## **Draft Eurogroup in inclusive format annotated agenda<sup>1</sup>** **11 September 2020**

**Starting time 10h15, Berlin**

### **1. State of play on the Banking Union**

On 11 June, the Eurogroup in inclusive format recognised that the COVID-19 crisis strengthened the case for completing the Banking Union and invited Ministers' deputies to resume the work on the further strengthening of the Banking Union in a holistic manner as soon as possible.

During this meeting, Ministers will take stock of all Banking Union workstreams. The discussion will include the reform of the ESM Treaty that envisages the introduction of a backstop to the Single Resolution Fund by the end of the transition period, i.e, 2023, a possible early introduction of the backstop and the provision of liquidity in resolution. Ministers will also debate the four workstreams for further strengthening of the Banking Union, including EDIS.

### **2. Miscellaneous**
