ANNEX 4

ANNEX

to the

Proposal for a Council Decision

**on the signing of the Comprehensive Economic Partnership Agreement between the
European Union and Indonesia**

SCHEDULE OF COMMITMENTS
ON CROSS-BORDER SUPPLY OF SERVICES

UNION

1. The list of commitments specified in this Annex indicates the service sectors liberalised pursuant to Article 8.16 and, by means of reservations, the market access and national treatment limitations that apply to services and service suppliers of Indonesia in those sectors. That list is composed of the following elements:
 - (a) the first column indicates the sector or sub-sector in which the commitment is undertaken by the Union, and the scope of liberalisation to which the reservations apply; and
 - (b) the second column describes the applicable reservations.
2. The Union does not undertake any commitment for cross-border supply of services in sectors or sub-sectors covered by this Agreement and not mentioned in the list of commitments specified in this Annex.

3. In identifying individual sectors and sub-sectors:

- (a) "CPC" means the Provisional Central Product Classification (Statistical Papers, Series M, No. 77, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991); and
- (b) "CPC ver. 1.0" means the Central Product Classification as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No 77, CPC ver 1.0, 1998.

4. The list of commitments specified in this Annex does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures when they do not constitute a limitation on market access or national treatment within the meaning of Articles 8.13 and 8.14. Those measures may include, in particular, the need to obtain a licence, to satisfy universal service obligations, to have recognised qualifications in regulated sectors, to pass specific examinations, including language examinations, to fulfil a membership requirement of a particular profession, such as membership in a professional organisation, to have a local agent for service, or to maintain a local address, or any other non-discriminatory requirements that certain activities may not be carried out in protected zones or areas. While not listed, such measures continue to apply in any case to services and service suppliers of Indonesia.

5. The list of commitments specified in this Annex is without prejudice to the feasibility of the cross-border supply of services provided for in point (e) of Article 8.4(1) in certain service sectors and sub-sectors and without prejudice to the existence of public monopolies and exclusive rights as described in the list of commitments on liberalisation of investments set out in Annex 8-B.

6. In accordance with Article 8.3(3), the list of commitments specified in this Annex does not include measures concerning subsidies granted by a Party.
7. The rights and obligations arising from the list of commitments specified in this Annex shall have no direct effect and confer no rights directly to natural or juridical persons.
8. The Union takes commitments differentiated by its Member States, where applicable.
9. For greater certainty, for the Union, the obligation to grant national treatment does not entail the requirement to extend to natural or juridical persons of Indonesia the treatment granted in a Member State, pursuant to the TFEU, or to any measure adopted pursuant to that Treaty, including their implementation in the Member States, to:
- (a) natural persons or residents of another Member State; or
 - (b) juridical persons constituted or organised under the law of another Member State or of the Union and having their registered office, central administration or principal place of business in the Union.
10. Treatment granted to juridical persons established by investors of a Party in accordance with the law of the other Party (including, in the case of the Union, the law of a Member State) and having their registered office, central administration or principal place of business within that other Party, is without prejudice to any condition or obligation, consistent with Chapter 8 (Liberalisation of Investment and Trade in Services), which may have been imposed on such juridical person when it was established in that other Party, and which shall continue to apply.

11. With respect to financial services, unlike foreign subsidiaries, branches established directly in a Member State by a non-Union financial institution are not, with certain limited exceptions, subject to prudential regulations harmonised at Union level which enable such subsidiaries to benefit from enhanced facilities to set up new establishments and to provide cross-border services throughout the Union. Therefore, such branches receive an authorisation to operate in the territory of a Member State under conditions equivalent to those applied to financial institutions of that Member State, and may be required to satisfy a number of specific prudential requirements such as, in the case of banking and securities, separate capitalisation and other solvency requirements and reporting and publication of accounts requirements or, in the case of insurance, specific guarantee and deposit requirements, a separate capitalisation, and the localisation in the Member State concerned of the assets representing the technical reserves and at least one third of the solvency margin.

Sector or sub-sector	Description of reservations
ALL SECTORS	Real estate For Modes 1 and 2: All Member States except AT, BG, CY, CZ, DE, DK, EE, EL, ES, FI, HR, HU, IE, IT, LV, LT, MT, PL, RO, SI, SK: None. In AT: For the acquisition, purchase as well as rent or lease of real estate by foreign natural persons and juridical persons an authorisation is required by the competent regional authorities (Länder) which will consider whether important economic, social or cultural interests are affected or not. In BG: Foreign natural and juridical persons (incl. through a branch) cannot acquire ownership of land. Bulgarian juridical persons with foreign participation cannot acquire ownership of agricultural land. Foreign juridical persons and foreign citizens with permanent residence abroad can acquire ownership of buildings and limited property rights¹ of real estate subject to the permission of the Ministry of Finance. The permission requirement does not apply to persons who have made investments in Bulgaria. Foreign citizens with permanent residence abroad, foreign juridical persons and companies in which foreign participation ensures a majority in adopting decisions or blocks the adoption of decisions, can acquire real estate property rights in specific geographic regions designated by the Council of Ministers subject to permission.

¹ The Bulgarian property law recognises the following limited property rights: right to use, right to build, right to raise a superstructure and servitudes.

Sector or sub-sector	Description of reservations
	In CY: Unbound. In CZ: Specific rules apply to agricultural land under state ownership. State agricultural land can be acquired only by Czech nationals, nationals of another Member State, or states parties to the Agreement on the EEA or the Swiss Confederation (hereinafter referred to as "Switzerland"). Legal persons² can acquire state agriculture land from the state only if they are agricultural entrepreneurs in the Czech Republic or persons with similar status in other Member State of the Union, or states parties to the Agreement on the EEA or Switzerland. In DE: Certain conditions of reciprocity may apply for the acquisition of real estate. In DK: Limitations apply on real estate purchase by non-resident physical and legal entities. Limitations also apply on agricultural estate purchased by physical and legal entities. In EE: Unbound for the acquisition of agricultural and forest land³. In ES: Foreign investment in activities directly relating to real estate investments for diplomatic missions by States that are not Member States of the EU require an administrative authorisation from the Spanish Council of Ministers, unless there is a reciprocal liberalisation agreement in place. In EL: Real estate acquisition or tenancy in the border regions is prohibited to natural or legal persons whose nationality or base is outside the Member States and the European Free Trade Association. The ban may be lifted with a discretionary decision taken by a committee of the appropriate Decentralised Administration (or the Minister of National Defence in case the properties to be exploited belong to the Fund for the Exploitation of Private Public Property).

² References to "legal" persons in the schedules should be understood pursuant to the law of the Member States concerned.

³ As regards services sectors, these limitations do not go beyond the limitations reflected in the existing GATS commitments.

Sector or sub-sector	Description of reservations
	In FI (Åland Islands): Restrictions apply on the right for natural persons who do not enjoy regional citizenship in Åland, and for juridical persons, to acquire and hold real property on the Åland Islands without permission by the competent authorities of the islands. Restrictions also apply on the right of establishment and the right to carry out economic activities by natural persons who do not enjoy regional citizenship in Åland, or by any juridical person, without permission by the competent authorities of the Åland Islands. In HR: Unbound in relation to acquisition of real estate by services suppliers not established and incorporated in Croatia. Acquisition of real estate necessary for the supply of services by companies established and incorporated in Croatia as legal persons is allowed. Acquisition of real estate necessary for the supply of services by branches requires the approval of the Ministry of Justice. Agricultural land can be acquired by foreigner juridical or natural persons. In HU: Limitations apply on acquisition of land and real estate by foreign investors⁴. In IE: Prior written consent of the Land Commission is necessary for the acquisition of any interest in Irish land by domestic or foreign companies or foreign nationals. Where such land is for industrial use (other than agricultural industry), this requirement is waived subject to certification to this effect from the Minister for Enterprise, Trade and Employment. This law does not apply to land within the boundaries of cities and towns. In IT: The purchase of real estate by foreign natural and juridical persons is subject to a condition of reciprocity.

⁴ As regards services sectors, these limitations do not go beyond the limitations reflected in the existing GATS commitments.

Sector or sub-sector	Description of reservations
	In LV: Unbound in relation to acquisition of land; land leases not exceeding 99 years permitted. In LT: Unbound for acquisition of land⁵. In MT: The requirements of Maltese legislation and regulations regarding the acquisition of real property continue to apply. In PL: The acquisition of real estate, direct and indirect, by foreigners requires a permit. A permit is issued through an administrative decision by a minister competent in internal affairs, with the consent of the Minister of National Defence, and in the case of agricultural real estate, also with the consent of the Minister of Agriculture and Rural Development. In RO: Natural persons not having Romanian citizenship and residence in Romania, as well as legal persons not having Romanian nationality and their headquarters in Romania, cannot acquire ownership over any kind of land plots, through inter vivos acts. In SI: Juridical persons, established in Slovenia with foreign capital participation, may acquire real estate in the territory of Slovenia. Branches⁶ established in Slovenia by foreign persons may only acquire real estate, except land, necessary for the conduct of the economic activities for which they are established. In SK: Foreign companies or natural persons may not acquire agricultural and forest land outside the borders of the built-up area of a municipality and some other land (e.g. natural resources, lakes, rivers, public roads etc.).

⁵ As regards services sectors, these limitations do not go beyond the limitations reflected in the existing GATS commitments.

⁶ According to the Law on Commercial Companies, a branch established in Slovenia is not considered a juridical person, but as regards its operation, its treatment is equal to that of a subsidiary, in accordance with paragraph (g) of Article XXVIII of the GATS.

Sector or sub-sector	Description of reservations
ALL SECTORS	Recognition In EU: Union directives on mutual recognition of diplomas only apply to the citizens of the Union. The right to practise a regulated professional service in one Member State of the Union does not grant the right to practise in another Member State⁷.

⁷ In order for non-Union country nationals to obtain Union-wide recognition of their qualifications, a mutual recognition agreement, negotiated within the framework defined in Article 8.27, is necessary.

Sector or sub-sector	Description of reservations
BUSINESS SERVICES	
A. Professional Services	
(a) Legal Services (CPC 861) ⁸ excluding legal advisory and legal documentation and certification services provided by legal professionals entrusted with public functions, such as notaries, "huissiers de justice" or other "officiers publics et ministériels."	For Modes 1 and 2: In EU: Legal representation of natural or juridical persons before the European Union Intellectual Property Office (hereinafter referred to as "EUIPO") may only be undertaken by a legal practitioner qualified in one of the Member States of the EEA and having their place of business within the EEA, to the extent that they are entitled, within the said Member State, to act as a representative in trade mark matters or in industrial property matters and by professional representatives whose names appear on the list maintained for this purpose by the EUIPO (part of CPC 861).

⁸ It includes legal advisory services, legal representational services, legal arbitration and conciliation or mediation services, and legal documentation and certification services. The provision of legal services is only authorised in respect of public international law, Union law and the law of any jurisdiction where the service supplier or its personnel is qualified to practice as a lawyer, and, like the provision of other services, is subject to licensing requirements and procedures applicable in the Member States of the Union. For lawyers providing legal services in respect of public international law and foreign law, these licensing requirements and procedures may take, *inter alia*, the form of compliance with local codes of ethics, use of home title (unless recognition with the host title has been obtained), insurance requirements, simple registration with the host country Bar or a simplified admission to the host country Bar through an aptitude test and a legal or professional domicile in the host country. Legal services in respect of Union law shall in principle be carried out by or through a fully qualified lawyer admitted to the Bar in a Member State of the Union acting personally, and legal services in respect of the law of a Member State of the Union shall in principle be carried out by or through a fully qualified lawyer admitted to the Bar in that Member State acting personally. Full admission to the Bar in the relevant Member State of the Union might therefore be necessary for representation before courts and other competent authorities in the Union since it involves the practice of Union and national procedural law. However, in some Member States of the Union, foreign lawyers not fully admitted to the Bar are allowed to represent in civil proceedings a party being a national of or belonging to the State in which the lawyer is entitled to practise.

Sector or sub-sector	Description of reservations
	In AT: EEA or Swiss nationality as well as residency (commercial presence) is required for the practice of legal services in respect of host jurisdiction (Union and Member State) law, including representation before courts. Only lawyers of EEA or Swiss nationality are allowed to provide legal services through commercial presence. The practice of legal services in respect of public international law and home-jurisdiction law is only allowed on a cross-border basis. In BE: Residency is required for full admission to the Bar, and is necessary for the practice of legal services in respect of Belgian law, including representation before courts. Representation before "the Cour de Cassation" is subject to nomination on a specific list. In BG: Indonesia's lawyers can only provide legal representation services for an Indonesian national subject to reciprocity and cooperation with a Bulgarian lawyer. For legal mediation services, permanent residence is required. In CY: Full admission to the Bar is subject to a nationality condition. Only advocates enrolled in the Bar may be partners or shareholders or members of the Board of Directors in a law company in Cyprus. In CZ: For the practice of legal services in respect of EU and Member State law, including representation before courts, full admission to the Czech Bar Association as well as residence (commercial presence) is required.

Sector or sub-sector	Description of reservations
	In DK: The delivery of legal services under the title "advokat" (advocate) or any similar title, as well as representation before the courts, is reserved for advocates with a Danish licence to practise. EU, EEA and Swiss advocates may practise under the title of their country of origin. Other persons than advocates with a Danish license to practise law may perform legal examination in services in accordance with the Danish Act on Legal Services, but are not allowed to use the title "advokat". In DE: Only lawyers with EEA or Swiss qualifications may be admitted to the Bar and are thus entitled to provide legal services in respect of domestic law. Commercial presence is required in order to obtain full admission to the Bar. Exemptions may be granted by the competent bar association. In EL: EEA or Swiss nationality and residency (commercial presence) is required for the practice of legal services in respect of EU and Member State law, including representation before courts. In ES: EEA or Swiss nationality is required for the practice of legal services in respect of EU and Member State law, including representation before courts. The competent authorities may grant nationality waivers. A professional address is required in order to provide any legal services. In FI, LU: Full admission to the Bar, which is required for legal representation services, is subject to a nationality condition, coupled with a residency requirement. In FI: EEA or Swiss residency and Bar membership is required for the use of the professional title of "advocate" (in Finnish "asianajaja" or in Swedish "advokat"). Legal services, including in relation to Finnish law, may also be provided by non-Bar members In FI: A patent agent must be resident in the EEA in order to be recorded in the Patent Agents Register, which is necessary for the practice of the profession.

Sector or sub-sector	Description of reservations
	In FR: For the practice of home jurisdiction and international law, residency or establishment in the EEA is required to practise on a permanent basis. For the practice of host jurisdiction law (EU and French law), residency or establishment in the EEA is required for full admission to the Bar, necessary for the practice of legal services. Lawyers' access to the profession of "avocat auprès de la Cour de Cassation" and "avocat auprès du Conseil d'Etat" is subject to quotas and to a nationality condition. In FR: To be registered on the industrial property agent services list, establishment or residency in the EEA is required. EEA nationality is required for natural persons. To represent a client in front of the national intellectual property office, establishment in the EEA is required. In HR: Unbound for practicing of Croatian law. In HU: Full admission to the Bar is subject to a nationality condition, coupled with a residency requirement. For foreign lawyers, the scope of legal activities is limited to the provision of legal advice, which shall take place on the basis of a collaboration contract concluded with a Hungarian attorney or a law firm. In LV: Nationality requirement for sworn advocates, to whom legal representation in criminal proceedings is reserved. In LT, MT: Full admission to the Bar, required for the practice of Union and Member State law, is subject to a nationality condition. In LU: Nationality condition for the supply of legal services in respect of Luxembourg and EU law.

Sector or sub-sector	Description of reservations
	In RO: Full admission to the Bar is subject to residency requirement. A foreign lawyer practicing the lawyer profession in Romania is required to register with the Bar. A foreign lawyer can only submit oral or written conclusions to courts and other jurisdictional and legal authorities for international arbitration matters, provided the condition of actual reciprocity is fulfilled. In SK: Full admission to the Bar, required for the practice of Union and Member State law, is subject to a nationality condition coupled with a residency requirement. Actual reciprocity is required. In SI: Representing clients before the court against payment is conditioned by commercial presence in Republic of Slovenia. A foreign lawyer who has the right to practise law in a foreign country may perform legal services or practise law under the conditions laid down in Article 34a of Attorneys Act, provided the condition of actual reciprocity is fulfilled. Commercial presence for appointed attorneys by the Slovene Bar Association is restricted to sole proprietorship, law firm with limited liability (partnership) or to a law firm with unlimited liability (partnership) only. The activities of a law firm shall be restricted to the practice of law. Only attorneys may be partners in a law firm. In SI: Residency in Slovenia is required for a holder or applicant of registered industrial property rights (patents, trademarks, design protection) to act before the Slovenian Intellectual Property Office without a patent agent or trademark and design agent. Alternatively, a patent agent or a trademark and design agent registered in Slovenia is required for the main purpose of services of process, notification, etc. In SE: Admission to the Bar, which is necessary only for the use of the Swedish title "advokat", is subject to a residency requirement.

Sector or sub-sector	Description of reservations

SCHEDULE OF SPECIFIC COMMITMENTS
ON LIBERALISATION OF INVESTMENT

UNION

1. The list of commitments specified in this Annex indicates the economic activities liberalised pursuant to Article 8.10 and, where relevant, the market access, national treatment and performance requirements limitations and conditions that apply to enterprises and investors of Indonesia for those activities. That list is composed of the following elements:

- (a) the first column indicates the sector or sub-sector in which the commitment is undertaken by the Union, and the scope of liberalisation to which the reservations apply; and
- (b) the second column describes the relevant limitations and conditions in addition, the Union undertakes commitments pursuant to Article 8.10(3), with respect to any existing measure described in that column which is inconsistent with Articles 8.7, 8.8 or 8.11, for those sectors or sub-sectors indicated as being subject to Future Liberalisation ("FL").

2. For greater certainty and without prejudice to Article 8.8(3), reservations and commitments pursuant to Articles 8.7, 8.8 and 8.11 included in this Annex with respect to establishment shall continue to apply to enterprises and investors of Indonesia after they have been established in the territory of the Union.

3. The Union does not undertake any commitments on market access, national treatment or performance requirements in sectors or sub-sectors covered by this Agreement and not mentioned in the list of commitments specified in this Annex.

4. In identifying individual sectors and sub-sectors:

- (a) "CPC" means the Provisional Central Product Classification (Statistical Papers, Series M, No. 77, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991);
- (b) "CPC ver. 1.0" means the Central Product Classification as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No 77, CPC ver 1.0, 1998; and
- (c) "ISIC rev 3.1" means the International Standard Industrial Classification of all Economic Activities as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No. 4, ISIC REV 3.1, 2002.

5. The list of commitments specified in this Annex does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures if they do not constitute a market access or a national treatment limitation within the meaning of Articles 8.7 and 8.8. Those measures may include, in particular, the need to obtain a licence, to satisfy universal service obligations, to have recognised qualifications in regulated sectors, to pass specific examinations, including language examinations, to fulfil a membership requirement of a particular profession, such as membership in a professional organisation, to have a local agent for service, or to maintain a local address, or any other non-discriminatory requirements that certain activities may not be carried out in protected zones or areas. While not listed, such measures continue to apply in any case to enterprises and investors of Indonesia.
6. In accordance with Article 8.3(3), the list of commitments specified in this Annex does not include measures concerning subsidies granted by a Party.
7. Notwithstanding Article 8.7, non-discriminatory requirements as regards the type of legal form of an enterprise do not need to be specified in the list of commitments specified in this Annex in order to be maintained or adopted by the Union.
8. The rights and obligations arising from the list of commitments specified in this Annex shall have no direct effect and confer no rights directly on natural or juridical persons.
9. The Union takes commitments differentiated by its Member States, if applicable.

10. For greater certainty, for the Union, the obligation to grant national treatment does not entail the requirement to extend to natural or juridical persons of Indonesia the treatment granted in a Member State, pursuant to the TFEU, or to any measure adopted pursuant to that Treaty, including their implementation in the Member States, to:

- (a) natural persons or residents of a Member State of the Union; or
- (b) juridical persons constituted or organised under the law of another Member State or of the Union and having their registered office, central administration or principal place of business in a Member State of the Union.

That national treatment is granted to juridical persons which are constituted or organised under the law of a Member State or the Union and have their registered office, central administration or principal place of business in a Member State, including those which are owned or controlled by natural or juridical persons of Indonesia.

11. Treatment granted to juridical persons established by investors of a Party in accordance with the law of the other Party (including, in the case of the Union, the law of a Member State) and having their registered office, central administration or principal place of business within that other Party, is without prejudice to any condition or obligation, consistent with Chapter 8 (Liberalisation of Investment and Trade in Services), which may have been imposed on such juridical person when it was established in that other Party, and which shall continue to apply.

12. With respect to financial services, unlike foreign subsidiaries, branches established directly in a Member State by a non-Union financial institution are not, with certain limited exceptions, subject to prudential regulations harmonised at Union level which enable such subsidiaries to benefit from enhanced facilities to set up new establishments and to provide cross-border services throughout the Union. Therefore, such branches receive an authorisation to operate in the territory of a Member State under conditions equivalent to those applied to domestic financial institutions of that Member State, and may be required to satisfy a number of specific prudential requirements such as, in the case of banking and securities, separate capitalisation and other solvency requirements and reporting and publication of accounts requirements or, in the case of insurance, specific guarantee and deposit requirements, a separate capitalisation, and the localisation in the Member State concerned of the assets representing the technical reserves and at least one third of the solvency margin.

Sector or sub-sector	Description of reservations
ALL SECTORS	Real estate All Member States except AT, BG, CY, CZ, DE, DK, EE, EL, ES, FI, HR, HU, IE, IT, LV, LT, MT, PL, RO, SI, SK: None. In AT: For the acquisition, purchase as well as rent or lease of real estate by foreign natural persons and juridical persons an authorisation is required by the competent regional authorities (Länder) which will consider whether important economic, social or cultural interests are affected or not. In BG: Foreign natural and juridical persons (incl. through a branch) cannot acquire ownership of land. Bulgarian juridical persons with foreign participation cannot acquire ownership of agricultural land. Foreign juridical persons and foreign citizens with permanent residence abroad can acquire ownership of buildings and limited property rights¹ of real estate subject to the permission of the Ministry of Finance. The permission requirement does not apply to persons who have made investments in Bulgaria. Foreign citizens with permanent residence abroad, foreign juridical persons and companies in which foreign participation ensures a majority in adopting decisions or blocks the adoption of decisions, can acquire real estate property rights in specific geographic regions designated by the Council of Ministers subject to permission. In CY: Unbound.

¹ The Bulgarian property law recognises the following limited property rights: right to use, right to build, right to raise a superstructure and servitudes.

Sector or sub-sector	Description of reservations
	In CZ: Specific rules apply to agricultural land under state ownership. State agricultural land can be acquired only by Czech nationals, nationals of another Member State, or states parties to the Agreement on the EEA or the Swiss Confederation. Legal persons² can acquire state agriculture land from the state only if they are agricultural entrepreneurs in the Czech Republic or persons with similar status in other Member State of the European Union, or states parties to the Agreement on the EEA or the Swiss Confederation. In DE: Certain conditions of reciprocity may apply for the acquisition of real estate. In DK: Limitations apply on real estate purchase by non-resident physical and legal entities. Limitations also apply on agricultural estate purchased by physical and legal entities. In EE: Unbound for the acquisition of agricultural and forest land³. In ES: Foreign investment in activities directly relating to real estate investments for diplomatic missions by States that are not Member States of the EU require an administrative authorisation from the Spanish Council of Ministers, unless there is a reciprocal liberalisation agreement in place. In EL: Real estate acquisition or tenancy in the border regions is prohibited to natural or legal persons whose nationality or base is outside the Member States and the European Free Trade Association. The ban may be lifted with a discretionary decision taken by a committee of the appropriate Decentralized Administration (or the Minister of National Defense in case the properties to be exploited belong to the Fund for the Exploitation of Private Public Property)

² References to "legal" persons in the schedules should be understood pursuant to the law of the Member States concerned.

³ As regards services sectors, these limitations do not go beyond the limitations reflected in the existing GATS commitments.

Sector or sub-sector	Description of reservations
	In FI (Åland Islands): Restrictions apply on the right for natural persons who do not enjoy regional citizenship in Åland, and for juridical persons, to acquire and hold real property on the Åland Islands without permission by the competent authorities of the islands. In HR: Unbound in relation to acquisition of real estate by services suppliers not established and incorporated in Croatia. Acquisition of real estate necessary for the supply of services by companies established and incorporated in Croatia as legal persons is allowed. Acquisition of real estate necessary for the supply of services by branches requires the approval of the Ministry of Justice. Agricultural land can be acquired by foreigner juridical or natural persons. In HU: Unbound for the acquisition of state-owned properties. Limitations apply on acquisition of land and real estate by foreign investors⁴. In IE: Prior written consent of the Land Commission is necessary for the acquisition of any interest in Irish land by domestic or foreign companies or foreign nationals. Where such land is for industrial use (other than agricultural industry), this requirement is waived subject to certification to this effect from the Minister for Enterprise, Trade and Employment. This law does not apply to land within the boundaries of cities and towns. In IT: The purchase of real estate by foreign natural and juridical persons is subject to a condition of reciprocity. In LV: Unbound in relation to acquisition of land; land lease not exceeding 99 years permitted. In LT: Unbound for acquisition of land⁵.

⁴ As regards services sectors, these limitations do not go beyond the limitations reflected in the existing GATS commitments.

⁵ As regards services sectors, these limitations do not go beyond the limitations reflected in the existing GATS commitments.

Sector or sub-sector	Description of reservations
	In MT: The requirements of Maltese legislation and regulations regarding acquisition of real property continue to apply. In PL: The acquisition of real estate, direct and indirect, by foreigners requires a permit. A permit is issued through an administrative decision by a minister competent in internal affairs, with the consent of the Minister of National Defence, and in the case of agricultural real estate, also with the consent of the Minister of Agriculture and Rural Development. In RO: Natural persons not having Romanian citizenship and residence in Romania, as well as legal persons not having Romanian nationality and their headquarters in Romania, cannot acquire ownership over any kind of land plots, through inter vivos acts. In SI: Juridical persons, established in Slovenia with foreign capital participation, may acquire real estate in the territory of Slovenia. Branches⁶ established in Slovenia by foreign persons may only acquire real estate, except land, necessary for the conduct of the economic activities for which they are established. In SK: Foreign companies or natural persons may not acquire agricultural and forest land outside the borders of the built-up area of a municipality and some other land (e.g. natural resources, lakes, rivers, public roads etc.).

⁶ According to the Law on Commercial Companies, a branch established in Slovenia is not considered a juridical person, but as regards its operation, its treatment is equal to that of a subsidiary, in accordance with paragraph (g) of Article XXVIII of the GATS.

Sector or sub-sector	Description of reservations
ALL SECTORS	Managing directors and auditors In AT: Managing directors of branches of juridical persons have to be resident in Austria. Natural persons within a juridical person or a branch responsible for the observance of the Austrian Trade Act must have a domicile in Austria. In FI: A foreigner carrying on trade as a private entrepreneur needs a trade permit and has to be permanently resident in the Union. For all sectors, except telecommunications services, nationality conditions and residency requirements apply for the managing director of a limited company. For telecommunications services, permanent residency for the managing director. In FR: The managing director of an industrial, commercial or artisanal activity, if not a holder of a residency permit, needs a specific authorisation. In RO: The majority of the commercial companies' auditors and their deputies shall be Romanian citizens. In SE: The managing director of a juridical person or a branch must be resident within the EEA, unless the competent authority in a particular case allows otherwise. An auditor who is an authorized or approved auditor in Sweden must reside within the EEA. An auditor who is not an authorized or approved auditor in Sweden must reside within the EEA, unless an authorized or approved auditor also participates in the audit. The competent authority may in a particular case allow otherwise.

Sector or sub-sector	Description of reservations
ALL SECTORS	Public utilities In EU: Economic activities considered as public utilities at a national or local level may be subject to public monopolies or to exclusive rights granted to private operators^{7 8}.
ALL SECTORS	Types of establishment In EU: Treatment accorded to subsidiaries (of Indonesia's companies) formed in accordance with the law of the Member States of the Union and having their registered office, central administration or principal place of business within the Union is not extended to branches or agencies established in the Member States of the Union by Indonesia's companies⁹. However, this does not prevent a Member State from extending this treatment to branches or agencies established in another Member State by a third-country company or firm, as regards their operation in the first Member State's territory, unless such extension is explicitly prohibited by Union law. In EU: Non-discriminatory legal form requirements apply.

⁷ Public utilities exist in sectors such as related scientific and technical consulting services, R&D services on social sciences and humanities, technical testing and analysis services, environmental services, health services, transport services and services auxiliary to all modes of transport. Exclusive rights on such services are often granted to private operators, for instance operators with concessions from public authorities, subject to specific service obligations. Given that public utilities often also exist at the sub-central level, detailed and exhaustive sector-specific listing is not practical.

⁸ This limitation does not apply to telecommunications services and to computer and related services.

⁹ In accordance with Article 54 of the Treaty on the Functioning of the European Union, these subsidiaries are considered as juridical persons of the Union. To the extent that they have a continuous and effective link with the economy of the Union, they are beneficiaries of the Union internal market, which includes, *inter alia*, the freedom to establish and to provide services in all Member States of the Union.

Sector or sub-sector	Description of reservations
	In BG: The establishment of branches is subject to authorisation. In EE: At least half of the members of the management board shall have their residence in the Union. In FI: An Indonesian person carrying on trade as a partner in a Finnish limited or general partnership needs a trade permit and has to be permanently resident in the Union. For all sectors except telecommunications services, nationality and residency are required for at least half of the ordinary and deputy members of the board of directors; however exemptions may be granted to certain companies. For telecommunications services, permanent residency is required for half of the founders and half of the members of the board of directors. If the founder is a juridical person, that juridical person is also subject to a residency requirement. If an Indonesian organisation intends to carry on business or trade by establishing a branch in Finland, a trade permit is required. A permission to act as a founder of a limited company is required for an Indonesian organisation or a natural person who is not a citizen of the Union. In IT: Access to industrial, commercial and artisanal activities is subject to a residence permit and specific authorisation to pursue the activities. In BG and PL: The scope of operations of a representative office may only encompass advertising and promotion of the foreign parent company represented by the office. In PL: With the exception of financial services, unbound for branches. Indonesian investors can undertake and conduct economic activity only in the form of a general partnership, limited joint-stock partnership, limited liability company and joint-stock company (in the case of legal services only in the form of registered partnership and limited partnership).

Sector or sub-sector	Description of reservations
	In RO: The sole administrator or the chairman of the board of administration as well as half of the total number of administrators of the commercial companies shall be Romanian citizens unless otherwise stipulated in the company contract or its statutes. The majority of the commercial companies' auditors and their deputies shall be Romanian citizens. In SE: An Indonesian company, which has not established a legal entity in Sweden or is conducting its business through a commercial agent, shall conduct its commercial operations through a branch, registered in Sweden, with independent management director, and separate accounts. The managing and the vice-managing director if appointed, of the branch must reside in the European Economic Area (EEA). A natural person not resident in the EEA, who conducts commercial operations in Sweden, shall appoint and register a resident representative responsible for the operations in Sweden. Separate accounts shall be kept for the operations in Sweden. The competent authority may in individual cases grant exemptions from the branch and residency requirements. Building projects with duration of less than a year – conducted by a company located or a natural person residing outside the EEA – are exempted from the requirements of establishing a branch or appointing a resident representative. For limited liability companies and co-operative economic associations, at least 50 % of the members of the board of directors, at least 50 % of the deputy board members, the managing director, the vice-managing director, and at least one of the persons authorised to sign for the company, if any, must reside within the EEA. The competent authority may grant exemptions from this requirement. If none of the company's or society's representatives reside in Sweden, the board must appoint and register a person resident in Sweden, who has been authorised to receive servings on behalf of the company or society.

Sector or sub-sector	Description of reservations
	Corresponding conditions prevail for establishment of all other types of legal entities. In SK, an Indonesian natural person whose name is to be registered in the appropriate register (Commercial Register, Entrepreneurial or other professional register) as a person authorised to act on behalf of the entrepreneur is required to submit residence permit for Slovakia.
ALL SECTORS	Investment In BG: In enterprises where the public (State or municipal) share in the equity capital exceeds 30 %, the transfer of these shares to third parties needs authorisation. Certain economic activities related to the exploitation or use of State or public property are subject to concessions granted under the provisions of the Concessions Act. Foreign investors cannot participate in privatisation. Foreign investors and Bulgarian juridical persons with controlling Indonesian participation require permission for a) prospecting, development or extraction of natural resources from the territorial seas, the continental shelf or the exclusive economic zone and b) acquisition of a controlling equity interests in companies engaged in any of the activities specified under point a). Established enterprises may employ third country nationals only for positions for which there is no requirement for Bulgarian nationality. The total number of third country nationals employed by an established enterprise over a period of the preceding 12 months must not exceed 20 % 35 % or small and medium-sized enterprises) of the average number of Bulgarian nationals, nationals of other Member States, of states parties to the Agreement on the European Economic Area or of the Swiss Confederation hired on an employment contract. In addition, the employer must demonstrate that there is no suitable Bulgarian, EU, EEA or Swiss worker for the respective position by conducting a labour market test before employing a third country national.

Sector or sub-sector	Description of reservations
	For highly qualified, seasonal and posted workers, as well as for intra-corporate transferees, researchers and students there is no limitation on the number of third country nationals working for a single enterprise. For the employment of third country nationals in these categories, no labour market test is required. In DK: The establishment of branches by foreign companies outside the Union depends on whether the relevant country has agreed in an international agreement. Retail planning in Denmark is regulated by the Planning Act and has criteria for size and location of stores for retail business. Regulations of size and location are only based on environmental matters. Therefore foreign business of retail does not need a special authorisation or permit before investment in Denmark. In ES: The investment in Spain by foreign governments and foreign public entities, directly or through companies or other entities controlled directly or indirectly by foreign governments, needs prior authorisation by the government. Such investment tends to imply not only economic interests, but also non-economic interests for these entities. In FR: Pursuant to articles L151-1 and 151-1 et seq. of the financial and monetary code, foreign investments in France in sectors listed in article R.151-3 of the financial and monetary code are subject to prior approval from the Minister for the Economy. The approval granted may have special conditions attached to it. Foreign participation in newly privatised companies may be limited to a variable amount, determined by the government of France on a case by case basis, of the equity offered to the public. For establishing in certain commercial, industrial or artisanal activities, a specific authorisation is needed if the managing director is not a holder of a permanent residence permit.

Sector or sub-sector	Description of reservations
	In FI: Acquisition of shares by Indonesian owners giving more than one third of the voting rights of a major Finnish company or a major business undertaking (with more than 1 000 employees, with a turnover exceeding 168 million Euros or with a balance sheet total¹⁰ exceeding EUR 168 million) is subject to confirmation by the Finnish authorities. This confirmation may be denied only if an important national interest would be jeopardised. These limitations do not apply to telecommunications services. 6. BUSINESS SERVICES	
A. Professional Services	
(a) Legal Services (CPC 861) ²⁷ excluding legal advisory and legal documentation and certification services provided by legal professionals entrusted with public functions, such as notaries, "huissiers de justice" or other "officiers publics et ministériels"	In EU: Legal representation of natural or juridical persons before the European Union Intellectual Property Office (hereinafter referred to as "EUIPO ") may only be undertaken by a legal practitioner qualified in one of the Member States of the European Economic Area and having their place of business within the European Economic Area, to the extent that they are entitled, within the said Member State, to act as a representative in trade mark matters or in industrial property matters and by professional representatives whose names appear on the list maintained for this purpose by the EUIPO. (part of CPC 861). In EU: Specific non-discriminatory legal form requirements apply in each Member State. In AT: Equity participation and shares in the operating result of any law firm by foreign lawyers (who must be fully qualified in their home-jurisdiction) is allowed up to 25 %; the rest must be held by fully qualified EEA or Swiss lawyers and only the latter may exercise decisive influence in the decision making of the law firm. In BE: Residency is required for full admission to the Bar, and necessary for the practice of legal services in respect of Belgian domestic law, including representation before courts. Representation before "the Cour de Cassation" is subject to nomination on a specific list.

²⁷ Includes legal advisory services, legal representational services, legal arbitration and conciliation/mediation services, and legal documentation and certification services. Provision of legal services is only authorised in respect of public international law, Union law and the law of any jurisdiction where the service supplier or its personnel is qualified to practice as a lawyer, and, like the provision of other services, is subject to licensing requirements and procedures applicable in the Member States of the Union. For lawyers providing legal services in respect of public international law and foreign law, these licensing requirements and procedures may take, *inter alia*, the form of compliance with local codes of ethics, use of home title (unless recognition with the host title has been obtained), insurance requirements, simple registration with the host country Bar or a simplified admission to the host country Bar through an aptitude test and a legal or professional domicile in the host country. Legal services in respect of Union law shall in principle be carried out by or through a fully qualified lawyer admitted to the Bar in a Member State of the Union acting personally, and legal services in respect of the law of a Member State of the Union shall in principle be carried out by or through a fully qualified lawyer admitted to the Bar in that Member State acting personally. Full admission to the Bar in the relevant Member State of the Union might therefore be necessary for representation before courts and other competent authorities in the Union since it involves practice of Union and national procedural law. However, in some Member States, foreign lawyers not fully admitted to the Bar are allowed to represent in civil proceedings a party being a national of or belonging to the State in which the lawyer is entitled to practice.

Sector or sub-sector	Description of reservations
	In CY: Full admission to the Bar, required for the provision of legal services. Admission to Bar is subject to a nationality condition. Only advocates enrolled in the Bar may be partners or shareholders or members of the Board of Directors in a law company in Cyprus. In CZ: For the practice of legal services in respect of domestic (EU and Member State) law, including representation before courts, full admission to the Czech Bar Association as well as residence (commercial presence) is required. In DE: Only lawyers with EEA or Swiss qualification may be admitted to the Bar and are thus entitled to provide legal services in respect of domestic law. Commercial presence is required in order to obtain full admission to the Bar. Exemptions may be granted by the competent bar association. For foreign lawyers (with other than EEA and Swiss qualification) there may be restrictions for holding shares of a law firm which provides legal services in domestic law. Foreign lawyers or law firms may offer legal services in foreign law and in public international law if they prove expert knowledge. A professional company may only become a shareholder in a German law firm if it is admitted to the German Bar and takes one of the legal forms listed in Article 59b of the Federal Lawyers Act. A shareholder must participate actively in the law firm. Branches of foreign law firms may provide legal services if they have been admitted to the Bar. Bar admission requires qualification of shareholders as lawyers or patent attorneys from a state where the corresponding legal profession is recognised by regulation of the German Ministry of Justice as having a comparable education and professional status (section 206 Federal Lawyers Act and section 157 Federal Patent Lawyers Act). The branch must have a separate management with power of agency in Germany and at least one manager of the branch with power of attorney must be admitted to the German bar.

Sector or sub-sector	Description of reservations
	In DK: For law firms non-discriminatory a legal form requirements apply. Furthermore the sole purpose of a law firm must be to practice law. Shares of a law firm can only be owned by advocates who actively practice law in the firm, its parent company or its subsidiary company, other employees than advocates in the firm, or another law firm registered in Denmark. Furthermore, other employees than advocates in the firm may collectively only own less than 10 % of the shares and of the voting rights, and in order to be shareholders they must pass an exam on the rules of particular importance for the practice of law. Only advocates who actively practice law in the firm, its parent company or its subsidiary company, other shareholders, and representatives of employees, may be members of the board. The majority of the members of the board must be advocates who actively practice law in the firm, its parent company or its subsidiary company. Only advocates who actively practice law in the firm, its parent company or its subsidiary company, and other shareholders having passed the exam mentioned above, may be a director of the law firm. Advocates practicing law in a law firm or other employees in the corporation who own shares therein shall be personally liable jointly with the firm for any claim arising as a result of their assistance to a client. In EL: EEA or Swiss nationality and residency (commercial presence) is required for the practice of legal services in respect of domestic (EU and Member State) law, including representation before courts. In ES: EEA or CH nationality is required for the practice of legal services in respect of domestic (EU and Member State) law, including representation before courts. The competent authorities may grant nationality waivers. Professional address is required in order to provide any legal services.

SCHEDULE OF COMMITMENTS
ON TEMPORARY PRESENCE OF NATURAL PERSONS
FOR BUSINESS PURPOSES

UNION

1. The list of commitments specified in this Annex indicates the sectors in which the Union takes commitments pursuant to Articles 8.18, 8.19, 8.20 and 8.21, and the terms, limitations, conditions and qualifications that apply to such commitments. That list is composed of the following elements:

- (a) the first column indicates the sector or sub-sector in which limitations apply; and
- (b) the second column describes the applicable limitations.

2. In identifying individual sectors and sub-sectors:

- (a) "CPC" means the Provisional Central Product Classification (Statistical Papers, Series M, No. 77, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991);
- (b) "CPC ver. 1.0" means the Central Product Classification as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No. 77, CPC ver 1.0, 1998; and

- (c) "ISIC rev 3.1" means the International Standard Industrial Classification of All Economic Activities as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No. 4, ISIC REV 3.1, 2002.

3. Commitments on business visitors for establishment purposes, intra-corporate transferees, contractual service suppliers, short-term business visitors, and installers and maintainers do not apply in cases where the intent or effect of their temporary presence is to interfere with, or otherwise affect the outcome of, any labour or management dispute or negotiation or the employment of any natural person who is involved in that dispute.

4. In addition to the list of commitments specified in this Annex, the Union may adopt or maintain measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures that does not constitute a limitation within the meaning of Section D of Chapter 8 (Liberalisation of Investment and Trade in Services). Those measures may include, in particular, the need to obtain a licence, to satisfy universal service obligations, to have recognised qualifications in regulated sectors, to pass specific examinations, including language examinations, to fulfil a membership requirement of a particular profession, such as membership in a professional organisation, to have a local agent for service, or to maintain a local address, or any other non-discriminatory requirements that certain activities may not be carried out in protected zones or areas. While not listed, such measures continue to apply to business visitors for establishment purposes, intra-corporate transferees, contractual service suppliers, short-term business visitors, and installers and maintainers of Indonesia.

5. All requirements under the laws and regulations of the Union regarding entry, stay, work and social security measures continue to apply, including regulations concerning period of stay, minimum wages as well as collective wage agreements even if not listed in this Annex.
6. In accordance with Article 8.3(3), the list of commitments specified in this Annex does not include measures concerning subsidies granted by a Party.
7. The list of commitments specified in this Annex is without prejudice to the existence of public monopolies and exclusive rights as described in the list of commitments on liberalisation of investments set out in Annex 8-B (Schedule of Specific Commitments on Liberalisation of Investment – Union).
8. In the sectors where economic needs tests are applied, their main criteria will be the assessment of the relevant market situation in the Member State or the region where the service is to be provided, including with respect to the number of, and the impact on, existing services suppliers.
9. The rights and obligations arising from this Agreement, including the list of commitments specified in this Annex, shall have no direct effect and confer no rights directly on natural or juridical persons.
10. For greater certainty, the list of commitments specified in this Annex applies only to the territories in which the Treaty on European Union and the TFEU are applied and under the conditions laid down in those Treaties, and is only relevant in the context of the trade relations between the Union and its Member States, on the one part, and Indonesia, on the other part. It does not affect the rights and obligations of Member States arising from Union law.

11. For greater certainty, for the Union, the obligation to grant national treatment does not entail the requirement to extend to natural or juridical persons of Indonesia the treatment granted in a Member State, under the TFEU, or to any measure adopted under that Treaty, including their implementation in the Member States, to:

- (a) natural persons or residents of another Member State; or
- (b) juridical persons constituted or organised under the law of another Member State or of the Union and having their registered office, central administration or principal place of business in the Union.

12. Any reservation set out in Annexes 8-A (Schedule of Commitments on Cross-Border Supply of Services – Union) and 8-B (Schedule of Specific Commitments on Liberalisation of Investment – Union) also constitutes a reservation for the purposes of this Annex to the extent that the measure set out in or permitted by that reservation affects the treatment of natural persons' presence for business purposes in the territory of the other Party.

13. The Union takes commitments differentiated by its Member States, where applicable.

SCHEDULE OF COMMITMENTS
ON CROSS-BORDER SUPPLY OF SERVICES

INDONESIA

1. The list of commitments specified in this Annex indicates the services sectors liberalised pursuant to Article 8.16, and by means of reservations, limitations that apply to cross-border supply of services and service suppliers of the Union in those sectors. That list is composed of the following elements:
 - (a) the first column indicates the sector or sub-sector in which the commitment is undertaken by Indonesia, and the scope of liberalisation to which the reservations apply; and
 - (b) the second column describes the applicable reservations against Articles 8.13 and 8.14.
2. Cross-border supply of services in sectors or sub-sectors covered by this Agreement and not listed in the sectoral column below is not committed.

3. In identifying individual sectors and sub-sectors:
- (a) "CPC" means the Provisional Central Product Classification (Statistical Papers, Series M, No. 77, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991;
 - (b) "ISIC" means Indonesian Standard of Industrial Classification (Klasifikasi Baku Lapangan Usaha Indonesia/KBLI) 2020; and
 - (c) "ISIC rev 4" means the International Standard Industrial Classification of all Economic Activities as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No. 4, ISIC REV 4, 2008.
4. In the absence of specific reference to a ISIC or CPC number, the scope of sub-sectors or economic activities covered by that entry will be subject to the relevant and applicable reference, including:
- (a) in the case of financial services, reference would be made to the GATS Annex on Financial Services; or
 - (b) in the case of air transport, the scope of activities would be in accordance with Article 8.12, unless qualified by reference to the ISIC 2020.
5. Double asterisk (**) after a CPC number indicates that the scope of service specified constitutes only a part of the total range of activities covered by the CPC concordance.

6. Sectors or sub-sectors marked with "MFN" are subject to Article 8.15 for measures covered by both market access and national treatment as indicated in the description of reservations column.
7. The list of commitments specified in this Annex does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures when they do not constitute a market access or a national treatment limitation within the meaning of Articles 8.13 or 8.14. Those measures, such as a need to obtain a license, universal service obligations, a need to obtain recognition of qualifications in regulated sectors, a need to pass specific examinations, including language examinations, even if not listed, apply in any case to services and service suppliers of the Union.
8. The list of commitments specified in this Annex is without prejudice to the feasibility of the cross-border supply of services as defined in point (e) of Article 8.4(1) in certain services sectors and sub-sectors and without prejudice to the existence of public monopolies and exclusive rights as described in the list of commitments on establishment as set out in Annex 8-F (Schedule of Specific Commitments on Liberalisation of Investment – Indonesia).
9. Restrictions, conditions and limitations in the horizontal section applies to "all sectors" as specified in the sectoral column, unless otherwise specified in the sector specific section. They either reflect a measure which constitutes a limitation to market access, or national treatment, or bind a situation where there are no such limitations.

10. "Unbound except" must be read as the commitment only applies to the extent covered by categories or conditions specified after the word "except", and in this case limitations specified in the horizontal section apply.
11. A "none" in the sectoral section must be read as no restrictions or conditions apply in the specific sector. However, any relevant limitations set out in the horizontal section and general condition if applicable of the schedule will still apply.
12. A "none, except" in the sectoral section must be read as combination of the horizontal restrictions and conditions set out in the horizontal section and of the sector-specific restrictions, unless explicitly provided otherwise in the entry.
13. The rights and obligations arising from the list of commitments specified in this Annex shall have no self-executing effect and thus confer no rights directly on natural or juridical persons.

SCHEDULE OF SPECIFIC COMMITMENTS
ON LIBERALISATION OF INVESTMENT

INDONESIA

1. The list of commitments specified in this Annex indicates economic activities liberalised pursuant to Article 8.10 and by means of reservations, the limitations that apply to establishment, or to enterprises of the Union in those activities. That list is composed of the following elements:
 - (a) the first column indicates economic activities in which the commitment is undertaken by Indonesia, and the scope of liberalisation to which the reservations apply; and
 - (b) the second column describes the applicable reservations against Articles 8.7, 8.8, 8.9, and 8.11.
2. Establishment in sectors or sub-sectors covered by this Agreement that are excluded or not listed in the sectoral column below is not committed.
3. In identifying individual sectors and sub-sectors:
 - (a) "CPC" means the Provisional Central Product Classification (Statistical Papers, Series M, No. 77, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991);

(b) "ISIC" means Indonesian Standard of Industrial Classification (Klasifikasi Baku Lapangan Usaha Indonesia/KBLI) 2020; and

(c) "ISIC rev 4" means the International Standard Industrial Classification of all Economic Activities as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No.°4, ISIC REV 4, 2008;

4. In the absence of specific reference to ISIC or CPC number, the scope of sub-sectors or economic activities covered by that entry will be subject to the relevant and applicable references, including:

(a) in the case of financial services, reference would be made to GATS Annex on Financial Services; or

(b) in the case of air transport, the scope of activities would be in accordance with Article 8.6, unless qualified by reference to the ISIC.

5. Double asterisk (**) after a CPC number indicates that the scope of service specified constitutes only a part of the total range of activities covered by the CPC concordance.

6. Sectors or sub-sectors are subject to Article 8.10(2) and (3) with respect to measures indicated in the description of reservations column if marked with:

(a) "FL", applies to market access and national treatment measures;

(b) "FL MA", applies to market access measures; or

(c) "FL NT", applies to national treatment measures.

7. Sectors or sub-sectors marked with "MFN" are subject to Article 8.9, for measures covered by both market access and national treatment as indicated in the description of reservations column.

8. Sectors or sub-sectors marked with "LCR" are subject to conditions determined on the basis of the requirements stipulated under the performance requirement reservations of the horizontal section.

9. The list of commitments specified in this Annex does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures when they do not constitute a market access or a national treatment limitation within the meaning of Articles 8.7 and 8.8. Those measures, such as a need to obtain a license, universal service obligations, a need to obtain recognition of qualifications in regulated sectors, a need to pass specific examinations, including language examinations and non-discriminatory requirements that certain activities may not be carried out in environmentally protected zones or areas of particular historic and artistic interest, even if not listed, apply in any case to establishments and investors of the Union.

10. In the sectors where economic needs tests are applied, their main criteria will be the assessment of the relevant market situation in the territory of Indonesia or the region where the service is to be provided, including with respect to the number of, and the impact on, existing services suppliers.

11. Restrictions, conditions and limitations in the horizontal section apply to "all sectors" as specified in the sectoral column, unless otherwise specified in the general condition or sector specific section. They either reflect a measure which constitutes a limitation to market access, national treatment, or performance requirements, or bind a situation where there are no such limitations.
12. "Unbound for" must be read as no commitment in the specific sectors with respect to specific obligations.
13. A "none" in the sectoral section must be read as no restrictions or conditions apply in the specific sector. However, any relevant limitations set out in the horizontal section and general condition, if applicable, of the schedule will still apply.
14. A "none, except" in the sectoral section must be read as a combination of the horizontal restrictions and conditions set out in the horizontal section and of the sector-specific restrictions, unless explicitly provided otherwise in the entry.
15. A reservation that requires a service supplier to be an Indonesian national, or a resident in the territory of Indonesia as a condition to the supply of a service in its territory or a reservation listed in the list of commitments in Annex 8-G (Schedule of Commitments on Temporary Presence of Natural Persons for Business Purposes – Indonesia), shall operate as a reservation with respect to the commitments on establishment taken in this Annex in conformity with Article 8.10, to the extent applicable.

16. The rights and obligations arising from the list below shall have no self-executing effect and thus confer no rights directly on natural or juridical persons.
17. In the interpretation of a reservation, all elements of a reservation shall be considered. The description of the reservations shall prevail over all other elements.
18. Paragraphs 1 to 17 shall form part of Indonesia's reservations.

Sector or sub-sector	Description of reservations
I. HORIZONTAL SECTION	
All sectors	Form of Establishment Establishment of Union enterprises shall be in the form of a Limited Liability Company, unless stipulated otherwise, in accordance with Indonesia's laws and regulations.
	Minimum Investment Requirement Foreign investment shall have a total investment value of more than IDR 10 billion (excluding land and buildings) and at least IDR 10 billion for the issued or paid-up capital, unless required otherwise in accordance with relevant laws and regulations. This requirement excludes sectors and sub-sectors where Indonesia has made commitments under GATS.
	Acquisition or Lease of Land The right of ownership of land is restricted to Indonesian nationals only. Foreign natural and juridical persons may acquire land, building or property with a specific title, subject to the permission by the relevant authorities in accordance with Indonesia's laws and regulations, on the basis of following rights: (a) Leasehold (<i>hak guna usaha</i>), granted to a foreign company for a maximum period of 35 years and may be extended for a further period of 25 years. (b) Building rights (<i>hak guna bangunan</i>), granted to a foreign company for a maximum period of 30 years and may be extended for a further period of 20 years.

Sector or sub-sector	Description of reservations
	(c) Right of use (<i>hak pakai</i>), granted to a foreign national that is a foreign investor or a foreign company for a maximum period of 30 years and may be extended for a further period of 20 years. (d) Right of lease (<i>hak sewa</i>), granted to a foreign national or a foreign company for a definite period as may be agreed by the parties. Specific rules apply to the ownership of building and limited property rights in the specific geographic regions designated for local communities. Minimum Investment Requirement Foreign investment shall have a total investment value of more than IDR 10 billion (excluding land and buildings) and at least IDR 10 billion for the issued or paid-up capital, unless required otherwise in accordance with relevant laws and regulations. This requirement excludes sectors and sub-sectors where Indonesia has made commitments under GATS. Income Tax Non-resident taxpayers will be subject to withholding tax of 20 %, if they derive the following income from an Indonesian source, inter alia: (a) Interest; (b) Royalty; (c) Dividend; (d) Fee from service performed in Indonesia.

Sector or sub-sector	Description of reservations
	Most Favoured Nation Indonesia reserves the right to adopt or maintain any measure that accords more favourable treatment to investment or investor under any bilateral or multilateral international agreement in force or signed prior to the date of entry into force of this Agreement. Indonesia reserves the right to adopt or maintain any measure that accords more favourable treatment to any investment or investor under any international agreement signed after the date of entry into force of this Agreement, except with respect to treatments to the sectors or sub-sectors marked as "MFN" in the sector specific section. For sectors or sub-sectors are not marked as "MFN", if, after the date of entry into force of this Agreement, Indonesia subsequently enters into any agreement with a non-Party in which it accords treatment to investment or investor of that non-Party more favourable than it accords to like investment or investor of the Union, the Union may request consultations to discuss the possibility of extending such treatment. On request from the Union, Indonesia will provide consideration to negotiate for the incorporation of treatment no less favourable than that provided under the agreement in question. Such incorporation shall take into account the overall balance of benefits. Indonesia reserves the right to adopt or maintain any measure related to more favorable treatment accorded to investors of a non-party and their investment resulting from: (a) any existing or future preferential agreement or arrangement between or among ASEAN Member States;

Sector or sub-sector	Description of reservations
	(b) with respect of advantages accorded to adjacent countries to the extent covered by paragraph 3 of Article II of the GATS; and (c) any international agreement in force or signed after the date of entry into force of this Agreement, involving: (i) aviation; (ii) fisheries; or (iii) maritime matters, including salvage.
	Performance Requirement Obligation under Article 8.11 shall not apply to all existing measures, that are not in conformity with such obligation.

Sector or sub-sector	Description of reservations
	Subject to terms and condition set in specific sectors commitments, this reservation does not apply to measures that require investors of the Union to achieve a given level or percentage of domestic content with respect to sectors marked with *LCR, which shall be subject to review in accordance with Article 25.4 in the absence of utilization of this commitment by Union investors. Union investors shall comply with applicable environmental and social governance¹ requirement.
	National Treatment National Treatment shall not apply in the event where activities restricted to designated enterprises are liberalised to those other than the designated entities, or in the event where such designated enterprises no longer operate on a non-commercial basis. For illustrative purposes, designated entities may include the State Forestry Public Enterprise denoted as Perum PERHUTANI and the National Money Printing Public Enterprise denoted as Perum PERURI.

-
- ¹ Applicable environmental and social governance requirement may include, where relevant:
- i. adoption and effective implementation of an environmental management plan that is consistent with international best practices;
 - ii. demonstrable mitigation of environmental harm;
 - iii. respecting the rights of affected communities, including meaningful stakeholder engagement and fair compensation for land use or displacement;
 - iv. adherence to labor standards, including occupational health and safety protocols, and to relevant requirements in importing party; and
 - v. transparent reporting mechanisms including through third-party audits.

Sector or sub-sector	Description of reservations
	Employment of Indonesian Nationals Foreign investment established under Indonesia's Corporate Law must have positions related to personnel affairs to be occupied by Indonesian nationals.
	Amendment to Conditions of a Prior Approval Any conditions imposed in approval for licenses or permits that are in existence prior to the date of entry into force of this Agreement shall continue to apply and any changes to such conditions shall be subject to new approval.

SCHEDULE OF COMMITMENTS
ON TEMPORARY PRESENCE OF NATURAL PERSONS
FOR BUSINESS PURPOSES

INDONESIA

1. The list of commitments specified in this Annex indicates the sectors liberalised pursuant to Article 8.10 and Article 8.16 for which limitations apply regarding business visitors for establishment purposes, intra-corporate transferees, short-term business visitors, and installers and maintainers, contractual service suppliers, and independent professional in accordance with Articles 8.18, 8.19, 8.20 and 8.21. That list is composed of the following elements:

- (a) the first column indicates the sector or sub-sector in which the commitment is undertaken by Indonesia and the scope of liberalisation to which the limitations apply; and
- (b) the second column describes the applicable limitations.

2. Temporary presence of natural persons for business purposes in sectors or sub-sectors covered by this Agreement and not listed in the sectoral column below is not committed.

3. In identifying individual sectors and sub-sectors:
 - (a) "CPC" means the Provisional Central Product Classification (Statistical Papers, Series M, No. 77, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991;
 - (b) "ISIC" means Indonesian Standard of Industrial Classification (Klasifikasi Baku Lapangan Usaha Indonesia/KBLI) 2020; and
 - (c) "ISIC rev 4" means the International Standard Industrial Classification of all Economic Activities as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No. 4, ISIC REV 4, 2008.
4. In the absence of specific references, the scope of sub-sectors or economic activities covered by that entry will be subject to relevant and applicable references, including:
 - (a) in the case of financial services, reference would be made to GATS Annex on Financial Services; or
 - (b) in the case of air transport, the scope of activities would be in accordance with Article 8.6, unless qualified by reference to the ISIC.
5. Double asterisk (**) after a CPC number indicates that the scope of service specified constitutes only a part of the total range of activities covered by the CPC concordance.

6. Commitments on categories on movement of natural person do not apply in cases where the intent or effect of their temporary presence is to interfere with, or otherwise affect the outcome of, any labour or management dispute or negotiation, or the employment of any natural person who is involved in that dispute.

7. The list of commitments specified in this Annex does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures when they do not constitute a limitation within the meaning of Articles 8.18, 8.19, 8.20 or 8.21. Those measures, such as a need to obtain a license, a need to obtain recognition of qualifications in regulated sectors, a need to pass specific examinations, including language examinations or a need to have a legal domicile in the territory where the economic activity is performed, even if not listed, apply in any case to those categories.

8. In the sectors where economic needs tests are applied, their main criteria will be the assessment of the relevant market situation in the territory of Indonesia or the region where the service is to be provided, including with respect to the number of, and the impact on, existing service suppliers.

9. Restrictions, conditions and limitations in horizontal section apply to "all sectors" as specified in the sectoral column, unless otherwise specified in the general condition or sector specific section. They either reflect a measure which constitutes a limitation to temporary presence of natural persons, or bind a situation where there are no such limitations.

10. "Unbound except" must be read that the commitment only applies to the extent covered by categories or conditions specified after the word "except", and in this case limitations specified in the horizontal section apply.
11. A "none" in the sectoral section must be read as no restrictions or conditions in the specific sector. However, any relevant limitations set out in the horizontal section and general condition, if applicable, of the schedule will still apply.
12. A "none, except" in the sectoral section must be read as a combination of the horizontal restrictions and conditions set out in the horizontal section and of the sector-specific restrictions, unless explicitly provided otherwise in the entry.
13. The rights and obligations arising from this Agreement, including this the list of commitments specified in this Annex, shall have no self-executing effect and thus confer no rights directly on natural or juridical persons.

GUIDELINES FOR ARRANGEMENTS
ON THE MUTUAL RECOGNITION
OF PROFESSIONAL QUALIFICATIONS

SECTION A

General provisions

1. This Annex contains guidelines for arrangements on the conditions for the recognition of professional qualifications (hereinafter referred to as "arrangements" for the purposes of this Annex), as provided by Article 8.27.
2. Pursuant to Article 8.27, these guidelines shall be taken into account in the development of joint recommendations by professional bodies or authorities of the Parties (hereinafter referred to as "joint recommendations" for the purposes of this Annex).
3. The guidelines are non-binding, non-exhaustive and do not modify or affect the rights and obligations of the Parties under this Agreement. They set out the typical content of arrangements and provide general indications regarding the economic value of an arrangement and the compatibility of the Parties' respective professional qualifications regimes.

4. Not all elements of these guidelines may be relevant in all cases and professional bodies and authorities are free to include in their joint recommendations any other element that they consider pertinent for the arrangements of the profession and the professional activities concerned, in accordance with this Agreement.

5. The guidelines shall be taken into account by the Trade Committee when deciding whether to develop and adopt a mutual recognition arrangement pursuant to Article 8.27. They are without prejudice to the Trade Committee's review of the consistency of joint recommendations with Chapter 8 (Liberalisation of Investment and Trade in Services) and its discretion to take into account the elements it deems relevant, including those contained in joint recommendations.

SECTION B

Form and content of an arrangement

6. This Section sets out the typical content of an arrangement, some of which is not within the remit of the professional bodies or authorities preparing joint recommendations. These aspects constitute, nonetheless, useful information to be taken into account in the preparation of joint recommendations, so that they are better adapted to the possible scope of an arrangement.

7. Matters addressed specifically in this Agreement that apply to arrangements, such as the geographical scope of an arrangement, its interaction with scheduled non-conforming measures, the system of dispute resolution, appeal mechanisms, monitoring and review mechanisms of the arrangement, should not be addressed by joint recommendations.

8. An arrangement may specify different mechanisms for the recognition of professional qualifications within a Party. It may also be limited to setting the scope of the arrangement, the procedural provisions, the effects of recognition and additional requirements, and the administrative arrangements.

9. An arrangement which is adopted by the Trade Committee should reflect the degree of discretion that is intended to be preserved for the competent authorities deciding on the recognition of professional qualifications.

Scope of an arrangement

10. The arrangement should set out:

- (a) the specific regulated profession or professions and the definition thereof, relevant professional title or titles and the activity or group of activities covered by the scope of practice of the regulated profession in both Parties ("scope of practice"); and
- (b) whether it covers the recognition of professional qualifications for the purpose of access to professional activities on a fixed-term or an indefinite basis.

Conditions for recognition

11. The arrangement may specify in particular:
- (a) the professional qualifications necessary for recognition under the arrangement such as evidence of formal qualifications, professional experience, or other attestation of competence;
 - (b) the degree of discretion preserved by the authorities deciding on the recognition of professional qualifications when assessing requests for recognition of those qualifications; and
 - (c) the procedures to deal with variations and gaps between professional qualifications and means to bridge the differences, including the possibility to impose compensatory measures or other relevant conditions and limitations.

Procedural provisions

12. The arrangement may provide:
- (a) the documents required and the form in which they should be presented, such as by electronic or other means, whether they should be supported by translations or certifications of authenticity;
 - (b) the steps and procedures in the recognition process, including those relating to possible compensatory measures, and corresponding obligations and timelines; and

- (c) the availability of information relevant to all aspects of the recognition processes and requirements, such as a list of competent authorities and their contact details.

Effects of recognition and additional requirements

13. The arrangement may address the effects of recognition of professional qualifications of the Parties.

14. The arrangement may describe any additional requirements for the effective exercise of the regulated profession in the host Party. Such requirements may include:

- (a) registration requirements with local authorities;
- (b) proof of appropriate language skills;
- (c) proof of good character;
- (d) compliance with the requirements of the host Party for use of trade or firm names;
- (e) compliance with the rules of ethics, independence and professional conduct requirements of the host Party;
- (f) the need to obtain professional indemnity insurance;
- (g) rules on disciplinary action, financial responsibility and professional liability; and

- (h) requirements for continuous professional development.

Administration of the arrangement

15. The arrangement should set out the terms under which it may be reviewed or revoked, and the effects of any revision or revocation. Consideration may also be given to the inclusion of provisions concerning the effects of any recognition of professional qualifications previously accorded.

SECTION C

Economic value of an envisaged arrangement

16. Pursuant to Article 8.27, joint recommendations shall be supported by an evidence-based assessment of the economic value of an envisaged arrangement. This may consist of an evaluation of the economic benefits that an arrangement is expected to bring to the economies of the Parties. Such an assessment may assist the Trade Committee when developing and adopting an arrangement.

17. Aspects such as the existing level of market openness, industry needs, market trends and developments, client expectations and requirements, and business opportunities would constitute useful elements of the assessment referred to in paragraph 16.

18. The assessment referred to in paragraph 16 is not required to be a full and detailed economic analysis. It should provide an explanation of the interest of the profession concerned in, and the expected benefits for the Parties ensuing from, the adoption of an arrangement.

SECTION D

Compatibility of respective professional qualification regimes

19. Pursuant to Article 8.27, joint recommendations shall be supported by an evidence-based assessment of the compatibility of the respective professional qualification regimes. Such an assessment may assist the Trade Committee when developing and adopting an arrangement.

20. The following process aims at guiding professional bodies and authorities when assessing the compatibility of the respective professional qualifications and activities with a view to facilitating the recognition of professional qualifications.

Step One: Assessment of the scope of practice and the professional qualifications required to practise the regulated profession in each Party.

21. The assessment of the scope of practice and of the professional qualifications required to practise a regulated profession in each of the Parties should be based on all relevant information.

22. The following elements should be identified:

- (a) the activities or groups of activities covered by the scope of practice of the regulated profession in each Party; and
- (b) the professional qualifications required in each Party to practise the regulated profession, which may include any of the following elements:
 - (i) the minimum education required, such as entry requirements, level of education, length of study and contents of study;
 - (ii) the minimum professional experience required, for example, location, length and conditions of practical training or supervised professional practice prior to registration, licensing, or equivalent;
 - (iii) examinations passed, especially examinations of professional competency; and
 - (iv) acquisition of a licence, or equivalent, certifying, inter alia, the fulfilment of the necessary professional qualification requirements for the pursuit of the profession.

Step Two: Evaluation of the divergence between the scope of practice of, or the professional qualifications required to practise, the regulated profession in each Party.

23. The evaluation of the divergence in the scope of practice of, or in the professional qualifications required to practise, the regulated profession, in each Party, should in particular identify divergence that is substantial.

24. Substantial divergence in the scope of practice may exist if all of the following conditions are met:

- (a) one or more activities covered by a regulated profession in the host Party are not covered by the corresponding profession in the Party of origin;
- (b) such activities are subject to specific training in the host Party; and
- (c) the training for such activities in the host Party covers matters that diverge substantially from those covered by the applicant's qualification.

For greater certainty, the term "training" refers to acquiring specific knowledge and skills required to practice the profession as demonstrated by diplomas, certificates and other evidence issued by the host Party's professional bodies or authorities and certifying successful completion of that training, where relevant.

25. Substantial divergence in the professional qualifications required to practise a regulated profession may exist if there are divergences in the Parties' requirements with regard to the level, duration or content of the training that is required for the pursuit of activities covered by the regulated profession.

Step Three: Recognition mechanisms

26. There may be different mechanisms for the recognition of professional qualifications, depending on the circumstances, including the possibility of different mechanisms within a Party.

27. If there is no substantial divergence in the scope of practice and in the professional qualifications required to practise a regulated profession, an arrangement may provide for a simpler and more streamlined recognition process than where substantial divergence exists.

28. If there is substantial divergence, the arrangement may provide for compensatory measures which are sufficient to remedy such divergence.

29. If compensatory measures are put in place to reduce substantial divergence, they should be proportionate to the divergence that they seek to address. Any practical professional experience or formally validated training may be taken into account to assess the extent of the compensatory measures needed. Such compensatory measures should take the least burdensome form for the applicant.

30. Irrespective of whether the divergence is substantial, the arrangement may take account of the degree of discretion that is intended to be preserved for competent authorities deciding on recognition requests.

31. Compensatory measures may take different forms, including:

- (a) a period of supervised practice of a regulated profession in the host Party, possibly accompanied by further training, under the responsibility of a qualified person and subject to a regulated assessment;
- (b) a test made or recognised by the relevant authorities of the host Party to assess the applicant's ability to practice a regulated profession in that Party;

- (c) a temporary limitation of the scope of practice of a regulated profession or of individual applicants; or
- (d) a combination of points (a) to (c).

32. The arrangement may envisage that a choice be given to applicants between different compensatory measures, if this may limit the administrative burden for applicants and if those measures are equivalent.
