<sup>3</sup> Position of the European Parliament of 16 April 2019 (not yet published in the Official Journal) and decision of the Council of 8 November 2019.

Whereas:

- (1) Robust prudential supervision is an integral part of the regulatory conditions under which financial institutions provide services within the Union. Investment firms are, together with credit institutions, subject to Regulation (EU) No 575/2013 of the European Parliament and of the Council<sup>1</sup> and to Directive 2013/36/EU of the European Parliament and of the Council<sup>2</sup> as regards their prudential treatment and supervision, while their authorisation and other organisational and conduct requirements are set out in Directive 2014/65/EU of the European Parliament and of the Council<sup>3</sup>.

---

<sup>1</sup> Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012 (OJ L 176, 27.6.2013, p. 1).

<sup>2</sup> Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms, amending Directive 2002/87/EC and repealing Directives 2006/48/EC and 2006/49/EC (OJ L 176, 27.6.2013, p. 338).

<sup>3</sup> Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (OJ L 173, 12.6.2014, p. 349).

- (2) The existing prudential regimes under Regulation (EU) No 575/2013 and Directive 2013/36/EU are largely based on successive iterations of the international regulatory standards set for large banking groups by the Basel Committee on Banking Supervision and only partially address the specific risks inherent to the diverse activities of a large number of investment firms. The specific vulnerabilities and risks inherent to those investment firms should therefore be further addressed by means of effective, appropriate and proportionate prudential arrangements at Union level which help to provide a level playing field across the Union, which guarantee effective prudential supervision while keeping compliance costs in check, and which ensure sufficient capital for the risks of investment firms.
- (3) Sound prudential supervision should ensure that investment firms are managed in an orderly way and in the best interests of their clients. It should take into account the potential for investment firms and their clients to engage in excessive risk-taking and the different degrees of risk assumed and posed by investment firms. Equally, such prudential supervision should aim to avoid imposing a disproportionate administrative burden on investment firms. At the same time, such prudential supervision should make it possible to strike a balance between ensuring the safety and soundness of investment firms and avoiding excessive costs that might undermine the viability of their business activities.

- (4) Many of the requirements that stem from the framework of Regulation (EU) No 575/2013 and Directive 2013/36/EU are designed to address common risks faced by credit institutions. Accordingly, the existing requirements are largely calibrated to preserve the lending capacity of credit institutions through economic cycles and to protect depositors and taxpayers from possible failure, and are not designed to address all of the different risk profiles of investment firms. Investment firms do not have large portfolios of retail and corporate loans and do not take deposits. The likelihood that their failure can have detrimental impacts on overall financial stability is lower than in the case of credit institutions, but investment firms nevertheless pose a risk which is necessary to address by means of a robust framework. The risks faced and posed by most investment firms are thus substantially different to the risks faced and posed by credit institutions and such differences should be clearly reflected in the prudential framework of the Union.
- (5) Differences in the application of the existing prudential framework in different Member States threaten the level playing field for investment firms within the Union, hampering the access of investors to new opportunities and better ways of managing their risks. Those differences stem from the overall complexity of the application of the framework to different investment firms based on the services that they provide, where some national authorities adjust or streamline such application in national law or practice. Given that the existing prudential framework does not address all the risks faced and posed by some types of investment firms, large capital add-ons have been applied to certain investment firms in some Member States. Uniform provisions addressing those risks should be established in order to ensure harmonised prudential supervision of investment firms across the Union.

- (6) A specific prudential regime is therefore required for investment firms which are not systemic by virtue of their size and their interconnectedness with other financial and economic actors. Systemic investment firms should, however, remain subject to the existing prudential framework under Regulation (EU) No 575/2013 and Directive 2013/36/EU. Those investment firms are a subset of investment firms to which the framework laid down in Regulation (EU) No 575/2013 and in Directive 2013/36/EU currently applies and which do not benefit from dedicated exemptions from any of their principle requirements. The largest and most interconnected investment firms have business models and risk profiles that are similar to those of significant credit institutions. They provide “bank-like” services and underwrite risks at significant scale. Furthermore, systemic investment firms are large enough to, and have business models and risk profiles which, represent a threat for the stable and orderly functioning of financial markets on a par with large credit institutions. Therefore it is appropriate that those investment firms remain subject to the provisions set out in Regulation (EU) No 575/2013 and Directive 2013/36/EU.
- (7) It is possible that investment firms which deal on own account, which underwrite financial instruments or place financial instruments on a firm commitment basis on a significant scale, or which are clearing members in central counterparties, have business models and risk profiles that are similar to those of credit institutions. Given their size and activities, it is possible that such investment firms present comparable risks to financial stability as credit institutions. Competent authorities should have the option of requiring them to remain subject to the same prudential treatment as credit institutions that fall within the scope of Regulation (EU) No 575/2013 and to compliance with prudential supervision under Directive 2013/36/EU.

- (8) There may be Member States in which the authorities competent for the prudential supervision of investment firms are different from the authorities that are competent for the supervision of market conduct. It is therefore necessary to create a mechanism of cooperation and exchange of information between those authorities in order to ensure harmonised prudential supervision of investment firms across the Union which functions promptly and efficiently.
- (9) An investment firm may trade via a clearing member in another Member State. Where it does so, a mechanism for sharing information between the relevant competent authorities in the different Member States should be put in place. Such a mechanism should allow the sharing of information between the competent authority for the prudential supervision of the investment firm and either the authority supervising the clearing member or the authority supervising the central counterparty on the model and parameters used for the calculation of the margin requirements of the investment firm where such method of calculation is used as the basis for the investment firm's own funds requirements.

- (10) To foster the harmonisation of supervisory standards and practices within the Union, the European Supervisory Authority (European Banking Authority) established by Regulation (EU) No 1093/2010 of the European Parliament and of the Council<sup>1</sup> (EBA) should, in close cooperation with the European Supervisory Authority (European Securities and Markets Authority) established by Regulation (EU) No 1095/2010 of the European Parliament and of the Council<sup>2</sup> (ESMA), retain primary competence for the coordination and convergence of supervisory practices in the area of prudential supervision over investment firms within the European System for Financial Supervision (ESFS).

<sup>1</sup> Regulation (EU) No 1093/2010 of the European Parliament and of the Council of 24 November 2010 establishing a European Supervisory Authority (European Banking Authority), amending Decision No 716/2009/EC and repealing Commission Decision 2009/78/EC (OJ L 331, 15.12.2010, p. 12).

<sup>2</sup> Regulation (EU) No 1095/2010 of the European Parliament and of the Council of 24 November 2010 establishing a European Supervisory Authority (European Securities and Markets Authority), amending Decision No 716/2009/EC and repealing Commission Decision 2009/77/EC (OJ L 331, 15.12.2010, p. 84).

- (11) The required level of initial capital of an investment firm should be based on the services and activities which that investment firm is authorised to provide and perform, respectively, according to Directive 2014/65/EU. The possibility for Member States to lower the required level of initial capital in specific situations, as provided for in Directive 2013/36/EU on the one hand, and the situation of uneven implementation of that Directive on the other hand, have led to a situation where the required level of initial capital diverges across the Union. To end that fragmentation, the required level of initial capital should be harmonised for all investment firms in the Union. With a view to reducing barriers to market entry that currently exist for the multilateral trading facilities (MTFs) and organised trading facilities (OTFs), the initial capital of investment firms that operate an MTF or an OTF should be set at the level referred to in this Directive. Where an investment firm authorised to operate an OTF has been permitted to also engage in dealing on own account under the conditions provided for in Article 20 of Directive 2014/65/EU its initial capital should be set at the level referred to in this Directive.
- (12) Although investment firms should no longer fall within the scope of Regulation (EU) No 575/2013 or Directive 2013/36/EU, certain concepts used in the context of those legislative acts should retain their well-established meaning. To enable and facilitate the consistent reading of such concepts in Union legal acts when used, references in such acts to the initial capital of investment firms, to the supervisory powers of competent authorities for investment firms, to the internal capital adequacy assessment process of investment firms, to the supervisory review and evaluation process of competent authorities for investment firms, and to governance and remuneration provisions applicable to investment firms should be construed as referring to the corresponding provisions in this Directive.

- (13) The proper functioning of the internal market requires that the responsibility for prudential supervision of an investment firm, in particular in relation to its solvency and its financial soundness, lies with the competent authority of its home Member State. In order also to achieve effective supervision of investment firms in other Member States, where they provide services or have a branch, close cooperation and exchange of information with the competent authorities of those Member States should be ensured.
- (14) For information and supervisory purposes, and in particular to ensure the stability of the financial system, competent authorities of host Member States should be able, on a case-by-case basis, to carry out on-the-spot checks and inspect the activities of branches of investment firms on their territory, and to require information about the activities of those branches. Supervisory measures for those branches should, however, remain the responsibility of the home Member State.
- (15) To protect commercially sensitive information, competent authorities should be bound by rules of professional secrecy when conducting their supervisory tasks and when exchanging confidential information.
- (16) To strengthen the prudential supervision of investment firms and the protection of clients of investment firms, auditors should carry out their verification impartially and report promptly to the competent authorities those facts which can have a serious effect on the financial situation of an investment firm or on its administrative and accounting organisation.

- (17) For the purposes of this Directive, personal data should be processed in accordance with Regulation (EU) 2016/679 of the European Parliament and of the Council<sup>1</sup>, and with Regulation (EU) 2018/1725 of the European Parliament and of the Council<sup>2</sup>. In particular, where this Directive allows for exchanges of personal data with third countries, the relevant provisions of Chapter V of Regulation (EU) 2016/679 and Chapter V of Regulation (EU) 2018/1725 should apply.
- (18) To safeguard compliance with the obligations laid down in this Directive and Regulation (EU) 2019/... of the European Parliament and of the Council<sup>3+</sup>, Member States should provide for administrative sanctions and other administrative measures which are effective, proportionate and dissuasive. In order to ensure that administrative sanctions have a dissuasive effect they should be published except in certain well-defined circumstances. To enable clients and investors to make an informed decision about their investment options, those clients and investors should have access to information on administrative sanctions and other administrative measures imposed on investment firms.

- (19) To detect breaches of national provisions transposing this Directive and breaches of Regulation (EU) 2019/...<sup>+</sup>, Member States should have the necessary investigatory powers and should establish effective and rapid mechanisms to report potential or actual breaches.
- (20) Investment firms which are not considered to be small and non-interconnected should have available internal capital which is adequate in quantity, quality and distribution to cover the specific risks to which they are or may be exposed. Competent authorities should ensure that investment firms have adequate strategies and processes in place to assess and maintain the adequacy of their internal capital. Competent authorities should also be able to request small and non-interconnected investment firms to apply similar requirements where appropriate.
- (21) Supervisory review and evaluation powers should continue to remain an important regulatory tool that allows competent authorities to assess qualitative elements, including internal governance and controls, risk management processes and procedures and, where needed, to set additional requirements, including in particular in relation to own funds and liquidity requirements, in particular for investment firms which are not considered to be small and non-interconnected, and where the competent authority deems it to be justified and appropriate also for small and non-interconnected investment firms.

- (22) The principle of equal pay for male and female workers for equal work or work of equal value is laid down in Article 157 of the Treaty on the Functioning of the European Union (TFEU). That principle should be applied in a consistent manner by investment firms. To align remuneration with the risk profile of investment firms and to guarantee a level playing field, investment firms should be subject to clear principles with regard to corporate governance arrangements and remuneration rules, which are gender neutral and which take into account the differences between credit institutions and investment firms. Small and non-interconnected investment firms should, however, be exempt from those rules because the provisions on remuneration and corporate governance laid down in Directive 2014/65/EU are sufficiently comprehensive for those types of investment firms.
- (23) Similarly, the Commission report of 28 July 2016 on the assessment of the remuneration rules under Directive 2013/36/EU and Regulation (EU) No 575/2013 demonstrated that the requirements on deferral and pay-out in instruments laid down in Directive 2013/36/EU are not appropriate for small and non-complex investment firms or for staff with low levels of variable remuneration. Clear, consistent and harmonised criteria for identifying investment firms and individuals that are exempt from those requirements are necessary to ensure supervisory convergence and a level playing field. Given the important role that high earners play in directing the business and long-term performance of investment firms, effective oversight of the remuneration practices and trends relating to high earners should be ensured. Therefore, competent authorities should be able to monitor the remuneration of high earners.

- (24) It is also appropriate to offer some flexibility to investment firms in the way investment firms use non-cash instruments to pay variable remuneration, provided that such instruments are effective in achieving the objective of aligning the interests of staff with the interests of various stakeholders, such as shareholders and creditors, and contribute to the alignment of variable remuneration with the risk profile of the investment firm.
- (25) The revenues of investment firms in the form of fees, commissions and other revenues in relation to the provision of different investment services are highly volatile. Limiting the variable component of remuneration to a portion of the fixed component of remuneration would affect the investment firm's ability to reduce remuneration at times of reduced revenues and could lead to an increase of the investment firm's fixed cost base, leading in turn to risks to the investment firm's ability to withstand times of economic downturn or reduced revenues. To avoid those risks, a single maximum ratio between the variable and the fixed components of remuneration should not be imposed on non-systemic investment firms. Instead, those investment firms should set appropriate ratios themselves. However, this Directive should not preclude Member States from implementing measures in national law designed to subject investment firms to stricter requirements with regard to the maximum ratio between the variable and the fixed components of the remuneration. Moreover, this Directive should not prevent Member States from imposing such a maximum ratio on all or on specific types of investment firms.
- (26) This Directive should not prevent Member States from adopting a stricter approach with regard to the remuneration when investment firms receive extraordinary public financial support.

- (27) Different governance structures are used across Member States. In most cases a unitary or a dual-board structure is used. The definitions laid down in this Directive are intended to embrace all existing structures without expressing a preference for any particular structure. They are purely functional for the purpose of setting out rules aimed at a particular outcome irrespective of the national company law applicable to an institution in each Member State. The definitions should therefore not interfere with the general allocation of competences in accordance with national company law.
- (28) Management bodies should be understood to have executive and supervisory functions. The competence and structure of management bodies differ across Member States. In Member States where management bodies have a one-tier structure, a single board usually performs management and supervisory tasks. In Member States with a two-tier system, the supervisory function is performed by a separate supervisory board which has no executive functions and the executive function is performed by a separate management board which is responsible and accountable for the day-to-day management of the undertaking. Accordingly, separate tasks are assigned to the different entities within the management body.
- (29) In response to the growing public demand for tax transparency, and to promote investment firms' corporate responsibility, it is appropriate to require that, unless they qualify as small and non-interconnected, investment firms disclose, on an annual basis, certain information, including information on profits made, taxes paid and any public subsidies received.

- (30) To address risks at investment firm only group level, the prudential consolidation method required by Regulation (EU) 2019/...<sup>+</sup> should in the case of investment firm only groups be accompanied by a group capital test for simpler group structures. The determination of the group supervisor, however, should in both cases be based on the same principles that apply in the case of supervision on a consolidated basis under Directive 2013/36/EU. To ensure proper cooperation, core elements of coordination measures, and in particular information requirements in emergency situations or cooperation and coordination arrangements should be similar to the core elements of coordination applicable in the context of the single rulebook for credit institutions.
- (31) The Commission should be able to submit recommendations to the Council for the negotiation of agreements between the Union and third countries for the practical exercise of supervision of compliance with the group capital test for investment firms, the parent undertakings of which are established in third countries, and for investment firms operating in third countries the parent undertakings of which are established in the Union. Moreover, Member States and EBA should also be able to set-up cooperation arrangements with third countries to perform their supervisory tasks.

- (32) In order to ensure legal certainty and avoid overlaps between the current prudential framework applicable to both credit institutions and investment firms and this Directive, Regulation (EU) No 575/2013 and Directive 2013/36/EU should be amended in order to remove investment firms from their scope. However, investment firms which are part of a banking group should remain subject to those provisions in Regulation (EU) No 575/2013 and Directive 2013/36/EU which are relevant to the banking group, such as the rules on prudential consolidation set out in Articles 11 to 24 of Regulation (EU) No 575/2013 and the provisions on the intermediate EU parent undertaking referred to in Article 21b of Directive 2013/36/EU.
- (33) It is necessary to specify the steps that undertakings need to take to verify whether they fall under the definition of a credit institution as set out in point (1)(b) of Article 4(1) of Regulation (EU) No 575/2013 and therefore need to obtain authorisation as a credit institution. Because certain investment firms already carry out the activities listed in points (3) and (6) of Section A of Annex I to Directive 2014/65/EU, it is also necessary to ensure clarity regarding the continuity of any authorisation granted for those activities. In particular, it is essential that competent authorities ensure that the transition from the current framework to the new one offers sufficient regulatory certainty for investment firms.
- (34) To ensure effective supervision, it is important that undertakings that meet the conditions set out in point (1)(b) of Article 4(1) of Regulation (EU) No 575/2013 apply for an authorisation as a credit institution. Competent authorities should therefore have the possibility to apply sanctions to undertakings that do not apply for that authorisation.

- (35) The amendment to the definition of ‘credit institution’ in Regulation (EU) No 575/2013 by Regulation (EU) 2019/...<sup>+</sup> may cover, from the entry into force of the latter, investment firms that are already operating on the basis of an authorisation issued in accordance with Directive 2014/65/EU. Those undertakings should be allowed to continue operating under their authorisation as investment firms until the authorisation of a credit institution is granted. Those investment firms should submit an application for authorisation as a credit institution at the latest when the average of their monthly total assets is equal to or exceeds any of the thresholds set out in point (1)(b) of Article 4(1) of Regulation (EU) No 575/2013 over a period of 12 consecutive months. Where investment firms meet any of the thresholds set out in point (1)(b) of Article 4(1) of Regulation (EU) No 575/2013 as from the date of entry into force of this Directive, the average of their monthly total assets should be calculated taking into account the 12 consecutive months preceding that date. Those investment firms should apply for authorisation as a credit institution within one year and one day after the entry into force of this Directive.
- (36) The amendment to the definition of ‘credit institution’ in Regulation (EU) No 575/2013 by Regulation (EU) 2019/...<sup>+</sup> may also affect undertakings which have already applied for authorisation as investment firms under Directive 2014/65/EU and for which the application is still pending. Such applications should be transferred to the competent authorities under Directive 2013/36/EU and be treated in accordance with the authorisation provisions set out in that Directive if the envisaged total assets of the undertaking are equal to or exceed any of the thresholds set out in point (1)(b) of Article 4(1) of Regulation (EU) No 575/2013.

---

<sup>+</sup> OJ: Please insert in the text the number of the Regulation contained in document PE- CONS 80/19 (2017/0359(COD)).

- (37) Undertakings referred to in point (1)(b) of Article 4(1) of Regulation (EU) No 575/2013 should also be subject to all the requirements for access to the activity of credit institutions laid down in Title III of Directive 2013/36/EU, including the provisions on the withdrawal of authorisation in accordance with Article 18 of that Directive. Article 18 of that Directive should, however, be amended to ensure that competent authorities are able to withdraw the authorisation granted to a credit institution where that credit institution uses its authorisation exclusively to engage in the activities referred to in point (1)(b) of Article 4(1) of Regulation (EU) No 575/2013 and has, for a period of five consecutive years, average total assets below the thresholds set out in that point.
- (38) Pursuant to Article 39 of Directive 2014/65/EU, third-country firms providing financial services in the Union are subject to national regimes which may require the establishment of a branch in a Member State. To facilitate the regular monitoring and assessment of activities carried out by third-country firms through branches in the Union, competent authorities should be informed about the scale and scope of the services and activities carried out through branches in their territory.

- (39) Specific cross-references in Directives 2009/65/EC<sup>1</sup>, 2011/61/EU<sup>2</sup> and 2014/59/EU<sup>3</sup> of the European Parliament and of the Council to the provisions of Regulation (EU) No 575/2013 and Directive 2013/36/EU, which no longer apply to investment firms from the date of application of this Directive and of Regulation (EU) 2019/...<sup>+</sup>, should be construed as references to the corresponding provisions in this Directive and in Regulation (EU) 2019/...<sup>+</sup>.
- (40) EBA, in cooperation with ESMA, has issued a report based on thorough background analysis, data collection and consultation for a bespoke prudential regime for all non-systemic investment firms, which serves as the basis for the revised prudential framework for investment firms.

(41) To ensure the harmonised application of this Directive, EBA should develop draft regulatory technical standards to further specify the criteria to subject certain investment firms to Regulation (EU) No 575/2013, to specify the information which the competent authorities of home Member States and of host Member States should exchange in the context of supervision, to set out how investment firms should assess the size of their activities for the purposes of internal governance requirements and, in particular, to assess whether they constitute small and non-interconnected investment firms. Regulatory technical standards should also specify the categories of staff whose professional activities have a material impact on the risk profile of firms for the purposes of remuneration provisions, and specify the Additional Tier 1 and Tier 2 instruments which qualify as variable remuneration. Finally, regulatory technical standards should specify the elements for the assessment of specific liquidity risks, the application of additional own funds requirements by competent authorities, and the functioning of the colleges of supervisors. The Commission should supplement this Directive by adopting the regulatory technical standards developed by EBA by means of delegated acts pursuant to Article 290 TFEU and in accordance with Articles 10 to 14 of Regulation (EU) No 1093/2010. The Commission and EBA should ensure that those regulatory technical standards can be applied by all investment firms concerned in a manner that is proportionate to the nature, scale and complexity of those investment firms and their activities.

- (42) The Commission should also be empowered to adopt implementing technical standards developed by EBA regarding information sharing between competent authorities and publication requirements of competent authorities and implementing technical standards developed by ESMA by means of implementing acts pursuant to Article 291 TFEU and in accordance with Article 15 of Regulation (EU) No 1093/2010 and Article 15 of Regulation (EU) No 1095/2010.
- (43) In order to ensure the uniform application of this Directive and to take account of developments in financial markets, the power to adopt acts in accordance with Article 290 TFEU should be delegated to the Commission to supplement this Directive by clarifying the definitions in this Directive, the internal capital and risk assessments of investment firms, and the supervisory review and evaluation powers of competent authorities. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level, and that those consultations be conducted in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making<sup>1</sup>. In particular, to ensure equal participation in the preparation of delegated acts, the European Parliament and the Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.

<sup>1</sup> OJ L 123, 12.5.2016, p. 1.

- (44) Since the objective of this Directive, namely to set up an effective and proportionate prudential framework to ensure that investment firms authorised to operate within the Union operate on a sound financial basis and are managed in an orderly way, including in the best interests of their clients, cannot be sufficiently achieved by the Member States but can rather, by reason of its scale and effects, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality as set out in that Article, this Directive does not go beyond what is necessary in order to achieve that objective.
- (45) In accordance with the Joint Political Declaration of 28 September 2011 of Member States and the Commission on explanatory documents<sup>1</sup>, Member States have undertaken to accompany, in justified cases, the notification of their transposition measures with one or more documents explaining the relationship between the components of a directive and the corresponding parts of national transposition instruments. With regard to this Directive, the legislator considers the transmission of such documents to be justified,

HAVE ADOPTED THIS DIRECTIVE:

- (j) the remuneration policy, taking into account national rules on wage setting, makes a clear distinction between the criteria applied to determine the following:
    - (i) basic fixed remuneration, which primarily reflects relevant professional experience and organisational responsibility as set out in an employee's job description as part of his or her terms of employment;
    - (ii) variable remuneration, which reflects a sustainable and risk adjusted performance of the employee, as well as performance in excess of the employee's job description;
  - (k) the fixed component represents a sufficiently high proportion of the total remuneration so as to enable the operation of a fully flexible policy on variable remuneration components, including the possibility of paying no variable remuneration component.
2. For the purposes of point (k) of paragraph 1, Member States shall ensure that investment firms set the appropriate ratios between the variable and the fixed component of the total remuneration in their remuneration policies, taking into account the business activities of the investment firm and associated risks, as well as the impact that different categories of staff referred to in paragraph 1 have on the risk profile of the investment firm.
  3. Member States shall ensure that investment firms establish and apply the principles referred to in paragraph 1 in a manner that is appropriate to their size and internal organisation and to the nature, scope and complexity of their activities.

- (f) payments relating to the early termination of an employment contract reflect performance achieved over time by the individual and shall not reward failure or misconduct;
- (g) remuneration packages relating to compensation or buy out from contracts in previous employment are aligned with the long-term interests of the investment firm;
- (h) the measurement of performance used as a basis to calculate pools of variable remuneration takes into account all types of current and future risks and the cost of the capital and liquidity required in accordance with Regulation (EU) 2019/...<sup>+</sup>;

---

<sup>+</sup> OJ: Please insert in the text the number of the Regulation contained in document PE- CONS 80/19 (2017/0359(COD)).

- (i) the allocation of the variable remuneration components within the investment firm takes into account all types of current and future risks;
- (j) at least 50 % of the variable remuneration consists of any of the following instruments:

  - (ii) share-linked instruments or equivalent non-cash instruments, subject to the legal structure of the investment firm concerned;
  - (iii) Additional Tier 1 instruments or Tier 2 instruments or other instruments which can be fully converted to Common Equity Tier 1 instruments or written down and that adequately reflect the credit quality of the investment firm as a going concern;
  - (iv) non-cash instruments which reflect the instruments of the portfolios managed;
- (k) by way of derogation from point (j), where an investment firm does not issue any of the instruments referred to in that point, competent authorities may approve the use of alternative arrangements fulfilling the same objectives;

- (l) at least 40 % of the variable remuneration is deferred over a three- to five-year period as appropriate, depending on the business cycle of the investment firm, the nature of its business, its risks and the activities of the individual in question, except in the case of variable remuneration of a particularly high amount where the proportion of the variable remuneration deferred is at least 60 %;
- (m) up to 100 % of the variable remuneration is contracted where the financial performance of the investment firm is subdued or negative, including through *malus* or clawback arrangements subject to criteria set by investment firms which in particular cover situations where the individual in question:

  - (ii) is no longer considered fit and proper;
- (n) discretionary pension benefits are in line with the business strategy, objectives, values and long-term interests of the investment firm.

(b) variable remuneration is not paid through financial vehicles or methods that facilitate non-compliance with this Directive or with Regulation (EU) 2019/...<sup>+</sup>.

3. For the purposes of point (j) of paragraph 1, the instruments referred to therein shall be subject to an appropriate retention policy designed to align the incentives of the individual with the longer-term interests of the investment firm, its creditors and clients. Member States or their competent authorities may place restrictions on the types and designs of those instruments or prohibit the use of certain instruments for variable remuneration.

For the purposes of point (l) of paragraph 1, the deferral of the variable remuneration shall vest no faster than on a pro-rata basis.

For the purposes of point (n) of paragraph 1, where an employee leaves the investment firm before retirement age, discretionary pension benefits shall be held by the investment firm for a period of five years in the form of instruments referred to in point (j). Where an employee reaches retirement age and retires, discretionary pension benefits shall be paid to the employee in the form of instruments referred to in point (j), subject to a five-year retention period.

4. Points (j) and (l) of paragraph 1 and the third subparagraph of paragraph 3 shall not apply to:

  - (b) an individual whose annual variable remuneration does not exceed EUR 50 000 and does not represent more than one fourth of that individual's total annual remuneration.
5. By way of derogation from point (a) of paragraph 4, a Member State may increase the threshold referred to in that point, provided that the investment firm meets the following criteria:
- (a) the investment firm is not, in the Member State in which it is established, one of the three largest investment firms in terms of total value of assets;
  - (b) the investment firm is not subject to obligations or is subject to simplified obligations in relation to recovery and resolution planning in accordance with Article 4 of Directive 2014/59/EU;

  - (e) the threshold does not exceed EUR 300 million; and
  - (f) it is appropriate to increase the threshold, taking into account the nature and scope of the investment firm's activities, its internal organisation, and, where applicable, the characteristics of the group to which it belongs.
6. By way of derogation from point (a) of paragraph 4, a Member State may lower the threshold referred to in that point, provided that it is appropriate to do so, taking into account the nature and scope of the investment firm's activities, its internal organisation, and, where applicable, the characteristics of the group to which it belongs.
7. By way of derogation from point (b) of paragraph 4, a Member State may decide that staff members who are entitled to annual variable remuneration below the threshold and share referred to in that point shall not be subject to the exemption set out therein because of national market specificities in terms of remuneration practices or because of the nature of the responsibilities and job profile of those staff members.
8. EBA, in consultation with ESMA, shall develop draft regulatory technical standards to specify the classes of instruments that satisfy the conditions set out in point (j)(iii) of paragraph 1 and to specify possible alternative arrangements set out in point (k) of paragraph 1.

EBA shall submit those draft regulatory technical standards to the Commission by ... [18 months after the date of entry into force of this Directive].

Power is delegated to the Commission to supplement this Directive by adopting the regulatory technical standards referred to in the first subparagraph in accordance with Articles 10 to 14 of Regulation (EU) No 1093/2010.

9. EBA, in consultation with ESMA, shall adopt guidelines facilitating the implementation of paragraphs 4, 5 and 6 and ensuring their consistent application.

### *Article 33*

#### *Remuneration committee*

1. Member States shall ensure that investment firms which do not meet the criteria set out in point (a) of Article 32(4) establish a remuneration committee. That remuneration committee shall be gender balanced and shall exercise competent and independent judgment on remuneration policies and practices and the incentives created for managing risk, capital and liquidity. The remuneration committee may be established at group level.

2. Member States shall ensure that the remuneration committee is responsible for the preparation of decisions regarding remuneration, including decisions which have implications for the risk and risk management of the investment firm concerned and which are to be taken by the management body. The Chair and the members of the remuneration committee shall be members of the management body who do not perform any executive function in the investment firm concerned. Where employee representation in the management body is provided for by national law, the remuneration committee shall include one or more employee representatives.
3. When preparing the decisions referred to in paragraph 2, the remuneration committee shall take into account the public interest and the long-term interests of shareholders, investors and other stakeholders in the investment firm.

#### *Article 34*

#### *Oversight of remuneration policies*

1. Member States shall ensure that competent authorities collect the information disclosed in accordance with points (c) and (d) of the first subparagraph of Article 51 of Regulation (EU) 2019/...<sup>+</sup> as well as the information provided by investment firms on the gender pay gap and use that information to benchmark remuneration trends and practices.

Competent authorities shall provide that information to EBA.

---

<sup>+</sup> OJ: Please insert in the text the number of the Regulation contained in document PE- CONS 80/19 (2017/0359(COD)).

2. EBA shall use information received from the competent authorities in accordance with paragraphs 1 and 4 to benchmark remuneration trends and practices at Union level.
3. EBA, in consultation with ESMA, shall issue guidelines on the application of sound remuneration policies. Those guidelines shall take into account at least the requirements referred to in Articles 30 to 33 and principles on sound remuneration policies set out in Recommendation 2009/384/EC.
4. Member States shall ensure that investment firms provide competent authorities with information on the number of natural persons per investment firm that are remunerated EUR 1 million or more per financial year, in pay brackets of EUR 1 million, including information on their job responsibilities, the business area involved and the main elements of salary, bonus, long-term award and pension contribution.

Member States shall ensure that investment firms provide competent authorities, upon demand, the total remuneration figures for each member of the management body or senior management.

Competent authorities shall forward the information referred to in the first and second subparagraphs to EBA, which shall publish it on an aggregate home Member State basis in a common reporting format. EBA, in consultation with ESMA, may issue guidelines to facilitate the implementation of this paragraph and to ensure the consistency of the information collected.

*Article 35*

*EBA report on environmental, social, and governance risks*

EBA shall prepare a report on the introduction of technical criteria related to exposures to activities associated substantially with environmental, social, and governance (ESG) objectives for the supervisory review and evaluation process, with a view to assessing the possible sources and effects of risks on investment firms, taking into account applicable Union legal acts in the field of ESG taxonomy.

The EBA report referred to in the first paragraph shall comprise at least the following:

- (a) a definition of ESG risks, including physical risks and transition risks related to the transition to a more sustainable economy, and, with regard to transition risks, including risks related to the depreciation of assets due to regulatory change, qualitative and quantitative criteria and metrics relevant for assessing such risks, as well as a methodology for assessing the possibility of such risks arising in the short, medium, or long term and the possibility of such risks having a material financial impact on an investment firm;
- (b) an assessment of the possibility of significant concentrations of specific assets increasing ESG risks, including physical risks and transition risks for an investment firm;
- (c) a description of the processes by means of which an investment firm can identify, assess, and manage ESG risks, including physical risks and transition risks;

- (d) the criteria, parameters and metrics by means of which supervisors and investment firms can assess the impact of short-, medium- and long-term ESG risks for the purposes of the supervisory review and evaluation process.

EBA shall submit the report on its findings to the European Parliament, to the Council, and to the Commission, by ... [two years after the date of entry into force of this Directive].

On the basis of that report, EBA may, if appropriate, adopt guidelines to introduce criteria related to ESG risks for the supervisory review and evaluation process that take into account the findings of the EBA report referred to in this Article.

### **SECTION 3**

#### **SUPERVISORY REVIEW AND EVALUATION PROCESS**

##### *Article 36*

##### *Supervisory review and evaluation*

1. Competent authorities shall review, to the extent relevant and necessary, taking into account the investment firm's size, risk profile and business model, the arrangements, strategies, processes and mechanisms implemented by investment firms to comply with this Directive and with Regulation (EU) 2019/...<sup>+</sup> and evaluate the following as appropriate and relevant, so as to ensure a sound management and coverage of their risks:
  - (a) the risks referred to in Article 29;

---

<sup>+</sup> OJ: Please insert in the text the number of the Regulation contained in document PE- CONS 80/19 (2017/0359(COD)).

- (b) the geographical location of an investment firm's exposures;
- (c) the business model of the investment firm;
- (d) the assessment of systemic risk, taking into account the identification and measurement of systemic risk under Article 23 of Regulation (EU) No 1093/2010 or recommendations of the ESRB;
- (e) the risks posed to the security of investment firms' network and information systems to ensure confidentiality, integrity and availability of their processes, data and assets;
- (f) the exposure of investment firms to the interest rate risk arising from non-trading book activities;
- (g) governance arrangements of investment firms and the ability of members of the management body to perform their duties.

For the purposes of this paragraph, competent authorities shall duly take into account whether investment firms hold a professional indemnity insurance.

2. Member States shall ensure that competent authorities establish the frequency and intensity of the review and evaluation referred to in paragraph 1, having regard to the size, nature, scale and complexity of the activities of the investment firms concerned and, where relevant, their systemic importance, and taking into account the principle of proportionality.

Competent authorities shall decide on a case-by-case basis whether and in which form the review and evaluation is to be carried out with regard to investment firms that meet the conditions for qualifying as small and non-interconnected investment firms set out in Article 12(1) of Regulation (EU) 2019/...<sup>+</sup>, only where they deem it to be necessary due to the size, nature, scale and complexity of the activities of those investment firms.

For the purposes of the first subparagraph, national law governing segregation applicable to client money held shall be considered.

3. When conducting the review and evaluation referred to in point (g) of paragraph 1, competent authorities shall have access to agendas, minutes and supporting documents for meetings of the management body and its committees, and the results of the internal or external evaluation of the performance of the management body.
4. The Commission is empowered to adopt delegated acts in accordance with Article 58 to supplement this Directive to ensure that the arrangements, strategies, processes and mechanisms of investment firms ensure a sound management and coverage of their risks. The Commission shall thereby take into account developments in financial markets, and in particular the emergence of new financial products, developments in accounting standards and developments that facilitate the convergence of supervisory practices.

---

<sup>+</sup> OJ: Please insert in the text the number of the Regulation contained in document PE- CONS 80/19 (2017/0359(COD)).

*Article 37*

*Ongoing review of the permission to use internal models*

1. Member States shall ensure that competent authorities review on a regular basis, and at least every three years, investment firms' compliance with the requirements for the permission to use internal models as referred to in Article 22 of Regulation (EU) 2019/...<sup>+</sup>. Competent authorities shall in particular have regard to changes in an investment firm's business and to the implementation of those internal models to new products, and review and assess whether the investment firm uses well-developed and up-to-date techniques and practices for those internal models. Competent authorities shall ensure that material deficiencies identified in the coverage of risk by an investment firm's internal models are rectified, or take steps to mitigate their consequences, including by imposing capital add-ons or higher multiplication factors.
2. Where, for internal risk-to-market models, numerous overshootings as referred to in Article 366 of Regulation (EU) No 575/2013 indicate that the internal models are not or are no longer accurate, competent authorities shall revoke the permission to use the internal models or impose appropriate measures to ensure that the internal models are improved promptly within a set timeframe.

---

<sup>+</sup> OJ: Please insert in the text the number of the Regulation contained in document PE- CONS 80/19 (2017/0359(COD)).

3. Where an investment firm that has been granted permission to use internal models no longer meets the requirements for applying those internal models, competent authorities shall require the investment firm either to demonstrate that the effect of non-compliance is immaterial or to present a plan and a deadline to comply with those requirements. Competent authorities shall require improvements to the presented plan where that plan is unlikely to result in full compliance or where the deadline is inappropriate.

Where it is unlikely that the investment firm will comply by the prescribed deadline or has not satisfactorily demonstrated that the effect of non-compliance is immaterial, Member States shall ensure that competent authorities revoke the permission to use internal models or limit it to compliant areas or to those areas where compliance can be achieved by an appropriate deadline.

4. EBA shall analyse internal models across investment firms and shall analyse how investment firms using internal models treat similar risks or exposures. It shall inform ESMA thereof.

In order to promote consistent, efficient and effective supervisory practices, EBA shall, on the basis of that analysis and in accordance with Article 16 of Regulation (EU) No 1093/2010, develop guidelines with benchmarks on how investment firms are to use internal models and how those internal models are to be applied to similar risks or exposures.

Member States shall encourage competent authorities to take into account that analysis and those guidelines for the review referred to in paragraph 1.

## SECTION 4 SUPERVISORY MEASURES AND POWERS

### *Article 38* *Supervisory measures*

Competent authorities shall require investment firms to take, at an early stage, the measures necessary to address the following problems:

- (a) an investment firm does not meet the requirements of this Directive or of Regulation (EU) 2019/...<sup>+</sup>;
- (b) competent authorities have evidence that an investment firm is likely to breach the national provisions transposing this Directive or the provisions of Regulation (EU) 2019/...<sup>+</sup> within the next 12 months.

---

<sup>+</sup> OJ: Please insert in the text the number of the Regulation contained in document PE- CONS 80/19 (2017/0359(COD)).

*Article 39*  
*Supervisory powers*

1. Member States shall ensure that competent authorities have the necessary supervisory powers to intervene in the exercise of their functions into the activity of investment firms in an effective and proportionate way.
2. For the purposes of Article 36, Article 37(3) and Article 38 and of the application of Regulation (EU) 2019/...<sup>+</sup>, competent authorities shall have the following powers:
  - (a) to require investment firms to have own funds in excess of the requirements set out in Article 11 of Regulation (EU) 2019/...<sup>+</sup>, under the conditions laid down in Article 40 of this Directive, or to adjust the own funds and liquid assets required in case of material changes in the business of those investment firms;
  - (b) to require the reinforcement of the arrangements, processes, mechanisms and strategies implemented in accordance with Articles 24 and 26;
  - (c) to require investment firms to present, within one year, a plan to restore compliance with supervisory requirements pursuant to this Directive and to Regulation (EU) 2019/...<sup>+</sup>, to set a deadline for the implementation of that plan and require improvements to that plan regarding scope and deadline;
  - (d) to require investment firms to apply a specific provisioning policy or treatment of assets in terms of own funds requirements;

---

<sup>+</sup> OJ: Please insert in the text the number of the Regulation contained in document PE- CONS 80/19 (2017/0359(COD)).

- (e) to restrict or limit the business, operations or network of investment firms or to request the divestment of activities that pose excessive risks to the financial soundness of an investment firm;
- (f) to require the reduction of the risk inherent in the activities, products and systems of investment firms, including outsourced activities;
- (g) to require investment firms to limit variable remuneration as a percentage of net revenues where that remuneration is inconsistent with the maintenance of a sound capital base;
- (h) to require investment firms to use net profits to strengthen own funds;
- (i) to restrict or prohibit distributions or interest payments by an investment firm to shareholders, members or holders of Additional Tier 1 instruments where that restriction or prohibition does not constitute an event of default of the investment firm;
- (j) to impose additional or more frequent reporting requirements to those set out in this Directive and Regulation (EU) 2019/...<sup>+</sup>, including reporting on capital and liquidity positions;
- (k) to impose specific liquidity requirements in accordance with Article 42;
- (l) to require additional disclosures;

---

<sup>+</sup> OJ: Please insert in the text the number of the Regulation contained in document PE- CONS 80/19 (2017/0359(COD)).

- (m) to require investment firms to reduce the risks posed to the security of investment firms' network and information systems to ensure confidentiality, integrity and availability of their processes, data and assets;
3. For the purposes of point (j) of paragraph 2, competent authorities may only impose additional or more frequent reporting requirements on investment firms where the information to be reported is not duplicative and one of the following conditions is met:
- (a) one of the cases referred to in points (a) and (b) of Article 38 applies;
  - (b) the competent authority considers it to be necessary to gather the evidence referred to in point (b) of Article 38;
  - (c) the additional information is required for the purpose of the supervisory review and evaluation process referred to in Article 36.

Information shall be deemed to be duplicative where the competent authority already has the same or substantially the same information, where that information is capable of being produced by the competent authority or of being obtained by the same competent authority through other means than a requirement on the investment firm to report it. A competent authority shall not require additional information where the information is available to the competent authority in a different format or level of granularity than the additional information to be reported and that different format or granularity does not prevent it from producing substantially similar information.

*Article 40*

*Additional own funds requirement*

1. Competent authorities shall impose the additional own funds requirement referred to in point (a) of Article 39(2) only where, on the basis of the reviews carried out in accordance with Articles 36 and 37, they ascertain any of the following situations for an investment firm:
  - (a) the investment firm is exposed to risks or elements of risks, or poses risks to others that are material and are not covered or not sufficiently covered by the own funds requirement, and especially K-factor requirements, set out in Part Three or Four of Regulation (EU) 2019/...<sup>+</sup>;
  - (b) the investment firm does not meet the requirements set out in Articles 24 and 26 and other supervisory measures are unlikely to sufficiently improve the arrangements, processes, mechanisms and strategies within an appropriate timeframe;
  - (c) the adjustments in relation to the prudent valuation of the trading book are insufficient to enable the investment firm to sell or hedge out its positions within a short period without incurring material losses under normal market conditions;
  - (d) the review carried out in accordance with Article 37 shows that non-compliance with the requirements for the application of the permitted internal models will likely lead to inadequate levels of capital;

---

<sup>+</sup> OJ: Please insert in the text the number of the Regulation contained in document PE- CONS 80/19 (2017/0359(COD)).

(e) the investment firm repeatedly fails to establish or maintain an adequate level of additional own funds as set out in Article 41.

2. For the purposes of point (a) of paragraph 1 of this Article, risks or elements of risks shall be considered not to be covered or to be insufficiently covered by the own funds requirements set out in Parts Three and Four of Regulation (EU) 2019/...<sup>+</sup> only where the amounts, types and distribution of capital considered adequate by the competent authority following the supervisory review of the assessment carried out by investment firms in accordance with Article 24(1) of this Directive are higher than the investment firm's own funds requirement set out in Part Three or Four of Regulation (EU) 2019/...<sup>+</sup>.

For the purposes of the first subparagraph, the capital considered to be adequate may include risks or elements of risks that are explicitly excluded from the own funds requirement set out in Part Three or Four of Regulation (EU) 2019/...<sup>+</sup>.

3. Competent authorities shall determine the level of the additional own funds required pursuant to point (a) of Article 39(2) as the difference between the capital considered adequate pursuant to paragraph 2 of this Article and the own funds requirement set out in Part Three or Four of Regulation (EU) 2019/...<sup>+</sup>.

---

<sup>+</sup> OJ: Please insert in the text the number of the Regulation contained in document PE- CONS 80/19 (2017/0359(COD)).

4. Competent authorities shall require investment firms to meet the additional own funds requirement referred to in point (a) of Article 39(2) with own funds subject to the following conditions:
  - (a) at least three quarters of the additional own funds requirement is met with Tier 1 capital;
  - (b) at least three quarters of the Tier 1 capital is composed of Common Equity Tier 1 capital;
  - (c) those own funds are not used to meet any of the own funds requirements set out in points (a), (b) and (c) of Article 11(1) of Regulation (EU) 2019/...<sup>+</sup>.
5. Competent authorities shall substantiate in writing their decision to impose an additional own funds requirement as referred to in point (a) of Article 39(2) by giving a clear account of the full assessment of the elements referred to in paragraphs 1 to 4 of this Article. That includes, in the case set out in point (d) of paragraph 1 of this Article, a specific statement of why the level of capital established in accordance with Article 41(1) is no longer considered sufficient.
6. EBA, in consultation with ESMA, shall develop draft regulatory technical standards to specify how the risks and elements of risks referred to in paragraph 2 are to be measured, including risks or elements of risks that are explicitly excluded from the own funds requirements set out in Part Three or Four of Regulation (EU) 2019/...<sup>+</sup>.

---

<sup>+</sup> OJ: Please insert in the text the number of the Regulation contained in document PE- CONS 80/19 (2017/0359(COD)).

EBA shall ensure that the draft regulatory technical standards include indicative qualitative metrics for the amounts of additional own funds referred to in point (a) of Article 39(2), taking into account the range of different business models and legal forms that investment firms may take, and are proportionate in light of:

- (a) the implementation burden on investment firms and competent authorities;
- (b) the possibility that the higher level of own funds requirements that apply where investment firms do not use internal models justifies the imposition of lower own funds requirements when assessing risks and elements of risks in accordance with paragraph 2.

EBA shall submit those draft regulatory technical standards to the Commission by... [18 months after the date of entry into force of this Directive].

Power is delegated to the Commission to supplement this Directive by adopting the regulatory technical standards referred to in the first subparagraph in accordance with Articles 10 to 14 of Regulation (EU) No 1093/2010.

7. Competent authorities may impose an additional own funds requirement in accordance with paragraphs 1 to 6 on investment firms that meet the conditions for qualifying as small and non-interconnected investment firms set out in Article 12(1) of Regulation (EU) 2019/...<sup>+</sup> on the basis of a case-by-case assessment and where the competent authority deems it to be justified.

---

<sup>+</sup> OJ: Please insert in the text the number of the Regulation contained in document PE- CONS 80/19 (2017/0359(COD)).

*Article 41*

*Guidance on additional own funds*

1. Taking into account the principle of proportionality and commensurate with the size, systemic importance, nature, scale and complexity of activities of investment firms that do not meet the conditions for qualifying as small and non-interconnected investment firms set out in Article 12(1) of Regulation (EU) 2019/...<sup>+</sup>, competent authorities may require such investment firms to have levels of own funds which, based on Article 24, are sufficiently above the requirements set out in Part Three of Regulation (EU) 2019/...<sup>+</sup> and in this Directive, including the additional own funds requirements referred to in point (a) of Article 39(2), to ensure that cyclical economic fluctuations do not lead to a breach of those requirements or threaten the ability of the investment firm to wind down and cease activities in an orderly manner;
2. Competent authorities shall, where appropriate, review the level of own funds that has been set by each investment firm that does not meet the conditions for qualifying as a small and non-interconnected investment firm set out in Article 12(1) of Regulation (EU) 2019/...<sup>+</sup>, in accordance with paragraph 1 of this Article and, where relevant, shall communicate the conclusions of that review to the investment firm concerned, including any expectation for adjustments to the level of own funds established in accordance with paragraph 1 of this Article. Such a communication shall include the date by which the competent authority requires the adjustment to be completed.

---

<sup>+</sup> OJ: Please insert in the text the number of the Regulation contained in document PE- CONS 80/19 (2017/0359(COD)).

*Article 42*

*Specific liquidity requirements*

1. Competent authorities shall impose the specific liquidity requirements referred to in point (k) of Article 39(2) of this Directive only where, on the basis of the reviews carried out in accordance with Articles 36 and 37 of this Directive, they conclude that an investment firm that does not meet the conditions for qualifying as a small and non-interconnected investment firm set out in Article 12(1) of Regulation (EU) 2019/...<sup>+</sup> or that meets the conditions set out in Article 12(1) of Regulation (EU) 2019/...<sup>+</sup> but has not been exempted from liquidity requirement in accordance with Article 43(1) of Regulation (EU) 2019/...<sup>+</sup> is in one of the following situations:
  - (a) the investment firm is exposed to liquidity risk or elements of liquidity risk that are material and are not covered or not sufficiently covered by the liquidity requirement set out in Part Five of Regulation (EU) 2019/...<sup>+</sup>;
  - (b) the investment firm does not meet the requirements set out in Articles 24 and 26 of this Directive and other administrative measures are unlikely to sufficiently improve the arrangements, processes, mechanisms and strategies within an appropriate timeframe.

---

<sup>+</sup> OJ: Please insert in the text the number of the Regulation contained in document PE- CONS 80/19 (2017/0359(COD)).

2. For the purposes of point (a) of paragraph 1 of this Article, liquidity risk or elements of liquidity risk shall be considered not to be covered or to be insufficiently covered by the liquidity requirement set out in Part Five of Regulation (EU) 2019/...<sup>+</sup> only where the amounts and types of liquidity considered adequate by the competent authority following the supervisory review of the assessment carried out by investment firms in accordance with Article 24(1) of this Directive are higher than the investment firm's liquidity requirement set out in Part Five of Regulation (EU) 2019/...<sup>+</sup>.
3. Competent authorities shall determine the level of the specific liquidity required pursuant to point (k) of Article 39(2) of this Directive as the difference between the liquidity considered adequate pursuant to paragraph 2 of this Article and the liquidity requirement set out in Part Five of Regulation (EU) 2019/...<sup>+</sup>.
4. Competent authorities shall require investment firms to meet the specific liquidity requirements referred to in point (k) of Article 39(2) of this Directive with liquid assets as set out in Article 43 of Regulation (EU) 2019/...<sup>+</sup>.
5. Competent authorities shall substantiate in writing their decision to impose a specific liquidity requirement as referred to in point (k) of Article 39(2) by giving a clear account of the full assessment of the elements referred to in paragraphs 1 to 3 of this Article.

---

<sup>+</sup> OJ: Please insert in the text the number of the Regulation contained in document PE- CONS 80/19 (2017/0359(COD)).

6. EBA, in consultation with ESMA, shall develop draft regulatory technical standards to specify in a manner that is appropriate to the size, the structure and the internal organisation of investment firms and the nature, scope and complexity of their activities how the liquidity risk and elements of liquidity risk referred to in paragraph 2 are to be measured.

EBA shall submit those draft regulatory technical standards to the Commission by ... [18 months after the date of entry into force of this Directive].

Power is delegated to the Commission to supplement this Directive by adopting the regulatory technical standards referred to in the first subparagraph in accordance with Articles 10 to 14 of Regulation (EU) No 1093/2010.

#### *Article 43*

##### *Cooperation with resolution authorities*

Competent authorities shall notify the relevant resolution authorities of any additional own funds requirement imposed pursuant to point (a) of Article 39(2) of this Directive for an investment firm that falls under the scope of Directive 2014/59/EU and about any expectation for adjustments as referred to in Article 41(2) of this Directive in respect to such investment firm.

*Article 44*  
*Publication requirements*

Member States shall ensure that the competent authorities have the power to:

##### *Article 46*

##### *Determination of the group supervisor*

1. Member States shall ensure that, where an investment firm group is headed by a Union parent investment firm, supervision on a consolidated basis or supervision of compliance with the group capital test is exercised by the competent authority of that Union parent investment firm.
2. Member States shall ensure that, where the parent undertaking of an investment firm is a Union parent investment holding company or a Union parent mixed financial holding company, supervision on a consolidated basis or supervision of compliance with the group capital test is exercised by the competent authority of that investment firm.

3. Member States shall ensure that, where two or more investment firms authorised in two or more Member States have the same Union parent investment holding company or the same Union parent mixed financial holding company, supervision on a consolidated basis or supervision of compliance with the group capital test is exercised by the competent authority of the investment firm authorised in the Member State in which the investment holding company or mixed financial holding company is established.
4. Member States shall ensure that, where the parent undertakings of two or more investment firms authorised in two or more Member States comprise more than one investment holding company or mixed financial holding company with head offices in different Member States and where there is an investment firm in each of those Member States, supervision on a consolidated basis or supervision of compliance with the group capital test shall be exercised by the competent authority of the investment firm with the largest balance sheet total.

In those cases, competent authorities shall, before adopting any such decision, give the Union parent investment holding company or Union parent mixed financial holding company or investment firm with the largest balance sheet total, as appropriate, an opportunity to state its opinion on that intended decision.
