## I. INTRODUCTION

In accordance with the provisions of Article 294 of the TFEU and the Joint declaration on practical arrangements for the codecision procedure<sup>1</sup>, a number of informal contacts have taken place between the Council, the European Parliament and the Commission with a view to reaching an agreement on this proposal at first reading.

In this context, the rapporteur Thomas BAJADA (S&D, MT), presented a compromise amendment (amendment number 26) to the abovementioned proposal for a Regulation on behalf of the Committee on Fisheries (PECH). This amendment had been agreed during the informal contacts referred to above. No other amendments were tabled.

## II. VOTE

When it voted on 9 July 2025, the plenary adopted the compromise amendment (amendment number 26) to the abovementioned proposal for a Regulation. The Commission's proposal as thus amended constitutes the Parliament's first-reading position which is contained in its legislative resolution as set out in the Annex hereto<sup>2</sup>.

The Parliament's position reflects what had been previously agreed between the institutions. The Council should therefore be in a position to approve the Parliament's position.

The act would then be adopted in the wording which corresponds to the Parliament's position.

<sup>5</sup> Position of the European Parliament of 9 July 2025.

Whereas:

- (1) In line with the United Nations Convention on the Law of the Sea of 10 December 1982<sup>6</sup> ('UNCLOS') and the Agreement for the Implementation of the Provisions of the United Nations Convention on the Law of the Sea of 10 December 1982 relating to the Conservation and Management of Straddling Fish Stocks and Highly Migratory Fish Stocks of 4 August 1995<sup>7</sup> ('UNFSA'), the management of certain straddling and highly migratory fish stocks requires the cooperation of all the countries whose fleets exploit that stock. *Such cooperation could be established within the framework of regional fisheries management organisations (RFMOs) or by means of ad hoc arrangements among the countries having an interest in the fishery concerned.*
- (2) Regulation (EU) No 1026/2012 of the European Parliament and of the Council<sup>8</sup> establishes a framework to allow for the identification and the adoption of measures with regard to third countries which fail to cooperate and allow *non-sustainable* fishing of a stock of common interest for the Union.

<sup>6</sup> United Nations Convention on the Law of the Sea (OJ L 179, 23.6.1998, p. 3, ELI: <http://data.europa.eu/eli/convention/1998/392/oj>).

<sup>7</sup> Agreement for the implementing of the provisions of the United Nations Convention on the Law of the Sea of 10 December 1982 relating to the conservation and management of straddling stocks and highly migratory fish stocks (OJ L 189, 3.7.1998, p. 17, ELI: [http://data.europa.eu/eli/agree\\_internation/1998/414/oj](http://data.europa.eu/eli/agree_internation/1998/414/oj)).

<sup>8</sup> Regulation (EU) No 1026/2012 of the European Parliament and of the Council of 25 October 2012 on certain measures for the purpose of the conservation of fish stocks in relation to countries allowing non-sustainable fishing (OJ L 316, 14.11.2012, p. 34, ELI: <http://data.europa.eu/eli/reg/2012/1026/oj>).

- (3) In accordance with Regulation (EU) No 1026/2012, it is possible for a country to be identified as allowing non-sustainable fishing if, inter alia, it fails to cooperate in the management of a stock of common interest in full compliance with the provisions of the UNCLOS and the UNFSA, or any other international agreement or *rule* of international law, and if it fails to adopt necessary fishery management measures.
- (4) A definition of ‘failure to cooperate’ should be introduced *in order* to better define, for the purposes of Regulation (EU) No 1026/2012, the scope and meaning of the requirement to cooperate pursuant to UNCLOS and UNFSA.
- (5) The *‘best available scientific advice’ should be understood to refer to publicly available scientific advice that is supported by the most up-to-date scientific data and methods and that has been either issued or reviewed by an independent scientific body that is recognised at Union or international level.*

- (6) It is also necessary to clarify that it should be possible for a country to be considered as allowing non-sustainable fishing if it does not implement ***or enforce*** the necessary fishery management measures, and that such measures include control measures, ***including within the framework of RFMOs***.
- (7) It is also appropriate to reinforce the procedures prior and subsequent to the adoption of measures in respect of countries allowing non-sustainable fishing, ***including within the framework of RFMOs***.
- (8) ***In order to assess the appropriate measures to be taken with regard to a country allowing non-sustainable fishing, it is necessary to provide for an accurate understanding of the trade relations of the Union with the country under evaluation, including by assessing historical data for imported products that reflect the real import patterns in relation to that country.***
- (9) Regulation (EU) No 1026/2012 should therefore be amended accordingly,

- (ii) *it adopts fishery management measures, such as quotas or discriminatory measures, without due regard to the rights, interests and duties of other countries and the Union, and those fishery management measures, when considered in conjunction with measures taken by other countries and the Union, lead to fishing activities which could result in the stock being in an unsustainable state; this condition is considered to be complied with also where the fishery management measures adopted by that country did not lead to the stock being in an unsustainable state solely due to measures adopted by others.*’;

(3) Article 6 is amended as follows:

(a) the *title* is replaced by *the following*:

‘Procedures prior and subsequent to the adoption of measures in respect of countries allowing non-sustainable fishing’;

(b) *paragraph 1 is replaced by the following*:
