¹ The presentation of data concerning the 2020 grants is sourced from the eGrants IT suite of the European Commission. Since the 2019 call, the use of the eGrants tool enables both DG AGRI and the applicants applying for the grants, to benefit from the added-value of the electronic-only process for submitting proposals, and the beneficiaries of grants benefit from the same IT platform for managing and reporting on their grant implementation; namely, paperless flows and use of a single, common document repository. The DG AGRI grant procedures are aligned with the other services of the Commission awarding grants.
