Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

**on certain provisions for fishing in the GFCM (General Fisheries Commission for the
Mediterranean) Agreement area (recast)**

DRAFT EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

• **Reasons for and objectives of the proposal**

The purpose of this proposal is to implement into EU law the fisheries conservation and management measures adopted in 2018 and 2019 by the General Fisheries Commission for the Mediterranean (GFCM), to which the Union has been a contracting party since 1998. The previous implementation of GFCM measures was enacted by Regulation (EU) 2019/982¹, which amended two earlier transposing acts, Regulation (EU) 2015/2102² and Regulation (EU) 1343/2011³. Since the 2019 Regulation has been substantially amended several times and now requires further amendment, it will be recast in the interest of clarity, simplification and legal certainty.

The GFCM is the regional fisheries management organisation (RFMO) responsible for managing fishery resources in the Mediterranean and Black Sea. Its main objectives are to promote the development, conservation, rational management and best utilisation of living marine resources, and to ensure the sustainable development of aquaculture, in the Mediterranean, Black Sea and connecting waters. The Union and 10 of its Member States (Bulgaria, Croatia, Cyprus, France, Greece, Italy, Malta, Slovenia, Spain and Romania) are contracting parties to the GFCM Agreement.

The GFCM has the authority to adopt binding decisions ('recommendations') on fisheries conservation and management in its area of competence. These acts are addressed to the contracting parties, but may also contain obligations for operators (e.g. vessel masters). GFCM recommendations become binding 120 days after the date of first notification, provided that no objections are lodged. It is incumbent on the Union to ensure compliance with these measures, as international obligations, as soon as they enter into force.

This proposal grants delegated powers to the Commission under Article 290 of the Treaty on the Functioning of the European Union (TFEU), to ensure that the Union continues to fulfil its obligations under the GFCM Agreement.

• **Consistency with existing policy provisions in the policy area**

This proposal complements and is generally consistent with other provisions of Union law in this area. Derogations from existing acts are however established in certain instances due to the nature of the more specific measures proposed.

¹ Regulation (EU) 2019/982 of the European Parliament and of the Council of 5 June 2019 amending Regulation (EU) No 1343/2011 on certain provisions for fishing in the GFCM (General Fisheries Commission for the Mediterranean) Agreement area (OJ L 164, 20.6.2019, p. 1).

² Regulation (EU) 2015/2102 of the European Parliament and of the Council of 28 October 2015 amending Regulation (EU) No 1343/2011 on certain provisions for fishing in the GFCM (General Fisheries Commission for the Mediterranean) Agreement area (OJ L 308, 25.11.2015, p. 1).

³ Council Regulation (EC) No 1967/2006 **of 21 December 2006** concerning management measures for the sustainable exploitation of fishery resources in the Mediterranean Sea, **amending Regulation (EEC) No 2847/93 and repealing Regulation (EC) No 1626/94** (OJ L 347, 30.12.2011, p. 11).

To the extent to which the GFCM decisions adopted in 2018 and 2019 are not yet covered by existing EU law, they must be implemented into the EU legal system to ensure that are applied in a uniform and effective manner throughout the EU.

This proposal takes account of Regulation (EU) 2019/1241 on the conservation of fisheries resources and the protection of marine ecosystems through technical measures⁴. It pursues the objectives of the reformed common fisheries policy⁵ and will be applied without prejudice to Regulation (EC) No 1967/2006⁶.

- **Consistency with other Union policies**

Not applicable.

2. LEGAL BASIS, SUBSIDIARITY AND PROPORTIONALITY

- Legal basis

This proposal is based on Article 43(2) TFEU, as it sets out provisions necessary for the pursuit of the objectives of the reformed common fisheries policy.

- **Subsidiarity (for non-exclusive competence)**

This proposal falls under the exclusive competence of the Union (Article 3(1)(d) TFEU). Therefore, the subsidiarity principle does not apply.

- **Proportionality**

This proposal will ensure that Union law is in line with international obligations adopted by the GFCM, to which the Union is a contracting party. It implements these without exceeding what is necessary to achieve the objective pursued.

- **Choice of instrument**

The instrument chosen is a Regulation of the European Parliament and of the Council. This choice takes into account the objectives of the common fisheries policy and the EU's other international obligations.

This proposal marks the fourth transposition of GFCM recommendations into EU law. Given the nature, scope and number of amendments involved, the legal services requested a recast as the most appropriate procedure to ensure sufficient legal clarity and readability.

⁴ Regulation (EU) 2019/1241 of the European Parliament and of the Council of 20 June 2019 on the conservation of fisheries resources and the protection of marine ecosystems through technical measures, amending Council Regulations (EC) No 1967/2006, (EC) No 1224/2009 and Regulations (EU) No 1380/2013, (EU) 2016/1139, (EU) 2018/973, (EU) 2019/472 and (EU) 2019/1022 of the European Parliament and of the Council, and repealing Council Regulations (EC) No 894/97, (EC) No 850/98, (EC) No 2549/2000, (EC) No 254/2002, (EC) No 812/2004 and (EC) No 2187/2005 (OJ L 198, 25.7.2019, p. 105).

⁵ Regulation (EU) No 1380/2013 of the European Parliament and of the Council of 11 December 2013 on the Common Fisheries Policy, amending Council Regulations (EC) No 1954/2003 and (EC) No 1224/2009 and repealing Council Regulations (EC) No 2371/2002 and (EC) No 639/2004 and Council Decision 2004/585/EC (OJ L 354, 28.12.2013, p. 22).

⁶ Council Regulation (EC) No 1967/2006 concerning management measures for the sustainable exploitation of fishery resources in the Mediterranean Sea (OJ L 409, 21.12.2006, p. 11).

3. RESULTS OF EX-POST EVALUATIONS, STAKEHOLDER CONSULTATIONS AND IMPACT ASSESSMENTS

- **Ex-post evaluations/fitness checks of existing legislation**

Not applicable.

- **Stakeholder consultations**

The purpose of this proposal is to implement existing GFCM measures that are binding on the contracting parties. National experts and industry representatives from EU Member States were consulted before and during the negotiations at the 42nd and 43rd GFCM annual sessions. Consequently, it was not considered necessary to hold a stakeholder consultation on this regulation.

- **Collection and use of expertise**

Not applicable.

- **Impact assessment**

Measures adopted by the GFCM are based on advice from its Scientific Advisory Committee. Further impact assessment will not be carried out, as no new policy (going further than the GFCM measures) will be developed and no significant new impacts are expected from the transposition.

- **Regulatory fitness and simplification**

This proposal is not linked to REFIT.

- **Fundamental rights**

This proposal has no consequences for the protection of EU citizens' fundamental rights.

4. BUDGETARY IMPLICATIONS

Not applicable.

5. OTHER ELEMENTS

- **Implementation plans and monitoring, evaluation and reporting arrangements**

Not applicable.

- **Explanatory documents (for directives)**

Not applicable.

- **Detailed explanation of the specific provisions of the proposal**

This proposal will address issues relating to the sustainable conservation and management of fisheries, and to the impact of fishing activities on certain marine species in the Mediterranean and Black Sea areas. As previously mentioned, in the interest of legal clarity, the proposed act will be a recast.

Title I contains general provisions on subject matter, scope, links with other Union acts and definitions. The proposal applies to commercial fishing and aquaculture, and recreational

fishing, by Union fishing vessels and nationals of Member States in the GFCM Agreement area.

Title II deals with fisheries management, conservation and control measures for certain species. It includes chapters on European eel, giant red shrimp, blue and red shrimp, red coral, demersal fisheries, small pelagic fisheries, blackspot seabream, dolphin fish, turbot and piked dogfish.

Title III sets out common provisions and includes measures on conservation, control, cooperation, information and reporting, and regional research programmes. Chapter I focuses on technical and conservation measures, in particular to reduce the impact of fishing activities on certain marine species (including sharks and rays) and incidental catches, to establish fisheries restricted areas (FRAs) and temporal closures, and to regulate what fishing gear may be used. Chapter II contains control measures, in particular as regards the register of authorised vessels, port state measures and vessels presumed to have carried out illegal, unreported and unregulated (IUU) fishing. Chapter III includes measures on cooperation, information sharing and reporting. Chapter IV establishes regional research programmes on blue crab in the Mediterranean and rapa whelk in the Black Sea.

Title IV sets out final provisions, including on the delegation of powers and entry into force.

The reporting deadlines in this proposal have been established on the basis of deadlines agreed at GFCM level, with a view to enabling the EU to comply with the requirements for reporting to the GFCM Secretariat.

~~At its Annual Sessions in 2005, 2006, 2007 and 2008 the GFCM adopted a number of recommendations and resolutions for certain fisheries in the GFCM Agreement area which have been temporarily implemented in Union law by the annual Regulations on fishing opportunities or, in the case of GFCM Recommendations 2005/1 and 2005/2, by Article 4(3) and Article 24 of Council Regulation (EC) No 1967/2006¹³.~~

↓ 1343/2011 recital 13 (adapted)

~~At its Annual Session in 2008, the GFCM adopted a recommendation on a regional scheme of port state measures to combat Illegal, Unreported and Unregulated (IUU) fishing in the GFCM Area. While Council Regulation (EC) No 1005/2008 of 29 September 2008 establishing a Community system to prevent, deter and eliminate illegal, unreported and unregulated fishing¹⁴ covers generally the content of that recommendation and has been applied since 1 January 2010, there are nevertheless some parts thereof, such as the frequency, the coverage and the procedure for port inspections, which need to be referred to in this Regulation in order to adapt them to the particularities of the GFCM Agreement area.~~

↓ 1343/2011 recital 7 (adapted)

~~GFCM recommendations apply to the entire GFCM Agreement area, that is the Mediterranean and the Black Sea and connecting waters, as defined in the preamble to the GFCM Agreement, and therefore, for reasons of clarity and legal certainty, they should be implemented in a single separate Regulation rather than through amendments to Regulation (EC) No 1967/2006 which covers only the Mediterranean Sea.~~

↓ 1343/2011 recital 8 (adapted)

~~Certain provisions contained in Regulation (EC) No 1967/2006 should apply not only to the Mediterranean Sea but to the entire GFCM Agreement area. Those provisions should therefore be deleted from Regulation (EC) No 1967/2006 and included in this Regulation. In addition, certain provisions regarding minimum mesh size that are laid down in that Regulation should be further clarified.~~

↓ 1343/2011 recital 9 (adapted)

~~The ‘fisheries restricted areas’ established by GFCM recommendations for spatial management measures are equivalent to the ‘fishing protected areas’ as used in Regulation (EC) No 1967/2006.~~

- (17) At its Annual Session in 2019, the GFCM adopted Recommendation GFCM/43/2019/2 on a management plan for the sustainable exploitation of blackspot seabream in the Alboran Sea. This Regulation should implement into Union law those measures laid down in that Recommendation which are not yet covered by Union legislation.

↓ 1343/2011 recital 11

~~In Mediterranean mixed fisheries, the selectivity of some fishing gears cannot be permitted to go beyond a certain level. In addition to the overall control and limitation of fishing effort, it is fundamental to limit fishing effort in areas where adults of important stocks aggregate, in order to ensure a risk of reproduction impairment that is low enough to allow for their sustainable exploitation. It is therefore advisable, in respect of the area examined by the SAC, first to limit the fishing effort to previous levels and then not to allow any increase of that level.~~

- (18) At its Annual Session in 2018, the GFCM adopted Recommendation GFCM/42/2018/1 on a multiannual management plan for European eel in the Mediterranean Sea. This Recommendation establishes a multiannual management plan for fisheries catching European eel in the Mediterranean Sea, in line with the precautionary approach to fisheries management. This Regulation should implement into Union law those measures laid down in that Recommendation which are not yet covered by Union legislation.
- (19) At its Annual Session in 2018, the GFCM adopted Recommendation GFCM/42/2018/3 on a multiannual management plan for sustainable trawl fisheries targeting giant red shrimp and blue and red shrimp in the Levant Sea . This Regulation should implement into Union law those measures laid down in that Recommendation which are not yet covered by Union legislation.
- (20) At its Annual Session in 2018, the GFCM adopted Recommendation GFCM/42/2018/4 on a multiannual management plan for sustainable trawl fisheries targeting giant red shrimp and blue and red shrimp in the Ionian Sea. - (23) At its Annual Session in 2019, the GFCM adopted Recommendation GFCM/43/2019/1 on a set of management measures for the use of anchored fishing aggregating devices in common dolphinfish fisheries in the Mediterranean Sea. This Recommendation complements Recommendation GFCM/30/2006/2 on the establishment of a closed season for common dolphinfish fisheries using fish aggregating devices and establishes a set of management measures for the use of anchored FADs exploiting common dolphinfish in the GFCM area of application. This Regulation should implement into Union law those measures laid down in that Recommendation which are not yet covered by Union law.
- (24) At its Annual Session in 2019, the GFCM adopted Recommendation GFCM/43/2019/6 on management measures for sustainable trawl fisheries targeting giant red shrimp and blue and red shrimp in the Strait of Sicily. This Regulation should implement into Union law those measures laid down in that Recommendation which are not yet covered by Union law.

- (26) In order to ensure that the Union continues to fulfil its obligations under the GFCM Agreement, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of the implementation in Union law of amendments, which have become binding on the Union, to existing GFCM measures which have already been implemented in Union law, as regards ~~the provision to the Executive Secretary of the GFCM of information on minimum mesh size in the Black Sea;~~ the transmission to the ~~Executive Secretary of the GFCM~~ Secretariat of the list of authorised vessels for the purpose of the GFCM Register; ⇒ the derogations to conservation measures for red coral; the implementation of the permanent catch certification scheme for red coral; ⇐ port state measures; cooperation, information and reporting; the table, map and geographic coordinates of the GFCM Geographical Sub-Areas; port state inspection procedures for vessels; and GFCM statistical matrices. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and to the Council,

HAVE ADOPTED THIS REGULATION:

TITLE I

GENERAL PROVISIONS

Article 1

Subject matter

¹⁷ Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 (OJ L 55, 28.2.2011, p. 13).

This Regulation lays down the rules for the application by the Union of the conservation, management, exploitation, monitoring, marketing and enforcement measures for fishery and aquaculture products established by the General Fisheries Commission for the Mediterranean (GFCM).

Article 2

Scope

1. →₁ This Regulation applies to all commercial fishing and aquaculture activities, as well as to recreational fishing activities where specifically provided for in this Regulation, conducted by Union fishing vessels and nationals of Member States in the GFCM Agreement area. ←

It shall apply without prejudice to ☒ Council ☒ Regulation (EC) No 1967/2006¹⁸.

2. By way of derogation from paragraph 1, this Regulation shall not apply to fishing operations conducted solely for the purpose of scientific investigations which are carried out with the permission and under the authority of the Member State whose flag the vessel is flying and of which the Commission and the Member States in whose waters the research is carried out have been informed in advance ⇨ , unless specified otherwise in this Regulation ⇐. Member States conducting fishing operations for the purpose of scientific investigations shall inform the Commission, the Member States in whose waters the research is carried out and the Scientific, Technical and Economic Committee for Fisheries of all catches from such fishing operations.

Article 3

Definitions

→₂ For the purposes of this Regulation the following definitions shall apply in addition to the definitions laid down in Article 4 of Regulation (EU) No 1380/2013 of the European Parliament and of the Council¹⁹, Article 2 of Regulation (EC) No 1967/2006, and Article 4 of Council Regulation (EC) No 1224/2009²⁰ ⇨ , Article 2 of Regulation (EU) 2019/1022 of the

¹⁸ Council Regulation (EC) No 1967/2006 of 21 December 2006 concerning management measures for the sustainable exploitation of fishery resources in the Mediterranean Sea, amending Regulation (EEC) No 2847/93 and repealing Regulation (EC) No 1626/94 (OJ L 409, 30.12.2006, p. 11).

TITLE II

MANAGEMENT, CONSERVATION AND CONTROL MEASURES CONCERNING CERTAIN SPECIES

CHAPTER I

EUROPEAN EEL

Article 4

[New article. Recommendation GFCM/42/2018/1 provisions 9 and 10]

Scope

This Chapter applies to all fishing activities catching European eel (*Anguilla anguilla*), namely targeted, incidental and recreational fisheries, in all the marine waters of the Mediterranean Sea indicated in Annex I, including freshwaters and transitional brackish waters, such as lagoons and estuaries.

Article 5

²⁴

[OJL 5, 9.1.2004, p. 25](#)

[New article. Recommendation GFCM/42/2018/1 provisions 19]

Fishing closures

1. Member States shall establish an annual fishing closure of three consecutive months where fishing and landing of European eel shall be prohibited.
2. The closure period shall be defined by the Member States in their national management plan, together with its fisheries and the gear targeting European eel. The fishing closure period shall be consistent with the reduction of fishing efforts or catches of European eel established in the national management plans in place and with the temporal migration patterns of European eel.

Article 6

[New article. Recommendation GFCM/42/2018/1 provisions 20]

Fisheries restricted areas

1. Member States may establish fisheries restricted areas to further protect European eel. The location and boundaries of those areas shall be consistent with the distribution of the main habitats of European eel in the Member State concerned.
2. It shall be prohibited to fish European eel in the areas referred to in paragraph 1. Specimens accidentally captured in those areas shall be immediately released upon the catch.

Article 7

[New article. Recommendation GFCM/42/2018/1 provisions 23]

Technical measures

Without prejudice to Regulation 2019/1241, the national management plans and national management measures adopted by Member States, pursuant to Article 2(8) of Regulation (EU) No 1100/2007²⁵, shall establish technical measures that ensure a reduction in mortalities.

Article 8

[New article. Recommendation GFCM/42/2018/1 provisions 24 and 25]

Additional measures

1. Member States may adopt measures to complement their national management plan or national management measures, in accordance with Article 2 of Council Regulation (EC) No 1100/2007, taking into account inter alia the conservation state of European eel in their waters, the impact of fishing activities catching European eel in their waters and other anthropogenic mortality sources.
2. Member States shall communicate the measures adopted in accordance with paragraph 1 to the Commission at the latest two weeks after their entry into force and the Commission shall transmit these measures to the GFCM Secretariat within one month of their entry into force.

²⁵ Council Regulation (EC) No 1100/2007 of 18 September 2007 establishing measures for the recovery of the stock of European eel (OJ L 248, 22.9.2007, p. 17).

Article 9

[New article. Recommendation GFCM/42/2018/1 provisions 32]

Implementation of measures

1. Member States shall provide a report on the implementation of the measures set out in this Chapter to the Commission not later than four months before the forty-fifth session of the GFCM.
2. The Commission shall transmit the report referred to in paragraph 1 to the GFCM Secretariat not later than the forty-fifth session of the GFCM. Such report may include an estimate of the impacts of measures included in the national management plans and any other measures.

Article 10

[New article. Recommendation GFCM/42/2018/1 provisions 36, 37 and 39]

Fishing authorisation

1. Member States shall communicate a list of all authorised fishing vessels, pursuant to Article 11(1) of Regulation (EC) No 1100/2007, to the Commission by 31 May every year. The Commission shall transmit this list to the GFCM Secretariat by 30 June every year.
2. Member States shall immediately transmit to the Commission any modifications to the list referred to in paragraph 1. The Commission shall communicate these modifications to the GFCM Secretariat without delay.

Article 11

[New article. Recommendation GFCM/42/2018/1 provisions 38 and 39]

Authorised transitional and brackish waters

1. By 1 January 2020, Member States shall establish and keep up to date a list of all authorised transitional and brackish waters, such as lagoons and estuaries, where traditional permanent fish-harvesting static gear is placed for catch of European eel.
2. Member States shall communicate the list referred to in paragraph 1 to the Commission by 31 May every year. The Commission shall transmit that list to the GFCM Secretariat by 30 June every year.
3. Member States shall immediately transmit to the Commission any modifications to the list referred to in paragraph 1. The Commission shall communicate these modifications to the GFCM Secretariat without delay.

Article 12

[New article. Recommendation GFCM/42/2018/1 provisions 40 and 41]

Authorised landing points

Landing of European eel shall only be authorised in landing points designated by each Member State for this purpose.

Article 13

[New article. Recommendation GFCM/42/2018/1 provisions 42, 43 and 44]

Recording of catches

1. Fishers or masters of the fishing vessels authorised to harvest European eel shall record their catches in live weight, irrespective of the live weight of the catch and harvest.
2. In the case of transitional and brackish waters, such as lagoons and estuaries where European eel catching continues to be carried out with permanent traditional fish-harvesting static gear, fishers or masters of the authorised fishing vessels shall record their catches in live weight.
3. Without prejudice to Article 14 of Regulation (EC) No 1224/2009, masters of vessels shall record in the logbook their daily catches of European eel, irrespective of the live weight of the harvest.

Article 14

[New article. Recommendation GFCM/42/2018/1 provision 47]

Recreational fisheries

Member States shall establish on a regular basis an estimate of the number of recreational fishers and their catches of glass, yellow and silver eels.

CHAPTER II

GIANT RED SHRIMP, BLUE AND RED SHRIMP

SECTION I

LEVANT SEA

Article 15

[New article. Recommendation GFCM/42/2018/3 provision 1]

Scope

This section applies to all trawl fishing activities targeting giant red shrimp (*Aristaeomorpha foliacea*) and blue and red shrimp (*Aristeus antennatus*), operating in Geographical Sub Areas (GSAs) 24, 25, 26 and 27 as provided for in Annex I.

Article 16

[New article. Recommendation GFCM/42/2018/3 provision 17]

Scientific monitoring

Member States shall ensure annually an adequate scientific monitoring of the status of the species included within the scope of this section.

Article 17

[New article. Recommendation GFCM/42/2018/3 provision 26, 31 and 32]

List of authorised and active vessels

1. Member States shall communicate the list of all fishing vessels that are authorised to fish for and are actively fishing for the species listed in Article 15 for the following year to the Commission by 30 December each year. The Commission shall transmit this list to the GFCM Secretariat by 31 January of the following year. This list shall include, for each vessel, the information referred to in Annex VIII.
2. Any fishing vessel not included in the list established under paragraph 1 shall not be allowed in any given fishing trip to fish for, retain on board, or land more than 3 percent of the total live weight catch of the species listed in Article 15.
3. Member States shall promptly notify the Commission of any addition to, deletion from and/or modification of the list of authorised fishing vessels, any time such changes may occur. The Commission shall transmit these modifications to the GFCM Secretariat without delay.

Article 18

[New article. Recommendation GFCM/42/2018/3 provision 27]

Fishing activities

Member States shall communicate to the Commission by 31 July of each year, a detailed report on fishing activities of fishing vessels operating within the scope of this section for the previous year. The Commission shall transmit this report to the GFCM Secretariat by 31 August each year. That report shall include at least the following:

- (1) Operating days;
- (2) Operating area;
- (3) Total catch.

Article 19

[New article. Recommendation GFCM/42/2018/3 provision 28]

Additional spatial or temporal restrictions

1. Member States may designate additional spatial or temporal restrictions to those already existing where fishing activities may be banned or restricted in order to protect aggregation areas of juveniles.
2. Member States shall immediately notify the Commission of any such additional spatial or temporal restrictions once they are established. The Commission shall notify the GFCM Secretariat without delay.

Article 20

[New article. Recommendation GFCM/42/2018/3 provision 36]

Reporting obligations

Without prejudice to Article 14 of Regulation (EC) No 1224/2009, fishers or masters of authorised fishing vessels actively fishing within the scope of this section shall declare all catches and bycatch, irrespective of the volume of the catch.

Article 21

[New article. Recommendation GFCM/42/2018/3 provision 38, 39, 41 and 42]

Designated landing points

1. Member States shall designate landing points where landings and transshipping by vessels actively fishing within the scope of this section shall take place. For each designated point, Member States shall specify permitted landing and transshipping times and places.
2. It shall be prohibited to land or tranship from fishing vessels any quantity of species included within the scope of this section at any place other than points designated by Member States in accordance with paragraph 1.
3. Member States shall communicate to the Commission any change to the list of designated landing points by 31 October each year. The Commission shall transmit this list to the GFCM Secretariat by 30 November of each year.

Article 22

[New article. Recommendation GFCM/42/2018/3 provision 45]

Vessel monitoring system

Notwithstanding Article 9 of Regulation (EC) No 1224/2009, all vessels above 10 metres length overall (LOA) actively fishing within the scope of this section shall be equipped with a vessel monitoring system (VMS).

Article 23

[New article. Recommendation GFCM/42/2018/3 provision 46]

Logbook

Notwithstanding Article 14 of Regulation (EC) No 1224/2009, authorised fishing vessels operating within the scope of this section shall have on board a logbook in which daily catches are recorded and declared, irrespective of the live weight of the catch, in accordance with Article 20 of this Regulation.

SECTION II IONIAN SEA

Article 24

[New article. Recommendation GFCM/42/2018/4 provision 1 and 3]

Scope

This section applies to all trawl fishing activities targeting giant red shrimp (*Aristaeomorpha foliacea*) and blue and red shrimp (*Aristeus antennatus*), operating in GSAs 19, 20 and 21 as provided for in Annex I.

Article 25

[New article. Recommendation GFCM/42/2018/4 provision 17]

Scientific monitoring

Member States shall ensure annually an adequate scientific monitoring of the status of species listed in Article 24.

Article 26

[New article. Recommendation GFCM/42/2018/4 provision 25, 26, 31 and 32]

List of authorised and active vessels

1. Member States shall communicate the list of all fishing vessels flying their flag that are authorised to fish for and are actively fishing for the species listed in Article 24 for the following year to the Commission by 30 December each year. The Commission shall transmit this list to the GFCM Secretariat by 31 January of the following year. This list shall include, for each vessel, the information referred to in Annex VIII.
2. Any fishing vessel not included in the list referred to in paragraph 1 shall not be allowed in any given fishing trip to fish for, retain on board, or land more than 3 percent of the total live weight catch of the species in Article 24.
3. Member States shall promptly notify the Commission of any addition to, deletion from and/or modification of the list of authorised fishing vessels, any time such changes may occur. The Commission shall transmit these modifications to the GFCM Secretariat without delay.

Article 27

[New article. Recommendation GFCM/42/2018/4 provision 27]

Fishing activities

Member States shall communicate to the Commission by 31 July of each year, a detailed report on fishing activities of fishing vessels operating within the scope of this section for the previous year. The Commission shall transmit this report to the GFCM Secretariat by 31 August each year. That report shall include at least the following:

- (1) Operating days;
- (2) Operating area;
- (3) Total catch.

Article 28

[New article. Recommendation GFCM/42/2018/4 provision 28]

Additional spatial or temporal restrictions

1. Member States may designate additional spatial or temporal restrictions to those already existing where fishing activities may be banned or restricted in order to protect aggregation areas of juveniles.
2. Member States shall immediately notify the Commission of any such additional spatial or temporal restrictions once they are established. The Commission shall notify the GFCM Secretariat without delay.

Article 29

[New article. Recommendation GFCM/42/2018/4 provision 36]

Reporting obligations

Without prejudice to Article 14 of Regulation (EC) No 1224/2009, fishers or masters of authorised fishing vessels actively fishing within the scope of this section shall declare all catches and bycatch, irrespective of the volume of the catch.

Article 30

[New article. Recommendation GFCM/42/2018/4 provision 38, 39, 41 and 42]

Designated landing points

1. Member States shall designate landing points where landings and transhipping by vessels actively fishing within the scope of this section shall take place. For each designated point, Member States shall specify permitted landing and transhipping times and places.
2. It shall be prohibited to land or tranship from fishing vessels any quantity of species included within the scope of this section at any place other than points designated by Member States in accordance with paragraph 1.
3. Member States shall communicate to the Commission any change to the list of designated landing points by 31 October each year. The Commission shall transmit this list to the GFCM Secretariat by 30 November of each year.

Article 31

[New article. Recommendation GFCM/42/2018/4 provision 45]

Vessel monitoring system

Notwithstanding Article 9 of Regulation (EC) No 1224/2009, all vessels above 10 metres LOA actively fishing within the scope of this section shall be equipped with a VMS.

Article 32

[New article. Recommendation GFCM/42/2018/4 provision 46]

Logbook

Notwithstanding Article 14 of Regulation (EC) No 1224/2009, authorised fishing vessels operating within the scope of this section shall have on board a logbook in which daily catches are recorded and declared, irrespective of the live weight of the catch, in accordance with Article 29 of this Regulation.

SECTION III

STRAIT OF SICILY

Article 33

[New article. Recommendation GFCM/43/2019/6 provision 1]

Scope

This section applies to all trawl fishing activities targeting giant red shrimp (*Aristaeomorpha foliacea*) and blue and red shrimp (*Aristeus antennatus*) in GSAs 12, 13, 14, 15 and 16 as provided for in Annex I.

Article 34

[New article. Recommendation GFCM/43/2019/6 provision 13]

Fleet management measures

Member States shall ensure that their fleet capacity is maintained for the exploitation of species under the scope of this section at levels established in Table A of Annex XII.

Article 35

[New article. Recommendation GFCM/43/2019/6 provision 5]

Scientific monitoring

Member States shall ensure annually an adequate scientific monitoring of the status of species listed in Article 33.

Article 36

[New article. Recommendation GFCM/43/2019/6 provision 7, 8 and 14]

List of authorised and active vessels

1. Member States shall communicate the list of all fishing vessels flying their flag that are authorised to fish and are actively fishing for the species listed in Article 33 to the Commission by 31 May each year. The Commission shall transmit this list to the GFCM Secretariat by 30 June of each year. This list shall include, for each vessel, the information referred to in Annex VIII.
2. Member States shall promptly notify the Commission of any addition to, deletion from and/or modification of the list of authorised fishing vessels, any time such changes may occur. The Commission shall transmit these modifications to the GFCM Secretariat without delay.

Article 37

[New article. Recommendation GFCM/43/2019/6 provision 9]

Fishing activities

Member States shall communicate to the Commission by 31 October of each year, a detailed report on fishing activities of fishing vessels operating within the scope of this section for the previous year. The Commission shall transmit this report to the GFCM Secretariat by 30 November each year. This report shall include at least the following:

- (1) Operating days;
- (2) Operating area;
- (3) Total catch.

Article 38

[New article. Recommendation GFCM/43/2019/6 provision 10]

Additional spatial or temporal measures

1. Member States may designate additional spatial or temporal restrictions to those already existing where fishing activities may be banned or restricted in order to protect aggregation areas of juveniles.
2. Member States shall immediately notify the Commission of any such additional spatial or temporal restrictions once they are established. The Commission shall notify the GFCM Secretariat without delay.

Article 39

[New article. Recommendation GFCM/43/2019/6 provision 17, 18 and 19]

Landing points

1. Member States shall designate landing points where the landings by vessels actively fishing within the scope of this section shall take place.
2. It shall be prohibited to land or tranship from fishing vessels any quantity of species listed in Article 33 at any place other than points designated by Member States in accordance with paragraph 1.
3. Fishers or masters of authorised fishing vessels actively fishing within the scope of this section shall declare all catches of the species referred to in Article 33, irrespective of the volume of the catch.

CHAPTER III

RED CORAL

Article 40

Scope

[New article. Recommendation GFCM/43/2019/4 provision 2]

1. This Chapter applies to all commercial fishing activities harvesting red coral (*Corallium rubrum*), namely targeted, incidental and recreational fisheries, in all marine waters of the Mediterranean Sea, as provided for in Annex I.

~~3. By way of derogation from paragraph 2, the use of ROVs that have been authorised by a Member State prior to 30 September 2011 for the purpose of observation and prospection shall continue to be permitted in zones under the jurisdiction of that Member State provided that the ROVs concerned cannot be equipped with manipulator arms or any other device allowing the cutting and harvesting of red coral.~~

~~Such authorisations shall expire or be withdrawn by 31 December 2015 unless the Member State concerned has obtained scientific results showing that the use of ROVs beyond 2015 would have no negative impact on the sustainable exploitation of red coral.~~

~~4. By way of derogation from paragraph 2, a Member State may authorise the use of ROVs without manipulator arms for the purpose of observation and prospection in zones under the jurisdiction of that Member State, provided that it has obtained scientific results in the context of a national management framework showing no negative impact on the sustainable exploitation of red coral.~~

~~Such authorisations shall expire or be withdrawn by 31 December 2015 unless the scientific results referred to in the first subparagraph are validated by the GFCM.~~

~~5. By way of derogation from paragraph 2, a Member State may authorise, for a limited period of time not extending beyond 31 December 2015, the use of ROVs for the purpose of scientific experimental campaigns for observation and harvesting of red coral, provided that the campaigns are carried out under the supervision of a national research institution or in collaboration with competent national or international scientific bodies as well as with any other relevant stakeholders.~~

~~Article 43~~^{6b}

Minimum depth for harvesting

1. The harvesting of red coral shall be prohibited at depths of less than 50 metres ~~until the GFCM indicates otherwise.~~

2. The Commission shall be empowered to adopt delegated acts in accordance with Article ~~145~~²⁷ of this Regulation and Article 18(1) to (6) of Regulation (EU) No 1380/2013 of the European Parliament and of the Council²⁷ in order to grant derogations from paragraph 1.

3. Joint recommendations to be submitted pursuant to Article 18(1) of Regulation (EU) No 1380/2013 with a view to a derogation as referred to in paragraph 2 of this Article shall be accompanied by:

- (a) detailed information on the national management framework;
- (b) the scientific or technical justifications;
- (c) the list of fishing vessels, or the number of authorisations granted, as regards the harvesting of red coral at depths of less than 50 metres; and
- (d) the list of fishing zones where such harvesting is authorised, as identified by geographic coordinates both on land and at sea.

Minimum conservation reference size basal diameter of colonies

1. Red coral from colonies of red coral whose basal diameter is ~~smaller~~ less than 7 mm ~~at the trunk~~, measured within one centimetre from the base of the colony, shall not be harvested, retained on board, transhipped, landed, transferred, stored, sold or displayed or offered for sale as raw product.

2. The Commission shall be empowered to adopt delegated acts in accordance with Article ~~145~~²⁷ of this Regulation and Article 18(1) to (6) of Regulation (EU) No 1380/2013 in order to authorise, by way of derogation from paragraph 1, a maximum tolerance limit of 10 % in live weight of undersized (< 7 mm) colonies of red coral.

3. Joint recommendations to be submitted pursuant to Article 18(1) of Regulation (EU) No 1380/2013 with a view to a derogation as referred to in paragraph 2 of this Article shall be accompanied by the scientific or technical justifications for that derogation.

~~Any joint recommendation by Member States as referred to in the first subparagraph shall be submitted by 29 November 2018.~~

~~4. Derogations as referred to in paragraph 2 of this Article shall be granted if the following conditions are satisfied:~~

~~(a) a national management framework is in place, including a fishing authorisation scheme in accordance with Article 7 of Regulation (EC) No 1224/2009;~~

~~(b) specific monitoring and control programmes are in place.~~

~~5. Notwithstanding paragraphs 2 to 4 and as a transitional measure, Member States may adopt measures for the implementation of Recommendation GFCM/36/2012/1, provided that:~~

~~(a) those measures form part of an appropriate national management framework; and~~

~~(b) the Member State concerned duly informs the Commission of the adoption of those measures.~~

~~The Member States concerned shall ensure that any derogations cease to apply no later than on the date of application of the relevant delegated act adopted in accordance with paragraph 2.~~

~~6. Where the Commission considers, on the basis of the notifications provided by the Member States concerned in accordance with point (b) of paragraph 5, that a national measure adopted after 28 November 2015 does not satisfy the conditions set out in paragraph 4, it may, subject to providing relevant reasons and after consultation with the Member State concerned, request it to amend that measure.~~

~~47. The Commission shall inform the Executive Secretary of the GFCM Secretariat of the measures adopted pursuant to paragraphs 2 and 5.~~

~~Article 16ca~~

~~Precautionary closures for red coral~~

31. When a trigger catch level of red coral as referred to in paragraphs 24 and 35 has been reached, Member States shall close the area concerned to any red coral fishery.

42. The trigger catch level shall be deemed to be reached when colonies of red coral whose basal diameter is lower than 7 mm exceed 25 % of the total catch harvested from a given red coral bank for a given year.

53. Where coral banks have not yet been properly identified, the trigger catch level and the closure provided for in paragraph 31 shall apply at the scale of the ☒ relevant ☒ GFCM statistical rectangle.

64. ⇒ Member States shall take the necessary measures to implement precautionary closures provided for in paragraph 3. ⇐ In their decision establishing a closure as referred to in paragraph 1, Member States shall define the geographical area ⇐ of the affected harvest ground ⇐ concerned, the duration of the closure and the conditions governing fisheries in that area during the closure ⇐ , as well as the conditions for reopening the fishery ⇐ .

7. Member States may implement a move-on rule for fishing vessels to cease fishing and move in the direction least likely to result in further encounters from the colonies, with a view to avoid reaching the trigger defined in paragraph 4 and ensure an optimal exploitation and recovery of the colonies.

8. When Member States implement move-on rules, they shall immediately notify the Commission and the Commission shall notify the GFCM Secretariat.

[Recommendation GFCM/43/2019/4 provision 27]

9. Member States may implement a crop rotation system between their red coral banks to ensure an optimal exploitation and recovery of the colonies.

10. When Member States implement a crop rotation mechanism, they shall immediately notify the Commission and the Commission shall notify the GFCM Secretariat.

1. For a transitional period of three years (2020–2022), Member States may participate in the pilot phase of the Catch Documentation Scheme (CDS), for the purpose of identifying where the origin of red coral is harvested in the GFCM area of application, and implement the following traceability measures:

- (a) a validated CDS certificate as referred to in Annex X and issued by the competent authorities of the flag State shall accompany all landings, imports, export and re-exports of red coral harvested;
- (b) each certificate shall have a unique document identification number. Such number shall be specific to the flag State and be assigned to each fisher or authorised vessel. Such certificates shall not be transferable to another fisher or authorised vessel;
- (c) Member States shall validate the CDS harvest certificates for red coral only when all the information contained in the CDS has been established to be accurate as a result of the verification of the supporting documents and corresponding consignment.

2. Member States participating in the pilot phase shall report to the Commission, and the Commission shall report to the GFCM accordingly, on the implementation of the pilot phase in the context of a permanent CDS for red coral.

- (b) the conservation and management reference points with a view to further improve the regional management plan in line with the objective of maximum sustainable yield and low risk of stock collapse;
- (c) the biological and socio-economic effects of alternative management scenarios, including input/output control ~~and/or~~ technical measures, ~~as proposed by the contracting parties to the GFCM~~;
- (d) possible ⇒ additional ⇐ spatial ⊗ or ⊗ #temporal closures in order to preserve fishery sustainability.

3. It shall be prohibited to commercialise red coral colonies harvested within the framework of research programmes on red coral.

4. Member States may deploy national scientific observers on the vessels that have harvested red coral. In case of such deployment, Member States may report the information collected to the Commission and the Commission shall transmit this information to the GFCM Secretariat.

CHAPTER IV

DEMERSAL FISHERIES

SECTION I STRAIT OF SICILY

Article 59

[New article. Recommendation GFCM/42/2018/5 provision 1 and 2]

Scope

This section applies to all fishing activities by Union bottom trawlers above 10 metres LOA targeting demersal stocks, including European hake (*Merluccius merluccius*) and deep-water rose shrimp (*Parapenaeus longirostris*), in GSAs 12, 13, 14, 15 and 16 as provided for in Annex I.

Article 60

[New article. Recommendation GFCM/42/2018/5 provision 24 and 25]

Fisheries management measures or national management plans

1. Member States shall adopt fisheries management measures or national management plans under the scope of this section to ensure that the exploitation levels of demersal stocks, in particular European hake and deep-water rose shrimp, reach and maintain MSY.
2. Member States shall promptly communicate management measures or national management plans adopted and any modifications made to these measures or plans to the Commission by 30 December each year. The Commission shall transmit to the GFCM Secretariat by 31 January of the following year.

Article 61

[New article. Recommendation GFCM/42/2018/5 provision 11]

Additional spatial or temporal restrictions

1. Member States may designate additional spatial or temporal restrictions to those already established where fishing activities may be banned or restricted in order to protect spawning and nursery areas.
2. Member States shall communicate to the Commission by 31 May each year the spatial/temporal restrictions in the waters under their sovereignty or under their jurisdiction. The Commission shall transmit this list to the GFCM Secretariat by 30 June each year.

Article 62

2. The fishing authorisation referred to in paragraph 1 shall include, in addition to the data defined in Annex I to Commission Implementing Regulation (EU) 2017/218²⁸, the following data:

- (a) GFCM registration number;
- (b) previous name (if any);
- (c) previous flag (if any);
- (d) previous details of deletion from other registers (if any).

3. Member States shall send to the Commission by 31 October each year the list of vessels for which they issued the authorisation referred to in paragraph 1. The Commission shall communicate that list to the body designated by it and to the GFCM Secretariat not later than 30 November each year.

4. Member States shall communicate to the Commission ~~and the GFCM Secretariat not later than 31 August~~ ⇐ by 31 July ⇐ each year ⇐ and the Commission shall transmit to the GFCM Secretariat not later than 31 August each year ⇐, in an aggregated format, a report on fishing activities carried out by the vessels referred to in paragraph 1, including the following minimum information:

International Joint Inspection and Surveillance Scheme ~~in the Strait of Sicily~~

1. Member States may carry out inspection and surveillance activities in the framework of an International Joint Inspection and Surveillance Scheme ('the Scheme') covering the waters outside national jurisdiction in GFCM geographical subareas 12, 13, 14, 15 and 16, as defined in Annex I ('the inspection and surveillance area').

2. Member States may assign inspectors and inspection means and carry out inspections under the Scheme. The Commission or a body designated by it may also assign Union inspectors to the Scheme.

3. The Commission or a body designated by it shall coordinate the surveillance and inspection activities for the Union and may draw up, in coordination with the Member States concerned, a joint deployment plan to enable the Union to fulfil its obligation under the Scheme. Member States shall adopt the necessary measures to facilitate the implementation of those plans, particularly as regards the human and material resources required and the periods and geographical areas in which those resources are to be deployed.

4. Each Member State shall, not later than 31 October of each year, notify to the Commission or a body designated by it the list of the names of inspectors authorised to perform the inspection and surveillance in the area referred to in paragraph 1, as well as the names of the vessels and aircraft used for inspection and surveillance which they intend to assign to the Scheme for the following year. The Commission or a body designated by it shall send this information to the GFCM Secretariat by 1 December of each year or as soon as possible before the commencement of inspection activities.

5. Inspectors assigned to the Scheme shall carry a GFCM inspector card issued by the competent authorities, which shall be in the form set out in Annex IV.

6. Vessels carrying out boarding and inspection duties in accordance with the Scheme shall fly a special flag or pennant, as described in Annex V.

7. Each Member State shall ensure that every inspection platform entitled to fly its flag operating in the area referred to in paragraph 1 maintains secure contact, daily where possible, with every other inspection platform operating in that area, to exchange information necessary to coordinate the activities.

8. Each Member State with an inspection or surveillance presence in the area referred to in paragraph 1 shall provide to each inspection platform, upon its entry into the area, a list of sightings established in accordance with Annex VII, of boardings and inspections it has conducted in the previous 10-day period, including dates, coordinates and any other relevant information.

Article ~~6622a~~

Conduct of inspections

1. Inspectors assigned to the Scheme shall:
 - (a) prior to boarding, notify the fishing vessel of the name of the inspection vessel;
 - (b) display, on the inspection vessel and boarding vessel, the pennant described in Annex V;
 - (c) limit each inspection team to a maximum of three inspectors.
2. Upon boarding the vessel, inspectors shall produce the identity card described in Annex IV to the master of the fishing vessel. Inspections shall be conducted in one of the official languages of the GFCM and, where possible, in the language spoken by the master of the fishing vessel.
3. Inspectors shall draw up a report of the inspection in the format set out in Annex IV ~~VI~~.
4. Inspectors shall sign the report in the presence of the master of the vessel who shall be entitled to add to the report any observations which he or she may think suitable and who must also sign.
5. Copies of the report shall be given to the master of the vessel and to the authorities of the inspection party, which shall transmit copies to the authorities of the flag State of the inspected vessel and to the Commission and/or a body designated by it. The Commission shall forward the copy to the GFCM Secretariat.
6. The size of the inspection party and length of the inspection shall be determined by the commanding officer of the inspection vessel taking into account all relevant circumstances.

Article ~~6722e~~

Infringements

1. For the purposes of this Article, the following activities shall be considered as infringements:
 - (a) the activities referred to in points (a), (b), (c), (e), (f), (g) and (h) of Article 3(1) of Regulation (EC) No 1005/2008;
 - (b) interference with satellite monitoring system; and
 - (c) operating without a VMS.
2. In the case of any boarding and inspection of a fishing vessel during which the inspectors detect an infringement, the authorities of the flag Member State of the inspection

vessel shall immediately inform the Commission or a body designated by it, which shall notify the flag State of the inspected fishing vessel both directly and through the GFCM Secretariat. They shall also inform any inspection ship of the flag State of the fishing vessel known to be in the vicinity.

3. The flag Member State of the vessel shall ensure that, following an inspection in which an infringement has been detected, the fishing vessel concerned ceases all fishing activities. The flag Member State shall require the fishing vessel to proceed within 72 hours to a port designated by it, where an investigation shall be initiated.

4. In the event that an infringement has been detected during an inspection, the actions and follow-up taken by the flag Member State shall be notified to the Commission or a body designated by it. The Commission or a body designated by it shall forward the action and follow-up taken to the GFCM Secretariat.

5. Member States' authorities shall act on inspection reports, as referred to in Article ~~66~~²²(3), and statements resulting from documentary inspections by inspectors on a similar basis as they act on reports and statements of national inspectors.

SECTION II

Adriatic Sea

Article 68

[New article. Recommendation GFCM/42/2019/5 provision 1 and 26]

Scope

This section applies to all fishing activities targeting demersal stocks, including European hake (*Merluccius merluccius*), Norway lobster (*Nephrops norvegicus*), common sole (*Solea solea*), deep-water rose shrimp (*Parapenaeus longirostris*) and red mullet (*Mullus barbatus*), by means of otter-trawling, beam-trawling, bottom pair trawling and otter twin trawls, in GSAs 17 and 18 as provided for in Annex I.

Article 69

[New article. Recommendation GFCM/43/2019/5 provisions 27]

Spatial and temporal closures

1. Member States shall:

- (a) close the coastal zone, irrespective of depth, out to six nautical miles, or four nautical miles for vessels not allowed to fish beyond six nautical miles, to towed gear targeting demersal stocks, for a continuous period of at least eight weeks on an annual basis; or
- (b) set a closure of at least 30 continuous days on an annual basis and covering at least 20 percent of territorial waters for fishing activities with otter-trawling, beam-trawling, bottom pair trawling and otter twin trawls, irrespective of their overall length in the areas and periods recognized by Member States as important for the protection of juveniles of demersal stocks, and accounting for migration routes and spatial patterns of juvenile distribution.

2. Member States shall communicate to the Commission, by 31 May of each year, the spatial restrictions, as referred to in paragraph 1, in the waters under their jurisdiction, which they apply with a view to protecting spawning and nursery areas for demersal stocks referred to in Article 68.
3. The Commission shall transmit the information received in accordance with paragraph 2 to the GFCM Secretariat, by 30 June of each year.

Article 70

[New article. Recommendation GFCM/43/2019/5 provisions 56 and 57]

National management plans

1. Member States shall adopt fisheries management measures or national management plans within the scope of this section to ensure that exploitation levels of demersal stocks, in particular European hake, Norway lobster, common sole, deep-water rose shrimp and red mullet, reach and maintain MSY.
2. If the measures referred to in paragraph 1 are modified, Member States shall notify the Commission without delay and the Commission shall communicate such modifications to the GFCM Secretariat by 31 January of the following year.

Article 71

[New article. Recommendation GFCM/43/2019/5 provisions 28 and 29]

Fleet management measures

1. Member States shall ensure that the overall active fleet capacity of the fleets operating under the scope of this section, in terms of gross tonnage (GT) and/or gross registered tonnage (GRT), engine power (kW) and number of vessels, as recorded both in EU and GFCM registers, does not exceed the fleet capacity for demersal fisheries in 2015 or its average between 2015 and 2017.
2. Paragraph 1 shall not apply to national fleets operating with otter-trawling and fishing for less than 1 000 days during the reference period mentioned in paragraph 1. The fishing capacity of those fleets shall not increase by more than 50 percent with respect to the reference period.

Article 72

[New article. Recommendation GFCM/43/2019/5 provisions 30, 31, 32, 33 and 36]

Fishing authorisations

1. Member States shall establish a list of vessels flying their flag and authorised to fish for the species listed in Article 68.
2. Each year, Member States shall communicate to the Commission by 31 December the list of authorised vessels flying their flag and actively fishing under the scope of this section. This list shall include, for each vessel, the information referred to in Annex VIII. The Commission shall transmit this list to the GFCM Secretariat by 31 January.
3. Vessels operating within the scope of this section shall only be allowed to carry out specific fishing activities with a valid fishing authorisation issued by the competent

authorities. Authorised vessels above 12 metres LOA shall be equipped with a VMS from 1 January 2021 and with an electronic logbook from 1 January 2022.

4. Each Member States shall ensure adequate mechanisms are set up for the recording of each fishing vessel in a national fleet register, for the recording of the vessel's catches and fishing effort via the logbook as well as for the monitoring of fishing vessel activities and landings via catch and effort sampling surveys, according to the rules stipulated by the European Union or each Member State.
5. As of 1 January 2021, for the purpose of collecting fishing effort data for the establishment of a future fishing effort regime, Member States shall report annually to the Commission by 31 May data from the previous year on kW * fishing days by gear and vessel length. The Commission shall transmit this data to the GFCM Secretariat by 30 June each year.

Article 73

Specific measures to address IUU fishing activities

1. Fishers or masters of authorised fishing vessels actively fishing in the Adriatic Sea shall declare all the catch and bycatch of the stocks listed in Article 68. The obligation to electronically declare catch shall apply from 1 January 2022, irrespective of the volume of the catch, to vessels above 12 metres LOA.
2. Member States shall designate landing points where landings by vessels actively fishing for the species listed in Article 68 shall take place. For each designated port, Member States shall specify permitted landing and transshipping times and places. Member States shall also ensure inspection coverage of such activities during landing and transshipping times at all designated landing points.
3. It shall be prohibited to land or tranship from fishing vessels any quantity of catches included within the scope of this section, fished using otter-trawling, beam-trawling, bottom pair trawling and otter twin trawls in the Adriatic Sea at any place other than the ports designated by Member States in accordance with paragraph 2 above.
4. By 31 October each year, Member States shall communicate to the Commission any change to the list of designated landing points where landings of stocks referred to in paragraph 2 may take place. By 30 November each year, the Commission shall transmit these changes to the GFCM Secretariat.

Reporting of catches

1. Authorised trawl vessels, fishing within the scope of this section, shall be equipped with an appropriate system of geopositioning. Authorised trawl vessels above 12 metres LOA shall be equipped with a VMS. For authorised trawl vessels below 12 metres LOA, Member States shall communicate to the Commission the chosen system of geopositioning.
2. All catches irrespectively of the live weight of the catch, as well as catches of non-target species in excess of 50 kg, shall be reported in the logbook.

CHAPTER VI

~~MEASURES FOR FISHERIES FOR SMALL PELAGIC STOCKS IN THE ADRIATIC SEA~~

⊗ SECTION I ⊗ ⊗ ADRIATIC SEA ⊗

Article 75

Scope

This section applies to all fishing activities targeting small pelagics, including sardine (*Sardina pilchardus*) and anchovy (*Engraulis encrasicolus*) in GSAs 17 and 18 as provided for in Annex I.

Article ~~76~~^{76a}

Management of fishing capacity

1. For the purposes of this Article, the reference fishing capacity for small pelagic stocks is that established on the basis of the lists of fishing vessels of the Member States concerned ~~as communicated to the GFCM Secretariat in accordance with paragraph 22 of Recommendation GFCM/37/2013/1.~~ Those lists include all fishing vessels equipped with trawl nets, purse seines or other types of surrounding nets without purse line ⇒ , actively fishing under the scope of this section in 2014. ⇐ ~~which are authorised to fish for small pelagic stocks and are registered in harbours located in Geographical Sub Areas 17 and 18, as referred to in Annex I to this Regulation, or which, although registered in harbours located outside those Geographical Sub Areas on 31 October 2013, are operating in Geographical Sub Area 17 or 18 or in both.~~
2. Fishing vessels equipped with trawl nets and purse seines, irrespective of the overall length of the vessel concerned, are classified as fishing actively for small pelagic stocks when sardine and anchovy account for at least 50 % of the catch in live weight.
3. Member States shall ensure that the overall fleet capacity of fishing vessels equipped with trawl nets or purse seines actively fishing ~~for small pelagic~~ ⊗ within the scope of this section ⊗ ~~stocks in Geographical Sub Area 17, both in terms of gross tonnage (GT) or gross registered tonnage (GRT) and in terms of engine power (kW), as recorded in the national~~ ⇒ fleet register ⇐ and ~~EU fleet registers~~ ⇒ the CFR ⇐ , does not at any time exceed the reference fishing capacity ~~for small pelagic stocks referred to in paragraph 1~~ ⊗ as provided for in Table B of Annex XII ⊗ .

~~54.~~ Member States shall ensure that fishing vessels equipped with trawl nets and purse seines for small pelagic stocks as referred to in paragraph 2 do not operate for more than 20 fishing days per month and more than 180 fishing days per year.

~~65.~~ Any fishing vessel not included in the list of authorised fishing vessels referred to in paragraph 1 of this Article shall not be allowed to fish for, or, by way of derogation from Article 15(1) of Regulation (EU) No 1380/2013, retain on board or land any quantity greater than 20 % of anchovy or sardine or of both anchovy and sardine if the fishing vessel is engaged on a fishing trip in ~~Geographical Sub Area 17 or 18 or in both~~ ☒ GSAs 17 and/or 18 ☒.

~~76.~~ Member States shall communicate to the Commission any addition to, any deletion from or any modification of, the list of authorised fishing vessels referred to in paragraph 1 as soon as such addition, deletion or modification occurs. Those changes shall be without prejudice to the reference fishing capacity referred to in paragraph 1. - (b) previous name (if any);
- (c) previous flag (if any);
- (d) previous details of deletion from other registers (if any);
- (e) main target species;
- (f) main gear(s) used for turbot, fleet segment and operational unit as defined in the Task 1 statistical matrix set out in Section C of Annex III;
- (g) time period authorised for fishing with gillnet or any other gear likely to fish turbot (if any of such authorisation).

3. Upon request by the GFCM, Member States shall report information on the fishing vessels authorised to engage in a fishing activity in a given period. In particular, Member States shall report the names of the fishing vessels concerned, their external identification number and the fishing opportunities allocated to each of them.

4. Unmarked abandoned gillnets used in turbot fisheries and found at sea shall be collected by the competent authorities of the coastal Member State. Subsequently, those nets shall either be seized until the owner is duly identified or destroyed if the owner cannot be identified.

5. Each Member State concerned shall designate landing points, in which landings and transhipping of turbot caught in the Black Sea shall take place, in accordance with Article 43(5) of Regulation (EC) No 1224/2009. 4. Any change to be made to the list referred to in paragraph 1 shall be notified to the Commission for transmission to the ~~Executive Secretary of the~~ GFCM Secretariat, through the accustomed data-processing support, at least 10 working days before the vessel begins fishing activity in the GFCM Agreement area.
5. EU fishing vessels of more than 15 metres in overall length that are not entered on the list referred to in paragraph 1 shall not fish, retain on board, tranship or land any type of fish or shellfish within the GFCM Agreement area.

6. Member States shall take the necessary measures to ensure that:
- (a) only vessels flying their flag that are included in the list referred to in paragraph 1 and that hold on board a fishing authorisation issued by them are permitted, under the terms of the authorisation, to carry out fishing activities in the GFCM Agreement area;
 - (b) no fishing authorisation is issued to vessels that have carried out illegal, unregulated and unreported fishing (IUU fishing) in the GFCM Agreement area or elsewhere, unless the new owners provide adequate documentary evidence that the previous owners and operators no longer have any legal, beneficial or financial interest in, or exercise any control over, their vessels, or that their vessels neither take part in nor are associated with IUU fishing;
 - (c) as far as possible, their national legislation prohibits owners and operators of vessels flying their flag that are included in the list referred to in paragraph 1 from taking part in, or being associated with, fishing activities carried out in the GFCM Agreement area by vessels not on the GFCM register;
 - (d) as far as possible, their national legislation requires owners of vessels flying their flag that are included in the list referred to in paragraph 1 to be nationals or legal entities within the flag Member State;
 - (e) their vessels comply with all the relevant GFCM conservation and management measures.
7. Member States shall take the necessary measures to prohibit fishing, retention on board, transshipment and landing of fish and shellfish caught in the GFCM Agreement area carried out by vessels of more than 15 metres in overall length that are not on the GFCM register.
8. Member States shall, without delay, communicate to the Commission any information showing that there are strong reasons for suspecting that vessels of more than 15 metres in overall length that are not on the GFCM register are fishing for or transshipping fish and shellfish in the GFCM Agreement area.

~~CHAPTER II~~ Section II

PORT STATE MEASURES

Article ~~127~~¹⁸

Scope

This ~~Chapter~~ section shall apply to third-country fishing vessels.

Article ~~128~~¹⁹

Prior notice

By way of derogation from Article 6(1) of Regulation (EC) No 1005/2008, the period for prior notification shall be at least 72 hours before the estimated time of arrival at the port.

Article ~~129~~

Port inspections

1. Notwithstanding Article 9(1) of Regulation (EC) No 1005/2008, Member States shall carry out inspections in their designated ports of at least 15 % of landings and transshipment operations each year.
2. Notwithstanding Article 9(2) of Regulation (EC) No 1005/2008, fishing vessels that enter into a Member State's port without prior authorisation shall be inspected in all cases.

Article ~~130~~

Inspection procedure

In addition to the requirements provided for in Article 10 of Regulation (EC) No 1005/2008, port inspections shall comply with the requirements set out in Annex II to this Regulation.

Article ~~131~~

Denial of use of port

1. Member States shall not allow a third-country vessel to use their ports for landing, transshipping or processing fisheries products caught in the GFCM Agreement area and shall deny it access to port services, including, inter alia, refuelling and re-supplying services, if the vessel:
 - (a) does not comply with the requirements of this Regulation;
 - (b) is included in a list of vessels that have engaged in, or have supported, IUU fishing adopted by a regional fisheries management organisation; or
 - (c) does not have a valid authorisation to engage in fishing or fishing-related activities in the GFCM Agreement area.

By way of derogation from the first subparagraph, nothing shall prevent Member States from allowing, in situations of *force majeure* or distress within the meaning of Article 18 of the United Nations Convention on the Law of the Sea³⁷, a third-country vessel from using their ports for services strictly necessary to remedy such situations.

2. Paragraph 1 shall apply in addition to the provisions on denial of use of port provided for by Article 4(2) and Article 37(5) and (6) of Regulation (EC) No 1005/2008.
3. Where a Member State has denied the use of its ports to a third-country vessel in accordance with paragraph 1 or 2, it shall promptly notify the master of the vessel, the flag State, the Commission and the ~~Executive Secretary of the GFCM~~ Secretariat of such action.
4. Where the grounds for denial referred to in paragraph 1 or 2 no longer apply, the Member State shall withdraw its denial and notify the addressees referred to in paragraph 3 of that withdrawal.

SECTION III

IUU

Article 132

Reporting obligation of presumed IUU activity

[New article. Recommendation GFCM/33/2009/8 provision 3 and 8]

1. Without prejudice to Article 48(8) of Regulation (EC) No 1005/2008, the Member States shall submit to the Commission, at least 140 days before the GFCM Annual Session, the following information:

- (a) information on vessels presumed to be carrying out IUU fishing activities in the GFCM Agreement area during the current and previous year;
- (b) evidence reported by Member States supporting the presumption of IUU fishing activity.

The Commission shall transmit this information every year to the GFCM Secretariat, at least 120 days before the GFCM Annual Session.

2. Where appropriate, the Commission shall forward to the GFCM Secretariat at least 120 days before the GFCM Annual Session any additional information received from Member States and which might be relevant for the establishment of the IUU vessel list.

[Recommendation GFCM/43/2019/8 provision 2]

3. Without prejudice to the information required in Article 29 (1) of Council Regulation (EC) No 1005/2008, the information referred to in paragraphs 1 and 2 shall contain the following details, where available:

- (a) name of vessel and previous name(s);
- (b) flag of vessel and previous flag(s);
- (c) name and address of the vessel owner and previous owners, including beneficial owners;
- (d) owners' place of registration;
- (e) vessel operator and previous operator(s);
- (f) vessel call sign and previous call sign;
- (g) IMO number;
- (h) maritime, mobile service identity (MMSI) number;
- (i) length overall;
- (j) photographs of the vessel;
- (k) date vessel was first included in the GFCM IUU list;
- (l) date of alleged IUU fishing activity;
- (m) position of alleged IUU fishing activity;

- (n) summary of activities which justify the inclusion of the vessel on the list, together with references to all relevant documents informing and evidencing these activities; and
- (o) outcome of any action undertaken.

Article 133

Alleged non-compliance reported by the GFCM Secretariat

[New article. Recommendation GFCM/33/2009/8 provision 4]

1. If the Commission receives from the GFCM Secretariat any evidence supporting the presumption of IUU fishing activities by a fishing vessel flying the flag of a Member State, the Commission shall, without delay, transmit that information to the Member State concerned.

2. The Member State concerned may provide the Commission with evidence, at least 45 days before the GFCM annual session, including evidence showing that the listed vessels have not fished in contravention to GFCM conservation and management measures or had the possibility of fishing in the GFCM area of application. The Commission shall forward that information to the GFCM Secretariat at least 30 days before the GFCM annual session.

Article 134

Draft GFCM IUU list

[New article. Recommendation GFCM/33/2009/8 provision 5]

Upon receipt of the draft IUU vessel list from the GFCM Secretariat, Member States shall closely monitor the vessels included in the draft IUU list and determine their activities and possible changes of name, flag and/or registered owner.
