Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

**implementing the Kimberley Process certification scheme for the international trade in
rough diamonds (recast)**

EXPLANATORY MEMORANDUM

1. In the context of a people's Europe, the Commission attaches great importance to simplifying and clarifying the law of the Union so as to make it clearer and more accessible to citizens, thus giving them new opportunities and the chance to make use of the specific rights it gives them.

This aim cannot be achieved so long as numerous provisions that have been amended several times, often quite substantially, remain scattered, so that they must be sought partly in the original instrument and partly in later amending ones. Considerable research work, comparing many different instruments, is thus needed to identify the current rules.

For this reason a codification of rules that have frequently been amended is also essential if the law is to be clear and transparent.

2. On 1 April 1987 the Commission decided¹ to instruct its staff that all acts should be codified after no more than ten amendments, stressing that this is a minimum requirement and that departments should endeavour to codify at even shorter intervals the texts for which they are responsible, to ensure that their provisions are clear and readily understandable.
3. The Conclusions of the Presidency of the Edinburgh European Council (December 1992) confirmed this², stressing the importance of codification as it offers certainty as to the law applicable to a given matter at a given time.

Codification must be undertaken in full compliance with the normal procedure for the adoption of acts of the Union.

4. The purpose of this proposal is to undertake a codification of Council Regulation (EC) No 2368/2002 of 20 December 2002 implementing the Kimberley Process certification scheme for the international trade in rough diamonds³. The new Regulation will supersede the various acts incorporated in it⁴, fully preserving the content of the acts being codified. At the same time, it is also necessary to make a substantive amendment to Article 22 of that Regulation. Therefore, the proposal is being presented in the form of a recast.
5. The recast proposal was drawn up on the basis of a preliminary consolidation, in 24 official languages, of Regulation (EC) No 2368/2002 and the instruments amending it, carried out by the Publications Office of the European Union, by means of a data-processing system. Where the Articles have been given new numbers, the correlation between the old and the new numbers is shown in a table set out in Annex VII to the recast Regulation.

³ Entered in the legislative programme for 2020.

- (4) There is a need for effective controls on the international trade in rough diamonds in order to prevent the trade in conflict diamonds from financing the efforts of rebel movements and their allies to undermine legitimate governments. - (b) the rough diamonds are contained in tamper-resistant containers, and the seals applied at export by that participant are not broken;
- (c) the certificate clearly identifies the consignment to which it refers.

Article 4

↓ 257/2014 Art. 1.3 (adapted)

1. Containers and the corresponding certificates shall without delay be submitted for verification together, to a Union authority either in the Member State where they are imported or in the Member State for which they are destined, as indicated in accompanying documents. 2. In cases where rough diamonds are imported into a Member State where there is no Union authority, they shall be submitted to the appropriate Union authority in the Member State for which they are destined. If a Union authority exists neither in the importing Member State nor in the Member State of destination they shall be submitted to an appropriate Union authority in another Member State.

3. The Member State where the rough diamonds are imported shall ensure their submission to the appropriate Union authority provided for in paragraphs 1 and 2. Customs transit may be granted to that effect. If such customs transit is granted, the verification provided for by this Article shall be suspended until arrival at the appropriate Union authority.

4. The importer shall be responsible for the proper movement of the rough diamonds and the costs thereof.
5. A Union authority shall opt for either of the following methods to verify that the content of a container matches the particulars on the corresponding certificate:
- (a) it will open each container with a view to such verification; or
 - (b) it will identify the containers to be opened with a view to such verification on the basis of a risk analysis or equivalent system that gives due consideration to rough diamond shipments.
6. A Union authority shall complete the verification without delay.

Article 5

1. If a Union authority establishes that the conditions laid down in Article 3 are:
- (a) fulfilled, it shall confirm this on the original certificate and provide the importer with an authenticated and forgery-resistant copy of that confirmed certificate. This confirmation procedure shall take place within 10 working days of the submission of the certificate;
 - (b) not fulfilled, it shall detain the shipment.
2. If a Union authority finds that the failure to fulfil the conditions is not made knowingly or intentionally or is the result of an action by another authority in the exercise of its proper duties, it may proceed with the confirmation and release the shipment, after the necessary remedial measures have been taken to ensure that the conditions are met.
3. A Union authority shall, within one month, inform the Commission and the competent authority of the participant that purportedly issued or validated the certificate for the shipment of any failure to fulfil the conditions.

Article 6

257/2014 Art. 1.4 (adapted)

1. The Commission shall consult participants on the practical arrangements for providing the competent authority of the exporting participant that has validated a certificate with confirmation of imports into the Union territory or Greenland.

2368/2002 (adapted)

2. On the basis of those consultations, the Commission shall, in accordance with the procedure referred to in Article 20(2), lay down guidelines for such confirmation.

Article 7

The Commission shall provide all Union authorities with authenticated specimens of the participants' certificates, the names and other relevant details of the participants issuing and/or validating authorities, authenticated specimens of stamps and signatures attesting that a certificate has been legally issued or validated and any other relevant information received in respect of certificates.

For each certificate, this report shall list at least:

- (a) the unique certificate number;

The Commission may, in accordance with the procedure referred to in Article 20(2), determine the format of this report in order to facilitate monitoring the working of the certification scheme.

2. The Union authority shall keep the originals of the certificates provided for under point (a) of Article 3 submitted for verification for at least three years. It shall provide the Commission or persons or bodies designated by the Commission with access to these original certificates in particular with a view to answering questions raised within the framework of the KP certification scheme.

CHAPTER III

EXPORT REGIME

Article 9

↓ 257/2014 Art. 1.5 (adapted)

The export from the Union territory or Greenland of rough diamonds shall be prohibited unless both of the following conditions are fulfilled:

- (a) the rough diamonds are accompanied by a corresponding Union certificate issued and validated by a Union authority;
- (b) the rough diamonds are contained in tamper-resistant containers sealed in accordance with Article 10.

Article 10

1. The Union authority may issue a Union certificate to an exporter when it has established that:

↓ 257/2014 Art. 1.6 (adapted)

- (a) the exporter has provided conclusive evidence that:
 - (i) the rough diamonds for which a certificate is being requested were lawfully imported in accordance with Article 3; or
 - (ii) the rough diamonds for which a certificate is being requested were mined or extracted in Greenland where the rough diamonds have not been previously exported to a participant other than the Union;
-

↓ 2368/2002 (adapted)

- (b) the other information requested on the certificate is correct;
- (c) the rough diamonds are effectively destined for arrival in the territory of a participant, and
- (d) the rough diamonds are to be transported in a tamper-resistant container.

2. A Union authority shall not validate a Union certificate until it has verified that the content of the container matches the particulars on the corresponding certificate and that the tamper-resistant container containing the rough diamonds has subsequently been sealed under the responsibility of that authority.

3. A Union authority shall opt for either of the following methods to verify that the content of a container matches the particulars thereon on the certificate:

- (a) it will verify the content of each container; or
- (b) it will identify the containers, the content of which shall be verified, on the basis of a risk analysis or equivalent system that gives due consideration to rough diamond shipments.

4. The Union authority shall provide the exporter with an authenticated forgery-resistant copy of the Union certificate it has validated. The exporter shall keep any copy accessible for at least three years.

5. The Union certificate shall be valid for export for no more than two months from the date of issue. If the rough diamonds are not exported within ~~this~~ that period, the Union certificate shall be returned to the issuing Union authority.

Article 11

If an exporter is a member of a diamond organisation listed in Annex V, the Union authority may accept as conclusive evidence of lawful import into the Union a signed declaration by the exporter to that effect. Such a declaration shall contain at least the information to be given in an invoice under Article 15(2)(a)(ii).

Article 12

1. If a Union authority establishes that a shipment of rough diamonds, for which a Union certificate is requested, does not fulfil the conditions of Articles 9, 10 or 11, that authority shall detain the shipment.
2. If a Union authority finds that the failure to fulfil the conditions is not made knowingly or intentionally or is the result of an action by another authority in the exercise of its proper duties, it may release the shipment and proceed with the issuing and validation of a Union certificate, after the necessary remedial measures have been taken to ensure that the conditions are met.
3. The Union ~~Community~~ authority shall, within one month, inform the Commission and the competent authority of the participant that purportedly issued or validated the certificate for the shipment of any failure to fulfil the conditions.

Article 13

1. Union authorities shall provide the Commission with a monthly report on all Union certificates issued and validated by them.

For each certificate, this report shall list at least:

- (a) the unique certificate number;
- (b) the name of the issuing and validating authorities;
- (c) the date of issue and validation;
- (d) the date of expiry of validity;
- (e) the country of provenance;
- (f) the country of origin, where known;
- (g) the HS code(s);
- (h) the carat weight and value.

In accordance with the procedure referred to in Article 20(2), the Commission may determine the format of the report in order to facilitate monitoring the working of the certification scheme.

2. Union authorities shall keep for at least three years the authenticated copies provided for under Article 10(4) as well as all information received from an exporter to justify the issue and validation of a Union certificate.

They shall provide the Commission or persons or bodies designated by the Commission with access to those authenticated copies and that information, in particular with a view to answering questions raised within the framework of the KP certification scheme.

Article 14

1. The Commission shall consult participants on the practical arrangements for obtaining confirmation of imports of rough diamonds exported from the Union covered by a certificate validated by the Union authority.
2. On the basis of those consultations, the Commission shall, in accordance with the procedure referred to in Article 20(2), lay down guidelines for such confirmation.

CHAPTER IV

INDUSTRY SELF-REGULATION

Article 15

1. Organisations representing traders in rough diamonds which have established a system of warranties and industry self-regulation for the purposes of implementing the KP Certification Scheme may apply to the Commission for listing in Annex V directly or through the appropriate Union authority.

2. When applying for listing, an organisation shall:

- (a) provide conclusive evidence that adopted rules and regulations whereby its members dealing in rough diamonds, whether natural or legal persons, undertake that they will:
- (i) sell only diamonds purchased from legitimate sources in compliance with the provisions of relevant United Nations Security Council Resolutions and of the KP Certification Scheme and guarantee in writing on the invoice accompanying each sale of rough diamonds that, on the basis of their personal knowledge and/or written warranties provided by the supplier of such rough diamonds, the rough diamonds sold are therefore not conflict diamonds;
 - (ii) see that each sale of rough diamonds is accompanied by an invoice containing the said signed guarantee unequivocally identifying the seller and buyer and their registered offices, containing the VAT identification number of the seller, where applicable, the quantity/weight and qualification of the goods sold, the value of the transaction and the date of delivery;
 - (iii) not buy rough diamonds from suspect or unknown sources of supply and/or rough diamonds originating in non-participants in the KP certification scheme;
 - (iv) not buy rough diamonds from any source found, after legally binding due process, to have violated government laws and regulations concerning the trade in conflict diamonds;
 - (v) not buy rough diamonds in, or from, any region that is the subject of an advisory notice from a governmental or KP certification scheme authority to the effect that conflict diamonds are emanating from, or are available for sale in, that region;
 - (vi) not knowingly buy, sell or assist others in buying or selling conflict diamonds;
 - (vii) ensure that all employees buying or selling rough diamonds within the diamond trade are fully informed of trade resolutions and government regulations restricting the trade in conflict diamonds;
 - (viii) create and maintain for at least three years records of invoices received from suppliers and issued to customers;
 - (ix) instruct an independent auditor to certify that those records have been created and maintained accurately and either that it has identified no transactions which failed to comply with the undertakings referred to in (i) to (viii) or that any transaction which failed to comply with such undertakings has been duly reported to the appropriate Union authority;

and

- (b) provide conclusive evidence that it has adopted rules and regulations which oblige the organisation:
- (i) to expel any member found, after a due process inquiry by the organisation itself, to have seriously violated the abovementioned undertakings; and
 - (ii) to publicise that member's expulsion and notify the Commission thereof;
 - (iii) to make known to all its members all governmental and KP certification scheme laws, regulations and guidelines regarding conflict diamonds and the names of any natural or legal person found guilty, after legally binding due process, of violating these laws and regulations;

and

- (c) provide the Commission and the appropriate Union authority with a complete list of all its members dealing in rough diamonds, including full names, addresses, location and other information which will contribute to avoiding mistaken identities.

3. Organisations covered by this Article shall immediately notify the Commission and the Union authority of a Member State where they are resident or established of all changes in their membership subsequent to the application for listing.

4. In accordance with the procedure referred to in Article 20(2), the Commission shall list in Annex V each organisation that fulfils the requirements of this Article. It shall notify all Union authorities of the names and other relevant particulars of the members of listed organisations and any changes therein.

5. A listed organisation or a member thereof shall provide the relevant Union authority with access to any information that may be needed to assess the proper functioning of the system of warranties and industry self-regulation. Where circumstances justify, that Union authority may require additional guarantees that an organisation is able to maintain a credible system.

The appropriate Union authority shall report its assessment to the Commission on an annual basis.

6. If, in the course of monitoring the proper functioning of the system, a Union authority in a Member State obtains credible information that a listed organisation covered by this Article and established or resident in that Member State, or a member thereof established or resident in that Member State, is infringing the provisions of this Article, it shall inquire into the matter to verify whether the provisions of this Article have effectively been infringed.

7. If the Commission has credible information that a listed organisation or a member thereof is infringing the provisions of this Article, it shall request an assessment of the situation by the Union authority of a Member State where the organisation or its member is resident or established. Upon such request, the relevant Union authority shall promptly inquire into the matter and duly inform the Commission of its findings.

If the Commission, on the basis of reports, assessments or other pertinent information, comes to the conclusion that a system of warranties and industry self-regulation does not function properly, and the issue has not been addressed adequately, the Commission shall take the necessary measures in accordance with the procedure referred to in Article 20(2).

8. If an inquiry leads to the conclusion that an organisation is infringing the provisions of this Article, the Union authority of a Member State where that organisation is

resident or established will notify the Commission thereof without delay. In turn, the Commission, in accordance with the procedure referred to in Article 20(2), shall take the appropriate measures with a view to removing that organisation from the list in Annex V.

9. If a listed organisation or one or more of its members are established or resident in a Member State that has not designated a ☒ Union ☒ authority for the purposes of this Article, the Commission shall be the ☒ Union ☒ authority for that organisation or those members.

10. Organisations or their members covered by this Article acting in the territory of a participant other than the ☒ Union ☒ shall be considered to have complied with the provisions of this Article if they comply with the rules and regulations that this participant has laid down for the purpose of implementing the ☒ KP☒ Certification Scheme.

CHAPTER V

Article 16

Articles 4, 9, 10, and 12 shall not apply to rough diamonds which enter the ☒ Union ☒ territory or Greenland solely for the purposes of transit to a participant outside those territories, on condition that neither the original container in which rough diamonds are being transported nor the original accompanying certificate issued by a competent authority of a participant has been tampered with at entry into or exit from the ☒ Union ☒ territory or Greenland, and the transit purpose is clearly attested by the accompanying certificate.
