environmental footprint of its activities, one virtual meeting and one in-person meeting will be organised in 2026.

- In order to promote networking among the Member States, the Commission will organise one seminar with the participation of EGF implementing bodies and social partners.
- Information activities: the EGF's online presence², which the Commission has set up within its Employment, Social Affairs and Inclusion area, and which it is maintaining as required under Article 12(2) of the EGF Regulation, will be regularly updated and expanded, with each new element being translated into all EU languages. General awareness of the EGF will be increased and its visibility promoted. The EGF will be covered in various Commission publications and audio-visual activities as provided for in Article 11(1) of the EGF Regulation.
- All the activities above will include raising awareness vis-à-vis Member States, social partners and enterprises on the political agreement reached by the European Parliament and the Council on 25 February 2026 on a Commission proposal to amend the EGF Regulation³. The amendment to the EGF Regulation was approved by the European Parliament and the Council on 20 May 2026 and it includes in particular the possibility to also provide support to workers affected by imminent redundancy in a company undergoing restructuring. This will better prepare them to complete a career transition in a shorter timeframe, and facilitate their change of role or career.

3. Technical expenditure:

- Maintenance and update of an electronic data exchange system. The Commission is continuing its work on standardised procedures for EGF applications and management, using the functionalities of the Shared Fund Management Common System (SFC). This allows applications under the EGF Regulation to be simplified, their processing sped up and various reports more easily extracted. The SFC interface is also facilitating the EGF financial operations. This includes in particular:
 - Maintenance of the SFC2014 system for the closure of cases for the EGF 2014-2020.
 - Further development and maintenance of the SFC2021 system for the EGF 2021-2027, including in the light of the political agreement reached by the European Parliament and the Council on 25 February 2026 on a Commission proposal to amend the EGF Regulation, and its synchronization with SUMMA, the new corporate accounting, finance, and budgeting system of the European Union.
- Monitoring and data gathering: the Commission will collect data on applications received, paid and wound up, and measures proposed and implemented. This data will be made available on the website and compiled in appropriate form for future biennial reports.
