¹ Text proposed by Member States of the European Union to the ICAO Council in reply to EC 6/3-20/14, dated 25 February 2020, on the draft amendment:

“9.34: Contracting States shall:

- (a) not inhibit or prevent the transfer of PNR data by an aircraft operator or other relevant party, nor sanction, impose penalties or create unreasonable obstacles on aircraft operators or other relevant parties that transfer PNR data to another Contracting State provided that Contracting States’ PNR data system is compliant with the Standards contained in Section D, Chapter 9 of Annex 9; but
- (b) equally, retain the ability to introduce or maintain higher levels of protection of PNR data, in accordance with their legal and administrative framework, and to enter into additional arrangements with other Contracting States, in particular to: promote collective security; achieve higher levels of protection of PNR data, including on data transfers; or to establish more detailed provisions relating to the transfer of PNR data, provided those measures do not undermine the Standards contained in Section D, Chapter 9 of Annex 9.”

	<p>sufficiently clear in legal terms in expressing that the Union Member States are not precluded from imposing those requirements notwithstanding Standard 9.34.</p> <p>For this reason, [<i>Member State</i>] considers that the present difference should be notified pursuant to Article 38 of the Chicago Convention in order to allow it to apply legal requirements to PNR data transfers to Contracting States that are not Member States of the European Union, which are in some respects more exacting, without undermining the Standards laid out in Amendment 28.</p> <p>[<i>Member State</i>] confirms that in the absence of the possibility of ensuring compliance with such requirements, therefore, transfers by air carriers cannot take place in accordance with Union law.</p>	<p>envisaged PNR agreement with Canada and from Chapter V of Regulation (EU) 2016/679.</p>
