Subject: Common Provisions Regulation  
- Analysis of the final compromise text with a view to agreement

---

**I. INTRODUCTION**

1. On 29 May 2018, the Commission adopted the proposal for the Common Provisions Regulation (CPR)<sup>1</sup>. The original CPR sets out common provisions for seven shared management funds: the Cohesion Fund, the European Maritime and Fisheries Fund, the European Regional Development Fund, the European Social Fund Plus, the Asylum and Migration Fund, the Border Management and Visa Instrument and the Internal Security Fund.

---

<sup>1</sup> Doc. 9511/18 + ADD 1.

2. The CPR was presented to the Structural Measures Working Party in June 2018 during the Bulgarian Presidency. The detailed examination of the CPR took place under the Austrian and the Romanian Presidencies. In order to make the discussions more effective and efficient, work within the Council on the CPR was divided in thematic blocks. The Permanent Representatives Committee endorsed (partial) mandates for negotiations with the European Parliament on the various CPR blocks<sup>2</sup> on 17 December 2018 under Austrian Presidency, and on 15 February, 3 and 17 April, and 29 May 2019 during the Romanian Presidency.
3. On 14 January 2020, together with the proposal for establishing the Just Transition Fund (JTF), the Commission proposed various amendments to the CPR<sup>3</sup> in order to embed the JTF as a new fund under the umbrella rules of the CPR. On 28 May 2020, following the COVID-19 outbreak, and as part of the revised MFF 2021-27 and of the Recovery Package, the Commission proposed various amendments to the Cohesion policy legislative package 2021-2027, including additional amendments to the CPR<sup>4</sup>. Both amended Commission proposals for the CPR were presented to the Structural Measures Working Party on 4 June, during the Croatian Presidency, followed by detailed examination on 15 June. The Structural Measures Working Party discussed the Presidency compromise proposals on the amended CPR at its meetings on 3, 9 and 16 July, under the German Presidency. On 22 July 2020, the Permanent Representatives Committee endorsed a (partial) mandate for negotiations with the European Parliament as regards both amended Commission proposals for the CPR<sup>5</sup>.
4. On 5 October 2020, Coreper endorsed an updated partial mandate for negotiations on the CPR<sup>6</sup>, to take account of the European Council Conclusions adopted in the special meeting of the European Council of 17, 18, 19, 20 and 21 July 2020 and of all related elements included therein.

5. During the German Presidency, a provisional political agreement was reached between Council and Parliament at the political trilogue on 1 December 2020 on all the Articles of the Regulation, as well as on Annex XXII on allocation methodology and various elements of Annexes III and IV. On 16 December 2020, the Permanent Representatives Committee took note of the progress made and acknowledged the results achieved with a Progress Report<sup>7</sup>.

## **II. STATE OF PLAY OF INTER-INSTITUTIONAL NEGOTIATIONS**

6. Remaining technical and political work on the recitals and on part of the Annexes of the CPR was finalised during the months of January and early February 2021 during the Portuguese Presidency.
7. A final political trilogue took place on 11 February 2021, to solve the outstanding issues in the Annexes of the CPR and to achieve the political agreement between the Council and the European Parliament.
8. Following the Structural Measures Working Party on 19 February 2021, **the Presidency is of the view that a final and balanced compromise text has emerged which has been supported by the majority of Member States.**

### III. CONCLUSION

9. The Permanent Representatives Committee is, therefore, invited to:
- (a) endorse the final compromise text of the Common Provisions Regulation as set out in the Annex to this note as well as in ADD1;
  - (b) approve in principle the submission, at a later date, of this final compromise text as I/A item (following legal-linguistic review) for its adoption as the Council's first-reading position. This approval would be conditional upon the receipt of an offer letter from the Chair of the European Parliament's Regional Development Committee (REGI) confirming that the text set out in the Annex is acceptable to the Parliament and that, should the Council adopt the agreed text as its first-reading position, the Parliament would not adopt any amendments to it in its second reading.

<sup>9</sup> OJ C [...], [...], p. [...].

<sup>10</sup> OJ C [...], [...], p. [...].

(1) Article 174 of the Treaty on the Functioning of the European Union ('TFEU') provides that, in order to strengthen its economic, social and territorial cohesion, the Union is to aim at reducing disparities between the levels of development of the various regions and the backwardness of the least favoured regions or islands, and that particular attention is to be paid to rural areas, areas affected by industrial transition, and regions which suffer from severe and permanent natural or demographic handicaps. These regions particularly benefit from cohesion policy. Article 175 of the TFEU requires that the Union is to support the achievement of these objectives by the action it takes through the European Agricultural Guidance and Guarantee Fund, Guidance Section, the European Social Fund, the European Regional Development Fund, the European Investment Bank and other instruments. Article 322 of the TFEU provides the basis for adopting financial rules determining the procedure to be adopted for establishing and implementing the budget and for presenting and auditing accounts, as well as for checks on the responsibility of financial actors.

(2) In order to further develop a coordinated and harmonised implementation of Union Funds implemented under shared management namely the European Regional Development Fund ('ERDF'), the European Social Fund Plus ('ESF+'), the Cohesion Fund, the Just Transition Fund ('JTF'), measures financed under shared management in the European Maritime, Fisheries and Aquaculture Fund ('EMFAF'), the Asylum and Migration Fund ('AMIF'), Internal Security Fund ('ISF') and Integrated Border Management Fund ('BMVI'), financial rules based on Article 322 of the TFEU should be established for all these Funds ('the Funds'), clearly specifying the scope of application of the relevant provisions. In addition, common provisions based on Article 177 of the TFEU should be established to cover policy-specific rules for the ERDF, the ESF+, the Cohesion Fund, the JTF and the EMFAF.

(3) Due to the specificities of each Fund, specific rules applicable to each Fund and to the European territorial cooperation goal (Interreg) under the ERDF should be laid down in separate Regulations ('Fund-specific Regulations') to complement the provisions of this Regulation.

(4a) The outermost regions should benefit from specific measures and from additional funding to offset their structural social and economic situation together with the handicaps resulting from the factors referred to in Article 349 TFEU.

(4b) The northern sparsely populated regions should benefit from specific measures and additional funding to offset the severe and natural or demographic handicaps referred to in Article 2 of Protocol No 6 to the 1994 Act of Accession.

(5) Horizontal principles as set out in Article 3 of the Treaty on the European Union ('TEU') and in Article 10 of the TFEU, including principles of subsidiarity and proportionality as set out in Article 5 of the TEU should be respected in the implementation of the Funds, taking into account the Charter of Fundamental Rights of the European Union. Member States should also respect the obligations of the UN Convention on the Rights of the Child and of the UN Convention on the Rights of Persons with Disabilities and ensure accessibility in line with its article 9 and in accordance with the Union law harmonising accessibility requirements for products and services. In that context, the Funds should be implemented in a way that promotes the transition from institutional to family- and community-based care. Member States and the Commission should aim at eliminating inequalities and at promoting equality between men and women and integrating the gender perspective, as well as at combating discrimination based on sex, racial or ethnic origin, religion or belief, disability, age or sexual orientation. The Funds should not support actions that contribute to any form of segregation or exclusion, and, when financing infrastructure, should ensure the accessibility for persons with disabilities. The objectives of the Funds should be pursued in the framework of sustainable development and the Union's promotion of the aim of preserving, protecting and improving the quality of the environment as set out in Article 11 and Article 191(1) of the TFEU, taking into account the polluter pays principle, the UN Sustainable Development Goals and the Paris Agreement. In order to protect the integrity of the internal market, operations benefitting undertakings must comply with Union State aid rules as set out in Articles 107 and 108 of the TFEU. Poverty is a particularly important challenge in the Union. The objectives of the Funds should therefore be pursued with a view to contribute to the eradication of poverty. The objectives of the Funds should be pursued with a view to providing adequate support, in particular to local and regional authorities of coastal and urban areas, to address the socio-economic challenges linked to the integration of third-country nationals and to providing adequate support to disadvantaged areas and communities in urban areas.

(6) Horizontal financial rules adopted by the European Parliament and the Council on the basis of Article 322 of the Treaty on the Functioning of the European Union apply to this Regulation. These rules are laid down in the Financial Regulation and determine in particular the procedure for establishing and implementing the budget through grants, procurement, prizes, indirect implementation, and provide for checks on the responsibility of financial actors. Rules adopted on the basis of Article 322 TFEU also include a general regime of conditionality for the protection of the Union budget.

(7) Where a time limit is set for the Commission to take any action towards Member States, the Commission should take account of all necessary information and documents in a timely and efficient manner. Where submissions from Member States in any form under this Regulation are incomplete or non-compliant with the requirements of this Regulation and of Fund-specific Regulations, thus not enabling the Commission to take fully-informed action, that time limit should be suspended until the Member States comply with the regulatory requirements. Further, as the Commission is precluded from making payments for the expenditure incurred by beneficiaries and paid in implementing operations linked to specific objectives for which enabling conditions are not fulfilled, which is included in payment applications, the time limit for the Commission to make payments should not be triggered for such expenditure.

(8) In order to contribute to Union priorities, the Funds should focus their support on a limited number of policy objectives in line with their Fund-specific missions pursuant to their Treaty-based objectives. The policy objectives for the AMIF, the ISF and the BMVI should be set out in the respective Funds-specific regulations. The JTF and any resources of the ERDF and the ESF+ that are transferred, on a voluntary basis, as a complementary support to the JTF, should contribute to a single specific objective.

(9) Reflecting the importance of tackling climate change in line with the Union's commitments to implement the Paris Agreement and the United Nations Sustainable Development Goals, the Funds should contribute to mainstream climate actions and to the achievement of an overall target of 30 % of the EU budget expenditure supporting climate objectives. In this context, the Funds should support activities that would respect the climate and environmental standards and priorities of the Union and would do no significant harm to environmental objectives within the meaning of Article 17 of Regulation (EU) No 2020/852. Adequate mechanisms to ensure the climate proofing of supported investment in infrastructure should be an integral part of programming and implementation of the Funds.

(9a) Reflecting the importance of tackling the loss of biodiversity, this Regulation should contribute to mainstream biodiversity action in the Union policies and to the achievement of the overall ambition of providing 7,5% of annual spending under the MFF to biodiversity objectives in the year 2024 and 10% of annual spending under the MFF to biodiversity objectives in 2026 and 2027, while considering the existing overlaps between climate and biodiversity goals.

(10) Part of the budget of the Union allocated to the Funds should be implemented by the Commission under shared management with Member States within the meaning of Regulation (EU, Euratom) [*number of the new Financial Regulation*] of the European Parliament and of the Council<sup>11</sup> (the 'Financial Regulation'). Therefore, when implementing the Funds under shared management, the Commission and the Member States should respect the principles referred to in the Financial Regulation, such as sound financial management, transparency and non-discrimination.

(10a) Member States at the appropriate territorial level, in accordance with their institutional, legal and financial framework and the bodies designated by them for that purpose should be responsible for preparing and implementing programmes. EU and Member States should refrain from imposing unnecessary rules resulting in excessive administrative burden for beneficiaries.

(11) The principle of partnership is a key feature in the implementation of the Funds, building on the multi-level governance approach and ensuring the involvement of regional, local, urban and other public authorities, civil society, economic and social partners and, where appropriate, research institutions and universities. In order to provide continuity in the organisation of partnership, Commission Delegated Regulation (EU) No 240/2014<sup>12</sup> should continue to apply to the Funds covered by this Regulation.

(12) At Union level, the European Semester of economic policy coordination, including the principles of the European Pillar of Social Rights, is the framework to identify national reform priorities and monitor their implementation. Member States develop their own national multiannual investment strategies in support of those reforms. Those strategies should be presented alongside the yearly National Reform Programmes as a way to outline and coordinate priority investment projects to be supported by national and/or Union funding. They should also serve to use Union funding in a coherent manner and to maximise the added value of the financial support to be received notably from the Funds, the Recovery and Resilience Facility, the European Investment Stabilisation Function and InvestEU.

<sup>12</sup> Commission Delegated Regulation (EU) No 240/2014 of 7 January 2014 on the European code of conduct on partnership in the framework of the European Structural and Investment Funds (OJ L 74, 14.3.2014, p. 1).

(13) Member States should take into account relevant country-specific recommendations adopted in accordance with Article 121(2) of the TFEU and relevant Council recommendations adopted in accordance with Article 148(4) of the TFEU ('CSR's) and complementary Commission recommendations issued in accordance with Article 34 of Regulation (EU) 2018/1999 of the European Parliament and of the Council(\*) and for the AMF, BMVI and ISF other relevant Union recommendations addressed to the Member State in the preparation of programming documents. During the 2021–2027 programming period ('programming period'), Member States should regularly present to the monitoring committee and to the Commission the progress in implementing the programmes in support of the CSRs. During a mid-term review, Member States should, among other elements, consider the need for programme modifications to accommodate new challenges identified in relevant CSRs adopted or modified since the start of the programming period.

(14) Member States should take account of the contents of their draft National Energy and Climate Plan, to be developed under the Regulation on the Governance of the Energy Union<sup>13</sup>, and the outcome of the process resulting in Union recommendations regarding these plans, for their programmes, including during the mid-term review, as well as for the financial needs allocated for low-carbon investments.

(15) The Partnership Agreement, prepared by each Member State, should be a concise and strategic document guiding the negotiations between the Commission and the Member State concerned on the design of programmes under ERDF, Cohesion Fund, ESF+ JTF, and EMFAF. In order to streamline the approval process, the Commission should respect the principle of proportionality in its assessment, particularly concerning the length of the Partnership Agreement as set out in Annex II and requests for additional information. In order to reduce the administrative burden, it should not be necessary to amend Partnership Agreements during the programming period. However, if the Member State so wishes, it may submit to the Commission one amendment to its Partnership Agreement to take into account the outcome of the mid-term review. To facilitate the programming and avoid overlapping content in programming documents, Partnership agreements can be included as part of a programme.

<sup>13</sup> [Regulation on the Governance of the Energy Union, amending Directive 94/22/EC, Directive 98/70/EC, Directive 2009/31/EC, Regulation (EC) No 663/2009, Regulation (EC) No 715/2009, Directive 2009/73/EC, Council Directive 2009/119/EC, Directive 2010/31/EU, Directive 2012/27/EU, Directive 2013/30/EU and Council Directive (EU) 2015/652 and repealing Regulation (EU) No 525/2013 (COM/2016/0759 final/2 - 2016/0375 (COD))].

(15a) In order to provide the Member States with sufficient flexibility in the implementation of their shared management allocations, it should be possible to transfer certain levels of funding between the Funds and between shared management and direct and indirectly managed instruments. Where the specific economic and social circumstances of a Member State justify it, this level of transfer should be higher.

(16) Each Member State should have the flexibility to contribute to InvestEU for the provision of the EU guarantee and the InvestEU Advisory Hub for investments in that Member State, under certain conditions set out in this Regulation.

(17) To ensure the necessary prerequisites for the effective and efficient use of Union support granted by the Funds, a limited list of enabling conditions as well as a concise and exhaustive set of objective criteria for their assessment should be established. Each enabling condition should be linked to a specific objective and should be automatically applicable where the specific objective is selected for support. Without prejudice to the rules on decommitment, where those conditions are not fulfilled, expenditure related to operations under the related specific objectives should not be reimbursed by the Commission. In order to maintain a favourable investment framework, the continued fulfilment of the enabling conditions should be monitored regularly. On the request of a Member State, the EIB may contribute to the assessment of the fulfilment of enabling conditions. It is also important to ensure that operations selected for support are implemented consistently with the strategies and planning documents in place underlying the fulfilled enabling conditions, thus ensuring that all co-financed operations are in line with the Union policy framework.

(17a) While pursuing the objectives of economic, social and territorial cohesion, support to network connectivity by the ERDF and the Cohesion Fund should aim at completing missing links to the TEN-T network.

(18) Member States should establish a performance framework for each programme covering all indicators, milestones and targets to monitor, report on and evaluate programme performance. This should allow monitoring, reporting on and evaluating performance during implementation, and contribute to measuring the overall performance of the Funds.

(19) The Member State should carry out a mid-term review of each programme supported by the ERDF, the ESF+, the Cohesion Fund and the JTF. That review should provide a fully-fledged adjustment of programmes based on programme performance, while also providing an opportunity to take account of new challenges and relevant CSRs issued in 2024, as well as progress in implementing the National Energy and Climate Plans and the principles of the European Pillar of Social Rights. For the purposes of the mid-term review, also the socio-economic situation of the Member State or region concerned, including any major negative financial, economic or social development or demographic challenges and the progress towards reaching the climate contribution targets at national level should be taken into account.

The Commission should prepare a report about the outcome of the mid-term review, including its assessment of the application of the management costs and fees under financial instruments managed by bodies selected through direct award.

(20) Mechanisms to ensure a link between Union funding policies and the economic governance of the Union should be further refined, allowing the Commission to make a proposal to the Council to suspend all or part of the commitments or payments for one or more of the programmes of the Member State concerned where that Member State fails to take effective action in the context of the economic governance process. The obligation of the Commission to propose a suspension should be suspended as long as the so called general escape clause under the Stability and Growth Pact has been activated. In order to ensure uniform implementation and in view of the importance of the financial effects of measures being imposed, implementing powers should be conferred on the Council which should act on the basis of a Commission proposal. To facilitate the adoption of decisions which are required to ensure effective action in the context of the economic governance process, reversed qualified majority voting should be used.

Given the type of operations that are supported by the ESF+ and under the ETC goal (Interreg), they should be excluded from the scope of these mechanisms.

(20a) In order to allow for a rapid response to exceptional and unusual circumstances as referred to in the Stability and Growth Pact that may arise during the programming period, implementing powers should be conferred on the Commission to adopt temporary measures to facilitate the use of the Funds in response to such circumstances. The Commission should adopt the measures that are most appropriate in light of the exceptional or unusual circumstances that a Member State is facing while preserving the objectives of the Funds. The Commission should also monitor the implementation and assess the appropriateness of the measures.

(21) It is necessary to set out common requirements as regards the content of the programmes taking into account the specific nature of each Fund. Those common requirements can be complemented by Fund-specific rules. Regulation (EU) [XXX] of the European Parliament and of the Council<sup>14</sup> (the ‘ETC Regulation’) should set out specific provisions on the content of programmes under the European territorial cooperation goal (Interreg).

(22) In order to allow for flexibility in programme implementation and reduce administrative burden, limited financial transfers should be allowed between priorities of the same programme without requiring a Commission decision amending the programme. The revised financial tables should be submitted to the Commission in order to ensure up-to-date information on financial allocations for each priority.

(22a) In order to enhance the effectiveness of the JTF, it should be possible that complementary resources from the ERDF and the ESF+ are made available to the JTF on a voluntary basis. Those complementary resources should be provided through a specific voluntary transfer from those funds to the JTF taking into account the transition challenges set out in the territorial just transition plans, which need to be addressed. Amounts to be transferred should be provided from resources of the categories of regions where the territories identified in territorial just transition plans are located. Given these specific arrangements for the use of the JTF resources, only the specific transfer mechanism should apply for the constitution of the JTF resources. Furthermore, it should be clarified that only the provisions of this Regulation and of Regulation (EU) [JTF Regulation] should apply to the JTF and to the resources of the ERDF and the ESF+ transferred to the JTF, which also become JTF support. Neither Regulation (EU) [ERDF/CF Regulation] nor Regulation (EU) [ESF+ Regulation] should apply to the complementary support. Therefore, the ERDF resources transferred as a complementary support to the JTF should be excluded from the basis of calculation of the thematic concentration requirements set out in Article 3 of Regulation (EU) [ERDF/CF Regulation] and from the basis of calculation of minimum allocations to sustainable urban development as set out in Article 9 of Regulation (EU) [ERDF/CF Regulation]. The same applies to the ESF+ resources transferred as a complementary support to the JTF in respect of thematic concentration requirements set out in Article 7 of Regulation (EU) [ESF+ Regulation].

---

<sup>14</sup> Regulation (EU) [...] on specific provisions for the European territorial cooperation goal (Interreg) supported by the European Regional Development Fund and external financing instruments (OJ L [...], [...], p. [...]).

(23) To strengthen the integrated territorial development approach, investments in the form of territorial tools such as integrated territorial investments ('ITI'), community-led local development ('CLLD', referred to as 'LEADER' under the European Agricultural Fund for Rural Development (EAFRD<sup>15</sup>) or any other territorial tool under policy objective "a Europe closer to citizens" supporting initiatives designed by the Member State for investments programmed for the ERDF should be based on territorial and local development strategies. The same should apply to related initiatives such as the Smart Villages. For the purposes of ITIs and territorial tools designed by Member States, minimum requirements should be set out for the content of territorial strategies. Those territorial strategies should be developed and endorsed under the responsibility of relevant authorities or bodies. To ensure the involvement of relevant authorities or bodies in implementing territorial strategies, those authorities or bodies should be responsible for the selection of operations to be supported, or involved in that selection. Territorial strategies, when promoting sustainable tourism initiatives, should ensure an appropriate balance between the needs of both residents and tourists, such as interconnecting cycling and railway networks.

(23a) In order to address effectively the development challenges in rural areas, coordinated support from the Funds and the EAFRD should be facilitated. Member States and regions should ensure that the interventions supported through the Funds and the EAFRD are complementary and are implemented in a coordinated manner with a view to creating synergies, in order to reduce the administrative cost and burden for managing bodies and beneficiaries.

(24) To better mobilise potential at the local level, it is necessary to strengthen and facilitate CLLD. It should take into account local needs and potential, as well as relevant socio-cultural characteristics, and should provide for structural changes, build community capacity and stimulate innovation. The close cooperation and integrated use of the Funds and the EAFRD to deliver local development strategies should be strengthened. Local action groups, representing the interests of the community, should be, as an essential principle responsible for the design and implementation of CLLD strategies. In order to facilitate coordinated support from different Funds and the EAFRD to CLLD strategies and to facilitate their implementation, the use of a 'Lead Fund' approach should be facilitated. When the EAFRD is selected as a Lead Fund, it should follow the rules established for the 'Lead Fund' approach.

<sup>15</sup> Regulation (EU) [CAP Regulation]

(25) In order to reduce the administrative burden, it should be possible to implement technical assistance linked to programme implementation at the initiative of the Member State through a flat rate based on progress in programme implementation which may also cover horizontal tasks. However, in order to simplify the implementation for the AMIF, the ISF and the BMVI and for Interreg programmes, only the flat-rate approach should be used. In order to facilitate financial management, Member States should have the possibility to indicate one or more bodies to which related reimbursements should be made. Since these reimbursements are based on the application of a flat-rate, verifications and audits should be limited to verifying that the conditions triggering reimbursement of the Union contribution are met but underlying expenditure should not be subject to verifications or audits. Nevertheless, where continuity with the 2014-2020 period is preferred, the Member State should also be provided with the possibility to continue receiving reimbursement of eligible costs actually incurred by the beneficiary and paid in implementing operations for technical assistance implemented through one or more separate programmes or one or more priorities within programmes. The Member State should indicate in its Partnership Agreement its choice of the form of Union contribution for technical assistance for the entire programming period. Regardless of the option chosen, technical assistance may be complemented with targeted administrative capacity building measures using reimbursement methods that are not linked to costs. Actions and deliverables as well as corresponding Union payments can be agreed in a roadmap and can lead to payments for results on the ground.

(26) It is opportune to clarify that, where a Member State proposes to the Commission that a priority of a programme or part thereof is supported through a financing scheme not linked to costs, the actions, deliverables and conditions agreed should be related to concrete investments undertaken under the shared management programmes in that Member State or region. In that context, the respect of the principle of sound financial management should be ensured. In particular, as regards the appropriateness of the amounts linked to the fulfilment of the respective conditions or the achievement of results, the Commission and the Member State should ensure that resources employed are adequate for the investments undertaken. Where a financing scheme not linked to costs is used in a programme, underlying costs linked to the implementation of that scheme should not be subject to any verifications or audits because the Commission provides an ex-ante agreement on the amounts linked to the fulfilment of the conditions or the achievement of results in the programme or in a delegated act. Verifications and audits should be limited to checking that the conditions or results triggering the reimbursement of the Union contribution are fulfilled.

(27) In order to examine the performance of the programmes, the Member State should set up monitoring committees, including representatives of relevant partners. For the ERDF, the ESF+ and the Cohesion Fund, annual implementation reports should be replaced by an annual structured policy dialogue based on the latest information and data on programme implementation made available by the Member State. The review meeting should be organised also for programmes covering the JTF.

(28) Pursuant to paragraphs 22 and 23 of the Inter-institutional agreement for Better Law-Making of 13 April 2016<sup>16</sup>, there is a need to evaluate the Funds on the basis of information collected through specific monitoring requirements, while avoiding overregulation and administrative burden, in particular on Member States. These requirements, where appropriate, can include measurable indicators, as a basis for evaluating the effects of the Funds on the ground. These requirements should also enable the monitoring of the support of gender equality.

(29) To ensure availability of comprehensive up-to-date information on programme implementation, effective and timely electronic reporting on quantitative data should be required.

(30) In order to support the preparation of related programmes and activities of the next programming period, the Commission should carry out a mid-term assessment of the Funds. At the end of the programming period, the Commission should carry out retrospective evaluations of the Funds, which should focus on the impact of the Funds. The results of these evaluations should be made public.

(31) Programme authorities, beneficiaries and stakeholders in Member States should raise awareness of the achievements of Union funding and inform the general public accordingly. Transparency, communication and visibility activities are essential in making Union action visible on the ground and should be based on true, accurate and updated information. In order for these requirements to be enforceable, programme authorities and the Commission should be able to apply remedial measures in case of non-compliance.

(32) Managing authorities should publish structured information on selected operations and beneficiaries on the website of the programme providing support to the operation, while taking account of requirements for data protection of personal data in accordance with Regulation (EU) 2016/679<sup>17</sup> of the European Parliament and of the Council.

---

<sup>16</sup> OJ L 123, 12.5.2016, p. 13.

<sup>17</sup> Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) OJ L 119, 4.5.2016, p. 1.

(33) With a view to simplifying the use of the Funds and reducing the risk of error, it is appropriate to define both the forms of Union contribution to Member States and the forms of support provided by Member States to beneficiaries. It should also be possible for managing authorities to provide grants through the form of financing not linked to costs where these are covered by reimbursement of the Union contribution based on the same form, in order to increase experience with this simplification possibility.

(34) As regards grants provided to beneficiaries, Member States should increasingly make use of simplified cost options. The threshold linked to the obligatory use of simplified cost options should be linked to the total costs of the operation in order to ensure the same treatment of all operations below the threshold, regardless of whether the support is public or private. Where a managing authority intends to propose the use of a simplified cost option in a call for proposals, it should have the possibility to consult the monitoring committee. Amounts and rates established by Member States need to be a reliable proxy to real costs. Periodic adjustments are a good practice in the context of multi-annual programme implementation to take into account factors affecting rates and amounts. In order to facilitate the uptake of simplified cost options, this Regulation should also provide methods and rates that can be used without the requirement for Member States to perform a calculation or define a methodology.

(35) To enable immediate implementation of flat-rates, any flat rate established by Member States in the 2014-2020 period based on a fair, equitable and verifiable calculation method should continue to be applied for similar operations supported under this Regulation without requiring a new calculation method.

(36) In order to optimise the uptake of co-financed environmental investments, synergies should be ensured with the LIFE programme for Environmental and Climate Action, in particular through LIFE strategic integrated projects and strategic nature projects, as well as with projects funded under Horizon Europe and other Union programmes.

(36a) Given the protracted low-interest environment and in order not to unduly penalise bodies implementing financial instruments, it is necessary, subject to active treasury management by these bodies, to enable the financing of negative interest generated as a result of investments of the Funds from resources paid back to the financial instrument. Through active treasury management, the bodies implementing financial instruments should seek to optimise returns and minimise charges, within an acceptable level of risk.

(37) In order to provide legal clarity, it is appropriate to specify the eligibility period for expenditure or costs linked to operations supported by the Funds under this Regulation and to restrict support for completed operations. The date from which expenditure becomes eligible for support from the Funds in case of adoption of new programmes or of changes in the programmes should also be clarified, including the exceptional possibility to extend the eligibility period to the start of a natural disaster in case there is urgent need to mobilise resources to respond to such disaster. At the same time, flexibility in programme implementation should be provided for as regards the eligibility of expenditure for operations which contribute to the objectives of the programme, regardless if they are implemented outside of a Member State or the Union or in the same category of region within a Member State.

(37a) In order to provide the necessary flexibility for implementation of PPPs, the PPP agreement should specify when expenditure is considered eligible, in particular under which conditions it is incurred by the beneficiary or by the private partner of the PPP, irrespective of who is carrying out the payments in implementing the PPP operation.

(38) To ensure the effectiveness, fairness and sustainable impact of the Funds, there should be provisions guaranteeing that investments in infrastructure or productive investment are long-lasting and prevent the Funds from being used to undue advantage. Managing authorities should pay particular attention not to support relocation when selecting operations and to treat sums unduly paid to operations not complying with the requirement of durability as irregularities.

(39) With a view to improving complementarities and simplifying implementation, it should be possible to combine support from the Cohesion Fund, the JTF and the ERDF with support from the ESF+ in joint programmes under the Investment for jobs and growth goal.

(40) In order to optimise the added value from investments funded wholly or in part through the budget of the Union, synergies should be sought in particular between the Funds and other relevant instruments, including the Recovery and Resilience Facility and the Brexit Adjustment Reserve. Those synergies should be achieved through user-friendly key mechanisms, namely the recognition of flat rates for eligible costs from Horizon Europe for a similar operation and the possibility of combining funding from different Union instruments in the same operation as long as double financing is avoided. This Regulation should therefore set out rules for complementary financing from the Funds.

(41) Financial instruments should not be used to support refinancing activities, such as replacing existing loan agreements or other forms of financing for investments which have already been physically completed or fully implemented at the date of the investment decision, but rather to support any type of new investments in line with the underlying policy objectives.

(42) The decision by the managing authorities to finance support measures through financial instruments should be determined on the basis of an *ex ante* assessment. This Regulation should lay down the minimum mandatory elements of *ex ante* assessments, for which indicative information available at the date of their completion should be provided, and should allow Member States to make use of the *ex ante* assessments carried out for the 2014-2020 period, updated where necessary, in order to avoid administrative burden and delays in setting up financial instruments.

(43) In order to facilitate the implementation of certain types of financial instruments where programme support in the form of grants, including in the form of capital rebates, is envisaged, it is possible to apply the rules on financial instruments on such combination in one financial instrument operation. However, conditions for such programme support and specific conditions preventing double financing should be set out.

(44) In full respect of the applicable State aid and public procurement rules already clarified during the 2014-2020 programming period, the managing authorities should have the possibility to decide on the most appropriate implementation options for financial instruments in order to address the specific needs of target regions. In addition, in order to ensure continuity with the 2014-2020 programming period, managing authorities should have the possibility to implement financial instruments through a direct award of a contract to the EIB and to international financial institutions in which a Member State is a shareholder. They should also have the possibility to award contracts directly to publicly-owned banks or institutions fulfilling the same strict conditions as provided for by the Regulation No. 2018/1046/EU in the 2014-2020 programming period. This Regulation should provide clear conditions in order to ensure that the possibility of direct award remains consistent with the principles of the internal market. In this framework, the Commission should provide support to auditors, managing authorities and beneficiaries for ensuring compliance with state aid rules.

(45) In accordance with the principle and rules of shared management, Member States and the Commission should be responsible for the management and control of programmes and give assurance on the legal and regular use of the Funds. Since Member States should have the primary responsibility for such management and control and should ensure that operations supported by the Funds comply with applicable law, their obligations in that regard should be specified. The powers and responsibilities of the Commission in that context should also be laid down.

(46) In order to hasten the start of programme implementation, the roll-over of implementation arrangements from the previous programming period should be facilitated. The use of the computerised system already established for the previous programming period, adapted as required, should be maintained, unless a new technology is necessary.

(46a) To support the effective use of the Funds, the EIB support should be available to all Member States at their request. This could cover capacity building, support for project identification, preparation and implementation, as well as advice on financial instruments and investment platforms.

(46b) The Member State, at its own initiative, should have the possibility to identify a coordinating body to liaise with and provide information to the Commission and to coordinate activities of the programme authorities in that Member State.

(47) To streamline programme management functions, the integration of accounting functions with those of the managing authority should be maintained for the programmes supported by the AMIF, the ISF and the BMVI, and should be an option for the other Funds.

(48) Since the managing authority bears the main responsibility for the effective and efficient implementation of the Funds and therefore fulfils a substantial number of functions, its functions in relation to the selection of operations, programme management and support for the monitoring committee should be set out in detail. Procedures for the selection of operations can be competitive or non-competitive provided that criteria applied and procedures used are non-discriminatory, inclusive and transparent and the operations selected maximise contribution of the Union funding and are in line with the horizontal principles defined in Article 6 a.

With a view to pursuing the objective of achieving a climate neutral Union by 2050, Member States should ensure the climate proofing of investments in infrastructure and should prioritise operations that respect the ‘energy efficiency first’ principle when selecting such investments.

(49) The synergies between the Funds and directly managed instruments should be optimised. The provision of support for operations that have already received a Seal of Excellence or were co-funded by Horizon Europe with a contribution from the Funds should be facilitated. Conditions already assessed at Union level, prior to the awarding of the Seal of Excellence label or the co-funding by Horizon Europe, should not be assessed again, as long as the operations comply with a limited set of criteria established in this Regulation. This should also facilitate following the appropriate rules set out in GBER.

(50) To ensure an appropriate balance between the effective and efficient implementation of the Funds and the related administrative costs and burdens, the frequency, scope and coverage of management verifications should be based on a risk assessment that takes account of factors such as the number, type, size and content of operations implemented, the beneficiaries as well as the level of the risk identified by previous management verifications and audits. Management verifications should be proportionate to the risks resulting from that risk assessment and audits should be proportionate to the level of risk to the budget of the Union.

(51) The audit authority should carry out audits and ensure that the audit opinion provided to the Commission is reliable. That audit opinion should provide assurance to the Commission on three points, namely the legality and regularity of the declared expenditure, the effective functioning of the management and control systems and the completeness, accuracy and veracity of the accounts. Where an audit based on internationally accepted audit standards providing reasonable assurance has been conducted by an independent auditor on the financial statements and reports setting out the use of a Union contribution, that audit should form the basis of the overall assurance the audit authority provides to the Commission, insofar as there is sufficient evidence of the independence and competence of the auditor in accordance with Article 127 of Regulation No. 2018/1046.

(52) A reduction of verifications and audit requirements should be possible where there is assurance that the programme has functioned effectively for the latest two consecutive years since this demonstrates that the Funds are being implemented effectively and efficiently over a prolonged period of time.

(53) To reduce administrative burden on beneficiaries and administrative costs as well as to avoid duplication of audits and management verifications of the same expenditure declared to the Commission, the concrete application of the single audit principle should be specified for the Funds.

(53a) In order to enhance the preventive role of audit, provide legal transparency and share good practice, the Commission should be able to share audit reports at the request of Member States, with the consent of the audited Member States.

(54) In order to improve financial management, a simplified pre-financing scheme should be provided for. The pre-financing scheme should ensure that a Member State has the means to provide support to beneficiaries from the start of the implementation of the programme.

(55) To reduce the administrative burden for Member States as well as for the Commission, a schedule of payment applications should be established. Commission payments should be subject to a 5% retention until the payment of the annual balance of accounts when the Commission is able to conclude that the accounts are complete, accurate and true.

(56) In order to reduce the administrative burden, the procedure for the annual acceptance of accounts should be simplified by providing simpler modalities for payments and recoveries where there is no disagreement between the Commission and the Member State.

(57) In order to safeguard the financial interests and the budget of the Union proportionate measures should be established and implemented at the level of Member States and of the Commission. The Commission should be able to interrupt payments deadlines, suspend interim payments and apply financial corrections where the respective conditions are fulfilled. The Commission should respect the principle of proportionality by taking into account the nature, gravity and frequency of irregularities and their financial implications for the budget of the Union. Where it is not possible for the Commission to quantify precisely the amount of irregular expenditure in order to apply financial corrections linked to individual cases, it should apply a flat-rate or statistically extrapolated financial correction. Suspension of interim payments based on a reasoned opinion issued by the Commission pursuant to Article 258 of the TFEU, should be possible provided there is a sufficiently direct link between the matter addressed by the reasoned opinion and the expenditure at stake so as to put at risk its legality and regularity.

(58) Member States should also prevent, detect and deal effectively with any irregularities including fraud committed by economic operators. Moreover, in accordance with Regulation (EU, Euratom) No 883/2013<sup>18</sup>, and Regulations (Euratom, EC) No 2988/95<sup>19</sup> and No 2185/96<sup>20</sup> the European Anti-Fraud Office (OLAF) may carry out administrative investigations, including on-the-spot checks and inspections, with a view to establishing whether there has been fraud, corruption or any other illegal activity affecting the financial interests of the Union. In accordance with Regulation (EU) 2017/1939<sup>21</sup>, the European Public Prosecutor's Office may investigate and prosecute fraud and other criminal offences affecting the financial interests of the Union as provided for in Directive (EU) 2017/1371<sup>22</sup> on the fight against fraud to the Union's financial interests by means of criminal law. Member States should cooperate with the Commission, OLAF, the Court of Auditors and, where applicable, the EPPO, in accordance with point (d) of Article 63(2) of Regulation (EU, Euratom) 2018/1046 on all matters related to suspected or established fraud. Member States should take the necessary measures so that any person or entity receiving Union funds fully cooperates in the protection of the Union's financial interests, grants the necessary rights and access to the Commission, the European Anti-Fraud Office (OLAF), the European Public Prosecutor's Office (EPPO) and the European Court of Auditors (ECA) and ensures that any third parties involved in the implementation of Union funds grant equivalent rights. Member States should swiftly report to the Commission on detected irregularities including fraud, and on their follow-up as well as on the follow-up of OLAF investigations.

(58a) To enhance the protection of the Union's budget, the Commission should make available an integrated and interoperable information and monitoring system including a single data-mining and risk-scoring tool to access and analyse the relevant data, and the Commission should encourage its use with a view to a generalised application by Member States.

<sup>22</sup> Directive (EU) 2017/1371 of the European Parliament and of the Council of 5 July 2017 on the fight against fraud to the Union's financial interests by means of criminal law (OJ L 198, 28.7.2017, p. 29).

(58b) In line with the Interinstitutional Agreement between the European Parliament, the Council of the European Union and the European Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management, as well as on new own resources, including a roadmap towards the introduction of new own resources, in order to enhance the protection of the Union budget and Next Generation EU against irregularities including fraud, standardised measures to collect, compare and aggregate information and figures on the recipients of Union funding should be introduced for the purposes of control and audit. The collection of data on those ultimately benefitting, directly or indirectly, from Union funding under shared management, including data on beneficial owners of the recipients of the funding, is necessary to ensure effective controls and audits.

For the sake of simplification and in order to reduce the administrative burden, Member States should be allowed to comply with their obligation as regards information on beneficial owners by using the register already used for the purposes of Directive (EU) 2015/849<sup>23</sup>. In that regard, the purposes of the processing of personal data of beneficial owners under the present Regulation, namely to prevent, detect and correct and report irregularities and frauds, are compatible with the purposes for the processing of personal data under the Directive (EU) 2015/849.

(59) In order to encourage financial discipline, it is appropriate to define the arrangements for decommitment of budgetary commitments at programme level.

(59a) In order to allow Member States appropriate time to declare to the Commission expenditure up to the available level of resources in the event of the adoption of the new rules or programmes under shared management after 1 January 2021, the amounts corresponding to the allocations not used in year 2021 should be transferred in equal proportions to the years 2022 to 2025 as envisaged under [Article 6 of the MFF regulation].

(60) In order to promote the objectives of the TFEU related to economic, social and territorial cohesion, the Investment for jobs and growth goal should support all regions. To provide balanced and gradual support and reflect the level of economic and social development, resources under that goal should be allocated from the ERDF and the ESF+ on the basis of an allocation key which is predominantly based on GDP *per capita*. Member States whose *per capita* gross national income ('GNI') is less than 90 % of that of the Union average should benefit under the Investment for jobs and growth goal from the Cohesion Fund.

(60a) The resources for the European territorial cooperation goal should be allocated to Member States on the basis of the allocation methodology which takes into account in particular population density in border areas. Additionally, to ensure continuity of existing programmes under the European territorial cooperation goal, specific provisions to define programme areas and the eligibility of regions under the different strands of Interreg should be set out in the relevant Fund-specific regulation.

(61) Objective criteria should be established for designating eligible regions and areas for support from the Funds. To this end, the identification of the regions and areas at Union level should be based on the common system of classification of the regions established by Regulation (EC) No 1059/2003 of the European Parliament and the Council<sup>24</sup>, as amended by Commission Regulation (EU) No 2016/2066<sup>25</sup>.

(62) In order to set out an appropriate financial framework for the ERDF, the ESF+, the JTF and the Cohesion Fund, the Commission should set out the annual breakdown of available allocations per Member State under the Investment for jobs and growth goal together with the list of eligible regions, as well as the allocations for the European territorial cooperation goal (Interreg).

(63) Trans-European transport networks projects in accordance with Regulation (EU) No [new CEF Regulation]<sup>26</sup> will continue to be financed from the Cohesion Fund via both shared management and the direct implementation mode under the Connecting Europe Facility ('CEF'). Building on the successful approach of the 2014-2020 programming period, EUR 10 000 000 000 of the Cohesion Fund should be transferred to the CEF for this purpose.

(64) A certain amount of the resources from ERDF, the ESF+ and the Cohesion Fund should be allocated to the European Urban Initiative which should be implemented through direct or indirect management by the Commission.

<sup>26</sup> Regulation (EU) [...] of the European Parliament and of the Council of [...] on [CEF] (OJ L [...], [...], p. [...])

(65) With a view to ensuring an appropriate allocation to categories of regions, as a principle, the total allocations to Member States in respect of less developed, transitional and more developed regions should not be transferable between the categories. Nevertheless, to accommodate Member States' needs to tackle specific challenges, Member States should be able to request a transfer from their allocations for more developed regions or for transition regions to less developed regions and should justify that choice. In order to ensure sufficient financial resources for less developed regions, a ceiling should be established for transfers to more developed regions or to transition regions. Transferability of resources between goals should not be possible except for cases strictly defined in the Regulation.

(65a) Where a region was categorised as more developed for the period 2014-2020 and is categorised as transition for the period 2021-2027 and would receive less support for the period 2021-2027 based on the allocation methodology, the Member State concerned is invited to take this factor into account when deciding on its internal distribution of funding.

(66) Within the context of the unique and specific circumstances on the island of Ireland, and with a view to supporting North-South cooperation under the Good Friday Agreement, a new 'PEACE PLUS' cross-border programme should continue and build on the work of previous programmes, Peace and INTERREG, between the border counties of Ireland and Northern Ireland. Taking into account its practical importance, this programme should be supported with a specific allocation to continue support for peace and reconciliation actions, and that an appropriate share of the Irish allocation under the European Territorial Cooperation goal (Interreg) should also be allocated to the programme.

(67) It is necessary to establish the maximum rates of co-financing in the area of cohesion policy by category of region in order to ensure that the principle of co-financing is respected through an appropriate level of public or private national support. Those rates should reflect the level of economic development of regions in terms of GDP per capita in relation to the EU-27 average, while safeguarding no less favourable treatment due to shifts in their categorisation.

(67a) Within the framework of the relevant rules under the Stability and Growth Pact as clarified in the Code of Conduct, Member States may make a duly justified request for further flexibility for the public or equivalent structural expenditure supported by the public administration by way of co-financing of investments.

(68) In order to supplement and amend certain non-essential elements of this Regulation, the power to adopt acts in accordance with Article 290 of the TFEU should be delegated to the Commission in respect of the amendment of the elements contained in certain Annexes to this Regulation, i.e. for the dimensions and codes for the types of intervention, the templates for partnership agreements and programmes, the templates for the transmission of data, model for the annual audit report, template for forecasts of payment applications to the Commission, the use of the emblem of the Union, the elements for funding agreements and strategy documents, electronic data exchange system between the Member States and the Commission, the templates for the description of the management and control system, for the management declaration, for the audit opinion, for the annual control report, for the model annual audit report for financial instruments implemented by the EIB or other international financial institutions, for the audit strategy, for payment applications, for the accounts, for detailed rules and template for the reporting of irregularities, as well as for the determination of the level of financial corrections.

(69) In addition the power to adopt acts in accordance with Article 290 of the TFEU should be delegated to the Commission in respect of the amendment of the European code of conduct on partnership in order to adapt the code to this Regulation, the establishment of the criteria for determining the cases of irregularities to be reported, the definition of unit costs, lump sums, flat rates and financing not linked to costs applicable to all Member States as well as the establishment of standardised off-the-shelf sampling methodologies.

(70) It is of particular importance that the Commission carry out appropriate, transparent consultations with all interested parties during its preparatory work, including at expert level, and that those consultations be conducted in accordance with the principles laid down in the Interinstitutional Agreement on Better Law-Making of 13 April 2016. In particular, to ensure equal participation in the preparation of delegated acts, the European Parliament and the Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.

(71) In order to ensure uniform conditions for the adoption of Partnership Agreements, the adoption or amendment of programmes as well as the application of financial corrections, implementing powers should be conferred on the Commission. The implementing powers relating to the template for the final performance report should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council<sup>27</sup>. Although these acts are of a general nature, the advisory procedure should be used given that they only set out technical aspects, forms and templates. The implementing powers in relation to the establishment of the breakdown of financial allocations for the ERDF, the ESF+ and the Cohesion Fund should be adopted without committee procedures given that they merely reflect the application of a pre-defined calculation methodology. Furthermore, the implementing powers in relation to the temporary measures for the use of the Funds in response to exceptional circumstances should be adopted without committee procedures given that the scope of application is determined by the Stability and Growth Pact and limited to the measures set out in this Regulation.

(72) Since Regulation (EU) No 1303/2013 of the European Parliament and of the Council<sup>28</sup> or any act applicable to the 2014–2020 programming period should continue to apply to programmes and operations supported by the Funds covered under the 2014–2020 programming period. Since the implementation period of Regulation (EU) No 1303/2013 is expected to extend over to the programming period covered by this Regulation and in order to ensure continuity of implementation of certain operations approved by that Regulation, phasing provisions should be established. Each individual phase of the phased operation, which serves the same overall objective, should be implemented in accordance with the rules of the programming period under which it receives funding, while the managing authority may proceed with selecting the second phase on the basis of the selection procedure carried out under 2014-2020 programming period for the relevant operation, provided that it satisfies itself that the conditions set out in this Regulation for phased implementation are complied with.

<sup>27</sup> Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers (OJ L 55, 28.2.2011, p. 13).

<sup>28</sup> Regulation (EU) No 1303/2013 of the European Parliament and of the Council of 17 December 2013 laying down common provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund, the European Agricultural Fund for Rural Development and the European Maritime and Fisheries Fund and laying down general provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund and the European Maritime and Fisheries Fund and repealing Council Regulation (EC) No 1083/2006 (OJ L 347, 20.12.2013, p. 320).

(72bis) In view of the adoption of this Regulation after the start of the programming period, and taking into account the need to implement Union Funds covered by this Regulation in a coordinated and harmonised manner, and in order to allow for its prompt implementation, it should enter into force on the day following that of its publication in the *Official Journal of the European Union*.

(73) The objectives of this Regulation, namely to strengthen economic, social and territorial cohesion and to lay down common financial rules for part of the budget of the Union implemented under shared management, cannot be sufficiently achieved by the Member States by reason on the one hand due to the extent of the disparities between the levels of development of the various regions and the specific challenges faced by the least favoured regions, as well as the limit on the financial resources of the Member States and regions and on the other hand due to the need for a coherent implementation framework covering several Union funds under shared management. Since those objectives can therefore rather be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the TEU. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve those objectives.

(74) This Regulation respects the fundamental rights and observes the principles recognised in particular by the Charter of Fundamental Rights of the European Union,

HAVE ADOPTED THIS REGULATION:

In its proposal, the Commission shall set out the grounds for concluding that the Member State has failed to take effective action. In making its proposal, the Commission shall take account of all relevant information, and shall give due consideration to any elements arising from and opinions expressed through the structured dialogue under paragraph 12.

The Council shall decide on that proposal, by means of an implementing act. That implementing act shall only apply with respect to requests for payment submitted after the date of the adoption of that implementing act.

7bis. The Commission may make a proposal to the Council to suspend all or part of the commitments or payments for one or more of the programmes of a Member State in the following cases:

*Article 21*  
*Transfer of resources*

1. 5. Where the request concerns an amendment of a programme, only resources of future calendar years may be transferred.

6. JTF resources, including the resources transferred on a voluntary basis from the ERDF and the ESF+ in accordance with Article 21a, shall not be transferable to other Funds or instruments pursuant to paragraphs 1 to 5.

Where flat-rate financing is used, only the categories of costs to which the flat-rate applies may be reimbursed in accordance with point (a) of the first sub-paragraph.

By way of derogation from the first subparagraph, the managing authority may agree to exempt some operations in the area of research and innovation from this obligation, provided the monitoring committee has given prior approval for such an exemption.

#### *Article 50*

##### *Direct staff costs concerning grants*

1. Direct staff costs of an operation may be calculated at a flat rate of up to 20 % of the direct costs other than the direct staff costs of that operation, without there being a requirement for the Member State to perform a calculation to determine the applicable rate, provided that the direct costs of the operation do not include public works contracts or supply or service contracts which exceed in value the thresholds set out in Article 4 of Directive 2014/24/EU of the European Parliament and of the Council<sup>51</sup> or in Article 15 of Directive 2014/25/EU of the European Parliament and of the Council<sup>52</sup>.

The employer shall issue a document for employees setting out that fixed percentage.

#### *Article 51*

##### *Flat rate financing for eligible costs other than direct staff costs concerning grants*

1. A flat rate of up to 40 % of eligible direct staff costs may be used in order to cover the remaining eligible costs of an operation. The Member State shall not be required to perform a calculation to determine the applicable rate.
2. For operations supported by the AMIF, the ISF, the BMVI, the ESF+, the JTF and the ERDF, salaries and allowances paid to participants shall be considered additional eligible costs not included in the flat rate.
3. The flat rate referred to in paragraph 1 of this Article shall not be applied to staff costs calculated on the basis of a flat rate as referred to in Article 50(1).

#### *Article 51a*

##### *Grants under conditions*

1. Member States may provide grants under conditions to beneficiaries which are fully or partially repayable as specified in the document setting out the conditions for support.

2. Financial instruments shall provide support to final recipients only for investments in both tangible and intangible assets as well as working capital expected to be financially viable and which do not find sufficient funding from market sources. Such support shall be in compliance with applicable Union State aid rules.

This support shall be provided only for the elements of the investments which are not physically completed or fully implemented at the date of the investment decision.

3. Appropriate support from the Funds through financial instruments shall be based on an *ex ante* assessment drawn up under the responsibility of the managing authority. The *ex ante* assessment shall be completed before managing authorities make programme contributions to financial instruments.

The *ex ante* assessment shall include at least the following elements:

The *ex ante* assessment may be reviewed or updated and may cover part or the entire territory of the Member State and may be based on existing or updated *ex ante* assessments.

4. Support to final recipients may be combined with any form of Union contribution, including from the same Fund and may cover the same expenditure item. In that case, the Funds' financial instrument support, which is part of a financial instrument operation, shall not be declared to the Commission for support under another form, another Fund or another Union instrument.
5. Financial instruments may be combined with programme support in the form of grants in a single financial instrument operation, within a single funding agreement, where both distinct forms of support shall be provided by the body implementing the financial instrument. In such case the rules applicable to financial instruments shall apply to that single financial instrument operation. The programme support in the form of grants shall be directly linked and necessary for the financial instrument and shall not exceed the value of the investments supported by the financial product.

6. In the case of combined support under paragraphs 4 and 5, separate records shall be kept for each source of support.

7. The sum of all forms of combined support shall not exceed the total amount of the expenditure item concerned. Grants shall not be used to reimburse support received from financial instruments. Financial instruments shall not be used to pre-finance grants.

  - operates under a public policy mandate given by the relevant authority of a Member State at national or regional level, which includes carrying out, as all or part of its activities, economic development activities contributing to the objectives of the Funds;

  - (iv) other bodies, also entering under the scope of Article 12 of the Public Procurement Directive 2014/24/EU.

The bodies implementing the financial instruments concerned, or in the context of guarantees, the body providing the underlying loans, shall support final recipients, taking due account of the programme objectives and the potential for the financial viability of the investment as justified in the business plan or an equivalent document. The selection of final recipients shall be transparent and shall not give rise to a conflict of interest.

6. National co-financing of a programme may be provided either by the managing authority or at the level of holding funds, or at the level of specific funds, or at the level of investments in final recipients, in accordance with the Fund-specific rules. When the national co-financing is provided at the level of investments in final recipients, the body implementing financial instruments shall keep documentary evidence demonstrating the eligibility of the underlying expenditure.

7. The managing authority in implementing directly the financial instrument pursuant to paragraph 1, or the body implementing the financial instrument pursuant to paragraph 2, shall keep separate accounts or maintain an accounting code per priority or, for the EMFAF, specific objective and, where applicable, per each category of region for each programme contribution and separately for resources referred to in Articles 54 and 56 respectively.

#### *Article 55*

##### *Differentiated treatment of investors*

1. 2. The level of such differentiated treatment shall not exceed what is necessary to create incentives for attracting private resources, established by either a competitive process or an independent assessment.

#### *Article 56*

##### *Re-use of resources attributable to the support from the Funds*

1. Resources paid back, before the end of the eligibility period, to financial instruments from investments in final recipients or from the release of resources set aside for guarantee contracts, including capital repayments and any type of generated income that is attributable to the support from the Funds, shall be re-used in the same or other financial instruments for further investments in final recipients, or to cover the losses in the nominal amount of the Funds contribution to the financial instrument resulting from negative interest, if such losses occur despite active treasury management and/or for any management costs and fees associated to such further investments, taking into account the principle of sound financial management.

2. Member States shall adopt the necessary measures to ensure that the resources referred to in paragraph 1 and paid back to financial instruments during a period of at least eight years after the end of the eligibility period, are re-used in accordance with the policy objectives of the programme or programmes under which they were set up, either within the same financial instrument or, following the exit of those resources from the financial instrument, in other financial instruments or in other forms of support.

The Member State may reduce the time limit set out in the first subparagraph to three years in cases concerning the maintenance of investments or jobs created by SMEs.

Repayment by the Member State due to non-compliance with this Article shall be made in proportion to the period of non-compliance.

2. Operations supported by the ESF+ or by the JTF in accordance with [points (h), (i) and (j) of Article [4(2)]] of Regulation (EU) [JTF Regulation] shall repay the support when they are subject to an obligation for maintenance of investment under State aid rules.

The Commission shall draw up, for its own audit work, an audit strategy and an audit plan which shall be based on a risk-assessment.

The Commission and the audit authorities shall coordinate their audit plans.

2. Commission audits shall be carried out up to three calendar years following the acceptance of the accounts in which the expenditure concerned was included. This period shall not apply to operations where there is a suspicion of fraud.

## *Article 65*

### *Programme authorities*

1. For the purposes of Article [63(3)] of the Financial Regulation, the Member State shall identify for each programme a managing authority and an audit authority. Those same authorities may be responsible for more than one programme.
2. The audit authority shall be a public authority. Audit work may be carried out by a public or private body other than the audit authority under its responsibility. The audit authority and any body carrying out audit work under the responsibility of the audit authority shall be functionally independent from the auditees.

[Horizon Europe Rules for Participation and Dissemination], the body implementing the programme co-funded by Horizon Europe shall be identified as an intermediate body by the managing authority of the relevant programme, in accordance with paragraph 3.
6. The Member State, at its own initiative, may set up a coordination body to liaise with and provide information to the Commission and to coordinate activities of the programme authorities in that Member State.

3. For programmes supported by the AMIF, the ISF and the BMVI, the accounting function shall be carried out by the managing authority or under its responsibility.

#### *Article 67*

##### *Selection of operations by the managing authority*

1. For the selection of operations, the managing authority shall establish and apply criteria and procedures which are non-discriminatory, transparent, ensure accessibility to persons with disabilities, gender equality and take account of the Charter of Fundamental Rights of the European Union and the principle of sustainable development and of the Union policy on the environment in accordance with Articles 11 and 191(1) of the TFEU.

The criteria and procedures shall ensure the prioritisation of operations to be selected with a view to maximise the contribution of Union funding to the achievement of the objectives of the programme.

3. In selecting operations, the managing authority shall:
  - (a) ensure that selected operations comply with the programme, including their consistency with the relevant strategies underlying the programme, as well as provide an effective contribution to the achievement of the specific objectives of the programme;

- (b) ensure that selected operations which fall within the scope of an enabling condition are consistent with the corresponding strategies and planning documents established for the fulfilment of that enabling condition;

In the case of policy objective one, as set out in Article 2(1)(a) of the [ERDF and CF Regulation], only operations corresponding to the specific objectives referred to in Article 2(1)(a)(i) and (iv) of that Regulation shall be consistent with the corresponding smart specialisation strategies.

- (e) ensure that selected operations which fall under the scope of Directive 2011/92/EU of the European Parliament and of the Council<sup>48</sup> are subject to an environmental impact assessment or a screening procedure and that the assessment of alternative solutions has been taken in due account, on the basis of the requirements of that Directive as amended by Directive 2014/52/EU of the European Parliament and of the Council<sup>49</sup>
- (f) verify that where the operations have started before the submission of an application for funding to the managing authority, applicable law has been complied with;
- (g) ensure that selected operations fall within the scope of the Fund concerned and are attributed to a type of intervention;
- (x) ensure that operations do not include activities which were part of an operation subject to relocation in accordance with Article 60 or which would constitute a transfer of a productive activity in accordance with Article 59(1)(a);
- (x) ensure that selected operations are not directly affected by a reasoned opinion by the Commission in respect of an infringement under Article 258 of the TFEU that puts at risk the legality and regularity of expenditure or the performance of operations;
- (j) ensure the climate proofing of investments in infrastructure with an expected lifespan of at least five years.

4. The managing authority shall ensure that the beneficiary is provided with a document setting out all the conditions for support for each operation including the specific requirements concerning the products or services to be delivered, the financing plan, the time-limit for its execution and where applicable, the method to be applied for determining the costs of the operation and the conditions for payment of the support.

5. For operations awarded a Seal of Excellence, or operations selected under a programme co-funded by Horizon Europe, the managing authority may decide to grant support from the ERDF or the ESF+ directly, provided that such operations meet the requirements set out in points (a), (b) and (g) of paragraph 3.

In addition, managing authorities may apply to the operations referred to in the first subparagraph the categories, maximum amounts and methods of calculation of eligible costs established under the relevant Union instrument.

These elements shall be set out in the document referred in paragraph 4.

6. When the managing authority selects an operation of strategic importance, it shall inform the Commission within one month and shall provide all relevant information to the Commission about that operation.

#### *Article 68*

##### *Programme management by the managing authority*

1. The managing authority shall:
  - (a) carry out management verifications to verify that the co-financed products and services have been delivered, that the operation complies with applicable law, the programme and the conditions for support of the operation, and:
    - (i) where costs are to be reimbursed pursuant to Article 48(1)(a), that the amount of expenditure claimed by the beneficiaries in relation to those costs has been paid and that beneficiaries maintain separate accounting records or use appropriate accounting codes for all transactions relating to the operation;
    - (ii) where costs are to be reimbursed pursuant to points (b), (c) and (d) of Article 48(1), that the conditions for reimbursement of expenditure to the beneficiary have been met;
  - (b) ensure, subject to the availability of funding, that a beneficiary receives the amount due in full and no later than 80 days from the date of submission of the payment claim by the beneficiary; the deadline may be interrupted if information submitted by the beneficiary does not allow the managing authority to establish whether the amount is due;
  - (c) have effective and proportionate anti-fraud measures and procedures in place, taking into account the risks identified;
  - (d) prevent, detect and correct irregularities;
  - (e) confirm that the expenditure entered into the accounts is legal and regular;
  - (f) draw up the management declaration in accordance with the template set out in Annex XV;

For point (b) of the first sub-paragraph, no amount shall be deducted or withheld and no specific charge or other charge with equivalent effect shall be levied that would reduce amounts due to beneficiaries.

For PPP operations, the managing authority shall carry out payments to an escrow account set up for that purpose in the name of the beneficiary for use in accordance with the PPP agreement.

2. Management verifications referred to in point (a) of paragraph 1 shall be risk-based and proportionate to the risks identified ex-ante and in writing.

Management verifications shall include administrative verifications in respect of payment claims by beneficiaries and on-the-spot verifications of operations. They shall be carried out at the latest before preparation of the accounts in accordance with Article 92.

3. Where the managing authority is also a beneficiary under the programme, arrangements for the management verifications shall ensure separation of functions.

Without prejudice to paragraph 2, the ETC Regulation may establish specific rules on management verifications applicable to Interreg programmes. The AMF, the ISF and the BMVI Regulation may establish specific rules on management verifications applicable where an international organisation is a beneficiary.

#### *Article 69*

##### *Support of the work of the monitoring committee by the managing authority*

The managing authority shall:

- (a) provide the monitoring committee in a timely manner with all information necessary to carry out its tasks;
- (b) ensure the follow-up of the decisions and recommendations of the monitoring committee.

#### *Article 70*

##### *The accounting function*

1. The accounting function shall consist of the following tasks:

- (a) drawing up and submitting payment applications to the Commission in accordance with Articles 85 and 86;
- (b) drawing up and submitting the accounts confirming completeness, accuracy and veracity of the accounts in accordance with Article 92 and keeping electronic records of all the elements of the accounts , including payment applications;

(c) converting the amounts of expenditure incurred in another currency into euro by using the monthly accounting exchange rate of the Commission in the month during which the expenditure is registered in the accounting systems of the body responsible for carrying out the tasks set out in this Article.

2. The accounting function shall not comprise verifications at the level of beneficiaries.

3. By way of derogation from point (c) of paragraph 1, the ETC Regulation may establish a different method to convert the amounts of expenditure incurred in another currency into euro.

#### *Article 71*

##### *Functions of the audit authority*

1. The audit authority shall be responsible for carrying out system audits, audits on operations and audits of accounts in order to provide independent assurance to the Commission regarding the effective functioning of the management and control systems and the legality and regularity of the expenditure included in the accounts submitted to the Commission.

2. Audit work shall be carried out in accordance with internationally accepted audit standards.

3. The audit authority shall draw up and submit to the Commission:

(a) an annual audit opinion in accordance with Article 63(7) of the Financial Regulation and with the template set out in Annex XVI and based on all audit work carried out, covering the following distinct components:

(i) the completeness, veracity and accuracy of the accounts;

(ii) the legality and regularity of the expenditure included in the accounts submitted to the Commission;

(iii) the effective functioning of the management and control system.

(b) an annual control report fulfilling the requirements of Article 63(5)(b) of the Financial Regulation, in accordance with the template set out in Annex XVII and, supporting the audit opinion referred to in point (a) and setting out a summary of the findings, including an analysis of the nature and extent of errors and deficiencies in the systems as well as the proposed and implemented corrective actions and the resulting total error rate and residual error rate for the expenditure entered in the accounts submitted to the Commission.

4. Where programmes are grouped for the purpose of audits of operations pursuant to Article 73(2), the information required under paragraph (3)(b) may be grouped in a single report.

5. The audit authority shall transmit to the Commission system audit reports as soon as the contradictory procedure with the relevant auditees is concluded.

6. The Commission and the audit authorities shall meet on a regular basis and at least once a year, unless otherwise agreed, to examine the audit strategy, the annual control report, the audit opinion, to coordinate their audit plans and methods and to exchange views on issues relating to the improvement of management and control systems.

*Article 72*

*Audit strategy*

1. The audit authority shall, after consulting the managing authority, prepare an audit strategy based on a risk assessment, taking account of the management and control system description provided for in Article 63(9), covering system audits and audits of operations. The audit strategy shall include system audits of newly identified managing authorities and authorities in charge of the accounting function. Such audits shall be carried out within twenty-one months of the Commission's decision approving the programme or the amendment of the programme identifying such an authority. The audit strategy shall be prepared in accordance with the template set out in Annex XVIII and shall be updated annually following the first annual control report and audit opinion provided to the Commission. It may cover one or more programmes.
2. The audit strategy shall be submitted to the Commission upon request.

*Article 73*

*Audits of operations*

1. Audits of operations shall cover expenditure declared to the Commission in the accounting year on the basis of a sample. That sample shall be representative and based on statistical sampling methods.
2. Where the population consists of less than 300 sampling units, a non-statistical sampling method may be used on the professional judgement of the audit authority. In such cases, the size of the sample shall be sufficient to enable the audit authority to draw up a valid audit opinion. The non-statistical sampling method shall cover a minimum of 10 % of the sampling units in the population of the accounting year, selected randomly.  
The statistical sample may cover one or more programmes receiving support from the ERDF, the Cohesion Fund, the JTF and the ESF+ and, subject to stratification where appropriate, one or more programming periods according to the professional judgement of the audit authority.  
The sample of operations supported by the AMIF, the ISF and the BMVI and by the EMFAF shall cover operations supported by each Fund separately.
3. Audits of operations shall include on-the-spot verification of the physical implementation of the operation only where it is required by the type of operation concerned.

The ESF+ Regulation may set out specific provisions for programmes or priorities under Article [4(1)(xi)] of the ESF+ Regulation. The AMF, the ISF and the BMVI Regulation may establish specific provisions for audit of operations where an international organisation is a beneficiary.

Audits shall be conducted on the basis of the rules in force at the time when the activities within the operation were carried out.

4. The Commission is empowered to adopt a delegated act in accordance with Article 107 to supplement this Article by setting out standardised off-the-shelf sampling methodologies and modalities to cover one or more programming periods.

#### *Article 74*

##### *Single audit arrangements*

1. When carrying out audits, the Commission and the audit authorities shall take due account of the principles of single audit and proportionality in relation to the level of risk to the budget of the Union. This shall be, in particular, in order to avoid duplication of audits and management verifications of the same expenditure declared to the Commission with the objective of minimising the cost of management verifications and audits and the administrative burden on beneficiaries.

The Commission and audit authorities shall first use all information and records referred to in Article 66(1)(e), including results of management verifications and only request and obtain additional documents and audit evidence from the beneficiaries concerned where, based on their professional judgement, this is required to support robust audit conclusions.

2. For programmes for which the Commission concludes that the opinion of the audit authority is reliable and the Member State concerned participates in the enhanced cooperation on the European Public Prosecutor's Office, the Commission's own audits shall be limited to auditing the work of the audit authority.

3. Operations for which the total eligible expenditure does not exceed EUR 400 000 for the ERDF and the Cohesion Fund, EUR 350 000 for the JTF, EUR 300 000 for the ESF+, EUR 200 000 for the EMFAF, the AMIF, the ISF and the BMVI shall not be subject to more than one audit by either the audit authority or the Commission prior to the submission of the accounts for the accounting year in which the operation is completed.

Other operations shall not be subject to more than one audit per accounting year by either the audit authority or the Commission prior to the submission of the accounts for the accounting year in which the operation is completed. Operations shall not be subject to an audit by the Commission or the audit authority in any year where there has already been an audit in that year by the Court of Auditors, provided that the results of that Court of Auditors' audit for such operations can be used by the audit authority or the Commission for the purpose of fulfilling their respective tasks.

4. Notwithstanding the provisions of paragraph 3, any operation may be subject to more than one audit, if the audit authority concludes based on its professional judgment, that it is not possible to draw up a valid audit opinion.

5. Paragraphs 2 and 3 shall not apply where:

- (a) there is a specific risk of irregularity or an indication of fraud;
- (b) there is a need to re-perform the work of the audit authority for obtaining assurance as to its effective functioning;
- (c) there is evidence of a serious deficiency in the work of the audit authority.

#### *Article 75*

##### *Management verifications and audits of financial instruments*

1. The managing authority shall carry out on-the-spot management verifications in accordance with Article 68(1) only at the level of bodies implementing the financial instrument and, in the context of guarantee funds, at the level of bodies delivering the underlying new loans. The managing authority may rely on verifications carried out by external bodies and not carry out on-the-spot management verifications, provided that it has sufficient evidence of the competence of those bodies.

2. The managing authority shall not carry out on-the-spot verifications at the level of the European Investment Bank ('EIB') or other international financial institutions in which a Member State is a shareholder.

However, the EIB or other international financial institutions in which a Member State is a shareholder shall provide control reports supporting the payment applications to the managing authority.

3. The audit authority shall carry out system audits and audits of operations in accordance with Articles 71, 73 or 77 at the level of bodies implementing the financial instrument and, in the context of guarantee funds, at the level of bodies delivering the underlying new loans. The audit results of external auditors of bodies implementing the financial instrument may be taken into account by the audit authority for the purposes of the overall assurance and on this basis, the audit authority may decide to limit its own audit work.

3a. In the context of guarantee funds, the bodies responsible for the audit of programmes may conduct audits of the bodies providing new underlying loans only when one or more of the following situations occur:

- (a) supporting documents, providing evidence of the support from the financial instrument to final recipients, are not available at the level of the managing authority or at the level of the bodies implementing the financial instrument;

(b) there is evidence that the documents available at the level of the managing authority or at the level of the bodies implementing the financial instrument do not represent a true and accurate record of the support provided.

4. The audit authority shall not carry out audits at the level of the EIB or other international financial institutions in which a Member State is a shareholder, for financial instruments implemented by them.

However, the EIB or other international financial institutions in which a Member State is a shareholder shall provide to the Commission and to the audit authority an annual audit report drawn up by their external auditors by the end of each calendar year. This report shall cover the elements included in Annex XVIIbis, and constitute the basis for the audit authority's work.

5. The EIB or other international financial institutions shall provide to the programme authorities all the necessary documents to enable them to fulfil their obligations.

#### *Article 76*

##### *Availability of documents*

1. Without prejudice to the rules governing State aid, the managing authority shall ensure that all supporting documents related to an operation supported by the Funds are kept at the appropriate level for a five-year period from 31 December of the year in which the last payment by the managing authority to the beneficiary is made.

2. This time period shall be interrupted either in the case of legal proceedings or by a request of the Commission.

## CHAPTER III

### Reliance on national management systems

#### *Article 77*

##### *Enhanced proportionate arrangements*

The Member State may apply the following enhanced proportionate arrangements for the management and control system of a programme when the conditions set out in Article 78 are fulfilled:

- (a) by way of derogation from Article 68(1)(a) and 68(2), the managing authority may apply only national procedures to carry out management verifications;
- (b) by way of derogation from Article 71(1) regarding system audits and Article 73(1) and (3) regarding audits of operations, the audit authority may limit its audit activity to audits of operations covering a sample based on a statistical selection of 30 sampling units for the programme or group of programmes concerned;
- (c) the Commission, shall limit its own audits to a review of the work of the audit authority through re-performance at its level only, unless available information suggests a serious deficiency in the work of the audit authority.

For the purposes of management verifications referred to in point (a), the managing authority may rely on verifications carried out by external bodies provided that it has sufficient evidence of the competence of those bodies.

For point (b), where the population consists of less than 300 sampling units, the audit authority may apply a non-statistical sampling method in accordance with Article 73(2).

#### *Article 78*

##### *Conditions for application of enhanced proportionate arrangements*

1. The Member State may apply the enhanced proportionate arrangements set out in Article 77 at any time during the programming period, where the Commission has confirmed in its published annual activity reports for the last two years preceding the Member State's decision to apply the provisions of this Article, that the programme's management and control system is functioning effectively and that the total error rate for each year is below 2 %. When assessing the effective functioning of the programme's management and control system, the Commission shall take into account the participation of the Member State concerned in the enhanced cooperation on the European Public Prosecutor's Office.

Where a Member State decides to use this option, it shall notify the Commission on the application of the proportionate arrangements set out in Article 77 which shall apply from the start of the subsequent accounting year.

2. At the start of the programming period, the Member State may apply the arrangements referred to in Article 77, provided that the conditions set out in paragraph 1 of this Article are met with respect to a similar programme implemented in 2014-2020 and where the management and control arrangements established for the 2021-2027 programme build largely on those for the previous programme. In such cases, the enhanced proportionate arrangements will apply from the start of the programme.

3. The Member State shall establish or update accordingly the description of the management and control system and the audit strategy described in Articles 63(9) and 72.

#### *Article 79*

##### *Adjustment during the programming period*

1. Where the Commission or the audit authority conclude, based on the audits carried out and the annual control report, that the conditions set out in Article 78 are no longer fulfilled, the Commission shall request the audit authority to carry out additional audit work in accordance with Article 63(3) and satisfy itself that remedial actions are taken.

2. Where the subsequent annual control report confirms that the conditions continue not to be fulfilled, thus limiting the assurance provided to the Commission on the effective functioning of the management and control systems and of the legality and regularity of expenditure, the Commission shall request the audit authority to carry out system audits.

3. The Commission may, after having given to the Member State the opportunity to present its observations, inform the Member State that the enhanced proportionate arrangements set out in Article 77 shall no longer be applied from the start of the subsequent accounting year.

5. Member States shall in particular deduct from the accounts:

- (a) the irregular expenditure which has been subject to financial corrections in accordance with Article 97;
- (b) the expenditure which is subject to an ongoing assessment of its legality and regularity;

Such a recovery shall not constitute a financial correction and shall not reduce support from the Funds to the programme. The amount recovered shall constitute assigned revenue in accordance with Article 21(3) of the Financial Regulation.

*Article 95*  
*Procedure for the examination of accounts*

1. The procedure set out in Article 96 shall apply in either of the following cases:

- (b) the audit opinion is still qualified or documents have not been re-submitted by the Member State, paragraphs 2, 3 and 4 shall apply.

2. If the audit opinion remains qualified due to reasons linked to the completeness, accuracy and veracity of the accounts or if the audit opinion remains unreliable, the Commission shall inform the Member State on the amount chargeable to the Funds for the accounting year.

The Commission shall pay any additional amount due or proceed to a recovery in accordance with Article 94 within two months.

5. With regard to the final accounting year, the Commission shall pay or recover the annual balance of the accounts for programmes supported by the EMFAF, the ERDF, the ESF+, the JTF and the Cohesion Fund no later than two months after the date of acceptance of the final performance report as referred to in Article 38.

  2. Financial corrections shall be recorded in the accounts for the accounting year in which the cancellation is decided.
  3. The support from the Funds cancelled may be reused by the Member State within the programme concerned except for an operation that was subject of that correction or, where a financial correction is made for a systemic irregularity, for any operation affected by the systemic irregularity.
  4. The Fund-specific rules for the EMFAF may lay down specific bases for financial corrections by the Member States linked to non-compliance with rules applicable under the Common Fisheries Policy.
  5. By way of derogation from paragraphs 1 to 3, in operations comprising financial instruments, a contribution cancelled in accordance with this Article, as a result of an individual irregularity, may be re-used within the same operation under the following conditions:
    - (a) where the irregularity that gives rise to the cancellation of the contribution is detected at the level of the final recipient: only for other final recipients within the same financial instrument;
    - (b) where the irregularity that gives rise to the cancellation of the contribution is detected at the level of the body implementing the specific fund, where a financial instrument is implemented through a structure with a holding fund, only for other bodies implementing specific funds.
- Where that irregularity that gives rise to the cancellation of the contribution is detected at the level of the body implementing the holding fund, or at the level of the body implementing the specific fund where a financial instrument is implemented through a structure without a holding fund, the contribution cancelled shall not be reused within the same operation.
- Where a financial correction is made for a systemic irregularity, the contribution cancelled shall not be reused for any operation affected by the systemic irregularity.
6. The bodies implementing financial instruments shall reimburse to Member States programme contributions affected by irregularities, together with interest and any other gains generated by those contributions.

The bodies implementing financial instruments shall not reimburse to Member States the amounts referred to in the first subparagraph provided that those bodies demonstrate for a given irregularity that the following cumulative conditions are fulfilled:

  - (c) the Member State has not complied with its obligations under Article 91 prior to the opening of the financial correction procedure by the Commission.

Where the Commission applies flat-rate or extrapolated financial corrections, this shall be carried out in accordance with Annex XXI.

2. Before taking a decision on a financial correction, the Commission shall inform the Member State of its conclusions and give the Member State the opportunity to present, within two months, its observations and to demonstrate that the actual extent of irregularity is less than the Commission's assessment. The deadline can be extended if mutually agreed.

3. Where the Member State does not accept the conclusions of the Commission, the Member State shall be invited to a hearing by the Commission, in order to ensure that all relevant information and observations are available to form the basis for Commission conclusions on the application of the financial correction.

4. The Commission shall decide on a financial correction taking into account the extent, the frequency and financial implications of the irregularities or serious deficiencies, by means of an implementing act within 10 months of the date of the hearing or of the submission of additional information as required by the Commission.

When deciding on a financial correction, the Commission shall take account of all information and observations submitted.

Where a Member State agrees to the financial correction for cases referred to in points (a) and (c) of paragraph 1 before the adoption of the decision referred to in paragraph 1, the Member State may reuse the amounts concerned. This possibility shall not apply to financial correction for cases referred to in (b) of paragraph 1.

5. The Fund-specific rules for the EMFAF may lay down specific bases for financial corrections by the Commission linked to non-compliance with rules applicable under the Common Fisheries Policy.

In the absence of such submission, the Commission shall revise the financing plan by reducing the contribution from the Funds for the calendar year concerned. That reduction shall be allocated to each priority proportionately to the amounts concerned by the decommitment that had not been used in the calendar year concerned.

4. The Commission shall amend the decision approving the programme no later than 31 October.

3. The Cohesion Fund shall support those Member States whose GNI per capita, measured in PPS and calculated on the basis of Union figures for the period 2015-2017, is less than 90 % of the average GNI per capita of the EU-27 for the same reference period.
