COMMISSION DELEGATED REGULATION (EU) .../...

of 16.12.2019

supplementing Regulation (EU) 2019/1700 of the European Parliament and of the Council by establishing a multiannual rolling planning

(Text with EEA relevance)

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE DELEGATED ACT

Article 4(1) of Regulation (EU) 2019/1700 of the European Parliament and Council establishing a common framework for European statistics relating to persons and households, based on data at individual level collected from samples, empowers the Commission to adopt delegated acts to supplement that Regulation by establishing or adapting a system of multiannual rolling planning. This planning system will:

- (a) be adopted for a period of eight years;
- (b) cover the collection of data under the Regulation;
- (c) ensure that samples are collected at regular intervals, according to periodicities specified in Annex IV;
- (d) specify the period during which data are to be collected:
 - (i) the detailed topics attached to the domains listed in Annex I;
 - (ii) ad-hoc subjects requested by users for the labour force and income and living conditions domains, as provided for in Annex IV.

To implement Regulation (EU) 2019/1700 in 2021, this delegated Commission Regulation defines the first system of multiannual rolling planning to be used for the eight years from 2021.

2. CONSULTATIONS PRIOR TO THE ADOPTION OF THE ACT

In preparing this delegated act, the Commission has conducted appropriate consultations. It has consulted national experts invited to expert meetings to discuss the draft act. These consultations took place at the meetings of the European Directors of Social Statistics held on 23-24 May 2019 and 27-28 June 2019.

The Commission has also consulted the expert group representing the National Statistical Institutes of the European Statistical System.

Finally, it has kept the European Parliament and the Council informed of the consultations.

3. LEGAL COMPONENTS OF THE DELEGATED ACT

The purpose of this delegated act on the system of multiannual rolling planning is to specify the periods during which data are to be collected on the detailed topics attached to domains listed in Annex I to Regulation (EU) 2019/1700 and ad-hoc subjects requested by users for the labour force domain and the income and living conditions domain, as provided for in Annex IV to Regulation (EU) 2019/1700. The act establishes the frequency with which data collections are to be held (periodicity). First, it establishes the period during which data are to be collected for data collections with one periodicity as defined in Annex IV of Regulation (EU) 2019/1700. Second, it groups the detailed topics by periodicity and sets the data collection period for data collections with several periodicities.
