The Committee approved the "I" items as set out in the Annex.

III. Discussion items

COREPER (PART 1)

Employment and Social Policy

2. Regulation on the European Globalisation Adjustment Fund (EGF)
Analysis of the final compromise text with a view to agreement

5043/1/21 REV 1
+ ADD 1 REV 1

The Committee endorsed the text of the final compromise, with the Commission supporting the agreement reached, and will inform the European Parliament.

Statement by Bulgaria

"The Republic of Bulgaria supports the continuation of the functioning of the European Globalisation Adjustment Fund as a flexible forward looking instrument providing assistance to displaced workers. That is why Bulgaria supported the general approach on the file and was constructive towards finalisation of the negotiations.

However, it should be noted that in 2018, the Bulgarian Constitutional Court adopted a decision stating that the Council of Europe's Convention on Preventing and Combatting Violence against Women and Domestic Violence ("Istanbul Convention") promotes legal concepts related to the notion of gender that are incompatible with main principles of the Bulgarian Constitution.

In line with the above mentioned Decision of the Constitutional Court, the Republic of Bulgaria declares that the country cannot accept either the concept of gender or the gender-based approach of the Council of Europe's Convention or any other document that intends to differentiate between "sex" as a biological (women and men) category and "gender" as a social construct.

Therefore, the country cannot support a *legally binding* act of the European Union that includes **gender identity** as used in Article 11 para 2 of the Regulation of the European Parliament and the Council on the European Globalisation Adjustment Fund. The Republic of Bulgaria also notes that the terminology used in Article 11 para 2 of the Regulation does not correspond to the content and the terminology of Article 10 of the TFEU and Article 21 of the Charter of Fundamental Rights of the European Union.

However, the position of the Republic of Bulgaria regarding the Regulation does not undermine in any way our support for the substance of the Fund and its objectives."

Statement by Hungary

"Equality between women and men is enshrined in the Treaties of the European Union as a fundamental right. Hungary ensures equality between women and men within the framework of its national legal system, in accordance with internationally binding human rights instruments and within the framework of fundamental values and principles of the European Union. For these reasons, Hungary will interpret expressions comprising the term "gender" within the Regulation as referring to or in the (narrow) context of the equality between women and men, in accordance with Article 8 of the TFEU. Furthermore, Hungary is convinced that concerning the application of the common output and result indicators, this legislative document is not the appropriate place to define the content of "gender". Therefore, Hungary believes that footnote 34 in Annex II should be applicable and refer to the term "gender" and the parenthesis as a whole, and not only one of the subcategories listed there. Bearing in mind the fact, that determining the content of the term "gender" falls under the exclusive competence of the Member States, footnote 34 of the proposal should be understood as referring to the term "gender" and not to the term "non-binary"."

Statement by Poland

"Równość kobiet i mężczyzn została zapisana w traktatach Unii Europejskiej jako podstawowe prawo. Polska zapewnia równość kobiet i mężczyzn w ramach polskiego krajowego systemu prawnego zgodnie z międzynarodowymi traktatami praw człowieka oraz w ramach podstawowych wartości i zasad Unii Europejskiej. Z tych powodów w wyrażeniach zawierających termin płeć (gender), Polska będzie interpretowała go w świetle równości kobiet i mężczyzn zgodnie z art. 8 TFUE."

"Equality between women and men is enshrined in the treaties of the European Union as a fundamental right. Poland ensures equality between women and men within the framework of the Polish national legal system in accordance with internationally binding human rights instruments and within the framework of fundamental values and principles of the European Union. For these reasons, in the expressions comprising term "gender" Poland will interpret it as the equality between women and men in accordance with the Article 8 of the TFEU."

Statement by the Slovak Republic

"The Slovak Republic recognizes and promotes equality between men and women in accordance with the Constitution of the Slovak Republic and primary law of the European Union. In this context, the Slovak Republic interprets „gender“ in the text of the Regulation as reference to men and women."

Statement by the Commission

"In the Inter-institutional Agreement between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management, as well as on new own resources, including a roadmap for the introduction of new own resources, Points 30 to 33 require the Commission to make available an integrated and interoperable information and monitoring system including a single data-mining and risk-scoring tool to access and analyse the required data with a view to a generalised application by Member States. In addition, the three institutions agreed to sincerely cooperate, in the course of the legislative procedure relating to the relevant basic acts, to ensure the follow up to the **European Council** conclusions of July 2020 regarding this element.

The Commission considers that the agreement reached by the co-legislators under Article 23(1a) on the obligatory use of a single data-mining tool and the collection and analysis of data on the beneficial owners of the recipients of funding is not sufficient to enhance the protection of the Union budget and Next Generation EU against fraud and irregularities and to ensure efficient checks on conflicts of interests, irregularities, issues of double funding, and criminal misuse of the funds. Therefore, the approach agreed by the co-legislators in the Regulation European Globalisation Adjustment Fund for displaced workers does not appropriately reflect the desired ambition and spirit of the Inter-institutional Agreement."

8. Council Decision authorising negotiations with the UK and 5237/21 + ADD 1
Norway for a fisheries agreement 13291/20 + ADD 1
Adoption PECHE

Statement by the Commission

"The Commission considers that the present authorisation should not, in light of the urgency to start the negotiations for the year 2021 and the fulfilment of the obligations under UNCLOS, constrain the Commission to start negotiations on the trilateral mandate at the moment it sees appropriate in light of the state of play of the negotiations with the United Kingdom on the overall economic partnership and the future fisheries relation with the UK.

The Commission considers that the introduction of the consultation and reporting requirement procedurally burdens the Commission's negotiations powers and risks to adversely impact the outcome of the negotiations. Such requirements are not procedural practice under the negotiating directives for other fisheries agreements with third countries in the North-east Atlantic.

In view of the addition of Article 43 TFEU in addition to Article 218 (3&4) TFEU as a legal basis, the Commission considers it legally incorrect that a Council Decision authorising the opening of negotiations indicates a substantive legal basis.

The Decision authorising the opening of negotiations is premised solely on the existence of conferred powers of the Union and not on a determination of a specific competence. Its effect is limited to authorising the Commission or the High Representative, as the case may be, to use its prerogatives under the EU Treaties in order to start negotiations. The scope of these negotiations is therefore determined by the scope of the powers of the Union. Besides, the freedom of the envisaged treaty partner of the Union as regards the determination of the scope of the negotiations cannot be limited by the Council Decision authorising the opening of the negotiations. Thus, the precise legal basis for the future agreement can only be determined after the content of the agreement is known.

The Commission reserves all its rights in this regard."
