19. COVID-19 coordination – Revision of the Council Recommendation on intra-EU travel

- (a) Council Recommendation on a coordinated approach to facilitate safe free movement during the COVID-19 pandemic and replacing Recommendation (EU) 2020/1475  
*Adoption*

5318/1/22 REV 1

Statement by the Commission

“The Commission considers that, in accordance with the principle of proportionality, the movement of EU citizens from green areas, where the virus is circulating at very low level and thus the risk of infection is consequently limited, should not be subject to stricter requirements than set under Recommendation (EU) 2020/1475 as adopted before the rollout of the COVID-19 vaccination. This is without prejudice to the possible application of an emergency brake.

In addition, the Commission maintains its position, as expressed in the Communication of 1 December 2021 on addressing together current and new COVID-19 challenges, that the emergence of the Omicron variant of concern underlines the need for all Member States to put in place effective passenger locator forms to stem the spread of COVID-19.”

Statement by Portugal

“Portugal supports the Presidency proposal for the revision of Council Recommendation 2020/1475. Nevertheless, Portugal considers that the validity of rapid antigen tests for the purposes of a test certificate issued in line with Regulation 2021/953, as set out in this proposal – 24h – is too short. For technical reasons, this shortened validity could, in some cases, lead to operational difficulties in creating the test certificates for timely upload into the EU Digital COVID certificate.”

- (b) Council Recommendation amending Council Recommendation (EU) 2020/1632 as regards a coordinated approach to facilitate safe travel during the COVID-19 pandemic in the Schengen area  
*Adoption*

5319/1/22 REV 1

The Committee agreed on the revised text of the two Recommendations and agreed to submit them to the Council for adoption as A items.

### Joint statement by Poland and Hungary

“Poland and Hungary understand the formulation “gender equality” as referring to the equality between women and men, in line with art. 2 of the Treaty on European Union and art. 23 of the Charter of Fundamental Rights of the EU.”

### Statement by Hungary

#### “Paragraph 9

Hungary appreciates and highly values EU unity at the UN Human Rights Fora and supports the elaboration of common EU positions on international human rights matters, including on issues reflected in the Council Conclusions on EU Priorities in UN Human Rights Fora 2022. Hungary’s commitment in this regard is demonstrated by our decision to join consensus on the above Council Conclusions, however, we would like to emphasise that Hungary joined consensus on paragraph 9 only for the sake of maintaining EU unity and that we continue to consider elements of said paragraph unbalanced and not serving the strategic interests of the EU and its Member States. Therefore, Hungary does not consider this paragraph and its specific elements as agreed language for future negotiations.

#### Paragraph 17

The adoption of the Programme of Action of the International Conference on Population and Development (ICPD) and the Beijing Platform for Action of the Fourth World Conference on Women marked a remarkable consensus. They placed the enjoyment of human rights at the heart of development and important gains in the fields of health, equality between men and women and education have been achieved since their adoption. These fields are at the core of the 2030 Agenda for Sustainable Development incorporating as founding principles the universal respect for human rights and human dignity, the rule of law, justice, equality and non-discrimination.

Hungary remains dedicated to its human rights commitments, including the protection and promotion of women’s rights and equality between men and women. Hungary is deeply committed to the implementation of the ICPD Programme of Action and Beijing Platform for Action as well as the 2030 Agenda, serving also as basic references in the fields of sexual and reproductive health and reproductive rights. Hungary notes, that the term of “sexual and reproductive health and rights (SRHR)” and related issues, like “sexual rights”, “comprehensive sexuality education”, “modern methods of contraception”, “emergency contraception”, are lacking consensual definition at international level, including within the

European Union. These issues are interpreted and promoted by Hungary in the context of the 2030 Agenda, the ICPD Programme of Action and the Beijing Declaration and Platform for Action and in line with its national legislation.”
