OPINION OF THE EUROPEAN CENTRAL BANK

of 13 January 2022

**on a proposal to amend Regulation (EU) No 575/2013 on prudential requirements for credit institutions and investment firms with respect to resolution
(CON/2022/3)**

Introduction and legal basis

On 29 November 2021 the European Central Bank (ECB) received requests from the Council of the European Union and the European Parliament for an opinion on a proposal for a Regulation of the European Parliament and of the Council amending Regulation (EU) No 575/2013 and Directive 2014/59/EU as regards the prudential treatment of global systemically important institution groups with a multiple point of entry resolution strategy and a methodology for the indirect subscription of instruments eligible for meeting the minimum requirement for own funds and eligible liabilities¹ (hereinafter the 'proposed regulation').

The ECB's competence to deliver an opinion is based on Articles 127(4) and 282(5) of the Treaty on the Functioning of the European Union since the proposed regulation contains provisions affecting the ECB's tasks concerning the prudential supervision of credit institutions pursuant to Article 127(6) of the Treaty and the contribution by the European System of Central Banks to the smooth conduct of policies relating to the stability of the financial system, as referred to in Article 127(5) of the Treaty. In accordance with the first sentence of Article 17.5 of the Rules of Procedure of the European Central Bank, the Governing Council has adopted this opinion.

General observations

The ECB acknowledges that the proposed regulation consists of technical adjustments with the aim of operationalising substantive legislative decisions implemented by the latest amendments to Directive 2014/59/EU of the European Parliament and of the Council² (hereinafter the 'BRRD'), assessed in the ECB's opinion on revisions to the Union crisis management framework³.

The ECB supports the proposed regulation, which ensures better alignment between the provisions of Regulation (EU) No 575/2013 of the European Parliament and of the Council⁴ (hereinafter the 'Capital

¹ COM(2021) 665 final.

⁴ Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012 (OJ L 176, 27.6.2013, p. 1).

Requirements Regulation' or 'CRR') and the provisions of the BRRD, following the entry into force of the revised framework on Total Loss-Absorbing Capacity (TLAC) and the minimum requirement for own funds and eligible liabilities. The ECB further supports the proposed regulation inasmuch as it ensures better alignment of the regulatory treatment of global systemically important institutions (G-SIIs) with a multiple point of entry (MPE) resolution strategy, including groups with subsidiaries registered in third countries, with the treatment outlined in the TLAC standard.

Going forward, the ECB invites the Union legislative bodies to monitor and assess the implementation of these amendments to the CRR in the light of the abovementioned objectives, more specifically to assess the interplay between the BRRD and the CRR as well as to avoid global systemically important banks and G-SIIs engaging in regulatory arbitrage between single point of entry and MPE resolution strategies based on the minimum requirement for own funds and eligible liabilities or TLAC target level.

Some minor technical adjustments are proposed, with the purpose of clarifying the interpretation of the legal text or to ensure consistency of terminology used in the regulation. To this end, a specific drafting proposal is set out in a separate technical working document accompanied by an explanatory text. The technical working document is available in English on EUR-Lex.
