## 2. Adjustment of amounts

The amount of unit cost 1. is based partly on a standard scale of unit cost funded entirely by France. Out of the 6 400 EUR, 1 600 EUR correspond to the standard scale of unit cost set out by the “instruction ministérielle du 11 octobre 2013 relative à l’expérimentation Garantie Jeunes prise pour l’application du décret 2013-80 du 1er octobre 2013 ainsi que par l’instruction ministérielle du 20 mars 2014” to cover the costs borne by the Youth Public Employment Services « Missions Locales » to coach each NEET entering the “Garantie Jeunes”.

Unit cost 1. shall be updated by the Member State in line with adjustments under national rules to the standard scale of unit cost of 1 600 EUR mentioned in paragraph 1 above that covers the costs borne by the Youth Public Employment Services.

The amount of unit costs 2. and 3. are based on publicly procured prices for training hours in the respective fields and geographical areas. These amounts will be adjusted when the procurement process for the underlying training courses is repeated according to the following formula:

$$\text{New price (excl. VAT)} = \text{Old price (excl. VAT)} \times (0,5 + 0,5 \times \text{Sr/So})$$

Sr is the index of employed persons INSEE (identifier 1567446) of the last monthly publication at the date of the adjustment

So is the index of employed persons INSEE (identifier 1567446) of the monthly publication at the date of submission of the tender for the first adjustment then, for the following adjustments, of the monthly publication of the anniversary date of submission of the tender

The amounts of the unit costs 4, 5, 7, 8 and 9 may be adjusted based on the Reunion inflation rate (INSEE index) – reference year 2017 for unit costs 4,5 and 7; reference year 2018 for unit costs 8 and 9.

The amounts for unit costs 6 may be adjusted according to the price review mechanism in the event of a renewal of the tender of the Reunion Region. The amounts of the scales are updated annually, as of 1 January N on the basis of the latest index known, according to the following formula:

Scale review formula:  $B - B0 (I_m/I_0)$

B - amount of revised scale N

B0 - amount of the initial scale (N-1).

I0 - reference value, the last known value of the SYNTEC index as of January 1, N-1

I<sub>m</sub> - I0 - 12 months

The intermediate calculations will be carried out with four decimal places, the scale comprising two decimals and the coefficient applicable to rounded P0, if any at the top thousandth.

The selected BSCU scale is the value of 2017. The reference year is therefore 2017 as a starting point for indexing. Indexing applies to courses that started in year N.

## 2. Adjustments of amounts.

The rate for unit costs 6-11 may be adjusted by replacing the initial minimum wage rate in the calculation method that consists of the minimum wage, the cost for provision of training and indirect costs.

The rate for unit cost 12 may be adjusted by replacing the initial direct staff costs, including social security and health contributions, and/or the wages for participants, including social security and health contributions in the calculation method that consists of direct staff costs, including social security and health contributions and/or the wages for participants, including social security and health contributions.

The rate for unit costs 13-17, 19-27, and 29 may be adjusted by replacing the initial direct staff costs, including social security and health contributions, in the calculation method that consists of direct staff costs, including social security and health contributions, plus indirect costs.

The rate for unit cost 18 may be adjusted by replacing the salaries for participants, including social security and health contributions in the calculation method that consists of the cost for provision of training plus salaries for participants, including social security and health contributions, plus indirect costs.

The amounts for unit cost 28 may be adjusted by replacing the amounts for Living Allowance, Mobility allowance, Family allowance, Research, training and networking costs Management and Indirect Costs.

The rate for unit cost 30 may be adjusted by replacing the initial direct staff costs, including social security and health contributions, the costs associated with organising the traineeship in the host and sending school, and the travel and subsistence costs in the calculation method that consists of direct staff costs, including social security and health contributions, the costs associated with organising the traineeship in the host and sending school, and the travel and subsistence costs.

The rate for unit cost 32 may be adjusted by replacing the amount for travel in the calculation method that consists of direct costs for travel, plus direct staff costs, plus indirect costs.

Adjustments will be based on the updated data as follows:

- for the minimum wage, amendments to the minimum wage as set by government decree no. 567/2006 Coll;
- for social security contributions, amendments to employers' contributions to social security, defined in Act no. 589/1992 Coll. on social security; and
- for health contributions, amendments to employers' contributions to health insurance, defined in Act no. 592/1992 Coll. on premiums for health insurance.
- For average salaries to determine wages/staff costs, changes to the latest annual published data for relevant categories from the average earnings informational system ([www.ISPV.cz](http://www.ISPV.cz)).
- For Living Allowance, Mobility allowance, Family allowance, Research, training and networking costs Management and Indirect Costs, amendment to rates for the HORIZON 2020 – Marie Skłodowska-Curie Actions as published at <https://ec.europa.eu/research/mariecurieactions/>

- For travel, subsistence and organisational costs under unit cost 30, amendments to the amounts for travel and organisational costs as well as individual support set by the European Commission for Key Action 1 (mobility projects) under the Erasmus+ programme (<http://ec.europa.eu/programmes/erasmus-plus/>).
- For travel under unit cost 32, amendments to the amounts for travel between 10 and 99 kilometres as set out in the 'distance calculator' of the Erasmus+ programme ([http://ec.europa.eu/programmes/erasmus-plus/resources/distance-calculator\\_en](http://ec.europa.eu/programmes/erasmus-plus/resources/distance-calculator_en)).

The rate for unit cost 41 may be adjusted by changes to:

- The rate for direct personnel costs based on adjustments to the latest annual published data from the average earnings informational system ([www.ISPV.cz](http://www.ISPV.cz)) and other relevant employment legislation,
- Calculation of the Allowance for research, training and networking costs (H2020 – MSCA – IF).
- The amount of other direct costs is calculated in EUR, recalculation to CZK will be always carried out based on the actual exchange rate for each call (<http://www.cnb.cz/cs/index.html>).

## 2. Adjustment of amounts

Unit cost 1 may be adjusted by replacing the initial minimum wage and/or the statutory bonus and/or weekly allowances and/or social security contributions in the calculation method that consists of the lowest weekly rate of national minimum wage for a particular year, the statutory bonus, weekly allowances and social security contributions, and dividing this result by 2.

<sup>25</sup> European Credit Transfer and Accumulation System - [https://ec.europa.eu/education/resources-and-tools/european-credit-transfer-and-accumulation-system-ects\\_en](https://ec.europa.eu/education/resources-and-tools/european-credit-transfer-and-accumulation-system-ects_en)

Unit Cost 2 may be adjusted by applying the annual rate of inflation to the respective rates. From 2017, for a given year N, this can be done by applying the inflation rate for year N-1 as published by the Maltese National Statistics Office at: [https://nso.gov.mt/en/nso/Selected\\_Indicators/Retail\\_Price\\_Index/Pages/Index-of-Inflation.aspx](https://nso.gov.mt/en/nso/Selected_Indicators/Retail_Price_Index/Pages/Index-of-Inflation.aspx)

Unit costs 3-4 may be adjusted by replacing the initial national minimum wage for persons 18 years or over and/or the statutory bonuses and/or weekly allowances and/or social security contributions in the calculation method that consists of the hourly rate of national minimum wage for persons 18 years or over for a particular year, the statutory bonuses, the weekly allowances and social security contributions.

Adjustments will be based on updated data as follows:

- The national minimum wage is specified in national Subsidiary Legislation 452.71 (National Minimum Wage Standing Order).
- The statutory bonuses, weekly allowances and social security contributions provided for in Chapter 452 of the Maltese legislation on the Employment and Industrial relations Act.

Unit costs 5-9 may be adjusted in line with the cost of inflation at a national level for the relevant year the particular intervention is being undertaken. The annual rates of inflation are published by the National Statistics Office and can be found at: [https://nso.gov.mt/en/nso/Selected\\_Indicators/Retail\\_Price\\_Index/Pages/Index-of-Inflation.aspx](https://nso.gov.mt/en/nso/Selected_Indicators/Retail_Price_Index/Pages/Index-of-Inflation.aspx).

Unit cost 10 will be adjusted in line with inflation according to the country in which the course is being undertaken. For courses awarded by a body that is not based in Malta and for joint study programmes an average of the rates of inflation applicable at the time will be applied.

- region and province where the competent body which took in charge the young is based;
- language skills (only for non-nationals who have not obtained the educational qualification in Italy), for the evaluation of which will be used the already developed methodology for the issuance of an EC residence permit for long-term residents.

Based on the variables identified for the young, a “disadvantage coefficient” is calculated, with a value between 0 and 1.

## 2. Adjustment of amounts

(a) For standard scales of unit costs 1-9 and 19-20, the amounts may be adjusted where the FOI index (consumer price index for blue and white collar worker households, excluding tobacco products) shows a monetary revaluation equal to or exceeding 5%. In particular, in a given year  $y$ , the adjustment is made if in a period  $y+t$  the difference between the benchmarking coefficients shown by the FOI index for such years is equal to or higher than 5%. The base year applied - and on the basis of which the amounts were adjusted - is 2014. Where this rate is equal to or higher than 5%, each unit cost may be adjusted accordingly.

(b) For standard scale of unit costs 10, the rate may be adjusted by replacing the monthly scholarship and/or social security contributions in the calculation method that consists of monthly scholarship plus social security contributions plus an amount for all other costs. Updated data can be found in amendments to the Ministerial Decree of 18.6.2008 (which defines the total gross annual amount of PhD scholarships) and biannual adjustment of the rate of social security contributions (Circular letter No. 13 of 29/01/2016 of the Director General of INPS, the National Institute for Social Security).

(c) For standard scales of unit costs 11-15, which are based on the historical average number of certificates (output) awarded per module, the rate may be adjusted at the end of each financial year (31/12) following an assessment by the Managing Authority of the implementation of the operations related to each of the unit costs. Where such an assessment shows a divergence in the average number of certificates awarded per module for each type of training as compared to the average number used as the basis for calculating the existing unit cost, then a new unit cost will be calculated according to the following formula:

$$UC_{\text{new}} = UC_{\text{old}} + \text{Variation}$$

where

$$\text{Variation} = UC_{\text{old}} * \text{Output}_{\text{new}} / \text{Output}_{\text{old}}$$

- (d) For standard scales of unit costs 17, the rates will be reviewed every four years and if, taking 2017 as the reference year, there is an increase of more than 5% an adjustment will be made by ISTAT based on the FOI consumer price index (consumer price index for blue and white collar worker households, excluding tobacco products).
- (e) For standard scales of unit costs 18, the rates may be adjusted following amendments of the current legislation (which includes Law n.240/2010, the Presidential Decree n.232/2011, the Law n.232/2016 (Budget Law 2017), Law n.448/1998 “Misure di finanza pubblica per la stabilizzazione e lo sviluppo”, Law n.335/1995, Legislative Decree n.446/1997, and the Presidential Decree n.1032/1973.) as well as changes of the social security contribution rates.
- (f) The amounts for unit costs 21 and 22 may be adapted following amendments to the legislative provisions of Legislative Decree 77/2002, Directorial Determination (DD) of 19 December 2007 and D.D. n. 348 of 18 May 2016 of the Presidency of the Council of Ministers - Department of Youth and Civilian Service

## 2. Adjustment of amounts

The amounts of unit costs 1 to 4 may be adjusted by the second quarter of each year by taking into account, in year N, the published inflation rate for consumer prices (Harmonized Index of Consumer Prices (HICP) at <https://osp.stat.gov.lt/en/statistiniu-rodikliu-analize#/> for year N-1.

The amounts of unit costs 1 to 4 may also be adjusted by replacing:

- the national minimum wage rate in Lithuania;
- the maximum expenses that cover vocational training;
- the training scholarship coefficient laid down in the Republic of Lithuanian Law of the Employment Support;
- the 1 kilometre tariff fee approved by the Order of the Minister of Social Security and Labour (20 July, 2010, Order No AI-352 on 1 kilometre tariff approval) in the calculation method; and
- the indirect costs flat rate stated in The Application of Flat rate to Indirect Project Costs Scheme approved by the Order of the Minister of Finance (8 October, 2014, Order No 1K-316 on the projects administration and financing regulation approval);

in the calculation method whereby the total cost of vocational training consists of the total of: vocational training services costs, vocational training scholarships costs, travel expenses to the place of vocational training and back, accommodation costs, costs of compulsory health screening and vaccination against infectious diseases and indirect costs.

The amounts of unit cost 5 may be re-calculated once a year, in year N, when the Lithuanian Department of Statistics (Statistics Lithuania) publishes the annual (in the absence of an annual - quarterly) data on average wage by type of economic activity for year N-1. The adjustment shall be made no later than by the second quarter of year N<sup>85</sup>. The amounts are re-calculated based on data about the average wages and salaries from year N-1 (using annual data) or from the latest four quarters (using quarterly data).

The amounts of unit cost 5 may be re-calculated also when the values of the state social insurance contributions, paid by the employer, and contributions to the Guarantee Fund and long-term employment benefits fund change on the basis of established legal acts of the Republic of Lithuania,

The amount of unit cost 6 may be adjusted by any change in:

- the value of the average monthly wages (gross) in the public sector in the previous calendar year, as announced by the Lithuanian Department of Statistics.
- the rates (by percent) of contributions of the Social Insurance or Guarantee Fund defined in the legal acts of the Republic of Lithuania or legal acts regulating the duration of annual leave.

The amount may be adjusted on 1 July each year and shall be applied only to new contracts.

---

<sup>85</sup> The latest official data for the last 12 months (i.e. quarters I to IV of the year concerned) in the private sector with individual enterprises (gross, male and female) are used - <https://www.stat.gov.lt/>

The amounts of unit cost 7 may be adjusted annually, in year N, using the monthly wage (gross) index of year N-1 as specified by the Lithuanian Department of Statistics compared to year N-2<sup>86</sup>.

The amounts of unit cost 8 may be adjusted using the monthly wage (gross) index annually, in year N, according to the classification of the economic activities (area of scientific research and applied activity, M72) of year N-1, as specified by the Lithuanian Department of Statistics compared to year N-2<sup>87</sup>.

The amount of unit cost 9 may be adjusted annually at the beginning of each year, in year N, taking into account the (public) information provided by the Lithuanian Department of Statistics (Statistics Lithuania) and applying the consumer price change calculated based on the consumer price index<sup>88</sup> of year N-1 compared to year N-2.

## **2. Adjustments of amounts.**

In the event of changes in the Erasmus+ national rates, which form the basis for the unit costs of type 1 to 5 set in this regulation, the managing authority may adjust the rates accordingly. If the Erasmus+ rates change, the same change may be reflected in the respective standard scale of unit costs for new calls (i.e. calls launched after the new Erasmus+ rates come into force). For operations 1-4, the formula used to update the respective daily rates is  $(14 \times A + 46 \times B) / 60$ , where 'A' represents the daily rate from the Polish ERASMUS+ programme for the first 14 days of the stay abroad and 'B' the remaining 46 days.

Unit costs of type 6 shall be updated annually if the indexation factor exceeds 3%. The indexation factor is based on the change of average remuneration, specified in Communications of the President of Statistics Poland. The 3<sup>rd</sup> quarter of 2019 is a starting point, which means that the first unit costs update will take place when the average remuneration for the 3<sup>rd</sup> quarter of 2020 compared to the corresponding quarter of the previous year will increase by over 3%. In the following periods, the 3<sup>rd</sup> quarter of 2019 or the 3<sup>rd</sup> quarter of the indexation year is the starting point.

<sup>93</sup> Verified enrolment means that proof of the enrolment of the student in the formal education or training course is to be verified by national authorities on two or three occasions during the academic year, in accordance with each Member State's normal practices and procedures for verifying enrolment in formal education or training.

<sup>95</sup> The table in point 3.1 sets out rates for all Member States with the exception of Denmark for which data is not currently available. For courses lasting at least one full academic year, these amounts can be reimbursed to the Member State on the following basis: 50% for the first proof of enrolment during the academic year (normally at the beginning of the academic year, in accordance with national rules and practices), 30% for the second proof of enrolment and 20% for the third and final proof of enrolment. For those Member States whose national systems provide for this information to be collected only twice per year, or for courses lasting less than one full academic year, it will be 50% for the first proof of enrolment and 50% for the second and final proof of enrolment.

<sup>92</sup> Other potential eligible costs of this type of operation, such as allowances, transport, accommodation or other type of support provided to students participating in these types of operations, are not covered by the unit cost.

The training courses can be primarily either institutional or workplace-based, but must be delivered at least partly in an institutional setting.

A training course will be considered as 'successfully completed' when there is a document demonstrating completion in accordance with national rules or practices.

For example, this could be a certificate issued by the training provider or an equivalent document which is acceptable under national rules or practices.

The condition of successfully completing a training course shall not be regarded as being met where a participant successfully only completes some of the modules within a training course.

## 2. Adjustment of Amounts.

For the unit cost under point 2, the amount may be adjusted each year based on the latest Labour Cost Index (LCI)<sup>102</sup> data on economic activities in the area of 'Education'. The adjustment shall be based on the following formula:

$$AdjustedSCO_1 = BaseSCO_1 * LCI_{Education\ latest}$$

<sup>102</sup> Eurostat, <http://ec.europa.eu/eurostat/web/labour-market/labour-costs>

LC – Labour cost index by NACE Rev. 2 activity - nominal value, annual data [lc\_lci\_r2\_a] NACE Rev. 2 (activity = P. Education)

For the unit cost under point 3, the amount may be adjusted each year based on the latest Labour Cost Index (LCI) <sup>103</sup> data on economic activities in the area of public administration.

For the hourly rate, the adjustment shall be based on the following formula:

$$AdjustedSCO_{2.1} = BaseSCO_{2.1} * LC_{Publicadministration latest}$$

LC – Labour cost index by NACE Rev. 2 activity - nominal value, annual data [lc\_lci\_r2\_a] NACE Rev. 2 (activity = O. Public administration and defence; compulsory social security)

For the monthly and annual rate respectively, the adjustment shall be based on the following formulas:

$$AdjustedSCO_{2.2} = AdjustedSCO_{2.1} * Ti * 4,348121417$$

$$AdjustedSCO_{2.3} = AdjustedSCO_{2.2} * 52,177457$$

Ti - average hours worked per week of full-time employment [lfsa\_ewhuis] in country I;

4,348121417 – number of work days per month;

52,177457 – number of weeks per year;

For the first unit cost under point 4 (hourly rate of training provided to employed persons), the amount may be adjusted each year based on the latest data from Eurostat's Harmonised Index of Consumer Prices (HICP) <sup>104</sup>, in particular the annual average index for: services (overall index

excluding goods ‘SERV’); catering services (‘CP111’); accommodation (‘CP112’) and data for the Labour Cost Index (LCI)<sup>105</sup> for the economic activity ‘Education’ (NACE Rev. 2, P). The formulas to be applied shall be the following:

$$1) \text{ HICP}_{latest} = \frac{\text{HICP}_{services\ latest} + \text{HICP}_{catering\ latest} + \text{HICP}_{accommodation\ latest}}{3}$$

HICP - Harmonised Index of Consumer Prices (HICP) - annual data (average index and rate of change) [prc\_hicp\_aind]. COICOP 3 digit = services (overall index excluding goods ‘SERV’); catering services (‘CP111’); accommodation (‘CP112’).

$$2) \text{ AdjustedSC}_{3,1} = \text{BaseSC}_{3,1} * \frac{\text{HICP}_{latest} + \text{LC}_{Education\ latest}}{2}$$

LC - Labour cost index by NACE Rev. 2 activity - nominal value, annual data [lc\_lci\_r2\_a]. NACE Rev. 2 (activity = P. Education)

For the second unit cost under point 4 (hourly rate of salary paid to an employee while on a training course), the amount may be adjusted each year based on the latest Labour Cost Index (LCI)<sup>106</sup> data on economic activities in the area of “Administrative and support services”. The adjustment shall be based on the following formula:

$$\text{AdjustedSC}_{3,2} = \text{BaseSC}_{3,2} * \text{LC}_{Adminsupport\ latest}$$

LC - Labour cost index by NACE Rev. 2 activity - nominal value, annual data [lc\_lci\_r2\_a]. NACE Rev. 2 (activity = N. Administrative and support service activities)

## 2. Adjustment of amounts

The amount for unit costs 2 shall be adjusted each calendar year by replacing the amount for financial aid and the contribution for compulsory insurance in the calculation method.

Adjustments will be based on :

- for financial aid, changes to the Statutory minimum wage according to the Minimum Wage Decree issued by Government, published on Official Gazette of Republic of Croatia (<https://www.nn.hr>)

- for contributions for compulsory insurance, changes to the minimum monthly bases according to the Order on the bases for calculation of contributions for compulsory insurance issued by Minister of Finance, published on Official Gazette of Republic of Croatia (<https://www.nn.hr>).
- In addition any changes of the Employment Promotion Act provisions regulating mechanisms for determining financial aid and compulsory insurance payments for Occupational training and/or any changes of the Act on Contributions (NN 84/08, 152/08, 94/09, 18/11, 22/12, 144/12, 148/13, 41/14, 143/14, 115/16) provisions regulating calculations for compulsory contributions may entail changes to the proposed calculation method.

The amount for unit costs 3 and 6 shall be adjusted each calendar year by replacing the amount for Statutory minimum wage and the annual sickleave rate in the calculation method.

Adjustments will be based on :

- changes to the Statutory minimum wage according to the Minimum Wage Decree issued by Government for a calendar year, published on Official Gazette of Republic of Croatia (<https://www.nn.hr>) according to Article 6 of the Law on Minimum Wage (NN 118/18) for unit costs 3 and 6.
- changes to the official annual sick leave rate in Croatia, published on the website of Croatian Health Insurance Fund (<http://www.hzzo.hr/o-zavodu/izvjesca/>). In addition any changes of the Act on Contributions (NN 84/08, 152/08, 94/09, 18/11, 22/12, 144/12, 148/13, 41/14, 143/14, 115/16, 106/18) provisions regulating calculations for compulsory contributions may entail changes to the proposed calculation method.

The amounts for unit costs 5 shall be adjusted each calendar year by replacing the amount for wage subsidy per category of worker and the annual official sick leave rate in the calculation method.

Adjustments will be based on :

- for wage subsidy, changes to the amounts published in the Terms and Conditions set by the Croatian Employment Services (CES) each year per category of worker,
- changes to the official annual sick leave rate in Croatia, published on the website of Croatian Health Insurance Fund (<http://www.hzzo.hr/o-zavodu/izvjesca/>). In addition, any changes of the Act on Contributions (NN 84/08, 152/08, 94/09, 18/11, 22/12, 144/12, 148/13, 41/14, 143/14, 115/16, 106/18) provisions regulating calculations for compulsory contributions may entail changes to the proposed calculation method.

In addition:

- any changes to the AEPM Terms and conditions in relation to eligibility of target groups, as well as key changes in contractual conditions shall automatically entail a change in the conditions and requirements defined in the Delegated Act

The amounts for unit costs 7 may be adjusted each calendar year as follows:

Obligatory components

1. Participant salary (direct cost)

Formula for calculating monthly cost of participant wage consists of:

- a.) Gross minimum wage for year N
- b.) Annual sick leave rate (with following differentiation: at the expense of the employer and at the expense of the Health Insurance Fund) for year N-1

To calculate the amounts for a given calendar year, the annual sick leave rate calculated for the previous calendar year will be applied.

The established rate for minimum wage shall be automatically adjusted by replacing each calendar year in the calculation method the values as follows:

- changes to the Statutory minimum wage according to the Minimum Wage Decree issued by Government for a calendar year, published on Official Gazette of Republic of Croatia (<https://www.nn.hr>) according to the Article 6 of the Law on Minimum Wage (NN 118/18)
- changes to the official annual sick leave rate in Croatia, published on the website of Croatian Health Insurance Fund (<http://www.hzzo.hr/o-zavodu/izvjescal/>)

In addition, any changes of the Act on Contributions (NN 84/08, 152/08, 94/09, 18/11, 22/12, 144/12, 148/13, 41/14, 143/14, 115/16, 106/18) provisions regulating calculations for compulsory contributions shall entail changes to the proposed calculation method.

2. Transport cost for performing home care services (direct cost) – set value

The amount for transport costs may be adjusted by applying the annual rate of inflation to the calculated amount starting from the year 2021, for a given year N taking into account the inflation rate for year N – 1. The rates are published by the Croatian National Statistics Office at: <https://www.dzs.hr/app/rss/stopa-inflacije.html>

3. Non - taxable yearly benefits (direct cost) – set value

The amount may be adjusted if any change occurs in Directive on Income Tax (NN 1/2020) provisions regulating the maximum amount of non-taxable bonus which can be paid to employees.

4. Management cost – calculated on top of direct costs by applying of-the-shelf flat rate (up to 20% of direct staff costs) provided for in Article 68a CPR

5. Indirect cost - calculated on top of direct staff costs by applying of-the-shelf flat rate (up to 15% of indirect costs) provided for in Article 68 (b) CPR

Optional component (variant b)

6. Direct costs of monthly packages of household and basic hygiene supplies delivered to elderly/infirm persons

The amount may be adjusted by applying the annual rate of inflation to the calculated amount starting from the year 2021, for a given year N taking into account the inflation rate for year N – 1. The rates are published by the Croatian National Statistics Office at: <https://www.dzs.hr/app/rss/stopa-inflacije.html>,

## 2. Adjustment of amounts

Unit cost 1 may be adjusted in line with new data on amounts spent on training as reported in the Continuing Vocational Education Survey published by EUROSTAT (baseline: 2015).

Unit cost 2 may be adjusted in line with new data on amounts spent on education published by EUROSTAT (baseline: 2016).

Unit cost 3 may be adjusted in line with new data on amounts for travel and/or subsistence costs (Jean Monnet- D.3 – subsistence costs) published by Erasmus + Programme (baseline: 2020).

### 3. Amounts for subsistence costs set out in unit cost 3

According to the amounts set in the Jean Monnet programme (table D.3 – subsistence costs) for the countries listed below; for all other countries the amounts may be established by taking the amounts from the version of this table in force.”
