1. INTRODUCTION

This Staff Working Document (“SWD”) accompanies the Report on the Management of the European Fund for Strategic Investments Guarantee Fund (“EFSI GF”) in 2020. The SWD provides further information and tables on (2) operations under the IIW and SMEW (signatures and disbursed amounts, breakdown by sector and country), (3) financial statements, (4) provisioning of the EFSI GF and (5) asset management.

2. EFSI OPERATIONS SUPPORTED BY THE EU GUARANTEE

This section provides a breakdown of the EFSI operations supported by the EU Guarantee in terms of number of operations, investment volume (signature and investment mobilised) and a sector and country breakdown.

2.1 IIW OPERATIONS

As at 31 December 2020, 629 operations in all Member States were signed under the IIW. The total signatures amount to EUR 57.2 billion which is expected to mobilise investments of EUR 278.2 billion. Almost half of the signed operations in terms of volume were in the energy (24%) and research sectors (21%), followed by the provision of financial support to SMEs and small Mid-Cap companies (18%) and transport (16%).

2.2 SMEW OPERATIONS

As at 31 December 2020, 792 operations in all Member States were signed under the SMEW. The total financing of EUR 25.5 billion is expected to mobilise investments of EUR 201.3 billion. The most important sectors in terms of volume were research and development (66%) and digital (17%).

2.3 BREAKDOWN OF EFSI OPERATIONS BY SECTOR AND COUNTRY

Table 1: Distribution of signed EFSI IIW and SMEW operations by sector as at 31 December 2020 (EUR million).

Objective and subcategory	Signed operations		
	IIW	SMEW	Total
EFSI: research, development and innovation	12,173.45	16,904.43	29,077.88
EFSI: development of the energy sector in accordance with the Energy Union priorities	13,999.98	-	13,999.98
EFSI: development of transport infrastructures, and equipment and innovative technologies for transport	9,298.77	-	9,298.77
EFSI: financial support through the EIF and the EIB to entities having up to 3 000 employees	10,287.85	2,463.30	12,751.15
EFSI: development and deployment of information and communication technologies	3,622.40	4,347.65	7,970.05
EFSI: environment and resource efficiency	4,189.10	-	4,189.10
EFSI: human capital, culture and health	2,288.74	1,830.07	4,118.81
EFSI: Less-developed regions and transition regions	534.75	-	534.75
EFSI: sustainable agriculture, forestry, fishery, aquaculture and other elements of the wider bioeconomy	815.50	-	815.50
Total	57,210.54	25,545.45	82,755.99

ECONOMIC RESULT OF THE YEAR	21 647 573	21 711 491

4. PROVISIONING OF THE EFSI GF

The Guarantee Fund is provisioned through:

- Contributions from the general Union budget; the budget allocated for EFSI contributions amounts to EUR 8 425 million;
- Revenues and any other payments received by the Union in accordance with the EFSI Agreement as well as revenues and repayments from financial instruments under the “Connecting Europe Facility” (Regulation (EU) No 1316/2013) and “2020 European Fund for Energy, Climate Change & Infrastructure” - Marguerite Fund (Regulation (EC) No 680/2007).
- Returns (interests) on guarantee fund resources invested in the financial markets;
- Amounts recovered from projects for which the EU Guarantee was called (i.e. defaulting debtors);

The Guarantee Fund, as part of the CPF compartment since January 2021, is provisioned progressively by 2022.

Table 3: Provisioning of the EFSI GF for the period 2015-2022 (EUR million)

	2015	2016	2017	2018	2019	2020	2021	2022
Commitments	1350	2110	2680	2069	357	301		
Payments (*)		1018	2490	2014	1166	1249	525	387

Note: From 2021 and onward data are provisional and do not include the expected assigned revenues.

(*) Including assigned revenues: EUR 6.3 million in 2016, EUR 39.2 million in 2017, EUR 59.0 million in 2018, EUR 163.1 million in 2019 and EUR 156.0 million in 2020.

5. ASSET MANAGEMENT

The following sections provide some further details on (a) the composition of the portfolio and (b) the key risk characteristics of the portfolio.

5.1 COMPOSITION OF THE PORTFOLIO

The year-end EFSI GF portfolio data show that it is well diversified in terms of asset classes and rating categories. In addition, there is also diversification in non-euro denominated securities (USD) in the form of an allocation to US Treasuries and other US issuers (e.g. Supranational, other Sovereigns or Agencies) and cash for about 6% of the portfolio. The currency risk is hedged.

As shown in Figure 1, over 24% of the market value of the portfolio is invested in AAA securities, and the rest is well distributed across the whole spectrum of the investment-grade scale. The AAA category includes, for example, securities issued by the US Government and covered bonds issued by financial institutions.

The share of bonds complying with environmental, social and governance criteria was 9.5% at the end of 2020, compared with 6.9% at the end of 2019.

Figure 2 shows the distribution of the ESG instruments per asset class and rating.

Source: European Commission services

FIGURE 2: ESG INSTRUMENTS PER ASSET CLASS AND RATING (%)

Source: European Commission services

(1) Corporate: unsecured bonds issued by financial and non-financial corporations.

5.2 KEY RISK CHARACTERISTICS OF THE PORTFOLIO

Market Risk

Market risk is, inter alia, assessed by way of calculating the duration¹ of the portfolio. As at 31 December 2020, the portfolio had a duration of 3.19 years.

Currency risk and hedging activities

USD investments represented 5.7% of the portfolio market value as at 31 December 2020. The currency risk of USD-denominated investments was hedged via forward contracts.

Credit Risk

The credit quality of the EFSI GF portfolio is high with an average rating² of BBB+, suggesting a low default probability (0.12% on a 1-year basis).

Liquidity characteristics of the portfolio

About 33% of the portfolio consists of bonds with a maturity below 1-year, floating rate notes and short-term money market instruments which provide a further liquidity buffer for the portfolio.

¹ The duration figure refers to 'modified duration' which measures the price sensitivity of a bond to interest rate movements.

² The average rating is calculated on the basis of portfolio's average 1-year default probability.
