20a		***(8a) In order to ensure that consumers, including consumers who may experience specific accessibility challenges, such as elderly persons, persons with disabilities or those with limited digital literacy, are able to access and understand the safety information and instructions, manufacturers should provide information and instructions in a form that is easily visible and legible. This would guarantee a high level of consumer protection and safeguard public safety. Instructions and safety information provided in digital format should take into account the accessibility requirements set out in Annex I of Directive (EU) 2019/882, so as to ensure usability by all consumers and end-users, including persons with disabilities.***
