BUDGET 21

EXPLANATORY MEMORANDUM

Subject: Draft general budget of the European Union for the financial year 2026:
Council position of 5 September 2025

I. INTRODUCTION

The draft general budget of the European Union for 2026 (**DB 2026**) as proposed by the European Commission amounts¹ to:

- EUR 187 546.12 million in **commitment** appropriations²;
- EUR 187 184.36 million in **payment** appropriations².

Compared to the budget 2025³, these amounts represent a -2.7 % decrease in commitment appropriations and a +25.1 % increase in payment appropriations.

II. APPROACH TAKEN

The DB 2026 has been examined during the months of June and July 2025 on the basis of the principles established in the Council conclusions on the budget guidelines for 2026⁴. In particular, the aim to ensure prudent and realistic budgeting, provide adequate resources to support clearly set priorities and address the Union's challenges constituted the guiding principles in establishing the present Council position on the DB 2026.

This led the Council to undertake a detailed analysis of the commitment appropriations for each programme and action by budget line, in order to ensure:

- an appropriate level for the implementation of programmes, with a focus on their operational support, by avoiding excessive increases compared to the voted budget 2025;

¹ These amounts do not include appropriations foreseen for special instruments outside the multiannual financial framework (MFF). If special instruments are included, the DB 2026 sets the appropriations at EUR 193 262.04 million in commitment appropriations and EUR 192 206.91 million in payment appropriations, leaving a margin of EUR 18 410.24 million under the payment ceiling for 2026.

² Of which EUR 2 344 million programme-specific adjustments stemming from Article 5 MFF Regulation.

³ Amending budget No 1/2025 included.

⁴ Doc. 5796/25.

- the ability to cope with the current contingencies (the crises in Ukraine and the Middle East, and migratory pressures); and
- sufficient margins under the multiannual financial framework (MFF) ceilings to deal with unforeseen circumstances.

The result of the Council's assessment is reflected in the proposal to adjust the commitment appropriations downwards by EUR 1 307.44 million.

Targeted adjustments to (sub-)headings 1 (*Single Market, Innovation and Digital*), 2b (*Resilience and Values*) and 3 (*Natural Resources and Environment*) are suggested to smoothen the profile of some programmes by reducing significant increases compared to the voted budget 2025. The goal is to ensure accurate budgeting to preserve sufficient margins for emerging needs during 2026 and that legal obligations are honoured, in particular with regard to the EURI interest cost in 2027, as well as to avoid putting excessive pressure on national budgets.

A specific adjustment is proposed for sub-heading 2b (*Resilience and Values*) on the European Union Recovery Instrument (EURI) line. The proposal is based on a more conservative approach, in line with prudent budgeting and sound financial management, with respect of the financing costs of NextGenerationEU (NGEU). In line with the revised MFF Regulation¹, and the agreement in the Conciliation on the budget 2025 about the 50-50 approach to be respected annually in the cascade mechanism, the Council has suggested reducing the appropriations of a few programmes to create more margins. The proposed adjustment to the EURI line also limits the use of both the Flexibility Instrument and the EURI Instrument to cover overrun costs.

A guiding principle of capping both the support expenditure lines (targeting non-salary related costs) and the Commission's prerogatives at the level of the voted budget 2025 (with a 0 % increase for 2026) is applied horizontally. This does not apply to sub-heading 2a. As regards heading 5, the capping applies only to the Commission's prerogatives.

¹ Council Regulation (EU, Euratom) 2024/765 of 29 February 2024 amending Regulation (EU, Euratom) 2020/2093 laying down the multiannual financial framework for the years 2021 to 2027 (OJ L 2024/765, 29.2.2024, ELI: <http://data.europa.eu/eli/reg/2024/765/oj>).

For decentralised agencies categorised as "cruising speed" status, a guiding principle of capping their expenditure increase proposed in the DB 2026 to 2 % is applied, with the exception of the *European Union Asylum Agency (EUAA)*, which is not adjusted as it was reinforced during the MFF mid-term review, while its level of payment appropriations is reduced in the DB 2026. The budgets of the agencies categorised as "phasing in" or "new tasks" status are not adjusted except for the *European Border and Coast Guard Agency (Frontex)*, for which the proposed adjustment still results in an important increase of the agency's budget (+ 9 % and EUR 90 million).

An upward adjustment under headings 4 (*Migration and Border Management*), 5 (*Security and Defence*) and 6 (*Neighbourhood and the World*) is also suggested to reinforce Union priorities and support frontline Member States in the current geopolitical context (headings 4 and 5), as well as to ensure that sufficient humanitarian aid is available in 2026 (heading 6).

Regarding payment appropriations, the Council's assessment resulted in a proposal to reduce the level by EUR 696.71 million. The reductions in (sub-)headings 1, 2b, 3, 4 and 6 result from a proportional amount corresponding to the adjustments in commitment appropriations and non-differentiated appropriations (NDA).

A Council statement on payments is recorded in Addendum 1 to this note.

As regards administrative expenditure under heading 7, the result of the Council's assessment is reflected in the proposal to adjust the level downwards by EUR 5.90 million. This reduction results from applying the stable staffing principle on the Commission, through savings from salary-related expenditure related to 33 FTE (full time equivalent) staff (in the contract agents line), including the ones in the Executive Agencies (for a total amount of -EUR 2.70 million). An additional downward adjustment is also applied to the expenditure of the *Translation Centre for the Bodies of the EU (CdT)* (-EUR 3.20 million).

A Council statement on heading 7 (*European Public Administration*) is recorded in Addendum 1 to this note.

III. OUTCOME OF PROCEEDINGS^{1,2}

On the basis of the above approach, an agreement was reached on the Council's position on the DB 2026 that would amount, excluding the appropriations foreseen for special instruments outside the MFF, to:

- EUR 186 238.68 million in **commitment** appropriations;
- EUR 186 487.65 million in **payment** appropriations.

The total amount of payment appropriations provided for in the Council's position on the DB 2026 corresponds to 0.97 % of the EU gross national income (GNI).³
