The purpose of such measures will be to implement the fisheries heading of the Trade and Cooperation Agreement.

### **3. POSITION TO BE TAKEN ON THE EU'S BEHALF**

Pursuant to Article 218(9) of the Treaty on the Functioning of the European Union (TFEU), the Council shall adopt, on a proposal from the Commission, the position to be adopted on behalf of the Union in the Specialised Committee on Fisheries, on decisions adopted under Article 508(2) of the Trade and Cooperation Agreement.

Positions within the Specialised Committee on Fisheries should be established using a two-tier approach. First, a Council Decision should set out the guiding principles and orientations of the EU's position on a multi-annual basis. Second, for each meeting where the Specialised Committee on Fisheries may be called upon to adopt acts or measures having legal effects, the position should be supplemented by non-papers prepared by the Commission and discussed in the Council Working Party.

This proposal aims to set out the EU's position within the Specialised Committee on Fisheries. The proposal implements the principles and orientations of the common fisheries policy (CFP) as laid down in Regulation (EU) No 1380/2013, in particular its Articles 2, 28 and 33. It also implements the provisions of multi-annual plans as laid down in Regulation (EU) 2018/973 of the European Parliament and of the Council of 4 July 2018 establishing a multiannual plan for demersal stocks in the North Sea<sup>2</sup> and Regulation (EU) 2019/472 establishing a multiannual plan for stocks fished in the Western Waters<sup>3</sup>.

---

<sup>2</sup> Regulation (EU) 2018/973 of the European Parliament and of the Council of 4 July 2018 establishing a multiannual plan for demersal stocks in the North Sea and the fisheries exploiting those stocks, specifying details of the implementation of the landing obligation in the North Sea and repealing Council Regulations (EC) No 676/2007 and (EC) No 1342/2008, OJ L 179, 16.7.2018, p. 1–13.

<sup>3</sup> Regulation (EU) 2019/472 of the European Parliament and of the Council of 19 March 2019 establishing a multiannual plan for stocks fished in the Western Waters and adjacent waters, and for fisheries exploiting those stocks, amending Regulations (EU) 2016/1139 and (EU) 2018/973, and

The proposal aligns with the objectives and principles established in Article 494 of the Trade and Cooperation Agreement and takes account of the specific characteristics of the fisheries heading in the Trade and Cooperation Agreement. It also incorporates the standard process for the in-year specifications of the EU's position to be taken in the Specialised Committee on Fisheries.

In line with Article 218(10) TFEU and Council Decision (EU) 2021/689<sup>4</sup>, the European Parliament is to be immediately and fully informed of the activities of the Specialised Committee on Fisheries, subject to the necessary arrangements in order to preserve confidentiality. As a general rule, the Commission will provide the information to the European Parliament through the responsible parliamentary committee. Such information should include the briefing and debriefing before and after meetings of the Specialised Committee on Fisheries, as well as all documents pertaining to its meetings at the same time the Commission shares them with the Council.

These working modalities are to be based on the principle of mutual sincere cooperation between the Union institutions, as enshrined in Article 13(2) TEU.

## **4. LEGAL BASIS**

### **4.1. Procedural legal basis**

#### *4.1.1. Principles*

Article 218(9) of the TFEU provides for a Council decision establishing *‘the positions to be adopted on the Union’s behalf in a body set up by an agreement, when that body is called upon to adopt acts having legal effects, with the exception of acts supplementing or amending the institutional framework of the agreement.’*

‘Acts having legal effects’ include acts that have legal effects by virtue of the rules of international law governing the body in question, and instruments that do not have a binding effect under international law, but are ‘capable of decisively influencing the content of the legislation adopted by the Union legislature’<sup>5</sup>.

#### *4.1.2. Application to the present case*

The Specialised Committee on Fisheries is a body set up by an international agreement, namely the Trade and Cooperation Agreement.

The measures adopted by the Specialised Committee on Fisheries may be binding on the Parties in accordance with Article 10 of the Trade and Cooperation Agreement, which provides that: ‘The decisions adopted by the Partnership Council, or, as the case may be, by a Committee, shall be binding on the Parties and on all the bodies set up under this Agreement and under any supplementing agreement, including the arbitration tribunal referred to in Title I of Part 6. Recommendations shall have no binding force.’

repealing Council Regulations (EC) No 811/2004, (EC) No 2166/2005, (EC) No 388/2006, (EC) No 509/2007 and (EC) No 1300/2008, OJ L 83, 25.3.2019, p. 1–17.

<sup>4</sup> Council Decision (EU) 2021/689 of 29 April 2021 on the conclusion, on behalf of the Union, of the Trade and Cooperation Agreement between the European Union and the European Atomic Energy Community, of the one part, and the United Kingdom of Great Britain and Northern Ireland, of the other part, and of the Agreement between the European Union and the United Kingdom of Great Britain and Northern Ireland concerning security procedures for exchanging and protecting classified information, OJ L 149, 30.4.2021, p. 2-9.

<sup>5</sup> Judgment of the Court of Justice of 7 October 2014, Germany v Council, C-399/12, ECLI:EU:C:2014:2258, paragraphs 61 to 64.

Recommendations and other acts or measures adopted by the SCF, may be capable of decisively influencing the content of the legislation adopted by the Union legislature, even if they do not have a binding effect under international law. The acts or measures adopted by the Specialised Committee on Fisheries will not supplement or amend the institutional framework of the Trade and Cooperation Agreement.

Therefore, the procedural legal basis for the proposed Decision is Article 218(9) TFEU.

## **4.2. Substantive legal basis**

### *4.2.1. Principles*

The substantive legal basis for a decision under Article 218(9) TFEU depends primarily on the objective and content of the envisaged act for which a position is taken on the Union's behalf. If it pursues two aims or has two components, and if one of those aims or components can be identified as the main one, meaning that the other is merely incidental, the decision under Article 218(9) TFEU must be founded on a single substantive legal basis, namely that required by the main or predominant aim or component.

For an envisaged act that pursues a number of objectives simultaneously, or that has several components that are inseparably linked without one being incidental to the other, the substantive legal basis of a decision under Article 218(9) TFEU will have to include, exceptionally, the various corresponding legal bases.

### *4.2.2. Application to the present case*

The main objective and content of the envisaged decision relate to fisheries. Regulation (EU) No 1380/2013 is the legal basis setting out the principles to be reflected in this position.

Therefore, the proposed Decision is based on Article 43 TFEU.

## **4.3. Conclusion**

The legal basis of the proposed Decision should be Article 43 TFEU, in conjunction with Article 218(9) TFEU.

It provides that the Union is to take management and conservation measures based on best available scientific advice, to support the development of scientific knowledge and advice, to gradually eliminate discards and to promote fishing methods that contribute to more selective fishing and the avoidance and reduction, as far as possible, of unwanted catches, to fishing with low impact on marine ecosystem and fishery resources. Regulation (EU) No 1380/2013 specifically provides that those objectives and principles are to be applied by the Union in the conduct of its external fisheries relations.

- (10) In view of the evolving nature of fishery resources covered by the Trade and Cooperation Agreement and the consequent need for the position of the Union to take account of new developments, including new scientific and other relevant information presented before or during the meetings of the Specialised Committee on Fisheries, procedures should be established, in line with the principle of sincere cooperation among the Union institutions enshrined in Article 13(2) of the Treaty on European Union, for the year-to-year specification of the Union position for the period 2021-2026,
