continuation of current conditions for producer organisations, the percentage representing the volume of raw milk should be updated.*
- ~~(24) Measures and rules concerning imports of hemp set out in Article 189 of Regulation (EU) No 1308/2013 are redundant and obsolete and should be deleted.~~
- (25) Articles 192 and 193 of Regulation (EU) No 1308/2013 should be deleted as such measures are no longer necessary in view of the end of the production regulation in the sugar sector. In order to ensure that the Union market is adequately supplied by means of imports from third countries, *delegated and* implementing powers should be conferred on the Commission to suspend import duties for cane and beet molasses.
- (26) The Ministerial Decision of 19 December 2015 on Export Competition of the 10th WTO Ministerial Conference in Nairobi⁹ sets down rules on export competition measures. As regards export subsidies, WTO members are required to eliminate their export subsidy entitlements as of the date of that Decision. Therefore, Union provisions on export refunds set out in Articles 196 to 204 of Regulation (EU) No 1308/2013 should be deleted.
- (27) In respect of export credits, export credit guarantees and insurance programmes, agricultural exporting state trading enterprises and international food aid, Member States may adopt national measures respecting Union law. Since the Union and its Member States are WTO Members, such national measures should also comply with the rules laid down in that WTO Ministerial Decision of 19 December 2015, as a matter of Union law and international law.

⁹ WT/MIN(15)/45, WT/L//980

- (28) Obsolete reporting obligations of the Commission regarding the milk and milk products market, the extension of the school scheme scope and the application of competition rules to the agriculture sector should be deleted. Reporting obligations concerning the apiculture sector should be integrated in Regulation (EU) .../... (*CAP Strategic Plan Regulation*).
- (29) In view of the repeal of Regulation (EU) No 1306/2013 of the European Parliament and of the Council¹⁰ by Regulation (EU) .../... (*CAP Strategic Plan Regulation*), provisions concerning checks and penalties related to marketing standards and protected designations of origin, geographical indications and traditional terms should be integrated in Regulation (EU) No 1308/2013.
- (30) Provisions concerning the reserve for crises in the agricultural sector laid down in Chapter III of Part V of Regulation (EU) No 1308/2013 should be deleted as updated provisions concerning the agricultural reserve are laid down in Regulation (EU) .../... of the European Parliament and of the Council¹¹ (*Horizontal Regulation*).

¹⁰ Regulation (EU) No 1306/2013 of the European Parliament and of the Council of 17 December 2013 on the financing, management and monitoring of the common agricultural policy and repealing Council Regulations (EEC) No 352/78, (EC) No 165/94, (EC) No 2799/98, (EC) No 814/2000, (EC) No 1290/2005 and (EC) No 485/2008 (OJ L 347, 20.12.2013, p. 549).

¹¹ Regulation (EU) .../... of the European Parliament and of the Council of on the financing, management and monitoring of the common agriculture policy and repealing Regulation (EU) No 1306/2013 (OJ L ...,, p...).

- (31) In view of the limited number of registrations of geographical indications of aromatised wines under Regulation (EU) No 251/2014 of the European Parliament and of the Council¹² the legal framework for the protection of geographical indications for those products should be simplified. Aromatised wines and other alcoholic beverages with the exception of spirit drinks and of grapevine products listed in Part II of Annex VII to Regulation (EU) No 1308/2013 should have the same legal regime and procedures as other agricultural products and foodstuffs. The scope of Regulation (EU) No 1151/2012 should be extended to cover those products. Regulation (EU) No 251/2014 of the European Parliament and of the Council should be amended to take account of this change as regards its title, scope, definitions and provisions concerning labelling of aromatised wine products. A smooth transition for the names protected under Regulation (EU) No 251/2014 should be ensured.
- (32) Procedures related to the registration of protected designations of origin, protected geographical indications and traditional specialities guaranteed laid down in Regulation (EU) No 1151/2012 should be streamlined and simplified to ensure that new names can be registered within shorter time periods. The opposition procedure should be simplified. ***The reasoned statement of opposition should indicate all the grounds for opposition and details thereof. This should not prevent the opponent from adding and developing further details in the course of the consultations referred to in Article 51(3) of Regulation (EU) No 1151/2012.***
- (33) Provision should be made for specific derogations that permit the use of other names alongside the registered name of a traditional speciality guaranteed. The Commission should fix transitional periods for the use of designations that contain names of traditional specialities guaranteed, in line with the conditions for such transitional periods already in existence for protected designations of origin and protected geographical indications.

¹² Regulation (EU) No 251/2014 of the European Parliament and of the Council of 26 February 2014 on the definition, description, presentation, labelling and the protection of geographical indications of aromatised wine products and repealing Council Regulation (EEC) No 1601/91 (OJ L 84, 20.3.2014, p. 14).

- (34) The procedure for approval of amendments to product specifications laid down in Regulation (EU) No 1151/2012 should be simplified by introducing a distinction between Union and standard amendments. In accordance with the subsidiarity principle, Member States should be responsible for approving standard amendments and the Commission should retain responsibility for approving Union amendments to product specifications.
- ~~(35) The amounts of financial resources available to finance measures under Regulations (EU) No 228/2013¹³ and (EU) No 229/2013 of the European Parliament and of the Council¹⁴ should be updated.~~
- (36) Regulations (EU) No 1308/2013, (EU) No 1151/2012, *and* (EU) No 251/2014, ~~(EU) No 228/2013 and (EU) No 229/2013~~ should therefore be amended accordingly.
- (37) Transitional arrangements should be put in place for applications for protection and for the registration of protected designations of origin, geographical indications and traditional specialities guaranteed that have been submitted before the date of entry into force of this Regulation and for the expenditure incurred before 1 January 2022 under the aid schemes for olive oil and table olives, fruit and vegetables, wine, apiculture and hops established in Articles 29 to 60 of Regulation (EU) No 1308/2013.
- (38) In order to ensure a smooth transition to the new legal framework laid down in Regulation (EU) .../... (*CAP Strategic Plan Regulation*), the provisions concerning amendments to Regulation (EU) No 1308/2013 as regards certain aid schemes and the reserve for crisis in the agricultural sectors ~~and the provisions concerning amendments to Regulations (EU) No 228/2013 and (EU) No 229/2013~~ should apply from 1 January 2022.

¹³ ~~Regulation (EU) No 228/2013 of the European Parliament and of the Council of 13 March 2013 laying down specific measures for agriculture in the outermost regions of the Union and repealing Council Regulation (EC) No 247/2006 (OJ 78, 20.3.2013, p. 23).~~

¹⁴ ~~Regulation (EU) No 229/2013 of the European Parliament and of the Council of 13 March 2013 laying down specific measures for agriculture in favour of the smaller Aegean islands and repealing Council Regulation (EC) No 1405/2006 (OJ L 78, 20.3.2013, p. 41).~~

HAVE ADOPTED THIS REGULATION:

Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 57(2).*
2. If the Commission receives no admissible reasoned statement of opposition under Article 51, it shall adopt implementing acts, without applying the examination procedure referred to in Article 57(2), registering the name.');

(14) in Article 53, paragraphs 2 and 3 are replaced by the following:

- '2. Amendments to a product specification are classified into two categories as regards their importance: Union amendments, requiring an opposition procedure at the Union level and standard amendments to be dealt with at Member State or third country level.

An amendment is considered to be a Union amendment where:

- (a) it includes a change in the name of the protected designation of origin, protected geographical indication ~~or traditional speciality guaranteed or in the use of that name;~~
- (b) it risks ~~to~~ voiding the links referred to in point (b) of Article 5(1) for protected designations of origin and of Article 5(2) for protected geographical indications;

- (c) ~~it introduces changes to the production method or to the use of raw materials and ingredients that deviate from the traditional practice and uses for traditional specialities guaranteed~~ ***it concerns a traditional speciality guaranteed;***
- (d) it entails new restrictions on the marketing of the product.

All other amendments to product specifications are considered standard amendments. A temporary amendment that concerns a temporary change in the product specification resulting from the imposition of obligatory sanitary and phytosanitary measures by the public authorities or a temporary amendment necessary because of a natural disaster or adverse weather conditions formally recognised by the competent authorities are also considered to be standard amendments.

Union amendments shall be approved by the Commission. The approval procedure shall follow, *mutatis mutandis*, the procedure laid down in Articles 49 to 52.

Standard amendments shall be approved by the Member State in whose territory the geographical area of the product concerned is located and ~~notified~~ ***communicated*** to the Commission. Third countries shall approve standard amendments in accordance with the law applicable in the third country concerned and ~~notify~~ ***communicate*** them to the Commission.

~~**Amendments shall be scrutinised taking into account other elements of the product specifications. The scrutiny of the application shall focus on the proposed amendment.**~~ Where appropriate, the Commission or the Member State concerned may invite the applicant to modify other elements of the product specifications.

3. In order to facilitate the administrative process of Union and standard amendments to product specification, including where the amendment does not involve any change to the single document, the Commission shall be empowered to adopt delegated acts, in accordance with Article 56, complementing the rules of the amendment application process.

The Commission may adopt implementing acts laying down detailed rules on procedures, form and presentation of an amendment application and notification of standard amendments to the Commission. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 57(2).!;

(15) in Point I of Annex I, the following indents are added:

- '- aromatised wines as defined in Article 3(2) of Regulation (EU) No 251/2014;
