42c			***(31c) In the interest of effectiveness, it should be possible for the competent authorities of Member States to issue, in accordance with this Regulation, removal orders also against providers of hosting services that have their main establishment, or their legal representative, in another Member State. 			that may occur in exceptional cases, insofar as the application of that specific procedure is required to comply with the constitutional law of the relevant Member State. To that aim, such cross-border removal orders should be transmitted via that Coordinating Authority to the provider of hosting services concerned. However, if that Coordinating Authority establishes by reasoned decision, after having carried out a diligent and objective assessment and after having informed the Coordinating Authority of the Member State whose authority issued the removal order and taken into account its response insofar as possible, that such an infringement occurred, the removal order should not be transmitted and should not take legal effect, it then being for the authority that issued the cross-border removal order to take the necessary steps to withdraw or annul it upon being notified of the reasoned decision. All actions required as part of this procedure should be taken as swiftly as possible and in any event within the set time periods, so as to ensure that any undue delays are avoided, and as much as possible in sincere cooperation between the competent authorities involved.
