Statement by Bulgaria

"The Government of the Republic of Bulgaria supports efforts and actions aiming to promote and ensure the preparedness, early warning and response under a strengthened EU health security framework by expanding the ECDC's mandate.

At the same time, we note with concern the trend to introduce unclear provisions in sensitive areas within the whole "European Health Union" package, thus leaving room for legal interpretation and potential difficulties for the Member States at the stage of implementation.

It is of utmost importance to ensure that EU regulations are in line with EU primary law and do not interfere with competences exclusively reserved for the Member States. In this regard the Republic of Bulgaria highlights the key role of principles such as subsidiarity, conferral of powers and division of competencies, including in the context of the implementation of this Regulation and all other files related to the "European Health Union" package. The financial sustainability and all related activities for coordination and management of health preparedness and response capacity and planning of the Member States, as part of the organisation and delivery of health services and medical care remain exclusive national competence, as provided for in Art. 168 (7) of the Treaty on the Functioning of the European Union. The Union competences in this area in the current Regulation remain limited to incentive measures for scientific cooperation, identifying gaps and providing general science-based and non-binding recommendations by ECDC for the strengthening of certain aspects of the health systems.

Moreover, Bulgaria strongly believes that the adoption of measures to protect and improve human health and in particular combating major cross-border health threats should not be interpreted as meaning that one of the main roles of ECDC is to monitor the national health systems' capacities to detect, prevent, respond and recover from outbreaks of communicable diseases, or to ensure alignment or harmonisation between crisis measures or plans. Rather, we count on the ECDC to support the Member States through provision of scientific advice on a voluntary basis, which could support preparedness and response planning, in close collaboration with the Member States.

In view of these considerations and taking positive note of the reassurances by the Slovenian Presidency and the European Commission that Member States' competences remain

untouched and the ECDC role – purely supportive for the Member States, the Republic of Bulgaria supports the Regulation of the European Parliament and of the Council amending Regulation (EC) No 851/2004 establishing a European Centre for Disease Prevention and Control, and states that it will implement the Regulation within the Union competences as laid down in the primary law of the European Union."

Statement by Hungary

"Hungary recognizes and promotes equality between men and women in accordance with the Fundamental Law of Hungary, and the primary law, principles and values of the European Union, as well as the commitments and principles stemming from the international law. Furthermore, equality between women and men is enshrined in the Treaties of the European Union as a fundamental value. In line with these and its national legislation, Hungary interprets the term 'gender' as reference to 'sex', in the Regulation amending Regulation (EC) No 851/2004 establishing a European Centre for disease prevention and control."

Statement by the Commission

"The Commission welcomes the overall agreement reached by the co-legislators on the proposal for a Regulation on the extension of the mandate of the European Centre for Disease Prevention and Control. The new Regulation will reinforce the capacity of the Centre to support the EU and its Member States in the prevention and control of communicable disease threats and improve European preparedness for future health challenges.

The Commission regrets that the agreed text does not fully align the Regulation with the principles of the Common Approach on the EU decentralised agencies, as regards the voting regime of the Management Board concerning the rules governing the languages of the Centre. Therefore the agreement reached between the European Parliament and the Council on the language regime of the agency is without prejudice to any future legislative texts. The Commission remains convinced of the benefits of following all aspects of the Common Approach in relation to decentralised agencies."

Statement by Poland

"Z punktu widzenia Polski ogólny charakter 8. EAP nie uzasadnia rozstrzygnięcia w nim kwestii odnoszących się do przyszłych zobowiązań państw członkowskich. W rozumieniu Polski zapis tiret 2 w art. 3 ust.1 pkt e oznacza, że data wycofania subsydiów do paliw kopalnych zostanie określona w osobnym akcie prawnym i w ramach odrębnej procedury ustawodawczej, zgodnie z motywem 9-a mówiącym o tym, że środki niezbędne do wdrożenia 8. EAP mają zostać przyjęte zgodnie z warunkami określonymi w art. 192 ust. 1 lub 2 TFUE."

"From Poland's point of view, the general nature of the 8th EAP does not justify resolving issues relating to future obligations of Member States. Poland understands that the date of phasing out fossil fuel subsidies as indicated in indent 2 of Article 3.1(e) will be determined in a separate legal act under separate negotiation procedure, in accordance with the recital 9-a stipulating that the measures necessary for the implementation of 8. EAP are to be adopted in accordance with the conditions set out in Article 192 paragraph 1 or 2 TFEU."

"The Republic of Poland understands wording “gender equality” as referring to “equality between women and men”, in line with Article 2 and Article 3 of the Treaty on European Union.

Also the Republic of Poland understands wording “gender” as referring to “sex” in line with Article 10, Article 19 para 1 and Article 157 para 2 and 4 of the Treaty on the Functioning of the European Union."

Statement by Hungary

Hungary ensures equality between women and men within the framework of the Hungarian national legal system in accordance with internationally binding human rights instruments and within the framework of fundamental values and principles of the European Union. For these reasons, Hungary interprets the concept ‘gender equality’ as a reference to ‘equality between women and men’ in the Draft Decision (EU)2021/... of the European Parliament and of the Council on a European Year of Youth (2022).

“Poland and Hungary understand the formulation “gender equality” and similar formulations pointing to “gender” as referring to the equality between women and men, in line with art. 2 of the Treaty on European Union and art. 23 of the Charter of Fundamental Rights of the EU.

The third Gender Action Plan has not been adopted by the Council, therefore it is not an agreed EU policy. Joint statement by Germany, Austria, Denmark, Finland, Ireland, the Netherlands, Romania, Slovenia and Sweden

"Im Geiste der am 26.11.2021 angenommenen Ratsempfehlung für einen Pakt für Forschung und Innovation in Europa sowie der Ratsschlussfolgerungen zur künftigen „Governance“ des Europäischen Forschungsraums ist für Deutschland, Österreich, Dänemark, Finnland, Irland, Niederlande, Rumänien, Slowenien und Schweden die kontinuierliche Zusammenarbeit mit den zum EU-Rahmenprogramm für Forschung und Innovation assoziierten Staaten von großer Bedeutung, um Offenheit und Exzellenz des Europäischen Forschungsraums sicherzustellen.

Der besondere Status der assoziierten Staaten – insbesondere auch der EFTA-EWR-Staaten – sollte daher in der Umsetzung der künftigen „Governance“ des Europäischen Forschungsraums anerkannt werden.

Daher halten Deutschland, Österreich, Dänemark, Finnland, Irland, Niederlande, Rumänien, Slowenien und Schweden eine kontinuierliche und enge Einbeziehung der assoziierten Staaten, insbesondere auch der EFTA-EWR-Staaten, im Ausschuss für den Europäischen Raum für Forschung und Innovation (ERAC) für erforderlich, im Einklang mit dem Abkommen über den Europäischen Wirtschaftsraum (Protokoll 31, Art. 1 (4)). Dementsprechend sollte an der bisherigen Praxis der Einbindung von assoziierten Staaten bei ERAC-Sitzungen so weit wie möglich festgehalten werden."

The special status of the associated countries – in particular the EFTA-EEA states – should therefore be recognised in the implementation of the future governance of the European Research Area.

Germany, Austria, Denmark, Finland, Ireland, Netherlands, Romania, Slovenia and Sweden consider a continuous and close involvement of the associated countries, in particular including the EFTA-EEA states, in the European Research Area and Innovation Committee (ERAC) necessary, in accordance with the Agreement on the European Economic Area (Protocol 31, Art. 1 (4)). Statement by Austria

"The Republic of Austria would like to reiterate its concerns over the possible implications of an accession, without sufficient clarification, to the Convention on the Recognition and Enforcement of Foreign Judgments in Civil or Commercial Matters (in the following the "Convention") by the European Union (EU) with respect to state immunity and Article 4 of the EU Blocking Statute (Council Regulation (EC) No. 2271/96). An accession of the EU to the Convention might oblige EU Member States to enforce foreign judgments even in cases where such judgments were rendered against an EU Member State in violation of the rules of state immunity under international law or by the extra-territorial application of national laws of third states, which would both constitute a violation of international law and thus not respect the fundamental principles of Union law. Austria would thus like to highlight the relevant parts of the Convention and of the Council Decision which allow the courts of EU

Member States to refuse recognition or enforcement of such foreign judgments:

1. Art. 2 para. 5 of the Convention foresees that “[n]othing in this Convention shall affect privileges and immunities of States or of international organisations, in respect of themselves and of their property”.

2. Art. 7 para. 1 lit. c of the Convention permits a State Party to refuse recognition or enforcement of a foreign judgement also “in situations involving infringements of security or sovereignty”.

3. According to the recitals of the Council Decision, “the Convention should only allow the recognition and enforcement of third-country judgments in the Union, where fundamental principles of Union law are respected”.

In accordance with these provisions, the Republic of Austria takes the view that EU Member States should refuse recognition or enforcement of a foreign judgment rendered in violation of international law either under the rules of state immunity or by the extra-territorial application of national laws of third states.”

Statement by the Commission

"The Decision concerning the accession of the European Union to the Convention on the Recognition and Enforcement of Foreign Judgments in Civil or Commercial Matters should indicate the Commission as responsible to designate the person(s) empowered to deposit, on behalf of the Union, the instrument of accession referred to in Article 24(4) of the Convention. The changes to Article 2 that indicate that the President of the Council is responsible for such designation are thus not in accordance with the Treaties.

The designation of the person(s) empowered to deposit, on behalf of the Union, the instrument of accession to an international agreement is an act of external representation of the Union, which, in accordance with Article 17(1) TEU, is the institutional prerogative of the Commission.

The Court of Justice has emphasized that consistent practice by Union institutions that is not in accordance with the EU Treaties ‘cannot alter the rules of the Treaties that the institutions are obliged to respect’ (Case C-687/15 Commission v Council, EU:C:2017:803, para. 42).

While not opposing the adoption of the amendment by the Council by a qualified majority vote, the Commission reserves all its rights in this regard."

Statement by Ireland

"Articles 16(2) and 87(2)(a) TFEU are the substantive legal bases for the draft Council Decision on the position to be taken on behalf of the European Union in the Partnership Council established by the Trade and Cooperation Agreement regarding the extension of the interim period referred to in Article 552 (11) of that Agreement during which the United Kingdom may derogate from the obligation to delete Passenger Name Record data of passengers after their departure from the United Kingdom. Given that Article 87 TFEU is within Title V of Part Three of the Treaty on the Functioning of the European Union, Ireland's clear view is that Protocol No. 21 to the TEU and the TFEU applies, pursuant to which Ireland has an entitlement to opt-in to the proposed measure within three months of its presentation to the Council.

The proposed measure was published by the Commission on 26 November 2021 and was initially intended to be adopted using a silence procedure by close of business on 29 November 2021. Given the sensitivities involved, which relate both to the EU Treaties and Ireland's Constitutional position on measures utilising a Title V TFEU legal base, it is most regrettable that the proposal was tabled so late and without regard for Protocol No. 21. This is particularly so given that these issues were clearly and repeatedly flagged in advance.

In the spirit of compromise, and to facilitate agreement in sufficient time to enable the subsequent decision be made by the Partnership Council before the end of the year, Ireland has with extreme reluctance agreed to accept the proposed text. However, it is important to note that this text is as at the absolute outer limit of what Ireland could accept.

Ireland intends to engage further with the Legal Services of the Commission and Council on the need for strict observance of the provisions of Protocol 21 in relation to any future legislation whose legal base requires the application of the protocol. "

Statement by the Commission

"The Commission considers that the Council Decision should be addressed to the Commission, and therefore considers the changes to Article 2 to be inappropriate.

The expression of the Union position in a body set up by an agreement is an act of external representation of the Union which, in accordance with Article 17(1) TEU, is the institutional prerogative of the Commission.

The Commission reserves all its rights in this regard."
